NUMBER 81

Union Lawn Full Of KS Folkways

Paths leading to the Student Union on the north and south sides of the building may necessitate putting in more sidewalks, or posting "keep off the grass" signs, according to R. F. Gingrich, superintendent of the physical plant.

"It's a tradition on the beautiful campus at Washington State university, for upper class students to call down underclassmen when they walk on the grass," Gingrich said. "This would certainly be one answer to the existing problem on this campus."

All the blame is not placed on the students. "I've seen the basketball crowds cut across the lawn," declared Gingrich. "Signs aren't too successful, and fences don't help much more. Perhaps the best way to prevent this walking on the grass would be to adopt the tradition set by students at Washington as I mentioned before."

Freshmen's Honorary To Be Installed Soon

Phi Eta Sigma, freshman men's honorary will be formally installed on the K-State campus February 20. The organization's national secretary, James E. Foy from Alabama Polytechnic Institute, and an initiation team from Doane college, Crete, Neb., are in charge of the installation and initiation.

The petition for establishing a chapter here was presented at the national convention of Phi Eta Sigma in November, and was unanimously accepted. Much of the credit for bringing the fraternity to K-State belongs to Dr. John C. Weaver, dean of arts and sciences.

There will be 22 active and 5 honorary members initiated at the time the charter is presented. To be eligible, the student must have maintained a 2.5 or better average during his full freshman year.

Phi Eta Sigma actives will be Bryan Barr, AH Soph; Robert J. Boeding, EE Soph; Armin Brandhorst, ME Soph; Clayton Buck, PrV Soph; Donald Butel, CE Soph; Russell Case, EE Soph; Larry Foulke, NE Soph; Ronald Garlow, EE Soph; Loren Isaccson, AEd Soph; Jack Kersting, AEd Jr; James Lindsay, BAA Soph; James Mailen, ChE Soph; Kenneth McCoy, ME Soph; Robert McDonald, ME Soph; Leland Reitz, BPM Soph; George Serpan, EE Soph; Raymond Stratton, AgE Soph; Lee Teaford, BAA Soph; William

Tobey, ME Soph; Gene Westhusing, EE Soph; Alex Jones, EE Soph; Jack Lindeman. AA Soph.

Honorary members are Prof. Alvin Cardwell, Physics department; Prof. Louis H. Douglas, Department of History, Government and Philosophy; Dean Albert L. Pugsley, Academic Administration; Prof. Brewster Rogerson, English department; and Herbert J. Wunderlich, Dean of Students.

According to Prof. Brewster Rogerson of the English department, who has done much of the ground work for the local chapter, "The purpose of the honorary is to recognize and honor scholastic achievement in the freshman class."

Professor Rogerson also said that in future years pledges will be chosen during their freshman year. The organization will offer a free pamphlet to all incoming male freshmen entitled "Hints on How To Study." There is a possibility that an informal tutoring service may be set up at a later date.

·····

Stage Managers Needed

Applications are now being taken for positions on the Stage Management sub-committee. Interested students should apply now in the Union Activities center.

MODERN JAZZ DANCERS, Sally Wengert and Marcia Elliott from Nebraska: university will be tripping the light fantastic when the "Big Three" talent show appears in the Student Union little theater, Saturday at 7:30 p.m. These gals will join talent acts from K-State and KU in the initial presentation of the "Big Three" show.

Eat a Big Breakfast, Even if It's Only Coffee

Photo by Darryl Heikes

"DON'T GET in a jam at the bro fast table," says Dee French, EEd Soph, as she takes a bid of french toast, which she says is "magnifique." Although all Dee has for breakfast is toast and coffee, she thrives on it—as shown by the above photo. Breakfast, the forgotten, the most oft-neglected meal of the day, is remembered this month as the nation salutes February as National Better Breakfast month.

Big or little—everyone needs a hearty breakfast to start the day. This meal follows the longest period of time when you go without food, and should supply from one-fourth to one-third of your daily food requirements, nutrionists at Kansas State say.

President James A. McCain heartily endorses a hearty breakfast. He says, "I'm four square in favor of large breakfasts. I think they sustain your energy throughout the morning. I usually eat some kind of fruit, cereal, eggs, bacon, toast and two cups of coffee."

"I rarely ever get up in time for breakfast," said Eddie Wallace, Mth Sr, from Minneapolis. "In the stadium they quit serving at 7:30 a.m., and when you don't have an early class, that's a very unattractive hour."

Eddie isn't alone in his breakfast habits. A recent survey showed that 3 out of 10 students at Kansas State didn't make it up in time for the first meal of the day. But everyone had the old standby—coffee.

"Eat a better breakfast, feel better all day," said Winkie Killion, Art Soph from Junction City, as she cited the familiar slogan of a well-known cereal.

"I practice what they preach to me in biology."

Breakfast is the meal most likely to set the pace for a teen-ager's nutritional welfare, according to a recent study at the Montana Experiment station. "The poor showing of girls' breakfast habits worth special concern," says Dr. Lura M. Odland, director of the experiment. "Today many girls marry in their late teens, so they need to be nutritionally fit and know how to provide adequate meals for their families."

Of course, teenage girls aren't the only ones who need adequate breakfasts. Even the chief executive of the state of Kansas unreservedly endorses the big breakfast.

Governor George Docking told the Collegian, "1 eat a pretty good sized breakfast. Of course, I

can't tell other people what to eat, but I think it does help to keep stamina up." Docking prefers tomato juice or some kind of fruit, cereal, bacon, toast, and the traditional two cups of coffee.

For a wake-up meal that will put you in the pink, try breakfast! A simple pattern for an adequate breakfast is a fruit, a grain food, and milk, eggs, or other animal protein.

Now we come to the moral of the story. If you do nothing else, at least eat a slice of toast and drink a cup of coffee. This will keep you going until 10 a.m. Then you can live the rest of the morning on cigarettes.

KU-K-State Game May Be Televised

Televising the March 6 KU-K-State basketball game in Ahearn field house became a possibility yesterday when a special committee was appointed "to work on the details and explore the possibilities," according to Athletic Director Bebe Lee.

He did not say the Athletic Council had approved televising the game, which has been a sell-out for more than three months. But by its action yesterday the Athletic Council clearly showed it is not eliminating the possibility of opening the game to the cameras of at least one television station.

Lee did not say whether appropal by Kansas university ficials would be considered necessary by the Athletic Council. A pending amendment to the present radio-TV broadcast rules of the Big Seven would require approval by the visiting school, but at present such approval is a matter of courtesy between conference schools, not a binding condition set out in the rules.

No date has been set for the study committee appointed yesterday to report back to the full Athletic Council. Members of the committee are Max Milbourn, Paul DeWeese, and Lee.

Television Brings Classroom to Home

Educational television has all the appearances of being to the lecturer or demonstrator what the printing press has been to the writer. Supposedly it broadens the scope of community improvement, increases the dissemination of information and multiplies the value of adult educational activities.

There can be little doubt that properly used it can aid the function of any institution of higher learning through its ability to transmit knowledge.

A current list of subjects being taught in various locations by TV ranges all the way from chemistry, English, speech, economics and psychology to typing, engineering, dentistry and surgery.

It should be understood that not all of these courses are available to home receivers. Educational TV has developed into two primary categories. The direct broadcast method, used by commercial stations, and the "closed circuit" system in which the audio and video impulses are carried directly to one or several receivers by cable. This method has been used on a large scale by many large business organizations and in the area of political conventions and meetings.

The current campaign being waged by the Citizens Committee for Educational Television in Kansas is aimed at providing facilities for direct broadcast to home receivers.

There exists a second series of television plans which will provide, when completed, a closed circuit system on the Kansas State campus. This type of educational TV will be used primarily with classes which have multiple lecture sections such as written and oral communications, biology, military science and others.

Controlled experiments in this type of teaching at the University of Toronto, Pennsylvania State university, and New York university have shown that television can be a more than adequate

At Toronto, students who watched a TV lecture series scored higher on the final examination than those who simply read the lecture material.

Television has shown itself, in some cases, to have weaknesses. It is sometimes much less effective with 18 year-old students than it is with 10 year-olds. Researchers at NYU found that in one group of 500 freshmen studying English composition, the TV lecturer was often addressing a sea of newspapers and sleeping bodies. Their method for overcoming these "non-enthusiasts" was merely to recommend the practice of retaining a faculty monitor in "lower" level courses.

An important fact which should never be overlooked in any discussion of educational television is that it can quickly separate the "scholars" from the "teachers." The "teachers" are probably the most important product of undiminishing value which any college or university has to offer.

TV can allow any school to make better use of these men and women whose knowledge and personalities are so constituted that they produce a desire to learn in those who hear and see them.

Good examples of this are Drs. Frank Baxter, an outstanding professor and Shakesperian authority, and Mortimer J. Adler, a noted philosopher, both of whom appear on educational television shows in the San Francisco area. They regularly pull higher viewer ratings than commercial "stars" appearing at the same time on other channels.

Dr. Milton S. Eisenhower, former president of Kansas State college and present president of Johns Hopkins university, recently summed up the educational TV problem in this manner, "It may well be the greatest single aid to both resident instruction and adult education devised in this century."-Charlie Schreiber

Industries Files To Incorporate

By ED KOCHER

If the incorporation of the Campus industries is approved by the state, just what connection will the young corporation have with Kansas State college?

The Student Council appointed the committee for campus industries, and the same committee will serve as the board of directors for Campus Industries, Incorpo-

The Council will continue to name the board of directors. The corporation will endeavor to create more student jobs and increase student wages.

Campus Industries, Incorporated, will have no connection with the College other than its laison with the Student Council.

By incorporating Campus Industries the Council intends to insure a more permanent and substantial non-profit organization. authority to direct studies and

The board of directors will have surveys of various proposed student industries, and make such deposition of the results that will best promote the purposes of the corporation. They will settle any questions which might arise concerning the proprietorship of any proposed industry.

Funds to finance the corporation will be obtained by gifts and subscriptions. These funds will be used to make preliminary studies to determine the practibility of any proposed industry which the board considers.

Industrial surveys conducted by Campus Industries, Incorporated, will be paid for by each industry desiring to settle in Manhattan.

Even though the corporation has no connection with K-State its weaving industry will be located in the basement of Anderson hall until the pilot operation is completed. After that, if the weaving industry proves successful, it will move to a downtown site.

Steve McCarl, ME Fr, has been named business manager, and Doyle Moore, BA Jr, production manager, announced Jerry Holliday, ArE Sr, committee chairman.

The weaving loom, on loan for the weaving pilot study, was furnished by Mrs. Noble, former commercial weaver. The managers are waiting for funds before buying yarn and starting production of salesmen samples. Place mats will be produced first, but orders will also be taken on other hand woven products such as draperies and upholstry.

In a survey during Christmas vacation on the weaving industry. it was found that interior decorators and department stores would like to handle hand woven products because of their scarcity in

Quotes from the News

Washington-President Eisenhower warning that the government will have to move in with "controls of some kind" if business and labor refuse to hold the wage-price line against inflation:

"I believe any intelligent man can see the direction we will have to go, unless there is some wisdom exercised not only in government but throughout the whole coun-

Chicago-The mother of Patricia and Barbara Grimes, whose nude bodies were found in a roadside ditch, begging Chicago to "never give up" the search for her daughters' murderer

"You must help solve this, not only for me but also to make it safe for all the children in the

Washington-Marion B. Folsom, secretary of health, education and welfare, asking that Congress make up its mind and either approve or drop a school construction bill this year:

"If we keep holding out hope, we'll be holding back construction. If we are not going to have federal legislation, we ought to know it

THIS IS what students and delegates to Farm and Home Week had to wade through in order to get to the sidewalk yesterday afternoon.

Develop & Extend Your Capabilities

-At APL Where a Unique Combination of Industrial and Academic Approaches is Applied to R & D Problems

The Applied Physics Laboratory (APL) of The Johns Hopkins University, one of the country's leading R & D organizations, affords young men of above-average skill and originality unusual opportunities for rapid progress toward (1) professional specialization, or (2) technical administration or operations.

APL is unique in that it is neither an industrial nor an academic organization. Instead it is a composite of both, having drawn freely from the methodologies of each. Because of this, APL has managed to keep in the vanguard, having pioneered the proximity fuze, the first supersonic ramjet engine, and the missiles TERRIER. TALOS and TARTAR. APL has sole responsibility for the Navy's Bumblebee guided missile program, directs the work of 21

associate and sub-contractors, among them leading universities and industrial organizations.

Location & Facilities

As a result its staff members enjoy an interchange of ideas with members of these various organizations; have access to their facilities, in addition to the wealth of equipment available at APL's 350,000 sq. ft. laboratories midway between Washington, D. C. and Baltimore, and in Silver Spring, Md. In this environment men of originality and talent flourish. Salaries compare favorably with those of other R & D organizations; staff benefits are manifold, including a strong program of financial assistance for graduate work. For full information contact your Placement Officer or write: Professional Staff Appointments

ma and Alpha Kappa Lambda will have an exchange dinner today at the two chapter houses.

Members of Tau Kappa Epsilon and Alpha Chi Omega will have Sheila Cromwell. BA Jr. treasurer: an exchange dinner today.

Brothers and cousins of Clovia members and alumnae will be guests at a dinner February 10 at HEB Soph, registrar; Alice Austin, the chapter house.

Members of Kappa Kappa Gamma will be guests of Sigma Phi Epsilon members Tuesday for a buifet dinner.

Theta Xi members will serve dinner to their dates Friday at the chapter house. The remainder of the evening will be spent at the house.

Parties

Delta Tau Delta pledges hosted a house party Saturday after the basketball game. Their IPC candidate, Norman Stockman, BAA Fr, was introduced to approximately 30 couples who attended.

Gamma Phi Beta pledges attended an informal party and song practice last Saturday at the home of Mrs. G. W. Salisbury, a Gamma Phi Beta alumna.

Hour Dances

Members of Gamma Phi Beta and Beta Sigma Psi had an hour dance last Tuesday.

Members of Delta Sigma Phi and Kappa Delta had an hour dance Tuesday night at the Delta Sig house.

Approximately 35 guests attended a tea last Tuesday at the Clovia house in honor of the Farm and Home Week conference. Mrs. J. Harold Johnson, Mrs. Roger Regnier, Miss Gertrude Allen, and Miss Mary Elisie Border poured. Several Clovia alumnae were present.

Engagements

Julian-Collingwood

Chocolates at Northwest hall and cigars at the Delta Tau Delta house announced the engagement of Greta Julian, MEd Fr, and John Collingwood, a former K-State student now attending Baker university. Both are from Johnson.

Booth-Thomas

Emily Booth, Psy Sr, and Tom Thomas from Tarpon Springs, Fla., recently announced their engagement. Tom is a graduate of the University of Michigan.

Officers

Officers recently elected at the Alpha Delta Pi house are Jeanie

Members of Kappa Kappa Gam- | Williamson, MEI Jr, 'president; Barbara Ericson, BA Jr, vicepresident; Carole Holmquist, EEd Jr. recording secretary: Ann Hall, DIM Jr, corresponding secretary;

Forte Passes Wilt For Scoring Lead

By United Press

little man's day has dawned at last in college basket-

Five-foot, 9-inch Chet (the Jet) Forte of Columbia has taken the national scoring leadership away from 7-0 Wilt (the Stilt) Chamberlain of Kansas on the strength of a 36-point performance last night against Yale.

Forte's brilliant showing wasn't enough to save his team from an upset, for Yale notched a 103-87 decision to take undisputed possession of second place in the Ivy league.

But it did give the little Lion an average of 30.2 points a game, passing the 29.8 mark held by Chamberlain-who has been No. 1 in the national scoring parade almost since the start of the

Forte's feat took the national spotlight despite two other major upsets, both featuring that ol' devil zone defense.

Louisville, the nation's No. | ton whipped Rutgers, 69-53.

6 team and highest-ranked independent squad, was handed its second straight upset, 85-74, by Morehead State of Kentucky, and Canisius, ranked No. 11 nationally, fell short in a late rally and bowed to Marquette in a thriller at Milwaukee, 81-80. •

Morehead used a 2-3 zone against Louisville and forced the high-ranked Cardinals to commit a bushel of fouls. It also held 6-8 Charley Tyra, Louisville's all-American candidate, to nine points during the first half while Morehead was rolling up a 47-37

In other leading games last night: Carmen Riazzi's tip-in with 14 seconds left gave Dayton a double-overtime, 68-67 win over Miami of Ohio; Bowling Green pushed its record to 12-5 with an 83-75 victory over Loyola (Chicago); Temple downed Villanova, 81-72; Prince-

Mertes Needs More Gridders

With spring football drills starting March 11, head Coach Bus Mertes told of a need for new team candidates, yesterday.

Mertes urged men who are interested, to come out for the squad. "We finished the season with 43 men last year, probably the smallest squad in the confer-

"There won't be much use for a man to come out for spring drills unless he can report in excellent condition," Mertes warned. With only 20 practice days allowed each day has to count and the coaching staff will not have time for a conditioning program.

Mertes wants men who plan to report for drills to talk to coaches now about a conditioning pro-

Spring drills will start later this year than last in hopes of better weather.

Haller's 4-1-1 Tops Wrestlers Of Colorado Clubs

By JIM CAIN

Junior Gary Haller, one of K-State's top wrestling hands, is a veteran of nine years of wrestling experience. Gary began grappling in junior high at Colby where his school principal interested him in the sport.

The principal was a former Wildcat wrestler, Kenny Norton. Norton wrestled here in the early 1940's, according to wrestling Coach Fritz Knorr.

"He came out and showed us some of the techniques and more or less helped us along," said Gary. "I guess you could say he had a lot to do with my becoming interested in wrestl-

As a junior in high school Gary won the state championship in the 154-pound weight class. In 1954 as a senior, he grew into the 175-pound weight class. He took second in the state that year.

Here at K-State Haller has posted a fine record. Last year he wrestled in the 177-pound class where he compiled a record of eight wins and four losses. winning his first five matches before losing to Oklahoma's Dan Hodge, a second place finisher in the '56 Olympics. He placed third' in the Big Seven tournament, and won his first match in the NCAA tourney at Stillwater, Okla.

As for this year, Gary, is leading team scoring with 18 points and has compiled a season record of four wins, one loss, and one tie.

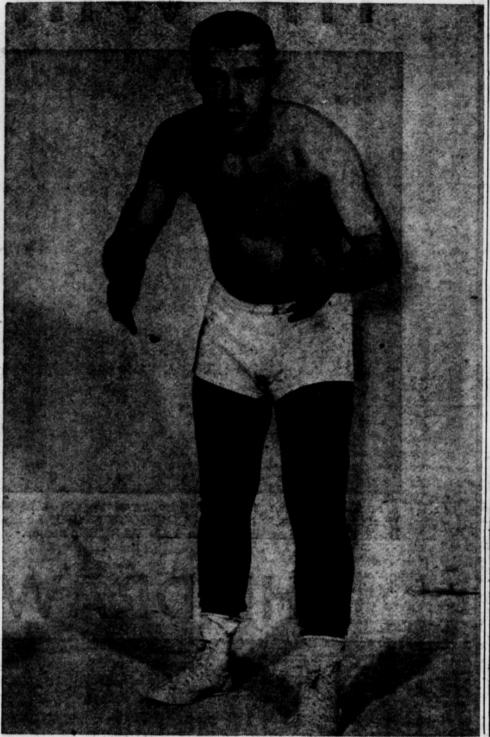

"I hope to win in the Big Seven tournament this year," said the 20-year-old mat mat. "But I'm going to need more condition-

This year I stand a better chance because I'm wrestling in the 167-pound class instead of the heavier one."

As to the future, Coach Knorr believes that Gary will improve tremendously. needs more polish on his techniques and more conditioning.

"He is an all-round performer with good endurance and a lot of potential," Knorr said. Gary also feels that he will improve.

"I don't know if I will grow anymore, but I think that I will get better, if I keep in good condition and keep my weight down," Haller said.

GARY HALLER has posted a 4-1-1 record in six wrestling matches for the Cats this season. Haller, a junior, competes in the 167pound class. He has recorded 18 points to pace K-State, and two of the Cats' three falls this season. Haller hails from Colby.

Matmen Face Trio

With a 3-3 record in dual meets, their records: Calvin Schwalbe, a trio of Colorado opponents within the next four days.

Colorado State at Greeley, Friday; Colorado at Boulder, Saturday; and Colorado Mines at Golden, Monday.

The Cat matmen are led by Gary Haller, 167-pound junior from Colby, who has accumulated 18 points with a 4-1-1 record. Two of Haller's wins have come on

Figuring as K-State's top sophomore wrestler is John Doyle, 157pounder from Douglass, who is close behind Haller with 16 points and an identical record of 4-1-1. Doyle has one pin to his credit.

The only other fall gained by K-State belongs to Jim Miller, 123pound sophomore from Wichita. He has a 3-1-2 record and 15

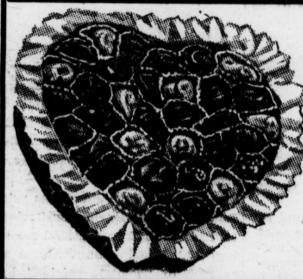

Other Cat grapplers who figure to make the Colorado trip and it in these three meets."

K-State's wrestling team will face 130-pound sophomore from Waconia, Minn., (1-4-1); Pete Everist, 137-pound junior from Ober-The Wildcat grapplers meet lin, (1-4-1); Jim Roberts, 147pound sophomore from Tulsa, Okla., (3-2-1); Ray Glaze, 177pound junior from Baltimore, Md., (0-0-1); and Ellis Rainsberger, junior heavyweight from East St. Louis, Ill., (2-2-2).

Coach Fritz Knorr admitted that the Wildcats should at least hold their own against the trio of Colorado teams and forecast Colorado as the strongest of the three.

"Colorado is strong where we aren't," he explained. "That meet may be determined by one fall. since it is easily possible that we will split the matches.

"I know we'll face a pair of 'tough ones' in Colorado State and Colorado Mines. I feel we are getting better match-by-match, however, and I hope we can prove

ENGINEERS

You know it . . . we know it . . . so let's be frank

The demand for engineers experienced or graduate -far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence/around it), and for a young man just getting started these things are pretty hard to resist.

So, again, let's be frank. We at Farnsworth won't promise you the moon. (Although we are working on some ideas that may eventually get you there and back.)'We are an old, young organization. Old, in the sense of being pioneers in the field of electronics./(Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.

Riot in Utah Pen **Ends with Requests**

Compiled From the United Press, the Hungarian government also By KEITH KEMPER

Point of the Mountain, Utah,-Rioting Utah state prison in- ative Roman Catholic Josef Carchanges to Gov. George D. Clyde pest. before they ended their nightlong disturbance this morning.

Rated as their major requests

1. Establishment of a new state board of corrections, composed of penologists and psychologists instead of present businessmen.

2. Trials before being sent "on grade"-to solitary confinement.

3. Establishment of an inmate advisory council.

4. Creation of a merit system allowing time off for good be-

5. Appointment of the governor as a member of the pardons board.

6. Segregation of inmates by age brackets so young felons would not associate with older, hardened convicts.

Raid Budapest

Vienna, - Hungarian government troops raided a factory in suburban Budapest and siezed "great quantities" of hidden weapons, Budapest press reports reaching here said today.

The raid was the second of the week in the communist government's hunt for "counter revolutionaries" and weap-

Informed sources here reported unconditional withdrawal.

may be laying the groundwork for an attempt to seize uncoopermates presented more than 40 dinal Mindszenty from his sanctu-"requests" for penitentiary ary in the U. S. legation in Buda-

The sources said this might be behind the charges made against Mindszenty by the official Hungarian newspaper Nep Szabadsag yesterday.

The Budapest newspaper "Esti Hirlap" said the factory raid in Ujpet, a northern industrial suburb of Budapest, unearthed "great quantities of weapons and other military equipment valued at \$2,727."

Budapest radio had announced the arrest of seven students and three university teachers in a raid earlier this week. They are charged with hiding "great quantities of weapons and conspiring against the regime."

Risks Embargo

United Nations, N.Y.,-Israel indicated today it would risk economic sanctions by the United Nations before withdrawing from the Gaza and Aqaba Strips without non-aggression assurances from Egypt.

A dispatch from Jerusalem said Israeli Premier David Ben-Gurion told his cabinet in a closed meeting that Israel cannot accept a request to "commit suicide" by

Second Wave of Illness Affects Van Zile Coeds

A second wave of the mysterious intestinal disorders has struck coeds living in Van Zile hall. Seventeen were taken ill this time.

Although seven of these girls are in Student Health,
Dean of Students Herbert Wunderlich reported he feels
the matter is under control. The health services are watching the cases closely.

This epidemic is not of the proportions of the first one which struck about 60 girls in mid-December of 1956. However, the symptoms appear identical to the previous wave.

Those ill suffer stomach cramps and run a slight fever. The more serious cases, in Student Health, are unable to keep food down and sometimes must be fed through veins, according to Dr. H. B. Lafene, director of Student Health.

Dr. Lafene explained that within 24 hours the girls begin to feel better and within three days the illnesses have usually cleared up.

A team of experts from the state health service was on the campus Thursday attempting to determine the cause of illness. Extensive tests will be run. The results will not be known for the next three or four days.

Tests made to determine the cause of the previous cases in December failed to reveal the cause to be food poisoning which had been widely suspected.

Dr. Lafene said, "The causes of such cases usually boil down to be something in the food or water, but I wouldn't want to say positively until proof of the cause can be made."

Dean Wunderlich said the cause might be something in the air because three junior-high students are afflicted with these symptoms.

Confirming that this illness is widespread, Dr. Lafene stated it is common in communities everywhere and that numerous cases were reported by Manhattan doctors in November and December.

"If the experts who run the tests cannot attribute the illness to any cause, the conclusion will be drawn that it is due to an explosive virus which could cause such affects," Dr. Lafene commented.

Nurses were on duty at Van Zile hall, but have now been dismissed.

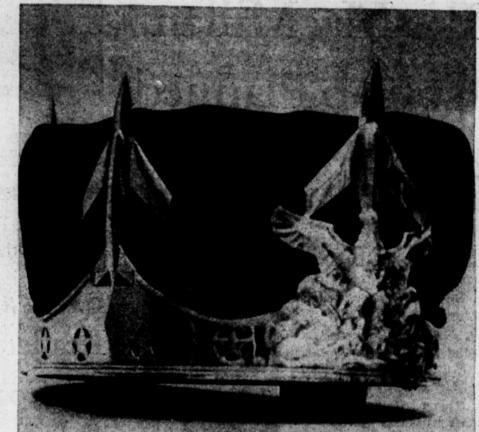

A \$100 sterling-silver crown, lined with royal purple velvet, will be placed on the head of the AFROTC queen by Gov. George Docking at the Air Force ROTC ball tonight in the Student Union ballroom.

Prof. Kurt Matzdorf of the K-State Art department designed the crown especially for the occasion. Professor Matzdorf and Mrs. Greta Anderson, one of his former silversmithing students, made the crown in approximately 60 hours working time.

The Air Force emblem, an eagle with spread wings perched on clouds with lightning bolts, is embossed on the front of the crown, and the five prongs are in the shape of jet planes pointing skywards. The 13 stars of the Air Force emblem are displayed in cut work along the band of the crown.

The crown will be a trophy on display at the house the queen represents until the next year's queen is chosen.

Johnny Long and his orchestra will play for the ball. It is an allcollege function sponsored by the Arnold Air society, honorary Air Force organization, and the K-State Air Force ROTC associa-

tion. Dress for the affair will be formal.

The seven queen candidates, all members of Angel Flight, were selected by the Arnold Air society, and the queen was chosen by voting of the cadet corps Tuesday and Wednesday of this week.

Queen candidates are Connie Benjamin, HEN Soph; Joyce Brower, BA Soph; Rosemary Derks, Eng Jr; Jannene Foust, Sp Soph; Helen Lutz, Eng Soph; Charlene Strah, BA Soph; and Charlotte Strah, HEA Fr.

Governor Docking and other special guests will be honored befor the dance with a reception at the Manhattan Country club and a dinner in the Union.

Cheating Is Found On English Exam

Cheating on last semester's freshman, nine-week English examination has been discovered, Herbert Wunderlich, dean of students, reported yesterday.

In a paper entitled, "Conclusions of Dean of Students Concerning Cheating in English Examination," Dean Wunderlich stated "copies of nine-weeks freshman English examinations were available to students living in Acacia and Pi Kappa Alpha fraternities before the examination was given."

Jack Harmon, BA Jr, president of Interfraternity Council, stated yesterday that the fraternity participation in this affair will be reviewed by Interfraternity Council's Judicial board at a meeting Tuesnight, February 12.

Dean Wunderlich said that students living in these fraternities have admitted seeing the test among other sets of similar examinations from previous

He explained, however, that

the test was not recognized as this year's test by the students who studied it until the test was presented to them during the examination period.

Copies of the formal test were made in handwriting on notepaper, but who secured the test, how it was made available in fraternity files, and what became of the copies has not been determined.

Dean Wunderlich's report said that the cheating was not part of an organized plan to prepare all members, as a group, for the examination. Not all members of a group had seen the test, no group study of the test occurred, and house presidents and pledge trainers were ignorant of the document.

According to the dean's report, copies of the test could have been secured easily before the formal examination. Printing rejects may have been available in wastebaskets at the press, copies could have been made by students who had access during the process of printing, or students taking the test earlier in the day could have communicated to students taking the test later.

The test has been declared in-

Oops! Talent Show in KS Auditorium, Not SU

The "Big Three" talent show will appear in the College auditorium, Saturday at 7:30 p.m., instead of the Student Union little theater.

State Accepts KS Industries As Corporation

The Student Council-appointed campus industrial investigation committee is now officially Campus Industries, Incorporated.

In a meeting last night the board of directors announced that acceptance papers had been received from the state.

Board members are Jerry Holliday, ArE Sr., Topeka, chairman; Dwight W. Nesmith, assistant professor, Engineering experiment station, faculty adviser; Dixie Brown, HDA Jr; Bruce Burkholder, ArE Sr; Warren Keegan, Ec Sr, and Marilyn Smith, Soph Sr.

The Industry will have its headquarters at 410 Ehler road, which is Nesmith's home.

The directors discussed possible new industries.

4-H TALENT SHOW last night at Umberger Hall featured much local talent, including a reading by Mary Alice Jordan, HE Fr, in front of a make-believe television camera.

Arrangements, Decor Made for IPC Dance

Jimmy James and his band will play for the annual Interfraternity Pledge council dance Saturday in the main ballroom of the Student Union.

John Pacilio, Ar 01, chairman of the decoration committee said, "The main concentration of decorations will be located at the west end of the ballroom. It will consist of a throne above floor level which will be topped with a large crown. Extending

from the top of the crown to the floor will be drapes."

The purple drapes and the letters "IPC" on the crown will be purple to accent the theme of "Deep Purple."

Acording to Rosie Austin, BMT Fr, chairman of the king and queen committee, at around 10:30 Dave Templeton, AE Fr, president of IPC, will introduce the king and queen.

Overbeard in the Union

A FEMALE DELEGATE to Farm and Home Week yesterday: "These students are getting in our way!"-Jane Moore

World News

Ike-MacMillan Confab Planned

Compiled from the United Press By KEITH KEMPER

London-President Eisenhower and British Prime Minister Harold MacMillan have tentatively decided to meet in Bermuda March 21, diplomatic sources reported today.

The sources said London and Washington were still working out the details and an announcement probably will be made later this month.

Government spokesmen declined to confirm or deny the reports.

The diplomatic sources said French Premier Guy Mollet would go to Washington for a conference with Eisenhower sometime before the President. and MacMillan meet.

There was no indication the three chiefs of staff would meet together.

Chief objectives of the talks would be restoration of the Western Alliance and re-alignment of policy toward the Soviet Union and Communism.

Utah Warden Inspects Riot

Point of the Mountain, Utah-Warden Marcell Graham launched an investigation today into the worst riot in history of Utah State prison.

Graham returned to Utah last night from Washington. He had been enroute to New York to attend a prison officials conference.

Penal officials and convict committees studied a list of 43 prisoner grievances amid an uneasy peace at the "model" institution. The grievances touched off the riot Wednesday.

Some 500 convicts ended the 11-hour riot yesterday after releasing the last of 28 hostages and surrendering a small weapons arsenal.

Tension mounted again shortly after Gov. George D. Clyde negotiated the truce by promising to listen to the prisoners' complaints if they would release the hostages. Order was restored when heavily armed guards and highway patrolmen moved into the cell blocks of the prison in a display of strength.

Students Riot in Kansas City

Kansas City, Mo.-Eight firemen and policemen were injured yesterday in quelling a mass battle of at least 1,000 high school students.

The combatants used sticks, rocks and car chains in the melee. Policemen struggled with the teenagers for about 45 minutes before firemen quelled the disturbance with a stream of water.

It started as a "gang fight between teenaged boys from three schools," police said, and erupted into a "free for all."

Nearly 15 police cars were dispatched to the scene, a street intersection near Westport high school in the central section of the city. Traffic was snarled for several blocks around the school.

Police had previous reports that a "gang fight" was scheduled for the close of school yesterday and several patrol cars were in the vicinity at the start of hostilities.

· None of the injured policemen and firemen required hospitalization. They were treated for cuts and bruises and returned to duty.

Some of the battlers ripped the ignition wire from one patrol car and tore off its radio aerial.

Boy Scouts 47 Today

New Brunswick, N.J.—The Boy Scouts of America celebrates its 47th birthday today with an all-time high membership peak of 4,526,302.

Dr. Arthur A. Schuck, chief scout executive, said yesterday that as of December 31, 1956, membership rolls showed 3,312,841 enrolled in the Boy Scouts, a gain of 8.4 percent over 1955. Boys 11 through 13 are eligible for membership.

Another 1,694,856 boys in the age group eight through 10 were enrolled in 1956 in the cub scouts, a gain of 14.9 percent over 1955.

Explorer scouts, for boys 14 and older, totaled 465,011 or a gain of 5.7 percent in 1956 over the

Schuck said the latest figures showed 1,213,461 adult leaders enrolled in scouting and a total of 111,674 active units.

Over 26 million boys and leaders have been connected with scouting since 1910, Schuck said.

Inquiring Reporter -

Jayhawk-Cat Telecast Gains Student Support

By Sharon Totten

Possibility of a Kansas university-Kansas State college basketball game telecast in March was met with approval by Kansas State students in a recent poll answering the question, "Would you be in favor of having the KU-Kansas State basketball game televised?"

All of the 12 students questioned gave affirmative answers, but their reasons varied. The reason given most often was that the telecast would allow many people unable to attend the game to see it.

Some of the students felt that the traditional rivalry and the conference standings of the two teams would create a great deal of interest to the viewing public.

Good will and good publicity were other factors which the students felt were important.

SALLY SHELLHAAS, Chm Fr-"Yes, I think the game should be televised. There won't be enough tickets available and those who cannot get tickets could still have an opportunity to see it."

KENNETH OSTMEYER, BA Soph-"I think it would be a good idea because it will create good will between schools and in the surrounding area."

PAT CORBIN, BMT Soph-"Other schools televise games, and I think we should too."

JUDY STOVER, HT Soph-"I think there are many people who live so far away that they can't come to the game but are interested in it. It would also create good will between KU and K-State, especially in the case of many KU students who can't get tickets."

HERMAS KRAUSHAAR, BA Sr-"Yes, it would be good publicity for the college. A lot of people who follow the team won't be able to go to the game but would like to see it."

EMMA LOU DOUGLASS, PEW Soph-"Yes, I think it would be a good idea because it would create interest in both schools."

CHARLES CAMPBELL, BPM Jr-"I think it should be televised, because many students won't be able to get in the doors. They won't get another chance to see a game like that."

JOAN PETERS, HE Fr-"I think it would be very nice. Since KU is first in the Big Seven and K-State is second, it will be a big game, and it certainly should be televised. I think, too, that it might put fans on good behavior."

GARY MADDOX, Ec Jr-"I think they should televise it. There will be plenty of people interested. They won't all be able to get into the Field House."

SUE GREENE, HEA Soph-"Sure, it would enable people who can't get tickets to see the game. Since the KU-Kansas State game has always been of interest to most Kansans, I think it would draw a lot of attention."

ART QUINN, PrV Soph-"Yes, lots of people who can't come to the game wouldd rather see it on TV than listen to it on the radio."

EUGENE HOLLY, AEd Jr-"Yes, I think it should be televised. It might further K-State's standing as a school."

KS Greeks Campaign for Pledge Roya

Who said campaigns are all alike? K-State fraternity and sorority pledges have come up with many novel tricks in campaigning for their IPC king or queen candidate.

Pi Kappa Alpha's decided to enlarge upon the old stand by, a taxi service. Pikes are using a bus which faithfully stops in front of the women's dormitories before morning and afternoon classes. The bus makes stops on the campus wherever coeds have classes.

Red and white Valentines with candy hearts were sent fraternity pledges by Alpha Chi Omega pledges Wednesday, February 6. Alpha Delta Pi's advertised their candidate, Dottie Newton, DIM Soph, Spring Hill, by sending a Red Dot cigar in a drinking cup to each fraternity member.

"Have you seen Acacia's John?" inquired Acacia pledges of the K-

seen in any dormitory or sorority, Wednesday evening dinner. house. Acacia's used the same advertisement in the Collegian.

Kappa pledges dressed themselves in two shades of blue and handed out cigarettes to fraternity men during the week. Delta Delta Delta pledges gave out name tags to the men for their candidate at Monday's basketball game.

Taxi service was offered to coeds by Tau Kappa Epsilon, Phi Kappa, Delta Tau Delta, Phi Kappa Tau, and Sigma Nu pledges.

Nearly all sororities and fraternities have sent individual campaign cards for their candidate to each Greek pledge. Posters have been placed at various places on the campus by the Greeks.

Sig Alph pledges sent napkins with their candidate's name printed on them to the dormitories Wednesday, February 6. Coeds also received cookies with the Pi Kappa Alpha candidate's name State coeds. Such signs could be written across them at the

IPC queen candidates were taken to Keck's for dinner Sunday, February 3, by Pi Kappa Alpha's as a part of their campaign.

All Greek pledges met at Umberger hall, Wednesday, at 7:30 p.m., where king and queen candidates were introduced. Each sorority and fraternity was given two minutes to present its candi-

The IPC dance will be Saturday, February 9, at 9 p.m., in the Student Union. The new king and queen will be crowned by last year's royalty, Connie Benjamin, HEN Soph, Wichita, and Mike Es-

Long's band will play.

Parties

The annual Founders' Day dinner will be observed by the members of Sigma Phi Epsilon and alumni Sunday.

The members of Sigma Phi Epsilon will be hosts to the members of Kappa Kappa Gamma at a picnic Tuesday at the chapter house.

The Golden Heart ball of Sigma Phi Epsilon will be Saturday, February 9. The formal banquet will be at the Wareham hotel at 7 p.m. The guest speaker will be Dick Paddock, district governor of terl, Junction City. Dress for the Sigma Phi Epsilon. New officers legian want ad.

dance is semi-formal and Jimmy | for this semester will be presented. The dance at Pottorf hall will feature the Pastels from Emporia and will be highlighted by the crowning of the Queen of Hearts.

> Members of Sigma Chi will attend a province convention in Kansas City Saturday. This province is made up of Sigma Chi chapters in Kansas, Nebraska, and Mis-

A frank message to graduating electrical and mechanical

NGINEERS

You know it . . . we know it' . . . so let's be frank

The demand for engineers experienced or graduate -far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence/around it), and for a young man just getting started these things are pretty hard to resist.

So, again, let's be frank. We at Farnsworth won't promise you the moon. (Although we are working on some ideas that may eventually get you there and back.) We are an old, young organization. Old, in the sense of being pioneers in the field of electronics./Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.

KANSAS STATE COLLEGIAN

Friday, February 8, 1957-6

Medley Swim Win May Beat Hawks

K-State's 440-yard medley re-1 lay swim team may be the difference between winning and losing in this afternoon's meet at Kansas according to Coach Bill Thrall.

Coach Thrall named it as the most successful relay team K-State has, and mentioned that it had won easily against Nebraska and Ft. Hays.

The team consists of Jim Mariner, Kansas City sophomore; Jim Nolen, Great Bend junior; Dave Dicken, Hutchinson junior; and Gordon Harper, Manhattan sopho-

"We've got our work cut out for us against KU, but I think it should be a close meet," Thrall said.

A recent 52-34 win over Ft. Hays State brought the Cat tank men a record of one win and two losses. The two losses were both to Nebraska, 56-25 and 47-38.

"This is our first year in varsity competition," Thrall said.

"We are getting better but we lack experience.

He added, however, that his number-one backstroker. Tom Coblentz, would not see action today because of a bad shoulder. Coblentz, who won the 200-yard backstroke in both Nebraska meets and set a new varsity record in the event the second time, also missed the Ft. Hays meet because of the injury.

Thrall said that Coblentz would probably be lost to competition for the rest of the year. He added that the type of injury Coblentz suffered might make it possible for him to enter freestyle events in coming meets.

'Depth is the most important thing in a dual meet," Thrall said. "This is provided by Buzz Newman, Gordon Harper, John Nickel, Marion Townes, Dave Dickens, and others. Dickens is the 'workhorse' of the squad."

Face Missouri Saturday Night

K-State's indoor track team, fresh from a triangular win over Omaha and Emporia State, will take on Missouri in a dual meet at Columbia Saturday night.

Field events will begin at 7:30 and running events will start at

Missouri has an unofficial win at the Michigan State Relays where no winner is determined. According to Coach Ward Haylett, the Tiger team is well balanced and tough in almost every event.

"Right now we are not as strong as we could be because we are without hurdler Gary Dupnik and broad jumper Ray Beikman," Haylett said. "But we will be stronger in about two weeks when they get into shape."

Doupnik and Beikman have been away on a business administration tour and have missed practice as a result.

missed practice as a result.

Mile run—Tom Rodda, Jesse Unruh, and Lawrence Brady.
60-yard dash—Dave Burton, Ben Gosse, and Craig Jones.
440-yard dash—DeLoss Dodds, Burton, and Henry Renollet.

APL wants graduates eager to accept the challenge of responsibility

The Applied Physics Laboratory (APL) of The Johns Hopkins University is a unique organization. Its professional staff, including both junior and senior members, is allowed a measure of responsibility and initiative much greater than in many other research and development organizations. A stimulating environment where teamwork and individual initiative are fused results in a high degree of creativeness and professional gratification.

For years APL has pioneered: the first proximity fuze, the first supersonic ramjet engine, the missiles TERRIER, TALOS and TARTAR. With a staff of 1275 APL technically directs the Navy's Bumblebee guided-missile program, including the work of 21 associate and subcontractors, among them leading universities and industrial organizations:

Location & Facilities:

The combined facilities of APL and its contractors provide staff members with an unparalleled situation for advanced research and development. APL's own laboratories, recently completed, encompass 350,000 sq. ft. Their locations in suburban Washington and Baltimore, Md. allow staff members to enjoy suburban, rural or urban living and the manifold cultural and recreational facilities of both cities.

APL maintains a splendid program of staff benefits, including financial assistance for advanced study. Salaries compare favorably with those of industrial organizations. For detailed information on staff opportunities for men with higher-than-average grades contact your Placement Officer or write: Professional Staff Appointments.

Representative On CAMPUS MONDAY, FEBRUARY 11

Contact your Placement Officer today to secure an appointment with the APL representative.

Talent Show, Movie, Singing

On Tap Here

Among highlights on campus this weekend will be the Big Three Talent show at the College auditorium Saturday night at 7:30 p.m.

Performers will represent Kan-

Performers will represent Kansas university, the University of Nebraska, and K-State. Eleven acts will be on the program.

The talent show, the first of its kind in the Big Seven, was originated by Lowell Novy, VM Fr. chairman of the Campus Entertainment committee.

Nebraska's Miss America representative, Diane Knotek, will sing. Sally Wengert and Marcia Elliott will give a precision modern jazz dance, and Tom Gensler, NU talent contest winner, will give a dramatic reading.

KU talent is represented by tap dancer Manuel Jackson, ballad singer Roger Brown, Alpha Omicron Pi's bottle band, and tap grummer John Rhodus.

K-State students taking part in the program are twirler Karen Blume, Sp Soph; pianist Jim Parker, Sta Soph; the Four Delts, a barbershop quartet; and a mixed quartet, the Nightcaps.

"Hunchback of Notre Dame" is the movie which will be shown at the Union little theater at 7:30 p.m. tonight, Saturday, and Sunday.

KING MIKE McCONNELL

Live a little as you build an Engineering Career in Dallas

Don helps Chance Wought designers create producible, easy-to-maintain electronic gear for products like this Regulus II surface-to-surface missile.

It's an old Vought custom, helping young engineers. Our symposiums on creative thinking, programmed job rotation for broadening purposes, and expert career counseling have helped start some spectacular careers. And there's long-standing agreement in bachelor circles that Dallas is a good place to live. Our campus representative can tell you more about living and advancing in Dallas. Ask your Placement Office to make your appointment. Meantime, if you'd like, write for immediate information to:

Mr. C. A. Besio, Supervisor
Engineering Personnel Dept. CN-2
CHANCE VOUGHT AIRCRAFT
Incorporated
Dallas, Texas

Talk shop or sports cars to Don Carter, and you'll find his keenest interests. At Chance Vought, in Dallas, Don keeps up with both subjects. He's living while he's building his professional career. Fun, to Don, means sports car races at nearby Eagle Mountain Lake, a night at the Dallas Little Theatre, or a splash in his swank apartment pool. Fun means career, too, because Vought helped Don find a field he thoroughly enjoys — exploring new applications for human engineering in Chance Vought's Reliability Design Group. Don's helping designers develop electronic gear that's producible, simple to operate and easy to maintain. His electronics training comes in handy, and — for the human aspects involved — so would a good grasp of psychology. So Don's working toward an M.A. in Psychology this winter at Southern Methodist University, and Chance Vought's helping with tuition.

Part of Don's assignment is to improve cockpit displays in supersonic fighters. Here he and a Vought psychologist study a problem in human engineering.

Our representative will be in your Placement Office Tuesday, February 19, to describe firsthand Chance Vought's program for young engineers. Reserve time for your own interview by making your appointment today.

Student Council To Discuss Social Violations, Penalties

A tightening of rules concerning social functions for K-State organizations will be recommended to the Student Council tonight by a constitutional revision committee.

The Council meeting will be held at 5 p.m. in the Student Union.

The committee will recom-

mend that all social permits be secured from the dean of students instead of from the dean of women. Violators of social regulations would become responsible to the dean of students instead of to the Student Council.

If social permits are not secured 48 hours in advance of a planned event, no social func-

tions can be held until a \$5 fine is paid to the Student Council. according to the recommenda-

Previously, a one-month grace period was allowed to pay the fine before social privileges were taken away.

An evaluation report on a recent leadership workshop held on campus will be presented to the Council. The workshop committee will request that a permanent committee on leadership be established to insure a continuous campus leadership program.

A motion to establish a Big Seven convention planning committee will also be placed before the Council.

Reports will be heard from Campus Industries Incorporated, the International Relations committee, the Student Discount committee, and the Kanass State University committee.

Ratio Between Sexes Is Slowly Increasing

The ratio betwen men and women at K-State is slowly increasing as enrollment increases, according to E. M. Gerritz, director of admissions and registrar.

Gerritz made the announcement Saturday after the week's late enrollees had brought the total enrollment for the spring semester up to 6,145, of which 4,758 are men and 1.387 are women. This establishes a present ratio of 31/2 to 1 and unseats the old 3 to 1 ratio.

"This spring's enrollment is an increase of approximately 500 students more than a year ago at this time," says Geritz. "From all indications, K-State enrollment will keep increasing at an increasing rate and by 1970 our enrollment will be double what it is now. The present increase has been mainly one of men enrollees."

If this increase remains con- the fall pre-enrollment.

stant, it will mean a much higher ratio of men to women. Gerritz stated that, due to changes in conditions which could occur, the trend was not a certainty, how-

President James A. McCain says, "The increase in enrolln int this semester over a year aso at this time is just one more evidence of the fact that the College must continue to make preparations for an evergrowing student body."

Gerritz generally approves of the o ment system, which enr .ed two-thirds of the spring semester students, but says, "It has caused more schedule changes than we have ever had. Thus, our major problem is giving staff members sufficient time during the semester to advise pre-enrollees." He indicated that changes would be made for

Yearbook Photo Receipts On Sale Until Tomorrow

Students entering K-State for the first time this semester may purchase their receipts for pictures in the Royal Purple today and tomorrow, according to Gaye Fryer, edi-

The receipts, which are \$1.75, may be purchased in Kedzie 108 A no later than 5 p.m. tomorrow.

Stuart Chase To Speak At Tuesday's Assembly

Stuart Chase, well-known American author, will speak on "Guides to Straight Thinking" at an all-college assembly in the Auditorium tomorrow at 9:30 a.m. The usual schedule of shortened classes will be followed.

Mr. Chase is known for his skill in making important and difficult ideas clear, readable, and interesting. An independent liberal in politics, Mr. Chase has had an important influence on the consumer movement, the study of semantics and communication, the good neighbor policy with Latin America, the policy of soil conservation, and the New Deal in government

He has proved his good neighbor policy with Latin America through his book on Mexico and his policy of soil conservation through his book, "Rich Land,

English Pro Exams Will Be March 19

English Proficiency tests will be March 18 between 7 and 10 p.m. at Eisenhower hall this semester, Professor Nellie Aberle. co-chairman of English Proficiency, reported today.

The tests will be given two weeks early this semester so juniors and seniors will know their test grades when they pre-enroll in April.

Prof. Aberle said anyone who wishes to enroll in English Proficiency must do so by February

Record cards must be signed between March 8 and March 16 in the deans' office.

Poor Land," published during the New Deal.

Born in New Hampshire, educated at Massachusetts Institute of Technology, and Harvard, Mr. Chase became a certified public accountant and entered his father's accounting firm in Boston. But, he decided that he would rather write his own books than audit the books of other people's businesses.

He began writing about economics from the point of view of the consumer and made use of his accounting experience in such works as "The Tragedy of Waste," "Your Money's Worth," "Idle Money, Idle Men," "Where's the Money Coming From," "Tomorrow's Trade," and "The Economy of Abundance."

The wide range of his interest. is shown in such other titles as "The Tyranny of Words," "Power of Words," "Mexico: Democracy Under Pressure,' "Operation Bootstrap in Puerto Rico" and "A Generation of Industrial Peace," a report on labor-management relations in the Standard Oil company of New Jersey.

In his latest book and lecture topic, "Guides to Straight Thinking," Mr. Chase combines his interest in the consumer and in semantics. The Library Journal calls it "a popularized and entertaining study of applied logic for the consumer of ideas."

"He draws on his knowledge in contemporary social science to sharpen our wits about the political, social and economic changes we have lived through, and drive home the dangers of popularized thinking. The general approach is so simple, lucid and compelling that one keeps watching to see if there will be any oversimplifying. There is not," the magazine relates.

GRATULATIONS were given to Joyce Brower, BA Soph, following as Queen of the military Air Force ROTC ball, Triday. Miss Brower was crowned by Governor George Docking (above), during ceremonies held in the Union ballroom.

By GEORGE F. VOHS

Governor George Docking has included about \$41.9 million for the state's six state-supported colleges and universities in his proposed budget for the firscal year 1958 now awaiting approval by the Kansas Legislature.

If the proposed budget is approved, \$13,448,516 of the \$41.9 million will be used for the operation of Kansas State college. The other five state-supported schools will share the remainder.

What K-State will do with its share is the subject of this article and others to follow.

The College originally requested \$15,149,972 for operating expenses during fiscal '58. This request was reduced to \$14,562,226 by the Board of Regents and finally \$13,448,516 was approved by the Governor and forwarded to the Legislature.

A breakdown of the \$13,448,516 shows the College budgeting \$6,010,307 to run the College proper, \$3,284,402 for organized research, \$1,609,079 for Extension spending, \$891,023 for auxiliary enterprises, and \$1,653,705 for capital improvements.

The \$13,448,516 wil be financed by: the general revenue fund, \$6,163,443; general fees and interest, \$1,403,458; restricted fees, \$1,845,974; federal funds, \$1,442,806; direct salaries, \$64,107; auxiliary enterprises, \$891,023; and the educational building fund, \$1,637,705.

At face value, \$13½ million seems like a tremendous sum for running the College for one year. However, when the budget is reduced to the bare essentials required for running an academic program, the sum seems a little less startling.

A comparison of \$7,566,901 in general revenue and general fee funds for fiscal '58 to \$6,905,515 for fiscal '57 gives a truer picture of the operational costs supported by state funds and student fees. In the proposed fiscal '58 budget, we find an increase of \$561,486 necessary to operate the College.

This results in about an eight per cent increase over fiscal '57, according to Daniel D. Beatty, business manager.

The state will contribute \$67,937 of the \$561,486 increase while \$208,843 will result from an increase in student fees effective September 1. The remaining \$206,849 will come from a reduction in reserve balances.

In an attempt to show how the College's budget works and what effect reductions in the original request will have on the operations of the College, we are dividing the budget into four parts.

Part one will explain the general revenue fund which receives funds from Legislative appropriations. Part two will consist of the educational building fund (EBF) which results from a one-mill tax levy. Also included in part two will be a breakdown of capital improvements other than buildings. Part three will be an analysis of faculty salaries and maintenance costs. Part four will concern the College's research programs.

Pogo By Walt Kelly

College Breaks Even After New Fee Hike

K-State students should be dismayed to learn that the College will receive no benefit from an estimated \$208,483 increase in funds from a recent raise in student enrollment fees.

The \$208,483 will accrue during the fiscal year 1958 from a \$14 raise in resident student enrollment fees and a \$34 raise in non-resident enrollment fees approved by the Board of Regents in December. The fee increase is scheduled to go into effect next September.

Under the proposed fiscal 1958 K-State budget approved by Governor George Docking and now awaiting approval by the Kansas Legislature, the \$208,483 will not provide any additional advantage to the College or the students. It will be used to help get the state out of the red financially.

The Governor simply reduced K-State's general revenue fund appropriations request by an equal amount which, in effect, renders the \$208,483 useless to the College.

If the general revenue fund expenditures would have been eliminated by \$208,483 providing there had been no fee increase, then the money can be considered as helping the College and the students. However, there has been no indication that this is the case.

What does this action amount too? Well, maybe you could call it a tax on education.—George Vohs.

Pre-Enrollment . . .

Good, Bad, It's Here To Stay Survey Says

"In terms of economy, effort, and actual time consumed, it is hard to justify pre-enrollment," according to E. M. Gerritz, director of admissions and registrar. "However, a fair appraisal cannot be made until students have pre-enrolled for a number of semesters.

"The old system between semesters at Nichols gym was regularized and all the knots were ironed out," said Gerritz. "We must give mid-semester pre-enrollment a chance for maximum improvement too."

Admitting that pre-enrollment is here to stay, Dean M. A. Durland of the School of Engineering suggests improvements that will aid faculty members who are needed to do a full load of work during the procedure. "New York teachers have been going on strike because the number of side shows required by the faculty was too large.

"Let the students make out their own assignment slips and send them to the Registrar's office. The staff there could send the cards on through to the different schools," said the dean.

"Iowa State university practices a similar system. After a student has met with his adviser, he sends a list of classes to the Registrar's office. The staff there makes out the schedule and mails it to the student," said Dean Durland. "With a growing proportion in the number of students to members of the faculty, we're going to have to be more impersonal about counseling."

Opinions on the advantages and disadvantages of preenrollment vary in the way student participation and faculty responsibility differ. A comparison of the following opinions will point this fact out.

S. T. KEIM, professor and head of business administration—In my opninion, pre-enrollment has no advantage over the enrollment procedure as it existed in Nichols. The difficulty seems to be in the combination of counseling and enrolling. Perhaps if the advising and enrolling were separated, you could enroll everyone in one day.

DORETTA F. HOFFMAN, dean of the School of Home Economics—Pre-enrollment is advantageous in that there is a longer period of time for answers to questions about courses or schedules. It also is better for student-faculty relationships. However, our faculty members are needing to do a full time job at the pre-enrollment.

PAT LUTZ, BMT Jr, Manhattan—I think it is great for the student-faculty relationships. It also provided a better opportunity to get a more satisfactory schedule because more attention could be devoted to curriculum requirements.

JOHN P. NOONAN, assistant professor of English—There were more misassignments during pre-enrollment as far as Written Communications was concerned. They're still assigning people to sections closed since December 12. But the counseling aspects are superior.

C. PEAIRS WILSON, director of the School of Agriculture—Pre-enrollment offers better opportunity for the person making the assignment to advise the student. I think we can do a better job of it. It pins the faculty down to office hours over an extended period of time. Many members of our faculty are working on research, and when they spend more time on enrolling, they have less time for research. This is probably true of other schools.

SYLVIA GADDIE, TxC Jr—I think it was particularly advantageous to the students. After standing in the line, it didn't take any time at all to fill out the cards. Besides this, the students got a better chance to talk it over with their advisers than before.

MARCIA GRONIS, EEd Soph—I think pre-enrollment is wonderful. It saves time, it makes you feel more sure about the classes you've enrolled in. I felt as if I got what I needed when I walked out of pre-enrollment.

Wise and Otherwise -

Advice to a Freshman By a Seasoned Oldster

By Darrel Miller

Sage advice often is rejected if it falls on unseasoned ears. That's been my experience, and it was proved to me again last week.

I was attempting to impart some of my hardwon knowledge to Bill Spurt, a freshman from Home. Since I was writing a master's thesis on "The Study of Inter-related Intangible Abstractions," I figured I was in a good position to hand out advice.

I met Bill Thursday morning as I strolled across campus, sheltered from the blistering sun by-trees and IPC signs.

"Well!" Bill said. "What a feller won't see when he hasn't got a gun!"

"Humph!" I snorted, taken aback. I said to myself that I'd better tell this young smart alec not to get so smart. "Don't get so smart, young smart alec," was the way I put it.

"No offense," he said. "Here, have a C&K, America's fastest-growing cigarette in the new elastic package that lets it grow unabashed."

"Gee," I said. "Thanks." I set fire to it. "Not bad," I admitted, "but I need a cup of coffee too. Come on, let's go to the Union." We did.

As we sauntered up to the Union, I noticed a sign: "Farm and Home Week Lecture—"Shelling Corn Via Hi-Fi' or 'Shucks John, Turn Up the Volume'."

I was puzzled as we fought our way past the elderly types in the hallway. Then it came to me in a flash. "It's Farm and Home Week," I shouted. "Head for the hills."

We ran across campus and sat down, winded, beside a tree.

"Now that's something I can't figure out," Bill said. "Why should conferences be allowed to crowd students out of the Union?"

"Right there," said I, "is where you show your naivete. If you had been here as long as I have, you'd know better. Those conferences are the difference between 'just a nice Union that breaks even' and a real sumptuous Union."

I could see that Bill wasn't convinced. "What's the use of having a sumptuous Union if you can't use it?" he asked.

What was I to say in the face of such ignorance? But I wouldn't give up.

"The point is to HAVE a good Union, not just to use it," I said. "Anyone can USE a Union; we want to do something better than that."

"Oh," Bill said. "Maybe so. But something else about college life bothers me."

"Go on, boy, unburden yourself," I said as we started across the north parking lot.

"Well," he said, gesturing toward a tree. "What about all of these IPC signs on the trees? I've heard people say something about 'not being able to see the forest for the trees,' but here you can't see the trees for the posters."

We had emerged from the north parking lot. I wanted to answer Bill, but right then I was busy cleaning the mud from my shoes.

"I'd like to answer you, Bill, but right now I'm busy cleaning the mud from my shoes," I said. Then I changed the subject.

"I just had a letter from Rillys Evner," I said.
"You've heard of him—one of the sharpest tuba
players K-State ever had. He went into the songwriting racket. Had two near hits, 'Singing the
Greens' and 'Rubber Boat Song,' then turned to
selling soybeans and made a pile."

"Sad," Bill said as he flicked mud from a boot with his Bowie knife. "Well, it's been fun, but now I must hurry home and hear the Berbeglia ad on WHB. Merry Valentine's Day."

"So long, Bill, and a happy George Washington to you."

Writing Lab Class **Open to Students**

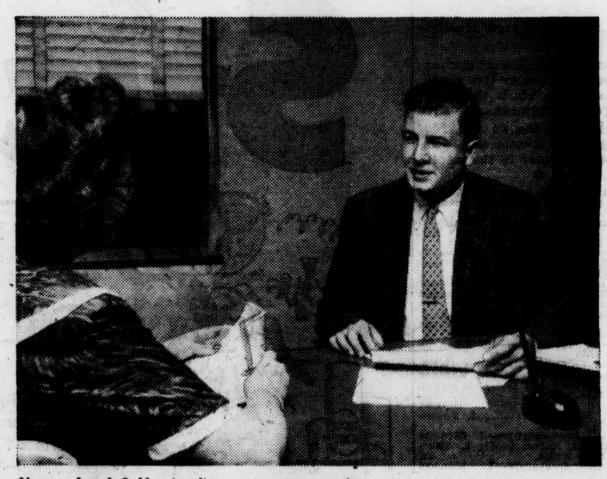

Students who wish to prepare themselves for th English Proficiency test should join a Writing Lab class, Esther Glenn, assistant professor of English, said.

Nearly 100 students are receiving help already, but there are a few classes still open, Professor Glenn said. Conference appointments can be made in J 115.

Classes are from 1 p.m. to 5 p.m., Monday through Friday and from 8 a.m. to 12 a.m. on Saturday. They begin at the start of the semester and continue until English Proficiency tests are held.

Writing Lab classes were started last fall because of the demand by students who needed help with their writing.

A Campus-to-Career Case History

Manager Joseph S. Manning discusses a customer service request with Office Supervisor Catherine Hazleton.

"Like having your own \$3,000,000 business"

Joseph S. Manning graduated in 1950 from Wesleyan University with a B.A. degree and a major in Bio-Chemistry. But chemistry, he decided, was not to be his career. He became intrigued, instead, by the opportunities in the telephone business, and joined New York Telephone Company in 1951.

Today Joe Manning is Business Office Manager in Parkchester, Bronx, New York. In this position he is responsible for about 27,000 telephone accounts which bill some \$250,000 a month. 35 people work under him.

"It's like having your own \$3,000,000 business," Joe says. "And it's pretty much an independent operation, which I enjoy. I'm in charge of all business office functions, and of personnel training and development. I also spend a lot of time out with my customers, making sure that they have the telephone service they want and need. It's an absorbing job.

"The phenomenal growth of the business is one of the reasons why advancement opportunities are so good in the telephone company. Since 1943, for example, the number of telephones in our area has almost tripled. Growth such as this, going on all over the country, makes the telephone business especially attractive to anyone seeking a career with a future."

Bell Telephone Companies offer many interesting career opportunities, as do Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about all Bell System Companies.

Two-mile run—1. Tom Fort (M); 2. Rolland Elliott (KS); 3. Arlen Stackley (KS). 9:47.3

880-yard run—1. Ben Cooper (M); 2. Tom Rodda (KS). 1:58.8. 60-yard low 'hurdles—1. Batch (M); 2. O'Connor (KS); Bonifield (M). 6.9. Ties meet record held by Davis and Gartiser (M).

Mile relay-1. K-State (Burton, Vader, Dodds O'Connor) 3:23.8.

Pole vault—1. (tie) Karl Englund and Bob Davis (M) (13-81/4); 3. Karl Lindenmuth (KS) (13-41/4). Breaks old meet record of 13-51/4 held by Englund (M) and Miller (KS) 1956. High jump—1: Jim Kilgore (M) 6-4\%; 2. Wes Wilkison (KS) 6-3; 2. Jim Green (M) (6-1).

Broad jump—1. Dick Strinni (M) 22-11½; 2. Bob Davis (M) 21-0¾; 3. Wes Wilkison (KS) 20-5 3/40. Shot put—1. Fred Weisel (M); 2. Bob Rumping (M); 3. Ralph Willard

Matmen Lose

After losing to Colorado State, 21-8, and Colorado, 21-10, K-State's wrestling team will take on Colorado Mines at Golden

Against Colorado State, James Miller, John Doyle, and Ellis Rainsberger gathered the Wildcat's eight points.

Rainsberger and Doyle won the heavyweight and the 157pound divisions while Miller gained a draw in the 123-pound

Saturday night against Colorado, Rainsberger and Miller won while Doyle gained a draw.

Colorado State:

123-pounds—Miller, K-State and Jordan, 4-4 draw; 130—Younger, K-State, pinned by Castaneda by fall; 137—Everist, K-State, lost to Kroeger by fall; 147—Roberts, K-State, lost, 53, to Douglas; 157—Doyle, K-State, defeated Goodwin, 8-2; 167—Haller, K-State, lost to McGuire, 8-2; 177—Dietrich, K-State, lost to Eicher, 4-4; heavyweight— Rainsberger, K-State, defeated Anderson, 9-5.

123-pounds — Miller, K-State, pinned Berpotas in 4:40; 130-pounds—Schwabbe, K-State, was pinned by Hayden in 5:42; 137-pounds—Everist, K-State, was decisioned by Neville; 147-pounds—Roberts, K-State, was decisioned by Derby: 157-pounds—Poyle K-State, was decisioned by New M-State, was Porby; 157-pounds— Doyle, K-State, and Lampe tied; 167-pounds—Haller, K-State, was pinned by Teubner in 5:01; 177-pounds—Dietrich, K-State, was decisioned by Indorf; heavyweight—Rainsberger, K-State, decisioned Warner.

In Road Meets Cats Host Sooners In Big Seven Battle

K-State's Wildcats, protecting a perfect home record and a second place Big Seven standing, face Oklahoma in Ahearn field house tonight. Starting time is

Oklahoma owns two close wins over the Cats, both called upsets -one a 67-64 verdict at the Big Seven preseason tournament in Kansas City, and the other in a Conference battle at Norman, 69-

The Sooners come to Manhattan fresh from a 57-55 Saturday upet of intra-state rival Oklahoma A&M. Joe King, OU center, brings an 18-point scoring average into the contest, and forward Don Schwall is hitting at a 15-point a game

Coach Tex Winter will probably send the same starting outfit against the Sooners that started and played most of the 89-53 win over Nebraska last Monday.

That will include Jack Parr, 6-9 center, and Bob Boozer, 6-7 forward. Parr leads the Cats with a 19.7 average, and Boozer is barely behind at 19.6.

Don Matuszak, 5-11 guard, has been a recent starter for Winter. However, Matuszak turned an ankle in practice Thursday and may not start, tonight.

KANSAS STATE COLLEGIAN

Monday, February 11, 1957-4

"I think he'll be all right," Winter said yesterday. "If he's not ready to go, I'll start Hayden (Abbott) at forward and put De-Witz back at guard."

If Matuszak can play, the Cats could start, besides Parr and Boozer, DeWitz at forward, and 5-10 Eddie Wallace and Matuszak at the guard spots.

"Apparently we are just 'arriving', and it's about time, since the season is running out fast. But the most important part is still ahead of us, and I am a firm believer in strong finishes. I would much rather we hit our winning stride here in the stretch," Winter said.

The Wildcat coach admitted that those two opening losses in Big Seven play were getting bigger day by day. Following their two-point defeat by Oklahoma the Wildcats dropped a 51-45 loss to Kansas to put them 0-2 at the

Probable starters: K-State Pos. Oklahoma Boozer (6-7) F (6-5½) Schwall F (6-6½) King Parr (6-9) C (6-8) Stoermer Wallace (5-10) G (6-3) Hudson Matuszak (5-11) G (6-4) Anderson

rising. Thermometer's dropping. And the next llama for Lima leaves in 7 days. You reach for a Lucky...try every pocket . . . but you're fresh out. Brother, you're in for a Bleak Week! No cigarette anywhere can match the taste of a Lucky. A Lucky is all cigarette . . . nothing but fine, mild, good-tasting tobacco that's TOASTED to taste even better. Try one right now. You'll say it's the best-tasting cigarette you ever smoked!

Kiddoo Bolsters Cage Squad Collegian Classifieds

- By ELDON MILLER

K-State's Jack Kiddoo may not gain much publicity for his basketball abilities but Coach Tex Winter knows that he has a valuable player in the senior guard.

"He is a very important and valuable member of the squad. When he is called upon it is for a clutch performance," Winter

Winter stressed his appreciation of Kiddoo's play in the late stages of games by saying that it is very hard for a man to come off the bench, go into a game cold, and still perform capably.

But Kiddoo, a business administration major from Coffeyville, has shown no real ill effects from his spot performances.

Against Indiana Jack collected 7 points in the crucial late stages of the game and helped the Wild-*sats win an 84-77 overtime victory.

The 6-0 guard also proved his worth when Missouri played the Cats on January 14. After the Tigers had rallied to pull within three points of K-State, Kiddoo calmly sank a free throw, then continued to play heads-up ball for the rest of the game as the Staters posted a 59-55 win.

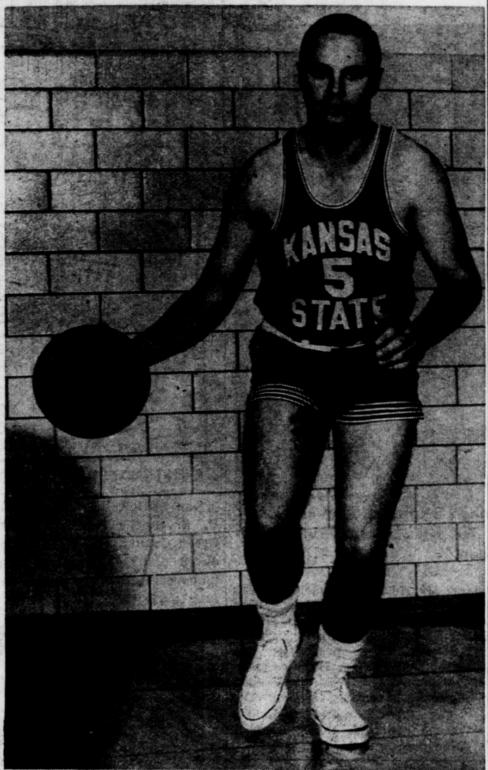

When asked about clutch playing Kiddoo replied, "It's a chance to play and I'd rather be playing than sitting on the bench although there is quite a bit of pressure."

Jack's greatest thrill in college basketball came when the Wildcats defeated K. U. at Lawrence last year to cinch the Big Seven championship.

Kiddoo is a hard luck guy who has had foot and ankle troubles plus conditioning problems throughout his college career. As a sophomore he had a foot operation which kept him out of ection for most of the season.

Jack was overweight when he reported for practice his junior year and was never able to reach his peak playing form. Because of these difficulties, Kiddoo has never fulfilled his potential.

Besides being an all-conference and all-state selection in basketball, Kiddoo was also an allconference and all-state honorable mention quarterback for the Coffeyville football team. Jack graduated from high school in

JACK KIDDOO, the Cats' 6-0 guard, is a clutch performer Coach Tex Winter thinks. Against Indiana earlier this year Kiddoo hit seven late points after entering the game to help the Cats win an overtime contest.

Debaters Tie for Third In Speech Conference

K-State debaters tied for third place in the senior division of the Rocky Mountain Speech conference at the University of Denver last weekend.

Anita Grimm, Soc Jr, and Dave Nuttle, AH Jr, competed against 60 teams, winning five debates and losing one.

The other team, composed of Ray North, PrL Jr, and Tom Bowman, PrL Jr, wen four debates and lost two.

Placing high in the discussion contest, Nuttle received a superior rating. This was one of seven awarded to 60 discussion entries. Miss Grimm placed second in the women's oratory contest, and third in the women's extemporaneous speaking contest.

Students, teachers, and speech experts from 40 other western colleges attended the conference.

Other K-State debaters rank-

Key Situation

STONEPORT, III .- (U.P.) in 1953 Earl Thornton Jr. bought a new truck (Chevrolet) which he still owns. In 1955 he bought a new passenger car of the same make. Recently he picked up his truck keys by mistake when he wanted to use the passenger car. They worked.

You'H be pleased with a Col-

ed high in the Mid-South Debate tournament at Conway, Ark., last Friday and Saturday. Sharon Nuttle, PrL Fr, and Pat Trent, BMT Fr, defeated a team from Emporia State in the semifinals and placed second in the women's division.

Winning all debates in the preliminary rounds, Phil Reid, EE Soph, and Dan Hahn, Sp Soph, were defeated in the semi-finals to place third in the junior division. There were 38 teams from 19 schools in the South and Middle West competing in the tourna-

Greek Chaplains To Talk Today About RE Week

A frank message to graduating electrical and mechanical

You know it . . . we know it' . . . so let's be frank about it.

The demand for engineers experienced or graduate -far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence/around it), and for a young man just getting started these things are pretty hard

So, again, let's be frank. We at Farnsworth won't promise you/the moon. (Although we are working on some ideas that may eventually get you there and back.) We are an old, young organization. Old, in the sense of being pioneers in the field of electronics./(Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.

FARNSWORTH ELECTRONICS CO., FORT WAYNE, INDIANA

Ike-Dulles Confer On Israeli Problem

Compiled from United Press by KEITH KEMPER

Thomasville, Ga. - President Eisenhower was expected to confer with Secretary of State John Foster Dulles by telephone again today on the Israeli problem.

headquarters established on a south Georgia plantation Friday, trouble than might have been the President has conferred at least once daily with the Secretary of State.

The President also had a number of nominations and appointments to make this morning but they do not involve the vacancy in the U.S. Supreme Court, sources said.

Presidential Press Secretary James C. Hagerty planned to eall a news conference to make the announcements.

Hagerty gave no indication that the President was making any progress in his efforts to persuade Israel to withdraw its troops from Egyptian soil as ordered by the United Nations.

Mr. Eisenhower at a news conference in Washington last week spoke of his confidence that Israel would withdraw without the necessity of countermeasures such as a threat of economic sanctions.

Hagerty, when asked if the President was still hopeful that Dulles could bring about an agreement, said, "Well, he's staying in close touch with the Secretary and that's all I can say."

Hagerty said the President spoke with Dulles on the Israeli problem Sunday morning before attending a morning service at the First Presbyterian Church in Thomasville.

Mr. Eisenhower was accompanied by Mrs. Eisenhower, and Treasury Secretary George M. Humphrey and Mrs. Humphrey. The Eisenhowers are guests at Humphrey's plantation near here.

After hunting quail on the estate Saturday, the President played bridge Saturday night with Humphrey, John Hay Whitney, her bow stove in but sustained no at KU, wil be among the officers newly appointed ambassador to other damage.

Great Britain; William Robinson, President of the Coca-Cola Co., and George Allen.

Three 'Trouble's Face Ike

Washington-The second Eisen-Since coming to his vacation hower administration is three weeks old today and in more foreseen when the President agreed about a year ago to run

> No. 1 trouble is Mr. Eisenhower's failure to hold the line on government spending. The administration's 1958 fiscal year spending program is for a peacetime record breaker: nearly \$72 billion.

From trouble No. 1 flows trouble No. 2: The increasing possibility of disastrous money inflation in the United States.

No. 2 leads directly, although not instantly, to trouble No. 3 which could be a block buster. No. 3 is the certainty that a major inflationary spiral would be followed by disastrous de-

Fear of an Eisenhower depression probably haunts the President. There was a so-called Hoover depression way back there before the Roosevelt era. The citizens still are talking about it and sometimes voting against it.

Two Ships Collide in Bay

New York .- Two freighters collided in upper New York bay early today near the Brooklyn to Staten Island ferryboat route.

The Coast Guard said there were no injuries but one of the ships was badly damaged.

The 6,625-ton marine courier. owned by the Marine Navigation Co., Inc., caught fire after the collision which gashed her amidships from the bridge to below the water line.

The American export lines 7,047-ton freighter Exbrook had

DIARY OF A COED

 MONDAY: Prof Pomfritt sprang quiz in English lit this morning. If Shakespeare didn't write Canterbury Tales, I'm back in the steam laundry....Lunch at the house - turkey hash. Question: how can we have turkey hash when we never had turkey?... Smoked a good, natural Philip Morris after lunch. Yum, yum! ... Played bridge in the afternoon. When game was over, Mildred Olliphant stabbed me several times with hatpin. Must learn weak club bid.... Dinner at house -- lamb hash. Question: how can we have lamb hash when we never had lamb? . . . Smoked a Philip Morris after dinner. Good-O! - no filter, no foolin'!... Chapter meeting at night. Motion made to abolish capital punishment for pledges. Motion defeated.... Smoked some more Philip Morrises. Natural! Dreamy!... And so to bed.

TUESDAY: Faculty tea. Spilled pot of oolong on Dean of Women. She very snappish. Offered her a Philip Morris. Still snappish. Offered skin graft. No help.... Dinner at Kozy Kampus Kafe - 14 hamburgers. But no dessert. Have to watch waistline.... And so to bed.

WEDNESDAY: Got our marks in English lit quiz. Lucky for me Shakespeare wrote Canterbury Tales! ... Date with Ralph Feldspar. Purely platonic. Ralph wanted to talk about love trouble he's been having with Mady Vanderklung. I said things were bound to improve. Ralph said he hopes so because the last four times he called on Mady she dumped vacuum cleaner bag on him. Smoked Philip Morris. Yummm! Dinner at house-bread. That's all; just bread.... And so to bed.

THURSDAY: Three packages from home - laundry. cookies, records. So hungry I ate all three....Quiz in American history. If James K. Polk didn't invent cotton gin, I'm in big trouble. . . . Had afternoon date with Erwin Trull, pre-med. Nice boy but no loot. Took me to see another appendectomy. Ho-hum!...But we had Philip Morrises afterwards. Goody, goody, gumdrops!... Dinner at house. Big excitement - Vanessa Strength announced her engagement. While girls flocked around to congratulate Vanessa, I ate everybody's mackerel.... Then smoked a good, natural Philip Morris. Divoon! ... And so to bed.

FRIDAY: Got our marks in American history quiz. Was dismayed to learn that James K. Polk did not invent cotton gin. He wrote Canterbury Tales. . . . Odd! . . . Lunch at the house - bread hash.... Philip Morris after lunch. Grandy-dandy!... Spent afternoon getting dressed for date tonight with Norman Twonkey. Norman is tall, dark, loaded - a perfect doll! Only thing wrong is he never tells girl where he is going to take her. So I put on a bathing suit, on top of that an evening gown, and on top of that a snowsuit. Thus I was ready for a splash party, dance, or toboggan slide. . . . So what do you think happened? He entered me in a steeplechase, that's what!

SATURDAY AND SUNDAY: Days of rest, play, quiet, meditation, and - aaah! - Philip Morris! ... And so to bed. © Max Shulman, 1957

Coeds - and, of course, eds too - in your busy campus week, a companion ever-constant, ever-true, and ever-welcome is today's new, natural Philip Morris Cigarette, made in regular and long size by the sponsors of this column.

Dive To Be Off Limits

A proposal to exclude all noncollege students from the Union dive was passed last night by the Union Governing board.

The UGB also passed a motion providing for accounting services for the College Federal Credit union to be performed by the K-State Union. The Board approved a motion to move selection of the Program council up to April 1 in order to give new members time to be orientated.

Union Director Loren Kottner said non-students have made the dive a hangout, causing a dropoff in the number of K-State students using the dive.

Andy Anderson, games director said the situation calls for immediate action. The conduct of non-student visitors to the dive has become quite a problem, he said.

Anderson suggested that a sign be posted in the dive stating that it was only for the use of K-State students.

At the present there is a dive rule that states "All K-State students must act as ladies and gentlemen." This rule protects the dive from roudy K-Staters.

Representatives from the College Federal Credit union were present at the meeting to ask the Union to assume some of the bookkeeping duties of the organization.

The Union would receive \$40 a month for doing the work.

Kottner explained that the person who works the afternoon shift on the information desk would have adequate time and that the duties would not be an added burden.

Credit union membership is limited to faculty members and college staff who pay money into the Union. Subscription to the CFCU entitles members to get loans at a low interest rate.

Activity Cards Are Due In Kedzie 103A Today

Senior activity cards must be turned into the Royal Purple office by 5 p.m. today, according to RP editor Gaye Fryer, HEJ Sr. Those who did not receive a card through the mail are urged to pick one up in Kedzie 103A as soon as possible.

Students entering K-State for the first time this semester may purchase their receipts for Royal Purple picture no later than 5 p.m. today. The receipts, which are \$1.75, may also be purchased in Kedzie 103A.

Student Council

Peace Pact Trophy Contest Will Get Underway Today

Ideas for a new Kansas university-Kansas State peace pact trophy will be sought by the Student Council in an all-College contest that begins today.

In other action at a meeting last night, the Council tabled proposed changes in social regulations, set up new committees. and heard reports.

The Council adopted a recommendation to hold a contest for student ideas for a new Peace Pact trophy. The top three ideas submitted will be eligible for prizes. These ideas will then be forwarded to KU for consideration.

Contest entries may be submitted at the Union information desk today through Tuesday, February 19. Each entry should contain a clear, concise description of a trophy idea. Sketches of the idea would be helpful, but are not necessary, according to Becky

Culpepper, EEd Jr, Trophy committee chairman.

The Student Council will have the final say in awarding \$5 for first place, \$3 for second, and \$2 for third.

Proposed changes in the Student Governing Association constitution concerning social regulations were tabled until a further study can be made.

The Campus Business Relations committee, formerly the Student Discount committee, reported that Mr. Lud Fiser, secretary of the Chamber of Commerce, does not feel that prices in Manhattan are out of line with those in towns of comparable size.

With this in mind, the Committee has decided to work from the idea that the potential volume of business in Manhattan from students is not being utilized. Areas under investigation by the Committee are movies, groceries, laundries, and clothing.

The committee that is investigating possibilities of changing the name of the College to Kansas State university reported that the pro's and con's of such a change will be publicized. -A. poll to determine student opinion will then be taken.

Marilyn Smith, Soc Sr, chairman of the International Relations committee, said that plans are underway to encourage organized houses to invite foreign students as dinner speakers.

"This would promote better international understanding, an exchange of ideas, and friendship," she said.

A new permanent Student Council Committee on Leadership was established at the meeting. This committee will promote a continuous leadership program on campus.

It will conduct future leadership schools and perhaps a leadership retreat in the fall. Members of the committee have not yet been appointed.

Also formed was a Big Seven Convention Planning committee to take charge of details concerning the Student Government convention to be held in Kansas City each year during the Big Seven pre-season basketball tourney.

Fine System Drafted For Traffic Violators

A bill to permit K-State to fine students for parking violations is being written to be presented to the Kansas Legislature during its present session, E. S. Bagley, chairman of the K-State Traffic board, said yesterday.

K-State tried to establish such a fining system last year. It was found that such a system could not be set up until the Kansas Legislature passed an enabling

Now that the Legislature is in session, moves are finally underway to get the bill through.

An emergency meeting of the Kansas State Traffic Control board was called Saturday, February 1 to discuss and amend the bill.

Representatives from K-State and Kansas university met with the Board of Regents in Topeka the following Tuesday and made the following proposals:

1. That Kansas university, K-State, Hays, Pittsburgh, and Emporia State set up regulations for motor vehicle operation and parking on their respective campuses. These would have to be approved by the Board of Reg-

2. That moving violations and existing state traffic regulations (drunken driving, observing of stop signs, etc.) would still be handled by existing law enforcement agencies (courts).

3. That institutions be granted authority to enforce their parking regulations. Those regulations may include towing and impounding of vehicles.

4. That campus patrolmen be state patrolmen under the Board of Regents. At present, campus patrolmen are deputy sheriffs hired by Kansas State college.

5. That institutions be permitted to assess fees for violation of parking privileges.

6. That these fees collected from parking violations be used by the institution for improvement and maintenance of old parking areas, for the establishment of new parking areas and/ or for the expense of enforcement.

After the bill is written in its anal form it will be sent back to K-State. Thus, the Traffic board will again review the bill before it will be presented to the Kansas Legislature.

K-STATE'S BOB BOOZER (31) grabs for the ball which was slapped out of his hands by Oklahoma's Joe King, and finds his path blocked by King, the games leading scorer with 23 points. Sooner captain, Gene Hudson (24) advances.

Cats Irip Sooners To Avenge Losses

By JIM BELL

Collegian Sports Editor After a sluggish start, K-State's Wildcats avenged two early season basketball losses to the Oklahoma Sconers with a convincing 74-45 win in the Field House last night.

The win boosted the Cats' won-lost mark to 5-2 and strengthened their hold on second place in the Big Seven race. Kansas remains in first with 5-1. The loss mired OU deeper in

the Conference cellar at 1-5.

Oklahoma won over the Cats 67-64 in the Big Seven preseason tourney and 69-67 at Norman in K-State's Conference opener.

The Sooners opened the game by grabbing a 10-4 lead with 14:27 left in the half. Oklahoma appeared to have the 1-3-1 K-State zone solved, as well as the fast break that figured so

Mental Mantrap Includes Thirteen Fallacies—Chase

"Fallacies are a mental mantrap," said Stuart Chas 1 his address on "Guide to Thinking" at this morning's all-College assembly before a large audience.

"There are 13 fallacies to go by in a mental mantrap," said Chase, "which are failures in reasoning."

Chase said that people should see logic in everyday life. "Logic is represented by the mind not being used to capacity. The reasoning process begins with facts," said Chase.

"Logic can be used in three places: the laboratory, the court room, and the copy desk. A scientists has to use logic, the judge has to use logic and the newspaperman has to use logic, Congressmen

don't need logic because they only have to support one side of an argument," Chase said. Some of the fallacies Chase listed were:

1. Overgeneralizing-everybody is faced with temptation of overgeneralizing.

2. Thin entering wedge argument-mostly faced with prohibition.

3. Getting personal-deserting the issue and attacking the character of the per-

4. You're another to cope with—a person has to cope with everyone else.

5. Cause and effect-based on statistical curves.

6. False analogy-using the wrong thing to set the example.

TV Stations To Bid For Telecast Rights

Kansas State and Kansas university sports fans may at last be able to see the coming tilt between the two rivalteams on March 6, even if they don't have a ticket to the event.

A SPECIAL COMMITTEE, composed of members of the Kansas State Athletic council, was appointed last week to work on details and explore the possibilities of televising the game which has been a sell-out before the season opened in November.

Both WDAF-TV, Kansas City, and WIBW-TV, Topeka, had contacted the Council, according to Paul DeWeese, Sports Publicity director at K-State. Both expressed interest in submitting bids.

THE COMMITTEE, composed of Bebe Lee, Max Milbourn, and Paul DeWeese, met Friday and decided that the Council would accept bids for televising the game, DeWeese said.

DeWeese said that the Council would contact WDAF-TV and WIBW-TV, and all the other stations in the viewing area to notify them of the Council's decision.

- All stations will be given an equal chance to bid. The Council also stipulated that if one station receives the contract, they must feed to any other stations interested in televising the game.

HURRAH!!! Now you can avoid the crowds, stay home and watch the game on TV.—Jane Moore.

Water, Water, Almost Nowhere Will There Be Enough to Drink?

Water is seldom out of the minds of people living in Kansas and surrounding states. Its presence or absence is keenly felt by all, farmer, lawyer, merchant or chief.

Here in Kansas we can expect a period of drought about every 20 years which will last from 5 to 8 years.

Glenn H. Beck, director of the Kansas Agricultural Experiment station sees drought as part of the weather pattern and the only method of adequately dealing with it, is learning to live with it.

Had research funds been available in the 1940's, Beck believes the present drought would be greatly minimized.

Summing up the state water situation at present he said, "We have received less rainfall in the last five years than the five poorest years of the 1930's. We are a year and one-half behind in our rainfall. There is less water, surface and ground, than in the 1930's.

"Quite logically the time to have done research in water conservation would have been when the water was available."

The Agricultural Experiment station, working through 25 college departments, 5 branch experiment stations, and 11 experimental fields is busy now attempting to help Kansas adapt themselves and their methods to the dry and wet pattern of the state's climate.

Research in plant breeding, livestock adaptation, irrigation, food preservation, and watershed development are only a few of the areas in which work is being done.

One of the major bottlenecks in the research program is the lack of a climatological and soil physics laboratory. The station often has to call in seven or eight different departments to work on the various phases of any one problem. Many times each of these specialists must wait for conditions suitable to his needs before further progress can be made. This results in long delays in solving problems which vitally affect the entire state.

Kansas is not alone in its need for study and research into its own climate. How great that need is can be shown by the 25% drop in agricultural income from the beginning of the present drought to today, and by counting the number of cities which have almost completely exhausted their water supplies.

The entire Great Plains area is faced with water shortage problems. The needed climatic research facilities would cost approximately \$10 million, or little more than the price of a fully equipped and armed B-52.

Campus Comments

It seems admirable that the Union Governing board voted last night to close the Student Union dive to non-students. It may alleviate some of the undesirable conduct in the dive, and it may be a greater incentive for students to use the dive.

The dive has never been as popular a meeting place for students as the stateroom. This might also be due to the fact that coffee isn't served in the dive.

The new ruling will be enforced by the management, at their discretion.

Yesterday's display in the Union by the Lambda Chi Alpha pledges, I haven't yet figured out. Dave Horton, ME Jr, was dressed as James Dean in the part of Jett Rink in the movie "Giant." The impersonation seemed to be merely a publicity stunt with no other purpose, and appeared a bit childish.

Don't forget, fellow staters, that day after tomorrow, February 14, is Valentine's Day.

-Jane Mo

Editor:

Why didn't you mention milk as the best of all breakfasts? Drink a glass of milk and you will feel so happy. I do.

> Heinz V. Thimm Graduate Student

This was an oversight. We agree with you, Heinz, that milk is very nutritious.

The Editor

To whom it may concern:

According to campus VIP's, Van Zile hall has been invaded by everyone's little friend, Mr. Virus. How ridiculous!

If there is "something in the air," why don't coeds living in Northwest, Southeast, and sorority houses become seriously ill? Of course, there is a possibility that Van Zile girls are the only ones susceptible to the virus.

How can anyone say that a virus has caused the sickness? Does anyone actually know? Hardly! I understand that tests are presently being made and results will be known in about a week or two. Why weren't such tests taken in December? As things are now, no one knows what the trouble is and that doesn't stop coeds from continuing to become suddenly ill.

Such an illness must not be slighted. After all, intervenous feeding is nothing to brush off. Several Van Zile coeds have become so ill that convulsions often follow vomiting. Now, really, can "something in the air" cause this?

The kitchen staff has been extremely cautious since December's epidemic. So, the trouble hardly lies in the food department. In fact, coeds who haven't eaten at the dorm for two meals have become extremely ill.

I suggest that the plumbing be checked immediately. Can backed-up sink drains and water fountains contribtue to healthful conditions? This condition was noticed about a week ago. By strange coincidence this situation was present before the December epidemic!

This situation is really ridiculous! Van Zile coeds will continue to protest until the College decides to clear up the situation once and for all.

> Kathy Schultis HEJ Soph.

Up to press time the state's department of public health had not released any information pertaining to the causative agent of the Van Zile epidemic. Dr. Hunter, secretary, said the 17 cases listed with their department was not significantly high. But we agree faulty plumbing is a potential health hazard.

The Editor.

World News Briefs

Hands Off Mideast,'* Reds Urge Big Four

Compiled from United Press
By KEITH KEMPER

United Nations, N.Y.—Russia has offered to quit supplying arms to the Arabs if the Western Big Three will close down their Middle East bases, Moscow dispatches said today.

The dispatches quoted informed sources as saying the proposals were contained in notes given U.S., British and French ambassadors in Moscow yesterday by Soviet Foreign Minister Dmitri T. Shepilov.

The notes called for a Big Four declaration of "hands off" Middle East affairs, the sources said. They appeared to be a rebuttal to the Eisenhower Doctrine for the Middle East.

The disclosure came as western diplomats at UN headquarters

cautiously predicted that Israel will withdraw its troops from Egypt as a result of U.S. support of its claim to free navigation in the Gulf of Aqaba.

According to the Moscow dispatches, the Soviet Union called on

Britain, France and the United States to join with Russia in a policy of non-interference, mutual economic aid, a promise to maintain peace and agreement not to organize military blocs in the Middle East or supply Mideast countries with arms.

However, these were coupled with a proposal for the Big Four to liquidate military bases and withdraw troops from the Mideast Russia does not have any known bases or troops in the Middle East while the United States and Britain have several strategic bases.

Just what effect the Soviet notes will have on the current efforts to get Israel out of Egypt was not immediately evident. Diplomats said they appeared aimed more at the long range problem of the Middle East rather than the immediate stumbling blocks.

Ike, MacMillan To Discuss China

Thomasville, Ga.—President Eisenhower today studied the prospects of having to talk with British Prime Minister Harold Mac-Millan about the admission of Red China to the United Nations.

Mr. Eisenhower will meet MacMillan in Bermuda in late March and the obvious purpose of their conference was to discuss the Middle East.

The President also will meet with French Premier Guy Mollet in Washington later this month.

The British, according to White House sources, want to get the United States government behind the British acceptance of the Red Chinese as members of the Community of Nations.

The President was in frequent telephone consultation with Secretary of State John Foster Dulles about the Middle East situation and pending efforts in the UN to have Israel withdraw from the Gaza strip.

Grimes Case Still Unsolved

Chicago—The case of the slain Grimes sisters was as much a mystery as ever today following a coroner's jury verdict of "murder" under unknown circumstances.

An inquest into the deaths of Patricia Grimes, 13, and Barbara, 15, ended yesterday by raising more questions than it answered.

The girls' trude and fragge bodies were discovered in a readside

The girls' nude and frozen bodies were discovered in a roadside ditch three weeks ago today, and an intensive police investigation since then has turned up few tangible clues. The jury returned a formal verdict of double murder after

deliberating 58 minutes. They said the girls were victims of "death due to exposure to cold."

However, the jurors said medical and other testimony at the

by whom or in what manner they were murdered, or how they were transported to the ditch in which they were found January 22.

The inquest was cut short by coroner Walter McCarron at the request of police and the state's attorney's office, who have withheld

inquest failed to show how, when or where the girls were killed,

some important information from the medical report.

Assistant state's attorney Robert Cooney urged the inquest be halted because "we don't want anything to come out of here which might help the killer or killers."

Cats Trip Sooners To Avenge Two Early Losses

(Continued from page 1) prominently in the last Cat win, 89-53, over Nebraska.

But K-State called time with the score 10-4, and from that point on it was a different ball game.

Cat forward Bob Boozer hit a layup with 13 minutes left, then center Jack Parr hit a free throw to narrow the margin to 10-7. Boozer got a pair of free throws and Parr hit a jump shot to give the Cats the lead, 11-10; with 9:55 left.

Joe King got a layup a moment later for the last Sooner lead of the evening at 12-11.

Then Parr hit two free tosses, and Eddie Wallace and Boozer hit from the field to bring the Cats' margin to 17-12 with 7:40 remaining.

From that point on, K-State pulled steadily away. Score at halftime was 37-24. Boozer paced the Cats with 14 first half points.

For Oklahoma, King scored 10

Cats Ranked In UP Poll; NC Still 1st

K-State found itself back in the United Press national ratings this week, as the Cats polled five points in the national coaches

North Carolina kept its grip on first and boosted its record to 18-0 through the last week. Kansas' Jayhawks remained in second 21 points behind the Tar Heels.

Iowa State hung on to its top ten ranking with 46 points and 10th place.

In Big Seven games last night, Colorado knocked off the Cyclones 59-53 and moved up to fifth place in the Big Seven. CU's record is 3-4 now, and Iowa State is 4-4 for third.

Nebraska moved into a tie with the Cyclones and evened its Conference record at 3-3 with a 53-49 win over the Missouri Tigers. Mizzou is sixth now with 3-5.

Team Points
1. North Carolina (22) (18-0) 333
2. Kansas (11) (14-1) 312
3. Kentucky (1) (17-3) 243

NGINEERS

You know it . . . we know it' . . . so let's be frank about it.

experienced or graduate the demand for engineer -far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence/around it), and for a young man just getting started these things are pretty hard

So, again, let's be frank. We at Farnsworth won't promise you/the moon. (Although we are working on some ideas that may eventually get you there and back.)'We are an old, young organization. Old, in the sense of being pioneers in the field of electronics./(Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.

K-State Choir Plans Annual Spring Tour

The Kansas State college A Cappella choir will perform nine concerts in Kansas, Iowa, and Missouri on their annual spring tour March 4-7.

The choir directed by William R. Fischer, associate professor of music, has performed in more than a hundred different Kansas towns during its 12 years of existence. This is the first time that the group has extended its tour to include neighboring states.

The first concert will be March 4 at the Marysville High School. That evening the group will perform in Harlan, Iowa.

The next morning the choir will sing at the Boone, Iowa, High School. This will be followed by an appearance on KRNT-TV in Des Moines, and an evening concert at the Plymouth Congregational church.

The choir will travel to Sedalia, Mo., on Wednesday to give an evening concert. The choir will also sing at either Independence or Raytown, Mo. The tour will end with an afternoon program at Shawnee-Mission High School and an evening appearance at Onaga High School.

The K-State Singers, a 12voice ensemble, will be featured on the Choir program. This group specializes in the performance of show tunes and "standards" from the jazz music field.

In their programs they will give a salute to Rogers and Hart.

The program will be: "Hodie, Christus Natus Est" by Healey William; "Salvation is Created" by Tschesnokoff; "Hear My Prayer, O God" by Robin Milford; "Eili, Eili" arranged by Schindler, "By the Waters of

Babylon" by William R. Fischer; "This Have I Done for My True Love" by Gustav Holst; "Soonah-will Be Done" by William Dawson;

"O Dear, What Can the Matter Be," "Golden Slippers," "Go 'way from My Window," and "I'm So Glad Trouble Don't Last Always," all by William R. Fischer.

Second Wave Of Van Zilitis Under Control

All 17 coeds from Van Zile hall who suffered intestinal disorders in the second wave of illness since mid-December have recovered.

"All the girls who were in Student Health have gone home. The last one left yesterday," said Dr. B. W. Lafene, director of Student Health.

Efforts are being made by the State Board of Health to discover the cause of this mysterious illness, but nothing definite has yet been established, according to Dr. Lafene. He added that the Board has been running culture tests since Thursday when the girls began to come down with the stomach cramps and fever.

"The results of the culture tests should be known by today or tomorrow," said Dr. Lafene. He refused to make any predictions about the cause of the ill-

Rabbi Binstock To Speak On 'The Power of Faith'

Dr. Louis Binstock, Rabbi of Temple Sholom in Chicago, will speak on "The Power of Faith—What It Can Do For You" at the Kansas State College Religious Emphasis Week assembly, Monday.

The "Temple-on-the-Lake" in Chicago, which Dr. Binstock has served for 16 years, is probably the largest Jewish congregation in the country. In addition to his ministerial work, he lectures over the radio and to audiences throughout the country, and is a private counselor on personal problems.

Originally a Tennessean, Dr. Binstock holds two doctorates. He has been in the ministry for

Dr. Louis Binstock, Rabbi of 30 years, serving in Baltimore, emple Sholom in Chicago, will charleston, New Orleans and eak on "The Power of Faith— Chicago.

He has been president of the New Orleans Rotary club and the Chicago Urban League and has been invited to deliver the New Orleans Chamber of Commerce banquet address for 20 consecutive years. Dr. Binstock also has delivered the invocation for three national Democratic party conventions.

The following is the schedule for Religious Emphasis Week:

Monday, February 18 9:30 a.m. Assembly, College

Auditorium 10:45 a.m. Roundtable discussion, follow-up discussion of assembly, speech, rec center

12 noon Faculty luncheon. Guest speaker is Dr. Louis Binstock, Student Union

No English Exams
For Top Students

Students who received a grade of A in both Written Communications I and II or in comparable courses taken elsewhere are to be excused from English Proficiency, according to a decision made by the Faculty Senate yesterday afternoon.

The proposal will be effective this spring.

"This was proposed originally by the English department and is consistent with the College policy that students making A's may be excused from final exams," said A. L. Pugsley, dean of academic administration. "It will not only save the faculty from the extra load of having to grade the papers, but it will act as an in-

centive to students of Written Communications I and II. "This proposal still doesn't

interfere with the objective of

English Proficiency, which is to assure the fact that the students have command of English."

A study of the past four years revealed only one student who had made a grade of A in freshman, written communications

man written communications courses had failed to pass English Proficiency, according to Prof. William C. Hummel, English department. This was because of a technical reason.

About 4½ percent of the stu-

About 4½ percent of the students made A's in these courses and would be excused, said Holly C. Fryer, statistician.

QUEEN OF HEARTS candidates Jackie DuMars, HEJ Jr, Dorothy Byler, EEd Jr, Sue Pruitt, EEd Fr, and Mary Jo Moriconi, TxC Fr, were chosen from 13 candidates to reign at the annual Northwest hall Queen of Hearts ball to be held Friday.

Collegian Spotlights Don Canfield

By KATHY SCHULTIS

'Don Canfield, AEd Sr and president of the Agriculture Education club, is this week's personality. Don resides at 34C Elliot Courts, but calls Munden, Kansas, his home.

In addition to being president of the Agriculture Education club, Don is chairman of the Farm Mechanics contest scheduled for February 23. The contest is chiefly for Ag students, but a few engineers are expected to attend, explained Don.

"However, the competition is not limited to Ag students, or engineers, anyone is eligible to compete," Don said.

The contest is to be divided into sections for beginners and advanced contestants. Emphasis will be placed on practical how-todo it performance.

The objective of the contest is to award prizes for the solution of everyday problems which arise on any farm.

The only pre-requisite for entry is a practical knowledge of welding, carpentry, tool conditioning, or farm power machinery.

(See page 3 for complete story)

Don attended Nebraska university two years where he was a business administration major. He transferred to Kansas State after his army career because he wanted to attend sechool in his home state. "I am very well satisfied with life here at Kansas State college," commented Don.

Don is married and has a daughter 15 months old. "I, met my wife while I was attending Nebraska university. She was working as a secretary at the time," stated Don.

Being married and attending school does not occupy all of Don's time. He has been an amateur photographer for six years. Don develops and prints his own pictures in a dark room he built himself.

Flying is another hobby of Don's. He and a friend formerly owned a Ronka plane which they kept at the Manhattan city airport. The plane, Don said, was used mainly for pleasure trips

"I was stationed at Fort Riley for two years, so I did my flying around Manhattan," said Don. He was a corporal serving in the personnel department, 10th division.

Finishing a four year college course in three years and summer school sessions is no chore for Don. He manages to maintain a 2.2 grade average. After graduation he plans to teach agriculture in secondary schools. Before summer school sessions, Don spent his summers wheat farming in Montana.

K-State Alumnus Praises Team During Semi-Annual Pilgrimage

Reprinted from the Salina Journal

By GLENN WILLIAMS

Well, sir, I made my semi-annual pilgrimage last week to the old alma mater to see a basketball game and I want to report things are looking up at Kansas State College of Agriculture and Applied Science.

Oh, in some ways things are still the same. For instance, I still couldn't get a free parking place within miles of the Field House. even though I milked the cows an hour early in the hope I'd get there before the maddening throng.

As usual, I wound up tossing a fellow a 50-cent piece to park in a vacant lot. Don't talk to me about uranium mines. That fellow just west of the Field House is the boy who's really got it made

But, to get back to the point, other things are looking up.

They've got one of the best teams at K-State that I've seen in years.

There's one gal on the team who does a sort of mid-air scissors kick the like of which I haven't seen since Betty Montgomery was in her prime back in 1941.

There's another gal on the team who does one of the prettiest pirouettes you're apt to find this side of the Ballet de Monte Carlo. It's sort of difficult to explain. You'll just have to see her to get the idea. Look for the brunette on the right end at the west side of the basketball court. That's the one I mean.

The team has over-all depth, too, not just one or two individual

I talked to the coach after the game and he said, with pardonable pride, that it was the best team he'd ever had. And-great news for K-State alumni-he said the freshman crop was showing considerable promise.

Yes, fellow fans, Old Coach, never a man to view prospects through rose-colored glasses, is looking forward to next season, so you know those freshmen must be good.

Confidentially, Old Coach told me those freshmen were the prettiest things he's seen since Betty Montgomery was in her prime in 1941 and when Betty Montgomery was in her prime in 1941 she was really in her prime.

All in all, fellow fans, I think I can say without contradiction that we've got a great bunch of gal cheerleaders at Kansas State this year and we're going to have an even greater bunch next year.

So, keep sending in your alumni dues and help all you can with the good work. Drop a friendly line to the cheerleading coach, too. He likes to hear from you.

P.S.—The basketball team looks mighty good, too.

I know because I watched it when that gal on the end on the west side wasn't pirouetting.

Over the Ivy Line_

CU's Parker Hopes for Cat Win Over Jayhawks on Home Court

By Shari Shellenberger

KANSAS STATE seems to be the team to knock off KU, says Cliff Parker in the University of Coolrado Daily. Parker says the Hawks are "in for another surprise (besides their loss to Iowa State) before the final curtain goes down."

"We won't say exactly where or when the Kansas team will lose, but if Kansas State continues to improve as they have been doing . . . they could well be the team to dump the touted Jayhawks. The Wildcats extended Kansas to the final minutes before bowing on the Jayhawks' home court. But wait till those Wildcats get the return match at Manhattan. This promises to be one whale of a basketball game."

We think so too, Cliff.

A QUITE unique method of selecting a queen was employed by the University of Massachusetts when their King Kold Karnival queen was chosen. Pictures of finalists were sent to 175 American colleges and universities for selection. Now isn't THAT democratic?

RIVALRY between North Dakota State college and the University of North Dakota will be at its greatest at the basketball game between the two schools Friday night. But not just because of basketball.

To stimulate interest in the game, several campus organizations are sponsoring a beard-growing contest at North Dakota State. Trophies will be. awarded the shaggiest and best-trimmed beards,

and the winners will compare their beards with those of the best bearded rivals from the University of North Dakota.

Electric shavers will be given to the winners of the intra-school match.

ANOTHER ATTEMPT to arouse spirit was this one at the University of Washington. At a recent basketball game between the University and Oregon State college, seating arrangements required unmarried couples to split up, thus eliminating the hand-holding and starry-eyed gazes, and promoting concentration on the game. As the U. of W. Daily described it:

"Called 'Stag Night,' the plans consist of corraling the boys to one side of the middle section and the girls to the other. A rope, or some other kind of division, will protect the sex frontier from claim jumpers. Married couples will be allowed to sit together at either end of the separated sex section. This doe not seem logical, and some married students have already complained that they should be segregated, too."

Guess we won't have to think up any schemes to promote spirit for the game with our down-the-Kaw rivals, what with the tickets slightly difficult to get ahold of.

FROM the Louisiana State Daily Reveille comes this interesting bit: "Universities are full of knowledge; the freshmen bring a little in and the seniors take none away, and knowledge accumuActivities

President McCain To Talk At Grad Students Meeting

first meeting of the new semester Thursday, February 14, according to Scott Chandler, AH Gr, presi-

Dr. James A. McCain, president of the College, will speak on "Know Your College."

"There is a dual purpose in this meeting," said Chandler, "to get as many graduate students as possible together and to instruct them on the purposes and background of the land grant colleges.'

The meeting will be in recreation center in Anderson hall at 7:30 p.m. Refreshments will be served after the meeting.

Block and Bridle

Bhatti; Mary Brant, EEd Fr; Jo-Bhatti; Mary Brant, EEd Fr: Jo-Ann Krizan, HEJ Fr; Claudine Mac-Fee, EEd Fr; and Celia Dixon, EEd

WEATHER

Weather in Kansas will be continued fair today, tonight and tomorrow. It will be warmer in the East portion today and a litturary warmer in the East portion tomorow. High today 55 degrees in the Northeast to 65 degrees in the Southwest. Low tonight will be 30-35.

Old Ammunition

CHATTANOOGA, Tenn.-(U.P.) -Ammunition left by Confederate troops nearly 100 years ago was found near here and Army ordnance officials destroyed the ammunition as "dangerous." Ten cannon balls and two shells were found on Missionary Ridge, site of an 1863 battle. Relic hunters dug up the ammunition, using a device similar to an Army mine detector.

Wilt Ahead in Race For Scoring Honors

By UNITED PRESS

Wilt (The Stilt) Chamberlain, Kansas' 7-foot sensation who had been forced to take a back seat for a week, regained a razor-thin lead last night in the 3-cornered fight for the national basketball scoring lead.

Whipping 36 points through Grady Wallace of South Carolina was scoring only 24 in a 79-71 loss to Clemson, Chamberlain boosted his scoring average to 29.94 points per game to Wallace's 29.90.

Tonight the third and smallest contender, Columbia's 5-9 Chet (The Jet) Forte, goes into action against Pennsylvania. Forte's average stands at 29.8 and he needs 42 points in tonight's tussle to overtake "The Stilt."

It was a week ago that little Forte broke Chamberlain's season-long hold on the scoring lead. He held the No. 1 spot only until Saturday night when 6-5 Wallace took over.

But Chamberlain gave one of his very best shows in last night's triumph to regain the lead. The Oklahoma Aggies played Coach Hank Iba's famed ball-control game to the hilt in an effort to stymie the stilt, but the sophomore from Philadelphia scored steadily and also nabbed 15 rebounds to lead the game in that department, too.

Wallace's scoring efforts helped South Carolina take a 9point lead, 65-56, late in the second half against Clemson, but then Clemson rallied to gain the win. Wallace now has 170 points in his last five games, a 34-point-per-game pace in his drive for the title.

The individual scoring battle stole attention once again from key conference competition where victories were scored by Southern Methodist and West Virginia.

SMU, the nation's No. 4 team, opened a 2-game lead in the Southwest conference chase by trouncing Texas, 79-56, while runner-up Rice was losing to Baylor, 95-70.

It was the 17th win in 20 games for the Mustangs, who

thus avenged a 77-68 road loss WILLIE" THE WILDCAT says MEET ME AT THE OPEN 24 HOURS DAILY

to Texas. SMU pulled away after the first 12 minutes and romped as Bobby Mills of the Mustangs and Ray Downs of Texas tied at 17 points each for honors.

Hot .Rod Hundley tallied 28 points to lead West Virginia to a 93-82 victory over George the cords in a 62-52 triumph over Washington for an overall rec-Oklahoma Aggies while ord of 19-3 and a Southern conference record of 10-0.

> In other leading games last night: Bayton downed Loyola of the South, 75-63, as Al Sicking scored 24; Maryland trounced Virginia, 85-64, despite Jerry Cooper's 19 points; soph Ken Clark scored 19 to lead North Carolina State to a 79-72 win over Duke; De Paul downed Illinois Normal, 87-77, as Dick Heise scored 26; La Salle nipped Temple, 63-61; Yale downed Holy Duquesne Cross, 91-82; trounched Carnegie Tech, 61-35; Texas Christian edged Texas A&M, 62-59; and Arkansas beat Tulsa, 52-43.

Roger Myers

At Our Discretion

This is the first of a series of columns that will appear on Collegian sports pages during this semester.

How often it will appear, we don't know. But it'll present our honest views on sports, plus other information that we feel is of interest to followers of sports.

K-State basketball fortunes are beginning to improve after an early slump that saw the Wildcats lose five of six games and put them in a tie with Missouri for the Big Seven cellar spot at 0-2.

The Cat potential appears to have finally turned kinetic and K-State has moved into second place in the conference by virtue of their 89-53 stomping of Nebraska, and. Monday's 74-45 win over Oklahoma.

The Nebraska contest showed the defensive versatility of a definite title contender -and the Oklahoma game showed it even more. Coach Tex Winter's charges used a tough 1-3-1 defense in both games to post margins of 36 and 29 points.

Add to the Cat defense two near 20point scoring averages (Parr and Boozer) and the K-State fast break and you've got the kind of team that could make Wilt and friends quake.

That is if the Cats stay "jelled" (as we hope they are).

The two conference losses at the start of the season, one to Oklahoma and one to Kansas, mean that K-State must win all its remaining games to gain even a tie for the Big Seven championship—provided KU doesn't run afoul a Waterloo in one of its remaining games (not beyond possibility).

The Cats must play Iowa State twice and Nebraska and Missouri on the road. Then on March 6, the Jayhawks come to town. If K-State can win its remaining conference games and if KU drops another, this game would decide the title. Shades of 1956.

Meantime, Kansas has a 5-1 Big Seven record and the Cats are 5-2. The Hawks blasted Oklahoma A&M last night, 62-52-Wilt Chamberlain accounting for 36 points. The Cats play Oklahoma City Saturday night in the Field House.

We received a press release from Dan-Pierce, sports publicity man at Kansas university, the other day. Noticed that Wilt Chamberlain has blocked 105 shot attempts so far this season.

Wonder if they keep statistics on how many times the big boy blows his nose?

KU was out shot from the field in three of its first five Big Seven games. Iowa State did it twice and K-State did it once. The Cats hit a 40 per cent shooting average and the Hawks 33 per cent in the 51-45 loss at Lawrence.

We'll be back.

EVAN GRIFFITH, Chairman of the Board JOE ARNOLD, President

O'Connor Is a Top Big Seven Hurdler Against Smith

By DICK BOYD

"Gene O'Connor is our top point-getter this season and one of the top trackmen in the conference this year," Ward Haylett, head K-State track coach, said.

Gene highlighted his career last year at a triangular meet with Colorado and Iowa State when he tied the Big Seven record in the 60-yard high hurdles with a sizzling 7.4 dash. He also ran unattached his freshman year in the 400-meter hurdle event at the Kansas relays and came away with first place.

"He is one of those men you almost have to pull off the track to keep from working too hard." Haylett said.

keep from working too hard," Haylett said.

When asked about Gene's performance to date in the 60-yard high and low hurdles, Haylett replied: "He has been up against the toughest opposition so far this year. At Michigan State he was beaten by an Olympic champion and a national champion.

"In the Missouri dual he was beaten by Batch of Missouri who ran the fastest 60-yard hurdles race ever run by a Big Seven man. Gene, of course, won both events at Omaha."

Haylett pointed out that last year Gene did not win many indoor races. "He is not suited to the short indoor distances. However, look at his record outdoors in the 120-yard highs and the 220 yard lows and you will see that he was seldom defeated.

"I believe Gene is the only athlete who has ever been a champion in the big relays five times in any one event in any one year. He was the 400-meter hurdles champion last year at the Oklahoma A&M relays, Texas relays, Louisiana relays, KU relays, and Drake relays.

"Also Gene is a valuable member of the mile-relay team which bride the K-State varsity record for indoor performance in the recent dual at Missouri," Haylett said.

Wildcat trainer "Porky" Morgan added, "Besides that he's really a great kid, one of the finest I have ever had the pleasure of working with."

Gene himself names his favorite phase of track as the outdoor season. "I like to breathe that fresh air. It seems too confined inside." His favorite race, the 400-meter hurdles, is also run outdoors.

Gene says track is almost a year-around sport. "We start working out in September and practice three times a week until Thanksgiving, five times a day between Thanksgiving and Christmas, and six days a week for the rest of the season. It lasts until about the second week in June.

"During vacations we sometimes work out twice a day. We have about a six-week layoff during the last part of June and all of July. In August we start to get ready for the next season. During the summer layoff, I like to do a lot of swiming to keep trim.

"Although track is an individual sport, there is still a feeling of unity because you go to each meet to win as a team," Gene said. "If you don't do anything in your event, you can't blame anyone but yourself."

Gene divides his top thrill in track between his win in the 400-meter hurdles at the KU relays as a freshman and a trip last summer to the Olympic trials in Los Angeles, where he was barely beaten in the finals of the 400-meter hurdles.

Gene's major is physical therapy. After leaving K-State, he will take 12 months of instruction at KU before receiving his degree.

For the next three years he will be in the air force where he plans to continue running. After that he intends to practice physical therapy in California or Florida.

KU Defeats A&M, May Televise Tilts

By United Press

Lawrence—A 36-point performance by Wilt Chamberlain pushed Kansas to a 62-52 victory over Oklahoma A&M last night before 15,500 fans.

Kansas went easily to a 31-27 advantage at halftime and fought off the deliberate Aggies in the early minutes of the second period. In the final five minutes, the Kansans widened the gap.

Chamberlain collected 15 rebounds to head that department. Ron Loneski scored 11 points for Kansas. Melvin Wright and Arlen Clark led the Aggies with 10 and 11 points respectively.

Kansas displayed an effective zone defense which kept the Oklahomans shooting from the outside.

Long-range plans for televising in this area road games of the University of Kansas basketball and football teams were revealed at halftime of the contest.

An organization calling itself the KU Jaywatchers announced it would attempt to raise \$10,000 to help defray the costs of televising several basketball games away from home.

Brown Battles Against Smith To Keep Title

By United Press

Miami Beach—Joe Brown, who won the world lightweight championship with a fractured right wrist, is a lopsided favorite at 17-5 to keep the crown tonight with a healed wrist in his return fight with ex-champ Wallace (Bud) Smith at the Miami Beach auditorium.

Their scheduled 15-rounder will be televised and broadcast nationally by ABC at 10 p.m. (EST), with a TV blackout in south Florida.

Rangy Brown—a shifty, faststepping counter-puncher — is making his first defense of the 135-pound scepter he won from Smith—an aggressive, muscular slugger—on a split decision at New Orleans last August 24. Joe fractured his right wrist in the second round, but his left hooks had Smith on the canvas twice in the 14th. Neither has fought since then.

Brown won the right to challenge in August by outpointing Bud in a non-title 10-rounder at Houston last May 2. Those two defeats for Smith, plus a knockout by Tony DeMarco and a decision by Larry Boardman totaled four straight losses for Bud and aroused suspicions that he is washed up—that his legs are gone.

However, Smith declared today, "I'll surprise Brown and every one else tonight. There's nothing wrong with my legs. I'm in fine shape this time.

"Last year my family troubles worried me so much I couldn't train right. But they're settled now."

Shipping To Pass If Israeli Withdraw

formed United Nations Secretary Dag Hammarskjold that it will allow Israeli shipping to pass through the Gulf of Aqaba if Israeli troops withdraw from Egyptian territory, informed sources said today.

This assurance was relayed by Hammarskjold to Secretary of State John Foster Dulles, who in turn, passed it on to Abba Eban, Israeli Ambassador to the United States.

This was the key development which enabled Dulles to come up with his new two-point plan aimed at getting remaining Israeli forces to withdraw from Egyptian territory and at providing Israel some assurances of protection from future Egyptian attacks.

Israel today was giving Dulles' plan urgent study, but there was no indication whether it would be accepted.

U.S. officials warned, however, that if the plan is not accepted, the United States would go along with an almost-certain move in the United Nations to apply sanctions (reprisals) against Israel for refusing a U.N. order to withdraw its troops from Egypt.

Ike's Mid-East Plan 'In'

Washington-Sen. George D. Aiken said today that Russia's massive propaganda assault against the "Eisenhower Doctrine" makes Senate enactment of the President's Middle East plan "inevitable."

Aiken's comment came shortly before the Senate Foreign Relations and Armed Services committees met, in hopes of completing their work on the President's resolution and reporting it out for Senate debate: The resolution already has passed the House.

Republican senators on the

AWS Laws Go To Houses For Decision

Copies of the Associated Women's Students constitution have been passed out to the organized houses for approval this week. Each women's living group has requested a convenient time for the AWS representatives to explain it to them.

This constitution contains the laws that will govern the actions of AWS and of all the women students.

New members from four houses were introduced to the present members. They are Caroline Harkins, TJ Soph, representing Alpha Delta Pi; Sonja Hanson, EEd Soph, representing Omega; Jeannie Hays, HT Soph, representing Clovia; and Sheila Morton, EEd Soph, representing Waltheim hall. Membership is on a rotation basis, one-half of the members being elected each semester to serve a full year.

A regular meeting time for this semester was chosen. The group will meet every Monday at 7:15 p.m. in the Student Union.

"It's tough," Lee sympathizes, "for a college senior to feel confident about choosing a job. For four years he's been trained to be critical and deliberate about making decisions. Now, faced with the biggest decision of all, he has only a few months in which to attend job interviews, separate the facts from the propaganda, and select a company-not to mention passing exams and graduating at the same

Lee, with a B.S. in Industrial Administration, came to IBM in 1953. Starting as a Technical Engineer in Production Control, he was immediately assigned to the General Manufacturing Education program—a

time."

10-month course with rotating assignments in all phases of the work -manufacturing, purchasing, production. In addition to four weeks of formal classroom study, he also spent two in the Boston Sales Office, calling on accounts with the IBM salesmen.

Lee's career was temporarily interrupted by a two-year hitch with the Air Force in Korea. Back at IBM in 1955, he has since been promoted to Production Control Engineer. His present job is to design paperwork systems to insure a smooth flow of work through the plant where the famous IBM electronic computers are manufactured. "It takes creative engineering ability to design these systems," says Lee, "and it takes administrative ability to 'sell' a system to higher management and make it stick."

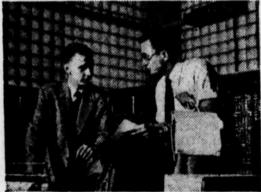

"What's it like to be

A MANUFACTURING ENGINEER AT IBM?"

Four years ago, Yale senior Lee Baker asked himself this question. Today, as a Product Control Engineer in IBM Manufacturing Engineering, Lee reviews his experience and gives some pointers that may be helpful to you in taking the first, most important step in your engineering career.

How to select an employer

To the college senior faced with a job decision. Lee has this to say: "Pick your employer by this simple test: 'Is the company expanding fast enough to provide adequate scope for your talents and ambitions? Is it interested in your long-range management development? Will it treat

"Selling" the system

you as an individual and match your abilities with the most challenging assignments?""

For his part, Lee feels IBM has met this test. Since 1953, he has seen new plants open, dozens of new products evolve, hundreds of new management positions created. Greater authority, responsibility and reward have come his way. And he knows they will continue, for IBM sales

Recognition of individual merit

have been doubling on the average every five years since 1930. He likes the "small-team" engineering system that assures ready recognition of individual merit. And he appreciates the fact that IBM hired him despite his impending service hitch.

What's "life" like at IBM?

At IBM, Poughkeepsie, Lee lives a "full life." He belongs to a local sports car group, drives an Austin Healy. He skis at Bromley. He is a member of the IBM Footlighters and a local drama workshop. At present, he shares an apartment with two other engineers and a "medium-fi" set, but plans to marry "the girl next door" (in hometown Hamburg, Conn.), in the very near future. In this connection. Lee advises seniors to pay special attention to company benefits. "They may seem like a yawning matter when you're single. but they mean a lot when you assume responsibilities. IBM's are the best I know."

IBM hopes that this message will help to give you some idea of what it's like to work in Manufacturing Engineering at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists, mathematicians and Liberal Arts majors in IBM's many divisions-Research, Product Development, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of Engineering Recruitment, Mr. R. A. Whitehorne, will be happy to answer your questions. Just write him at IBM, Room 9201, 590 Madison Avenue, New York 22, N.Y.

Royal Purple Ball To Be February 23

The annual Royal Purple dance will be Saturday, February 23, in the K-State Union grand ball room, according to Gaye Fryer, Royal Purple editor. The dance will start immediately after the Iowa State-Kansas State basketball game that night.

The Pastels, a well-known Emporia dance band, will play for the dance. Dress will be semi-formal (cocktail dresses for girls and suits for boys).

The 1957 Royal Purple Queen and her three attendants will be announced at dance intermission. The queen will be crowned by C. J. Medlin, graduate manager of student publications and Royal Purple adviser.

Alfred Hitchcock, noted Hollywood and television producer, has already chosen the queen from the following list of candidates. The candidates are Rosalie Austin, BMT Fr, and Beverly Renhardt, HEN Fr, Northwest hall; Reatha Roberts, Eng Fr, and Mary Ann Chamberlain, Ed Fr, Southeast hall; Jane Fulton, EEd Soph, Delta Delta Delta; Elaine Arnote, EEd Soph, Alpha Xi Delta; Barbara Lewis, EEd Sr, Chi Omega.

Be Careful!

Traditionally, special things are supposed to happen on this day of days, St. Valentine's day. Also, traditionally, the instigator of such special things is a Valentine, be it in the form of a card, box of candy, bunch of flowers, or some other gift.

questioning people Upon around the campus about what has happened as a result of Valentines which they have received in the past, amusing and surprising situations were discovered.

Take, for example, the case of the ever-appropriate rose. Always said to have a magic effect, especially if trouble is brewing, here is the proof. A couple who had been going steady had broken up. But when Valentine's day arrived, the girl received one perfect rose with no card attached.

Concluding that her boyfriend had sent it in an effort to mend things, she was nice to him and the romance was patched up. Some time later, she was slightly embarrassed to discover that the boy had not been able to work up nerve to send her the rose and that his mother had gone ahead and sent it for him.

Two cases were discovered in which the traditional box of candy caused trouble, not happiness as was intended. Of course, the manner in which one of these boxes was presented fortunate

It seems that the boy, t his intentions were the thought it would be clever tantalize the girl of his drea with the thought that he h something for her. This he di for an hour and a half. He made his mistake here, though, for she didn't take the situation good-naturedly and never again had another date with the male

Another box of candy was given by a secret admirer to a

had given d a "mad when she ntity. Conoke up with going steady up dateless bethe admirer never asked her for a date.

And so the sun will soon set on Valentine's day, 1957. Who knows what romances will bloom or "bust" due to the turns events take?

"YOU CAN'T have your candy and eat it too," says Sharon Skupa, Soc Fr. She also extends the Collegian's wishes for a happy Valentine's Day.

Orchesis, modern dance club, will present its annual dance concert in the College auditorium Tuesday, February 19 at 8 p.m., according to Carol Bliss, EEd

the group.

"Tickets for the concert are 60 cents and may be bought at the door," Miss Bliss said.

Soph, publicity director for

The program is in two parts. The first being "The Doll Shop" and the other "The U.S.A. Today," which will depict present life in the U.S.

Besides members of Orchesis, advanced students of modern dance will perform a number called "Square

Also, a group of seniors from Highland Park high school in Topeka will perform a number called "The Creep," Miss Bliss

Roger Brown, from Kansas University, has consented to perform several numbers between acts of the concert. Roger was one of Kansas university's entrants in the Big Three Talent show held here last week end.

Miss Francile Aronhalt, advisor for the group, commented, "I think the concert will be something everyone will enjoy."

C of C Donates to Campus Industries

The Manhattan Chamber of Commerce Industrial Development committee donated \$250 to Campus Industries at a meeting yes-

terday afternoon in the Chamber of Commerce office. The money is for use in investigations of possible K-State in-

dustries. One industry for which money will be spent is the weaving industry.

Of the \$250, approximately \$100 will be spent on a pilot test to determine if the weaving industry would pay should it be started. If the test shows the industry would be profitable, managers Steven McCarl, ME Fr. and Doyle Moore, BA Jr, will sign a note payable to Campus Industries for the cost of the test run.

The weaving industry will be turned over to the managers once they have signed the note.

They will have charge of the weaving industry with the stipulation that the products must carry the name, K-State Industries, and employ student help.

Provided orders are sufficient to merit the purchase of looms, and other equipment for expansion the managers will probably borrow money from some other source besides Campus Indus-

Scholarship Dinner Soon

Tickets for Mortar Board's annual scholarship dinner for all college women are on sale today and tomorrow in the Student Union and on the first floor of Anderson hall.

Mortar Board will give a scholastic award to the freshman woman with the highest grade average last year. Herbert J. Wunderlich, dean of students, will deliver the main address and three Mortar Board members will speak on leadership, scholarship, and service.

"To encourage scholarship is the purpose of the dinner," according to Shirley Sarvis, EE Sr. Mortar Board president.

Primary source of the College's income is the general revenue fund which consists of stateappropriated funds to finance the operational costs of this institution.

The general revenue fund is always a prime target for budget economizers. They attempt to reduce operational costs to the bare essentials.

The Board of Regents reduced K-State's original request to \$7,287,367 as its general revenue appropriation. Gov. George Docking slashed the Regents' request by \$1,124,387 and forwarded a \$6,162,980 budget to the Legislature.

The \$6,162,980, compared to \$6,095,043 which was appropriated in the fiscal year 1957, indicates a 1.1 per cent increase for fiscal year 1958.

The original appropriations requested by the College were based on a 5 per cent increase in the salaries of faculty and classified employees, and a 5 per cent increase in all operating expenditures among non-self-supporting activities.

Non-self-supporting activities would include resident instruction, organized research, and Extension, while self-supporting activities are specific commercial grants, student activities, auxiliary enterprises, and some research supported by federal funds.

In addition to this 5 per cent increase, the College asked for \$182,840 to hire 38 more staff members; \$158,180 for capital improvements: \$91,310 for Physical plant operation and maintenance: \$6.078 to hire a radiologist for the School of Veterinary Medicine; \$15,000 for library books; and \$249,800 for special research projects.

The money for Physical plant improvements and library books was requested to allow minimum standards of efficiency in these departments. Special items requested would have made it possible for the College to accommodate forecasted enrollment increases.

In slashing \$709,055, the Governor's budget eliminated the \$249,800 for special research, left but \$16,000 of \$250,200 requested for capital improvements (5 per cent plus \$158,180), cut \$67,315 from \$1,254,959 for organized research, trimmed \$40,279 of \$625,791 from Extension, and clipped \$117,461 from the additional salary request.

The Governor recommended that \$46,000 of the capital improvements be transferred to the educational building fund; thus eliminating them from general revenue.

He also subtracted from the general revenue fund \$415,690 from general fees, \$206,849 of this money will be taken away from reserve balances. The remaining \$208,843 represents the estimated revenue gain from planned increases in enrollment fees which would have been used for additional programming.

The 1.1 per cent increase in the general revenue appropriations shown earlier, must help take care of an estimated enrollment increase of 374 students for next semester plus an increase in salaries and other non-self-supporting activities.

This becomes significant when it is realized that fall student enrollments have increased about 29 per cent since 1953 while funds spent on resident instruction, based on the value of the 1953 dollar, have risen only 17 per cent.

Why we have been able to get along with only a 17 per cent increase in the amount spent for resident instruction can be best explained by salaries paid to professors. They are less than the average of other land grant colleges and universities.

An Editorial

What Price Progress?

The price of progress in education and educational methods is always a high one. The cost is not always in money more often in time. It took roughly 40 years for the land-grant college program to really get started after it was first proposed. Educators in Kansas are still faced with much the same arguments when they attempt to adapt new ideas to their teaching programs.

A splendid example of this is the resistance to the proposed educational television network. Granted that most public projects take time to be accepted and adopted, we cannot handle this matter in terms of the future. We are faced with a deadline.

Evidence is beginning to appear which indicates that interest in the educational application of television is increasing. In a recent editorial The Lyons Daily News had this to say:

"Is Kansas in danger of literally throwing away, for all time, the vast benefits of educational television?

"There are signs that it may be, partly for lack of understanding of the tremendous potentialities of this new development of science, and partly because of economic conditions over which none of us have control. The answer may come in the next session (presently in session) of the Legislature when our lawmakers have another-and perhaps last-chance to save the day.

"Too few people understand either the probable cost or the possible benefits of education by television. If they did, there would be such a clamor for nailing it down that there would be no doubt about getting it done.

"There would be, at all hours, available channels on the home TV with good, solid educational material instead of commercial stuff which give little choice. The person, young or old, who really wanted to improve his mindand there are many-could do so by simply selecting an educational TV channel.

"It will be a challenge for this state, so often a leader in things progressive, to meet the financial cost at a time when its economy is not in the best shape. But it would not be unprecedented. Kansans have sacreficed before."

On January 18, the Iola Register commented editorially about the entire program, the financial situation in particular, saying:

"That isn't a tremendous amount per capita-50 cents a year a Kansas citizen. It isn't a tremendous amount compared to the 103 million dollars Kansas spent last year in operating expense of its public schools, alone.

"In fact, it seems like almost nothing when you consider how it would 'extend' the facilities of our universities into a quarter of a million Kansas homes.

"So, as a matter of fact, it will probably be adopted, if not at this session of the legislature, then by some later session.

"When it does come, it will not constitute extravagence, bureaucracy, waste, socialism, or any of the other handy labels we attach to government that seems to cost too much."

These editorial fragments from widely read Kansas newspapers are only a few of the many which are appearing.—Charles Schreiber.

Top Ten Tunes-

Hot Piano Licks Back in Fashion

By Bob Conover

"Young Love" is flourishing in Manhattan as Tab Hunter's record is first in sales for the third consecutive week. The ten best sellers this week

- "Young Love," Tab Hunter
- "Banana Boat Song," Harry Belafonte
- "Too Much," Elvis Presley
- "You Don't Owe Me a Thing," Johnny Ray
- "Kneedeep in the Blues," Guy Mitchell
- "Don't Forbid Me," Pat Boone
- "Love is Strange," Mickey and Sylvia
- "Jim Dandy," Laverne Baker
- "Butterfly," Andy Williams
- "Who Needs You," the Four Lads

The forgotten instrument during the current craze for "rock and roll" is the old fashioned piano. The record stores have a lot of good piano albums that might be welcome relief to ears that have been tortured by Elvis Presley or Laverne Baker.

The best modern jazz pianist, according to every recent survey is Dave Brubeck. Brubeck's coo restrained playing shows evidences of the classical school. His style is undoubtedly influenced by his training in a music conservatory.

One of his best albums is "Brubeck Time" in which Paul Desmond's alto sax steals the microphone for several notes. Desmond and Brubeck work together to polish off a lot of jazz classics such as, "Jeepers Creepers," "Pennies from Heaven," "A Fine Romance," and "Keepin' Out of Mischief Now."

Erroll Garner plays piano music for people who like gusto in their music. Garner is recognized as one of the top jazz concert pianists. He moved the piano to the front of the jazz combo and took the spotlight from other instrumentalists.

His concert playing ability is shown in the most recent of his records, "Concert by the Sea," which was actually recorded outdoors on the beach at Carmel, Calif., before a living audience. The location made for some unusual effects on the disc. His soulful styling invades the listener's consciousness as he plays "Autumn Leaves," "April in Paris," "Where or When," and "I'll Remember April."

A coming star on the jazz piano scene is Andre Previn, already an accomplished classical performer and director of music for two of Holly woods' film studios. His playing borrows some from the old New Orleans style players like Fats Waller, but with a new sound by adding modern chording. Listen to his offerings in the album "Let's Get Away from It All," or if you like Gershwin tunes, listen to "Andre Previn Plays George Gershwin."

Quotes from the News

By UNITED PRESS

London-Great Britain's Defense Minister Duncan Sandys defending Britain's strategy of prevention of war instead of defense because of the dawn of an era of guided missiles:

"There is every reason to believe that the Russians have been developing a much enlarged version of the German V-2 rocket, but with the enormous difference that it will of course carry a nuclear warhead."

Clinton, Tenn.-Clinton High School Principal D. J. Brittain Jr. disclosing that Alfred Williams, a Negro senior in the recently integrated school, has ben suspended for threatening a white boy with a knife.

"Anybody who pulls a knife in this school will receive the same kind of punishment."

Washington-Attorney General George F. Mc-Canless of Tennessee charging that proposed civil rights legislation would alienate people whose "good sense and good will" are needed to solve the race relations problem:

"It is with these good people-white and colored -that the solution of today's difficulties rest. Offend or seek to coerce any appreciable number of them and the day of solution is postponed and the solution itself imperiled."

McMurdo Sound, Antarctica-Lt. Harvey G. Speed, pilot of a four-engined R4D navy transport plane, telling how he was forced to make an emergency landing in Antarctic wastelands:

"Our instrument panel lit up like a pinball me chine. When I saw our oil pressure drop I headed for the first clear area on the barrier. Oil began to spurt from one engine and we lost 15 of the engine's 25-gallon capacity."

For Whom The Bell-Ringer Toils: Pigeons and Many Sleepy K-Staters

By JANICE GRAHAM

How would you like to get up every morning at 5 a.m., then ring a quarterton bell to wake up everybody else? Mark Riat, who hasn't missed a sunrise (except on cloudy days) since June 1, 1956, does just that. After opening the campus buildings at 6 a.m., he goes to the Anderson bell tower to pull the rope ringing the 513-pound bell students hear at 7:45.

Riat sets his watch earlier with the electric bells so he'll know the precise moment to pull the rope.

"Every morning there are pigeons in the tower," he said. "They aren't any happier about being awakened at 7:45 than a lot of students. They fly out when the bell begins clanging, but are always back when I go to work again at 12:55 p.m.

Linked closely to college sentiment, the tone of the bell is more familiar to students and alumni than any other feature of the campus, and there's quite a history behind it.

At one time the bell was subjected to the vandalism of sophomore boys who stole the clapper. Using "The Bell Clapper" as a text for their class book, the students sought a unique example of their subject. The morning after the theft, the bell was late, but someone finally rang it by pounding it with a nammer.

Purchase of the bell in 1861 was made possible by a professor who urged some people in the East to donate the money for it. In December, the new bell was elevated to a belfry in the main building at Bluemont college.

Classes were transferred in 1875 from the Bluemont central college building to the transformed barn on the present ON THE HILI

over to go back to sleep.

Photo by Gary Haynes

"7:45 COMES EARLIER every day," Malone Skinner, Psy Sr, thinks as he is awakened by the ringing of the college bell in Anderson. "That guy hasn't missed a beat since I was a freshman," Skinner said, "but I have the upper hand now. I have senior cut privileges . . . and by the way, turn out the light as you leave," he said, turning

KANSAS STATE COLLEGIAN

campus, and the bell was moved too. The so-called "old barn" (later referred to as Farm Machinery hall) at the east end of the campus supported the bell on its ridges until the central part of Anderson hall was completed in 1882. Once again the bell was moved, and today it calls students and faculty from midnight naps and coffee cups to early classes.

To save any curious, fact-seeking reader the trouble of climbing several flights of steep stairs and breaking down a locked door, there is an inscription on the bell. It reads: "Presented to Bluemont college, Manhattan, by Joseph Ingalis Esq., 1861."

will success spoil this rock hunter? Prof. Walter Houston (below) displays a meteorite found last summer in Riley County. A successful meteorite hunter, Houston has found four since he joined the faculty at K-State in 1956.

Photo by Doug Tedrow

Kansas Is Second Only to Texas As Haven for Stray Meteorites

By JAN MADSEN

Kansas ranks second in the Union as aven for meteorite hunters, if the numof meteorites found is any indication.

"More meteorites have been found in Kansas than any other state, except Texas," Walter Houston, instructor of English and a meteorologist, says.

Houston is also midwest regional director for the American Meteor society. "It is unfortunate that we don't have a good collection of Kansas meteorites here in the state," he said.

"Meteorites are the only sample of matter that has not been contaminated by the earth's evolution," he added. Samples of meteorites must be fresh in order to gain technical information from them, and if they are too old, minerals from the earth contaminate them.

Fireballs and meteorites interest Houston most. These are usually known as "shooting stars." He caught the fireball-chasing fever and has been tracking them ever since. As a student, he did some observatory work under the National Youth Administration.

To locate the stones, Houston must determine the approximate path of the particle and the slope at which it descended. The problem is complicated further because the fireball may go out as much as 15 miles from the spot where it lands.

He first fixes, as accurately as possible, the path of the missile. If he can get some idea of the slope at which it was traveling, he can determine more closely where it might have landed.

He uses two ways to figure where the fireball might have landed. He attempts to track down witnesses, then if he determines the area where it was seen, he constructs a series of mathematical diagrams which show the approximate location where the meteorite may be found.

Houston is primarily interested in getting an accurate description of the fireball. Then he tries to get photographs, its weigh, and measurements in hopes of getting the properly identified piece into a museum.

"We urge anyone who finds a stone which might be a meteorite to turn it in immediately so it can be examined," he said. "A lot can be learned from the fresh samples because they have undergone conditions in space we could never simulate in a laboratory."

"If I ran across one meteorite every ten years I'd be doing good. I've found four since I joined the faculty here in the fall of 1956," he says. "I really feel lucky."

Cats Host Colorado In Swimming Meet

improve a 1-3 record in dual com- freestyler. petion when they host Colorado university here at 4 p.m. Friday in the Nichols gymnasium pool.

K-State has a 52-34 win over Fort Hays State and two losses to Nebraska university by scores of 56-25 and 52-34. The Cats were nosed by KU 44-42, in their last meet.

"Colorado has probably the third best eam in the conference. It should be a very close meet", swimming Coach Bill Thrall said.

Leading K-State this season are captain Tom Onuma, Jim Nolen, Maritn Townes, and Tom Coblentz. They are number one men in their respective events.

"Onuma is a consistent performer for us, one of the men we built the team around". Coach Thrall said.

Coblentz, a former backstroke ace, has been switched to the freestyle events because of a shoulder injury he received before the Fort Hays State meet. Coblentz was undefeated in the 200 yard backstroke before his injury.

Outstanding Colorado team members are Aaron Bodin, Gordon Greenley, and Al Braeseke.

Bodin is freestyler. "He is their number one man. The team is built around him", state Coach Thrall.

Greenley, who has been out-

Forte Collects 45, **Gets Scoring Lead**

By UNITED PRESS

A record-busting 45-point spree catapulted Chet (The Jet) Forte, the "champion of the little man," back into the national basketball scoring lead today ahead of 7-0 Wilt (The Stilt) Chamberlain.

Five-nine Forte of Columbia needed a whopping 42 points in last night's tussle with Pennsylvania and he did it with three free throws to spare in a 93-75 triumph, smashing three school scoring records and tying the Ivy league single-game record.

With 513 points in 17 games, the little Lion now boasts an average of 30.2 points against 29.94 for Chamberlain of Kansas and 29.90 for 6-5 Grady Wallace of South Carolina.

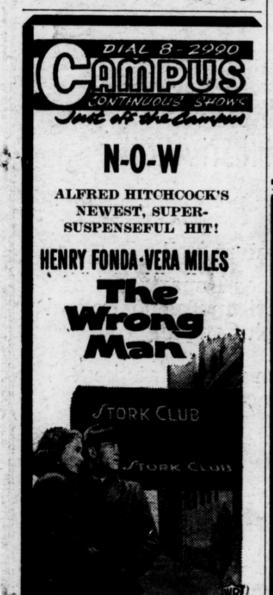

Forte's feat helped keep alive Columbia's hopes of an NCAA tourney berth through overtaking Yale in the Ivy league or through a member-at-large berth.

· The "David vs. two Goliaths" scoring battle once again overshadowed another of North Carolina's close brushes with disaster. The nation's No. 1 team and only major unbeaten squad managed to push its record to 20-0 but only by an eyelash in a 72-69 win at home over Wake Forest.

It was the fourth straight "squeaker" for the Tar Heels and the fourth straight game in which chunky Tommy Kearns saved the bacon.

Wake Forest, ranked 14th nationally, had rallied from an 11point deficit to trail by only 68-67 with 64 seconds left when the 5-11 Tar Heel junior from Bergenfield, N.J., took charge. His two free throws with 45 seconds left boosted the edge to 70-67.

Bradley, the nation's No. 5 team, gained a tie with Wichita for first place in the 3-cornered Missouri Valley race by whip-

Supreme Court Impeachment Attacked as 'Shabby Device'

Compiled from United Press by KEITH KEMPER

Atlanta, Ga. - Gov. Marvin Griffin's move to impeach six justices of the U.S. Supreme Court, including Chief Justice Earl Warren, was attacked today as a "shabby device."

Griffin's lieutenants planned to introduce formally a resolution in the Georgia House of Representatives today accusing Mr. Warren, Justices William O. Douglas, Hugo Black, Felix Frankfurter, Tom Clark and Stanley F. Reed of "high crimes and misdemeanors.

At least three other states were expected to join in Georgia's move in retaliation for decisions outlawing forms of segregation in the South. They were Alabama, Mississippi and Louisiana.

The resolution does not mention desegregation decisions handed down by the Supreme Court. But most of its citations concern participation of the justices in decisions which sponsors considered "soft" toward Communists or illegal usurpation of states rights.

President Jacob S. Potofsky of the Sidney Hillman Foundation attacked the resolution for mentioning Douglas' acceptance of a \$1,000 foundation award.

The resolution said Douglas and Black accepted "awards of money and things of value" from Communist front organizations while members of the

It referred to a dispatch published by the New York Times reporting the presentation of the Sidney Hillman award to Douglas citing him as "one of the most steadfast guardians of our individual liberties.'

Potofsky called this "a perfectly shabby device" to "smear" Douglas by calling the the foundation "as Communist . . . by innuendo."

Rep. E. L. Forrester, a member of the House Judiciary committee which would hear any impeachment, said he will consider the resolution if it passes the Georgia Legislature and is presented to him.

He added that he will "initiate" the impeachment sought by the resolution if it furnishes legal

Beaux-Art Ball Adopts Theme 'Naughty 90's'

A Message from

Tolande To

M.E., Kansas State

"More personal recognition and more chance for advancement makes Emerson Electric an ideal place for a young engineer to build a brilliant career."

"The advantages of working for a medium sized company are real. It may be trite to speak of getting lost in the shuffle of giant organizations . . . but it happens. I know from my own experience that a man has a strong feeling of belonging here at Emerson . . . a quality essential to a satisfying job. Here your work is a direct contribution to the team goals of your organization and is recognized as such. Moreover, our projects are distinctly non-routine, varied, and highly interesting. And the tangible rewards are in the above-average

"Emerson's planned expansion program is another very definite reason why a young engineer should be interested in Emerson. If he gets in on the ground floor now, he will enjoy unusual opportunities for fast advancement in responsibility, recognition, and compensation. Emerson is definitely a place where a man can make his mark.'

Our vast expansion program, the most ambitious in our 66 year history, means one thing for the young engineer who comes in now . . . opportunity! Opportunity to grow with technology that's making tomorrow today. Opportunity to advance quickly into a fast moving series of more and more responsible positions with commensurably increasing rewards. Opportunity to profit from the cooperation of small teams of experts. Opportunity to move ahead without the constriction of clogged up top levels—such as you would encounter in companies which have already achieved their full growth.

Whatever your preferred field of engineering specialization (or generalization), there is a gateway to career progress waiting for you at Emerson. Commercially, since 1890, Emerson has been a leading producer of fans, motors, air conditioners, welders and power tools. The Electronics and Avionics Division, a leader nationally since 1940, designs, develops, and manufactures active defense systems for bombers, supersonic air frames, mortar locators, missiles and rockets like the Honest John.

You owe it to yourself to find out how you can get in on the ground floor of this fast growing, medium sized company. Meet Emerson's engineering representatives and talk over your career plans with them. Firm job offers can be made. If it's impossible for you to make a date, be sure to write A. L. Depke, Technical Placement Supervisor, for full details.

Six Couples Nominated For Saints Pat, Patricia

Six couples have been nominated for St. Pat and St. Patricia, royalty for St. Pat's Prom, the event which will climax Engineers' Open House activities, March 16.

The candidates and their sponsoring departments are H. C. Gorton, AgE Sr, and Virginia Roenbaugh, HT Sr. Agricultural Engineering; Ed Young, CE Sr. and Connie Taylor, Eng Jr, Civil Engineering; Darold Barb, ChE Sr, and Charlotte Strah, HEA Fr, Chemical Engineering; Jim Moore, EE Jr, and Mel Eaton, BMT Soph, Electrical Engineering; John Nuzman, IT Sr, and Lois Bones, EEd Soph, Industrial Engineering; and Pat Schmiedeler, ME Sr, and Dixie Brown, HDA Jr, Mechanical Engineering.

A seventh couple will be chosen by the architects today.

A tea will be held for St. Pa-

\$550,000 Wing To Seaton Hall Begun for AgE

Construction has started on the new agricultural engineering wing to Seaton hall, according to B. F. Gingrich, physical plant superintendent. The new wing will be on the north end of the present west wing to Seaton and is scheduled to be completed in 500 days.

Total estimated cost of \$550,-000 will include landscaping, curbing, and gutters, paving, sidewalks and other contingencies, Gingrich said.

The wing will be three floors high and will contain ten laboratories with adjacent classrooms, a drafting room, a student reading room, locker and wash rooms, a reference library, and offices for the Agricultural Engineering department.

The offices in the engineering building now occupied by the Agricultural Engineering department will be occupied by the extension division of agricultural engineering, after the new wing is completed. This arrangement will make it possible for Agricultural Engineering Extension to work more closely with the Agricultural Engineering department, the College feels.

Vet School Applications Available Starting Today

Applications for admission to the professional curriculum of the School of Veterinary Medicine will be available to pre-veterinary students in Boom 104 of Veterinary hall, starting today, according to Dr E. E. Leasure, dean of the school.

tricia candidates at 3 p.m. Sunday and a smoker for St. Pat hopefuls at 7:30 p.m., according to Dean Nehrig ChE Jr, chairman of the Sigma Tau selection committee. Both of these will be in SU 208. Fourteen members of Sigma Tau, two from each department, will interview candidates to select three finalists, for a general election February 21 and 22.

Their decisions will not be an-

nounced until the day before the election.

All engineers and architects will vote to determine who St. Pat and St. Patricia will be. The final outcome will be announced March 8, according to Nor Sutton, ME Sr, publicity chairman for Open House.

The winners may not necessarily come from the same department. The balloting will be set up so that candidates are voted for individually.

New Political Party Started on Campus

Temporary officers for a new campus political party were elected last evening at an open meeting in the Student Union.

No party name was chosen.

Those elected were: president, Roger Day, PrV Soph; vice president, Richard Barrett, CE Jr; secretary, Mel Eaton, BMT Soph; treasurer, Glenda L. Robertson, SEd Soph; and cochairmen of the publicity and speakers committee. Winifred

A. Killian, Art Soph, and Daniel F. Hahn, Sp Soph.

It was decided that these officers serve for one month's term. Following that period another election will be held. Day pointed the new party will be completely independent. "It will in no way be connected to either the Progressive party or the New All-College party," he said.

Approximately 50 persons were present.

In Four Incidents

Women Molested On, Near Campus

By ROGER MYERS and JIM BELL

Seven K-State coeds were molested on or near the campus last evening by an unidentified man wearing a pink plaid shirt and blue jeans.

None of the seven was hurt although the molester is reported to have slapped one of the coeds.

Four of the coeds were accosted in the vicinity of the Library, two more near the west side of Fairchild hall, and another off the campus.

Five of the women from the same off-campus residence hall, described the man as between five feet, six inches and five feet, nine inches in height and of slender build. Two of the women said the man had light brown hair which was rather long.

Dean of Students Herb Wunderlich said the incidents were not attacks or assults, but rather propositions. The man merely approached the women. "There was no tearing of clothing or physical injury."

Wunderlich stressed that if incidents of this nature should occur again the girls should get in touch with the campus police immediately.

The first incident occurred at approximately 6:50 p.m. on the main walk between the Library and the engineering shops. This involved only one girl.

As the girl approached the Library walking north the man was walking towards her. As they met, the man knelt as if to tie his shoe and as she passed he propositioned her.

The girl escaped the man and fled to the Library.

The second incident occurred on the cutoff walk between the Library and Illustrations hall at about 7:10.

This incident happened when two girls left the Library and were walking south towards Anderson hall. The man accosted them, using obscene words and gestures, but the girls fled and reached their organized house safely.

They said the man did not pursue them.

The third approach took place on the walk immediately west of Fairchild hall, about 7:20 p.m. Two girls, walking on that sidewalk saw a man approaching them.

As they met, the man again used obscene gestures and language. The women ran for a short distance, then slowed to a walk. They looked back and noticed the man following, but he made no attempt to catch them.

Five of the seven girls accosted were from Waltheim hall and made these statements:

"We weren't really scared at the time, but by the time we got to the Union, we were so scared we could hardly walk."

"I couldn't tell what his face was like, not enough to give an accurate description at least."

The other two girls involved in the incident could not be con-

Lafene Urges Students To Get Polio Injections

Dr. B. W. Lafene, Student Health director, has urged all students who have not had sufficient polio vaccination to take the rest of their shots.

"Many of the students have had only one injection and have failed to return for their second vaccination, for which they are now long overdue," Dr. Lafene said. The specified time between the first injection and the second is one month. The third shot is required seven months after the second polio injection.

"The first shot won't protect them against anything," said Dr. Lafene, "and the polio season is just four months away. There just isn't any excuse for anyone to get paralytic polio now that we have a preventive vaccine," he emphasized.

He said students under 20 may obtain the vaccinations free. Those over 20 will be charged eighty-five cents an injection.

Inspection Tour Of Apartments To Be Sunday

An open house will be held from 2 to 4 p.m. Sunday to give students and the public an opportunity to inspect the new College married student apartment houses in Jardine Terrace.

Six of the eight L-shaped buildings have already been occupied by student couples and their families.

Building G, in which the open house will be held, will be occupied Monday and Tuesday by 24 more student couples, and the final buildis to be ready by February 27 for occupation prior to March 1. A total of 192 couples will be housed when all buildings are occupied.

A NEW PARTY coming up? Pete Wimsatt, BA Sr, (standing, above) expresses his views during a meeting last night which discussed a new political party. Not without political overtones, Dan Farrell, PrL Sr, (left, below) and Ron Pettit, Phy Sr, seem to have some comments of their own, while Winkie Killian, Art Soph, and Joyce Graham, BA Jr, communicate by notes.

Pontius Pilates Everyone

(In the recent charges of cheating in an English exam, the buck has been passed enough to almost obscure the issue. The Collegian does not support dishonesty. Nor does it recommend individual persecution in this case. Let's clear the air and establish a clear precedent for action in the future.-Jane Moore)

MU Outlaws Corned Beef After Students Battle Police

By Shari Shellenberger

SWISS CHEESE, vanilla pudding, and corned beef, served as a dinner at a University of Michigan men's dormitory, caused them to protest by rioting all night against police, throwing swiss cheese and snowballs.

Although they were reprimanded the next day by the university president, the men won their point-corned beef was banned.

AT OKLAHOMA university, sororities have been given four years to reduce their memberships to 100, as a result of action taken by the Board of Regents. Six sororities will be affected by the new regulation; Delta Gamma, Chi Omega, Delta Delta Delta, Gamma Phi Beta, Kappa Alpha Theta, and Pi Beta Phi, all have over 100 members. The largest sorority has a chapter membership of 137.

Which makes one wonder how well the sisters know their sisters!

AT OREGON university, students and teachers are taking part in an Apple Polishing Party, an idea originated by Associated Women Students to allow students and teachers to become better acquainted outside the classroom.

Fifteen professors have been engaged to dress as "houseboys" and serve those

Pogo

who attend, while other professors have planned a skit.

A CARTOON in the Minnesota Daily shows Mr. Basketball taking time out from bringing the ball down court during an important game to stop in front of the television camera and say, "HI,

WOMEN'S PURSES contain everything, or at least so believes Jack McIsaac of the Oregon State Daily Barometer:

"Girl in one of our clases had her pen run out of ink right in the middle of some important note taking ... Was she shook? Not this little lady . . . she opened her purse, and out came the contents . . . lipstick, wallet, comb, cigarettes, bobby pins, scarf, pictures, glasses, and last, but not least, a great big bottle of ink. With this she casually filled her pen, refilled her purse, and went right back to her industrious note-taking."

As the Boy Scouts put it, Be Prepared.

BRINGING BACK the old joke about the University of Oklahoma, the Oklahoma Daily, in its first editorial of the semester, has vowed that it will:

"Work strenuously day by day to do credit to Bibler and will try to do its part toward the maintenance of a university the football team can be proud of."

Senatorial Pressure Forces Resignation of Asst. Sec. Ross

Compiled from the United Press By KEITH KEMPER

Thomasville, Ga .- The White House today accepted claims of resigning Assistant Defense Secretary Reobert Tripp Ross that there was no basis for his embroilment in a conflict-of-interest furore.

President Eisenhower last night accepted Ross' resignation effective February 20 or shortly afterward "in spite of your conviction that nothing you have done violates any legal or ethical standards," according to White House Press Secretary James C. Hag-

Sen. John L. McClellan said his senate investigating sub-committee will make no further inquiry into huge military clothing contracts awarded firms operated by Ross' wife and brother-in-law unless something new turns up.

The Ross resignation was forwarded to Mr. Eisenhower at his South Georgia vacation headquarters by Deputy Defense Secretary Reuben B. Robertson, who agreed with Ross that there was no evidence of wrongdoing.

But the President apparently agreed with Ross that it was better to resign because, as Ross put it, "my future effectiveness . . . has been impaired by the very serious implications contained in certain news stories about congressional inquiry."

Mr. Eisenhower expressed his "deep" appreciatoin to Ross for his expression of concern over "the interests and requirements of the department of defense" in his letter of resignation.

While the President continued his hearty but relaxing round of outdoor life, mixed with social affairs and a close watch on the Mideast, the news developed:

-Presidential Cough. President Eisenhower's slight but prolonged "scratchy throat" was tentatively blamed variously on a cold he developed during the inaugural ceremonies last month and exposure to dust during his recent drought inspection trip in the Southwest.

-Return. The President apparently has not set any definite date for ending his vacation stay on the plantation estate of Treasury Secretary George M. Humphrey, with the result there have been a number of conflicting rumors about the time of his return to Wash-

Speculation put the date of return between Sunday and late next week. Haggerty said present indications are that Mr. Eisenhower will remain in Georgia "into" next week.

-Stassen. Reporters could get no presidential statement about published reports that Harold E. Stassen plans to resign as disarmament adviser to the President early next year to run for Governor of Pennsylvania.

The White House staff meanwhile kept a hands-off attitude. Haggerty said he had "no information" about any such

Washington-Egypt hinted today that insistence on the Dulles plan to get Israeli troops out of Egypt might jeopardize King Saud's efforts to explain the Eisenhower Doctrine to other Arab rulers later

Egyptian sources also said Egypt was ready to fight if Israeli troops continued to refuse to leave Egyptian territory. They warned that such a war might touch off a major Middle East conflagration involving the world's great powers.

Secretary of State John Foster Dulles was meeting Israeli Ambassador Abba Eban in Washington today to clarify certain points of his plan. The Israeli cabinet was reported to have accepted parts of it but to have raised "certain condi-

The Dulles plan calls for Israeli withdrawal from the Egyptian fortress at Sharm El Sheik on the Gulf of Aqaba and also from the Gaza Strip. The United States would declare the Gulf an international waterway in order to protect Israeli shipping, and would work to get United Nations forces to take over Gaza.

Grimes Case Has Clue

Chicago-Coroner Walter McCarron conferred with his chief aide today in a broiling dispute over the latter's charge of a "cover up" in the medical findings on the slain Grimes sisters.

Harry Glos, coroner's investigator and former suburban Oak Park policeman, told newsmen he believed the teen-aged sisters had been beaten, tortured and sexually molested before they were killed.

"This may cost me my job," Glos said in an informal news conference, "but I cannot sleep knowing things are being covered up."

The investigator also said evidence indicated the girls were murdered a week or two after their disappearance and that Bennie (the dishwasher) Bedwell, 21, a skid row drifter, still is the best suspect.

Bedwell, who first confessed and then denied the slayings, is free on \$20,000 bond. A hearing on two murder charges against him was continued yesterday in police court until February 23.

McCarron later assailed Glos as being scientifically untrained to dispute the findings of pathologists and the state toxicologist who conducted exhaustive tests of the victims' bodies.

The scientists concluded the girls, Barbara Grimes, 15, and Patricia, 13, died a short time after they disappeared December 28 while on their way home from a movie. Their bodies, nude and frozen, were found January 22 in a ditch along the city's southwest outskirts.

The doctors also reported there was no evidence the girls had been abused in any way, although portions of the medical report were withheld from the public. They blamed the girls' deaths on exposure.

"I was in that room for five hours while the pathologists conducted the autopsy." Glos said. "I know what I saw and heard. It is time that some of it came out."

Trackmen To Tangle In Chicago Triangular

Chicago university in a triangular the Michigan team's Murchison. meet Saturday afternoon. Starting times are 1:30 for the field events and 2 for running events.

Track Coach Ward Haylett said that he would take a squad of 23 men to the meet, the Cats fourth of the year. A doubtful entry is sophomore quartermiler DeLoss Dodds. During the week Dodds had three teeth extracted and afterwards infection set in.

Haylett said that he would not know until this morning whether Dodds would make the trip. "His loss would hurt us very much,"

K-State's indoor track squad pic sprinter. According to Coach will journey to Chicago Friday to Haylett little is known about either take on Western Michigan and of the opposing teams other than

K-State entries:
60-yard dash—Dolan McDaniel,
Craig Jones, Dave Burton, Ben
Grosse, Gene Keady.
70-yard low hurdles—Gene O'Connor, Gary Doupnik, Billy Patton,
Grosse nor, Ga Grosse.

Grosse.

70-yard high hurdles—O'Connor,

seconds left.

By JAY WORKMAN

Oklahoma City university will invade Ahearn field house tomorrow with a team of five tall men that promises to be K-State's toughest non-conference opponent of the season. Tipoff is at 7:35 p.m.

Jack Parr and Bob Boozer, Wildcat skyscrapers with 19-plus scoring averages, may meet their matches in the tallest squad they will run into this year. This could be an individual scrap between Hubert Reed, 6-10 OCU center, and Parr, 6-9 Wildcat post man.

The OCU Chiefs, ranked 18th nationally by the Associated Press, were named top independent team in the area last year and appear headed for the same ranking this season with a 15-6 record ahead of this game.

Oklahoma City has a highpowered offense that has rolled up 80 or more points in 10 games this season, once tallying 107 against New Mexico.

"These Oklahoma boys aren't only tall, they're good ballplayers. Imagine men that big able to play a full-court pressing defense! And they can do just that," Coach Tex Winter said.

Winter rates the OCU game as possibly "one of the greatest displays of basketball we will

Alumni News

Two K-State alums have been Falls, Mont.; and Minneapolis, named to a group of 20 top farm Minn. leaders who will help America's farmers keep pace with the age of advanced mechanization. Named to the advisory committee of the Thor Research center for Better Farm Living were Roy Bainer and Orval C. French, both of whom received degrees in agricultural engineering and are now chairmen of agricultural engineering departments in large universities.

Bainer, a native of Ottawa, received his BS in 1926 and his master's in 1929; French his BS in 1930 and his master's in 1931. Bainer is now at the University of California at Davis and French at Cornell university in Ithaca, N.Y.

John Eldon Fluner, BS '51. started out in the furniture business, went to mortuary school in '55 and is now living in Greensburg, where he is in the furniture and mortuary business. He was a cheerleader at K-State for two years. He married the former Barbara Jean Cotton who also graduated in 1951.

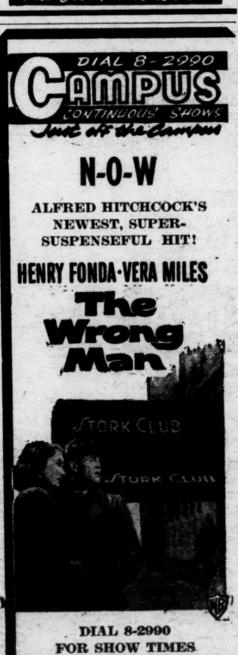

A member of Phi Kappa Phi, senior honorary, while at K-State, Harold Eugene Cable, BS '51, is now a farmer in Moline.

With the U.S. Foreign Service department in Saudi Arabia, James David Farrell, BS '51, was a member of Phi Kappa Phi while at KSC. He obtained an MA at the University of Chicago.

The job of field service engineer for A. C. Spark Plug division of General Motor corporation has taken Robert William Bell, BS '52, to far-away places since his graduation. A few of these are Pine Castle, Fla.; Lake Charles, La.; Albuquerque, N.M.; Great

Helen Anne Dean, BS '51, is presently teaching . English at Crane Junior High in Topeka While at K-State she had honors all four years, and was selected for membership in Phi Kappa Phi.

Advertising manager for the Norton Daily Telegram is Don DeLain Ward, BS '51. He married the former Carolyn Bartley upon graduation and was stationed in Japan during a stint

With the department of plant pathology at Cornell university in Ithaca, N.Y., is Gerold Fay Gregory, BS '51. He was a research assistant at Iowa State while he carried on graduate study and later taught in the botany department there, until going to Cornell in '56.

Richard LaRue Badenhoop, BS '51, is assistant sales promotion director for a television station. Before this he worked as a continuity writer for another television station.

Presently a production control supervisor for Remington Rand Univac is Richard Allen Cederburg, BS '51. In 1952 he was named assistant to the manager of university relations at Westinghouse Education center and in 1955 was transferred to the television-radio division at Westinghouse.

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of KCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality; material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now...for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus . . .

MONDAY, FEBRUARY 25, 1957

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

Meet Your Friends

KITE'S

Clings to the road like a stripe of paint!

The '57 Chevy can give lessons on taking curves and holding the road to just about any car going. Few cars at any price are so beautifully balanced and so smooth, sure and solid in action.

A car has to have a special kind of build and balance to keep curves under control. And nobody outdoes Chevrolet in that department! It "corners" with all the solid assurance of an honest-to-goodness sports car. Chevy doesn't throw its weight around on turns because it carries its pounds in the right places.

And if the road should turn upward, Chevy can take care of that nicely, too-with up to 245 h.p.*

Come on in and take a turn at the wheel of a new Chevrolet.

New Church Groups

Baptist Students

Students who would be interested in forming a Baptist Students union, a Southern Baptist youth organization, are invited to attend a meeting at the Burdick home, 2079 Tecumseh, at 7:30 p.m. Sunday, according to the Rev. Harold Ekrut. The First Southern Baptist church is holding its Sunday worship services at the Seventh Adventist church, 6th and Laramie street.

Mennonite Fellowship

The Mennonite Fellowship of Kansas State college was formally organized on campus last month, according to Jim Goering, AA Jr, president.

The fellowship is open to anyone who is interested. Social and discussion meetings provide fellowship and recreation for its 35 speakers from Newton and Mc-Pherson to discuss service projects sponsored by the church. It sponsored a quartet from Bethel college, Newton, and went Christmas caroling to Manhattan

ilar Mennonite fellowships on col- group discussions.

and university campuses throughout the country.

Unitarian Fellowship

"Progress-Real or Imaginary?" is the discussion theme for a series of spring meetings of the recently formed Unitarian Fellowship of Manhattan.

The group meets at 8 p.m., the second and fourth Sundays of the month at 321 Sunset (Girl Scout House). Anyone who is interested in studying Unitarianism is welcome to attend the meetings.

Chairman of the group is Jack Robinson, assistant professor of general studies; vice chairman, Gerald Miller, assistant professor of flour and feed milling; and secretary, Mrs. June Kirmser.

The members are making plans to start a Sunday school. Cecil Miller, professor in the department members each month. During the of history, government, and philpast year the group brought guest osophy, is the Sunday school chair

Bible Discussion Series

A series of discussions on Bible study will be started Sunday evening in United Student fellowship. shut-ins. Assistant Professor The first topic will be "Defining George Fadenrecht is the faculty Our Goals," in regard to what can be gained from the studies. In Although the campus Mennonite connection with the series Dr. organization is not affiliated with Maurice D. .. Woolf, professor of any national group, there are sim- English, will talk on leading

Student Religious Groups To Hear Guest Speakers

Tuesday, February 19, at her home, 1640 Osage, on her four years of experiences in missionary work in the Philippines. Dean and Mrs. Call returned from the Philippines last summer. Mrs. Call will discuss Christianity in the Philippines and will show her collection of native handicrafts. The meeting will be at 7 p.m.

The keynote speaker of Religious Emphasis Week, Dr. Louis Binstock, Rabbi of Temple Sholom, Chicago, and Rabbi Wolfgang Hamberger, discussion leader from Lincoln, Neb., will be honored with a dinner by Hillel members Sunday, February 17, at 5 p.m. The dinner will be at the Jewish Community center, 910 Lee street. The guests will also attend a reception at Wesley foundation Sunday at 8 p.m.

Christian

The World Students' Christian federation and the United Students Christian council is sponsoring the Rev. Laurence Kirkpatrick, Wellington, for the World Student Day of Prayer in the Chapel auditorium at 6:30 p.m. Sunday. The Rev. Mr. Kirkpatrick's topic will be "W. S. C. F., A Ministry of Reconciliation."

Disciple Student Fellowship

Members of the Disciple Student fellowship will honor national DSF president Bill Barr at a dinner and fellowship hour in the Student Union walnut room, Thursday, February 21 at 5 p.m. Bill, a senior in philosophy from Oklahoma A&M, will be a guest of the local DSF February 20, 21, and 22. At Oklahoma A&M he is a member of Kappa Sigma frater-

0 and 11:00 a.m. Worship Services 9:30 a.m. College Bible Class 0 p.m. College Student Program St. Luke's Lutheran Church 330 North Sunset Ave.

Mrs. Leland E. Call will talk, nity, Kappa Tau Pi (religious honto the members of Sigma Eta Chi. orary), YMCA, and has been a Religious Emphasis Week co-chair-

> Last summer Bill attended East Kilbride workcamp in Scotland and traveled in Europe. He will be glad to talk to anyone interested in attending a work camp.

Church Leader To Give Speech

Dr. Louis Binstock, Rabbi of Temple Sholom in Chicago, will be K-State's Religious Emphasis Week assembly speaker Monday at 9:30 a.m. in the College auditorium. His topic will be "The Power of Faith-What It Can Do for You.'

Dr. Binstock has served in the "Temple-on-the-Lake" in Chicago for 16 years. In addition to his ministerial work, he lectures over the radio and to audiences throughout the country. Much of his time is also spent in counseling people on personal problems. Dr. Binstock holds two doctorates. He has been in the ministry for 30 years, serving in Baltimore, Charleston, New Orleans, and Chi-

Following the assembly will be a roundtable discussion in Anderson rec center.

FOLLOW THE LEAD OF CHARLES BIXLER B.S.M.E., CLASS OF '51

Chance Vought offers the graduate engineer a wide range of opportunity

CHUCK BIXLER knows how variety helps the young engineer find a career field that suits him best. In Chance Vought's missile and fighter activities, he discovered every specialty he'd considered in school. He found others he hadn't known existed. Vought measured him for all these fields, and together they selected a perfect fit: structures and preliminary design work, where Chuck has advanced to lead engineer in about five years time. The same variety can be found at Vought by graduates from every field of academic training. Electrical, civil, mechanical and aeronautical engineers alike find a rich selection of avenues for growth. Moreover, they find the guidance they need to make a wise choice. Chuck, for example, was selected for Chance Vought's nine-month program of job rotation. After working in six different groups he gained a backlog of experience

that has since proved invaluable. Frank counseling, a versatile, growing company - everything that helped Chuck can help you. As a starter, ask our campus representative to point out the specialties you're qualified to enter. (You'll be surprised at the length of the list.) Your Placement Office can arrange your appointment. Or you may write for immediate information to Mr. C. A. Besio, Supervisor, Engineering Personnel Dept. CN-3, Chance Vought Aircraft, Incorporated, Dallas, Texas.

Our representative will be in your Placement Office Tuesday, February 19, to describe firsthand Chance Vought's program for young engineers. Reserve time for your own interview by making your appointment today.

NUMBER 88

Five Judging Points Listed For Engineers' Open House

Information sheets giving the five points which will be used in judging Engineering Open House exhibits March 15-16 were recently distributed by Ernie Johnson, CE Sr, chairman of the co-ordinating committee. Committeemen will carry the information back to their respective departments in order that exhibits may be prepared accordingly.

The five points for judging exhibits, as set up by Steel Ring, engineering honorary, are:

1. Originality - "Displays for Open House should be a product of the ideas of the students and should be built by the students. Therefore, any type of commercially prepared display cannot count under originality."

2. Arrangement and attrac-

tion-The way the departments utilize their available space will be considered here. Congestion has been a problem for some departments during Open House. This factor is to be considered so that no department will be graded down because it has poor facilities.

3. Continuity with the theme -The theme of this year's Open House is "Landmarks of Engineering." Exhibits will be judged on how well the display projects the theme as it pertains to the department's field of engineering. Creative imagination, clever and unusual ideas will be noted under this criteria.

4. Time and effort—This phase of the judging is to reward those departments whose displays show a lot of time and effort. Manpower available to each department will also be considered.

5. Public interest value-Displays will be graded on their public appeal and their public interest. Some emphasis will be given to how well the exhibits are explained.

Steel Ring selects one judge from each department who judges displays other than those of his own department. In addition, two judges from off campus are chosen. The identity of Open House judges is not disclosed.

Assignments Now In Rec Center

Student assignment sheets for the spring semester have been placed by letter groups in the recreation center of Anderson hall, according to E. M. Gerritz, director of admissions and registrar.

Gerritz urges each student to secure his assignments there before the end of the week. They were correct as of February 1. Each student is held responsible for the courses listed unless reassignments were made after that

Six Students Announced **IFYE** Representatives

Photo by Darryl Heikes

IFYE DELEGATES who will spend five months in a foreign country are from left (top) Joan Skupa, Elin K. McCandless, (center) Gary Rumsey, (bottom) Charles Miksch, and Leon Sucht. Larry Greene, HSp Jr, is not pictured.

Six K-State students have been named International Farm Youth Exchange delegates for 1957 and will spend five months with rural families in their host countries.

The delegates announced by the state 4-H club are Larry Greene, HSp Jr, and Elin McCandless, HDA Jr, who will go to France.

Charles Miksch, AH Sr, will be in Pakistan; Gary Rumsey, AEd Jr, Guatemala; Joan Skupa, TxC Sr, The Netherlands; and Leon Sucht, AH Sr, Panama.

The delegates, with the exception of Miksch, Rumsey, and Sucht, will leave for their host countries early in June. The other three IFYE's will leave next fall.

As part of the two-way exchange of rural youth, 24 exchangees from other countries will be coming to Kansas this year. They will be from Europe, India, Pakistan, Latin America, and Middle Eastern countries.

The IFYE program is sponsored by the National 4-H Club foundation and the Cooperative Extension service. It is a project of the Kansas 4-H foundation and is supported entirely by contributions.

Integrity Party Poll Hits 300 Students

Seventy-five per cent of ap- Union, to keep high school stuproximately 300 independent students interviewed in a survey are satisfied with the way the Integrity party has handled student government this year, it was noted Thursday evening when members of the party's committee on independents compiled the results of the survey they have been conducting for the past two weeks.

"By expressing their views, the independents have given us some very good ideas for our platform," Jerry Holliday, ArE Soph,

Among the suggestions presented to the committee members are paving the north parking lot, more strictly regulating poster-hanging on the campus, extending Library hours, providing for a Student Union book store, giving more publicity to such events as Student Council meetings which are open to everyone, substituting a quarter system for the semester system, and abolishing required Army ROTC and AF-

Other suggestions were to stop giving so much power to the Student Union, to serve beer in the

Architects Name St. Pat Candidates

Sandra Tenorio, Ar 01, and Jim Dent, Ar 01, have been chosen to represent the architects as candidates for St. Patricia and St. Pat, according to Charles Hight, Ar 05, president of the student chapter of the American Institute of Architects.

Seven couples have been selected as candidates. The other six were previously announced.

Three couples will be announced as finalists Wednesday.

dents and conventions out of the Union, to abolish Saturday classes, and to make 3 a.m. the closing hour for women.

SWAN DIVING toward the floor is OCU guard, Cecil Magana (23), who has just missed the ball which was picked up by K-State's Don Matuszak (20). Wildcats Roy DeWitz (11) and Jack Parr (33) are also shown. Parr was the game's top scorer with 27 points; Matuszak scored 22 and DeWitz tallied with 19 as the Cats downed the Chiefs 100-82 Saturday night in Ahearn fieldhouse.

People Seek Power, Faith Rabbi Says

"All peoples want and are seeking power; it may be power of prestige, wealth, security, humility, or peace of mind. Everyone is searching for faith til the end of their days-religious faith, faith in neighbor, friend, or member of the family, or searching for faith in ourselves," Dr. Louis Binstock, rabbi of Temple Sholom in Chicago, said this morning at the Religious Emphasis Week assembly in the Auditorium.

Faith is the vital problem of our times.

Dr. Binstock's 10 commandments for faith are:

1. Know that you have faith.

2. Start out with faith every morning and think people are your friends and not your enemies. Believe you have faith.

3. Stay with your faith; the hard part is carrying it out.

4. Make the most of your

capacities. 5. Recognize your limita-

tions. 6. Maintain a spirit of hu-

7. Dare to make mistakes. 8. Don't measure yourself

by others. 9. Don't demand perfection.

10. Trust your heart, your dreams and your visions.

Belief in a two party political system seemed to be the chief factor that brought out about 50 students to the meeting of a new political party Thursday night.

There were a few new faces there. Predominately the members of the old Progressive, and New All-College parties and a few members of the Integrity party formed the new party nucleus.

The meeting was a kick-off meeting for the organization of the new party. Although temporary officers were elected, no name was selected for the party.

The meeting seemed disorganized at first but became more organized as the meeting progressed.

Although some of the people there seemed very enthuastic in organizing a new party, most of those present seemed reluctant to make any commitments. They were there to see what was going to happen before making any decisions.

They have the right idea in wanting a two party system on the campus but are going to have to work hard (a fact of which they seemed aware) in order to pull much strength in the spring elections.

Although the Collegian takes no stand in College politics, we do favor more than one party on campus.

Are Organized Pepsters Freeloading?

School spirit at the Saturday night game between K-State and Oklahoma City university was tremendous!

It is only too bad that the members of Whi-Purs, Purple Pepsters and Wampus Cats didn't turn out to sit in their reserved section as well as the rest of the student body turn out to sit so cramped in their unreserved section.—Jane Moore.

Peace Trophy Still Designless By Darrel Miller

A Peace Pact trophy is not an easy thing to design.

Seventeen of us spent two hours Saturday night dangling our legs from the stone wall atop Bluemont hill and trying to think of an appropriate trophy. We were going to donate the \$5 prize to Hungarian relief.

But we got nowhere (except for one fellow who jumped off the wall and went crashing down the hill).

As I said earlies, a Peace Pact trophy is not an easy thing to de-

We sat there, watching the moon shine (two words), and ideas would come but they were no good.

Lester Pringle suggested crossed goalposts against a blood-red background. He immediately was thrown off the wall.

William (Bill) Jones suggested a Jayhawk impaled upon a splintered goalpost with the words "C'est plus qu'un crime, c'est une faute" embossed in scarlet on an azure foreground.

Charles (Charley) Root sneered. "Nobody would understand; besides it doesn't match."

Bill sneered back. "Of course they would understand. Everyone knows it means 'It is worse than a crime, it is a blunder.' This was said of the execution of the Duc d'Enghein in France."

The other 14 of us just sat there. Bill is a nice guy, and learned, but sometimes he needs a dictionary to know what he has just said.

Lester Pringle scrambled back up the hill, brushed himself off, and nonchalantly offered another suggestion.

"How about a turtle dove circling over a goalpost, with a scarlet Jayhawk and a purple Wildcat hanging from the crossbar and shaking hands?"

We ignored him. This time, in sheer frustration, he jumped off the wall.

I personally didn't want to design a trophy. It's too bloody. I figured it would be better to give the crowd at the KU-K-State game little white cards with this poem:

"I know a spot that I love full well;

"Tis not in forest nor yet in the dell:

"Though I would like to, I know dern well,

"I must not join in the slaughter."

This didn't go over so well. It would have made the \$5 prize unnecessary, and \$5 will buy a lot of beer.

Besides, as I may have said before, a Peace Pact trophy is not an easy thing to design.

Quotes from the News

By UNITED PRESS

Thomasville, Ga. — President Eisenhower in a special statement concerning actions toward Israel by this government and the United Nations:

"The United States has renewed its plea to Israel to withdraw in accordance with the repeated demands of the United Nations and to rely upon the resoluteness of all friends of justice to bring about a state of affairs which will conform to the principles of justice and of international law and serve impartially the proper interests of all in the area."

Hollywood — Frank Sinatra's lawyer, Martin Gang, commenting on a subpoena served on the actorsinger by three men who entered his bedroom:

"Why, someone might have been killed. Suppose Frank had had a gun handy. There have been two burglaries at his house recently, you know."

Washington — Rep. Emanuel Celler on Secretary of State John Foster Dulles forbidding American newsmen to visit Communist China:

"We can't have a free press, unless reporters are free to go wherever they please. I think it is deplorable that Secretary Dulles is flouting the first amendment." **World News Briefs**

KANSAS STATE COLLEGIAN Monday, February 18, 1957—2

Home for Aged Fire Claims 71 Victims

Compiled from United Press

By ROGER MYERS and JANE MOORE

Warrenton, Mo.—At least 71 persons were missing and believed dead today—victims of a fire and explosion that turned a home for the aged into a funeral pyre for more than one-third of its guests.

The blaze, which broke out yesterday afternoon in the Katie Jane Memorial home, was one of the worst hospital fire disasters in the nation's history.

Dr. F. H. Knigge, Warren county coroner, said 71 persons were missing in the holocaust which reduced the three-story brick building to a pile of rubble.

The blaze was the second within five days to sweep a midwestern home for the aged. Last Wednesday, 14 persons perished in a fire at Council Bluffs, Iowa.

Knigge said he was convinced none of the missing survived when several explosions and high-flying flames engulfed the 62-year-old structure.

The tragedy occurred during visiting hours and authorities

said more than 225 persons, including guests and visitors, were in the building. Most of the dead were trapped in the upper stories by smoke and flames.

Although the fire was brought under control within hours, search-

Although the fire was brought under control within hours, searchers were forced to halt the hunt for bodies until daylight because of the intense heat from the glowing ruins.

Only 10 bodies were removed by 10 o'clock last night, and they were so charred it was impossible to identify them, even by sex.

The blaze turned a peaceful Sunday afternoon at the home, located on a former college campus, into a scene of confusion and screaming panic.

Heroic bystanders climbed ladders to pull people from windows, injured persons were laid on the lawn until they could be removed to nearby homes and stores for emergency treatment, and a temporary morgue was set up across the street to handle the bodies.

Russians Slam Sin

Moscow—The trade newspaper Trud exposed one of Moscow's best-kept secrets today and admitted that prostitution really does exist in the Soviet Union.

The paper rapped those who pretend love is not for sale in the Communist system of state-controlled commodities and called for strict punishment of guilty girls.

The carefully-worded article of the hitherto taboo subject described "so-called girls of light conduct who promenade the streets of central Moscow looking for pickups."

"It is impossible to remain silent about this, impossible shamefully to close the eyes and say this doesn't exist here," the article said. However, it added, only a few girls have resorted to prostitution—"a heritage of the past."

It described a typical encounter: "Night. Moscow streets are under clear street-lights. Crowds of people hurrying to the movies and theater, and suddenly a bright, painted face of a woman. Studied smile, searching glance emphasized by negligent manner, Staring into the faces of men, she slowly strolls along the sidewalk."

According to Trud, the girls do not want to make an honest living, but prefer a "fast life."

Cough Bothers Ike

Thomasville, Ga.—President Eisenhower probably will fly back to Washington tomorrow, cutting short his Georgia vacation because of the Middle Eastern situation. Observers speculated he may make a personal appearance before the United Nations General Assembly.

The President still is hacked by a cough, described medically as a form of tracheatis. But it is expected to disappear once he leaves the quail and wild turkey hunting fields of the vast plantation of Treasury Secretary George M. Humphrey.

Eisenhower was deeply disturbed by the situation involving Israel and Egypt and was in frequent telephone contact with Secretary of State John Foster Dulles. Until Dulles' flying trip for consultation last Saturday the President had not planned to return to Washington before next weekend.

Last night, however, the word circulated through White House circles here that the President would fly back on Tuesday.

Asked if this was not more attributable to the President's throat situation than the Middle East, Press Secretary James C. Hagerty was indignant. He said there was nothing wrong with the President and that the Chief Executive was returning to Washington, "if he goes on Tuesday," only because of the "international situation."

The President was advised Saturday that because he was still coughing, he should stay away from the hunting fields regardless of how long he stayed down here.

His cough developed during the chill and dreary days of the inauguration and the condition was not helped at all, according to throat specialists, by the light dust of the hunting fields down here.

Queen in Portugal

Lisbon, Portugal — Queen Elizabeth II and the Duke of Edinburgh moved today from their honeymoon yacht to separate suites in a pink marble palace for the start of a three-day state visit to Portugal, Britain's oldest ally.

The well-practiced pomp and circumstances of a royal state visit was given new significance by reports that all the groundwork has been completed for a similar visit to the United States next fall.

Hundreds of Portuguese shivered through the night holding vantage points to watch the royal couple come ashore in a royal and ancient barge that was used by the Queen's great - grandfather, King Edward VII, when he made a state visit to Portugal in 1903.

The stiff protocol of a state visit decreed separate suites for the royal couple in coral pink Quelez palace, their official home for the three-day visit. They were reunited only Saturday after four months of separation and a week of gossip.

Two days of light hearted privacy aboard the royal yach Britannia appeared to had dispelled the last talk about any coolness between the royal couple.

Cats Face Huskers After Belting OCU

Collegian Sports Editor

K-State's Wildcats took time off from a 2-team Big Seven basketball race to stomp tough Oklahoma City, 100-82, in Ahearn field house Saturday night.

Coach Tex Winter's Cats battled through an even first half that ended in a 51-51 tie, then squelched OCU hopes at the start of the second half on the way to a season high mark of 100 points.

Tonight the Cats will be back in the thick of the Big Seven race as they travel to Lincoln for a game with Nebraska.

K-State earlier dealt the Cornhuskers a decisive 89-53 loss on the Field House floor. The Huskers were beaten Saturday by Iowa State, dropping their conference record to 3-4...

"We're going up there to beat them," Winter said of the Newraska trip. "We expect they'll be ready and we know we'll have to be ready.

Oklahoma City went into Saturday's game with a 15-6 record and a 13th place ranking in the Associated Press major college basketball poll.

Jack Parr and Don Matuszak were the big men for K-State Saturday. "They played the greatest games of their careers," Winter said.

"Parr proved to a lot of people that he is all-American. But the whole team played great ball."

Parr led all scorers in the game with 27 points-in addition, he grabbed 18 rebounds. Matuszak hit 22 points, the highest total of his collegiate career. As if this weren't enough,

the 5-11 guard helped out the big men with five rebounds and his playmaking efforts.

All the K-State starters scored in double figures-Roy DeWitz had 19, and Eddie Wallace and Bob Boozer each got 11.

For the Chiefs, 6-10 Hubert Reed got 25 points, and Lyndon Lee, 6-5 crowd batter, hit 23.

The two teams played on even which ended in a 51-51 tie. However, K-State came out at intermission and won the game by scoring 21 points while OCU was getting only four.

That stretch included strings of nine and twelve straight points and left the score at 72-55 with 13:35 left in the contest. The Chiefs attempted to make

a game of it then, and they almost did. They narrowed the margin to 11 at 81-70 with 7:29 remaining in the contest. Then Boozer took over. He

scored seven of his 11 points after the clock showed 5:30

Wallace notched the 100th Cat point with :22 showing on the clock. The little guard dribbled the entire length of the floor through the OCU team for a lay-

K-State hit 49.2 per cent of field goal attempted with 32 of 65 shots. The Chiefs got 23 of 62 for 37.1 per cent.

Cats Win Triangular

Gene O'Connor and Tom Rodda | led the K-State indoor track team to a triangular victory over Western Michigan and Chicago university at Chicago Saturday afternoon.

The Wildcats won eight of 12 events and rolled up 63 points teammate Jesse Unruh. to 33 1/2 for Western Michigan and 321/2 for Chicago.

K-State's outstanding performance probably came from Rodda when he ran the mile in 4:19 to take first and break the school record set by Don Landon in 1932 who ran the distance in 4:20.6.

Rodda also won the 880-yard run in 1:58.3, running ahead of

O'Connor won both 70-yard high and low hurdles and anchored the mile relay team which won in 3:23.1.

Swimmers Nose Colorado

nosed out Colorado 47-39, by virture of a victory in the final event, the 400-yard freestyle reterms through the first half lay, in the Nichols gymnasium pool Friday afternoon.

Kansas Seniors To Take Exams Here Tomorrow

About 100 Kansas high school seniors will be on the campus tomorrow to take examinations for scholarships awarded by K-State and the University of Kansas.

The testing program, for Putnam scholarships to K-State, and Summerfield and Watkins awards to KU, is being conducted together for the first time this year by the two schools. About 800 high school seniors will be taking examinations at 10 locations in Kansas today and tomorrow. Tests will be given in Dodge City, Wichita, Lawrence, Colby and Salina Monday, and Great Bend, Wichita, Kansas City, Stockton, Chanute, and Manhattan Tuesday.

To be considered for Putnam, Summerfield, or Watkins scholarships, the students have to be nominated by their high school principal, and must take the examinations at one of the centers.

At K-State, the seniors will assemble at 8:45 a.m., in the Union little theater.

Student Council

Okays Athletic Holiday; Adds to Exam Schedule

Motions for an athletic holiday and an addition to the final examination schedule were among the actions taken last night by the Student Council.

The Council recommended that Thursday, March 7 be de-Aclared a student athletic holiday if K-State beats KU in basketball the day before.

The recommendation, to be forwarded to President McCain for final approval, stated that the holiday would be added to Easter vacation in the event K-State lost.

Also approved was a motion to add a notice to the final exam schedule stating that a student who has three or more finals on one day may petition his instructors to take one of these exams on another day. However, the petition must be accompanied by a dean's permit.

The Council apponted Roger Tointon, LDs Jr, to fill a vacancy on the Union Governing board. Tointon will fill the vacancy left by the resignation of Leon Armantrout, Ar 05.

Due to a lack of entries, the contest for ideas on a new K-State-KU Peace Pact trophy has been extended until 5 p.m. Friday. The Council urged all students who wish to submit ideas for the trophy to leave them at the Union information desk.

Applications for an opening on the board of directors for Campus Industries will be accepted in the Dean of Students office all day Wednesday, Jerry Holliday, ArE. Soph, announced. Any student is eligible to apply, he

It was decided that the reconition banquet for Council members would be held April 4 in the west ballroom in the Union. One outstanding member of the Council will be honored along with one member of each standing SGA committee.

The Campus Business Relations committee decided to work out a questionnaire to be sent to students for opinion on Manhattan prices and to determine what percentage of student purchasing power is utilized in Manhattan.

GIMME THAT-Cornhusker center Ron Parsons (24) tries to steal the ball from K-State's Don Matuszak (20) during the Cats' 81-56 rout of Nebraska last night.

UGB Airs Coat Checking Problem; Spring Elections

The Union Governing board concentrated on the problem of what to do about providing coat and article checking facilities in the Union during a regular UGB

session last night in the Walnut Dining room.

The Board also forwarded two names to the Student Council for selection to fill the vacancy created on the UGB by Leon Armantrout's resignation: and selected March 18 as the deadline for UGB applications for next year.

The motion to install coatchecking facilities in the Union arose as old business.

Mary Lu Compton, Sp Jr, said most Big Seven unions provided free coat and article checking facilities that guaranteed safe storage of garmets.

Compton's statement drew discussion - from Keith Swenson, Ar 04, who said he had lost a coat in the Union in the fall and several board members said they had heard of other instances of articles being stolen from the Union.

Board secretary, Loren Kottner, said only three reports of stolen articles had been turned in but undoubtedly more articles had been pilfered.

However, "Many people don't report the loss of articles or even check with the information desk to see if the article has been turned in," Kottner said.

"This situation boils down

to two main points," he said. That of watching the people who are careless and leave their coats lying around the Stateroom, and the problem of where to put such facilities.

Miss Compton suggested a check room be set up just behind the information desk in what is now office space.

Kottner explained that although the section just east of the information desk was originally designed as a check room, unforseen administrative functions necessitated additional desk space and the area wouldn't be available.

It was moved and seconded that the Union management be instructed to investigate the possibilities of installing coat and article facilities.

In other action; the Board selected Jerry Smith, Gop Jr, and Roger Tointon, LDs Jr, as finalists to fill a vacancy on the UGB. The names /ere forwarded to the Student Council which will pick the person to fill the vacancy.

The Board set March 18 as the deadline for applications for Union Governing board positions. They agreed that UGB members should be chosen first so as to get a choice of only the best qualified people.

By KEITH KEMPER and ELDON MILLER

Lincoln—The K-State Wildcats continued their torrid pace in the Big Seven conference basketball race here last night as they won their sixth consecutive conference game by slapping Nebraska 81-56 before 7,000 fans in the Coliseum.

The victory gives K-State a string of eight consecutive victories and makes more likely the possibility of the championship being decided in Manhattan on March 6 in the game with Kansas university.

The Cats, with two losses in the conference, must face Iowa State on two consecutive Saturday nights before meeting the KU five.

K-State took over where it left off Saturday night and moved ahead early in the contest last night.

Jack Parr led the Wildcat scoring with 25 points on 9 field goals and 7 free shots. Bob Boozer finished the game with 23 to be second high scorer in the game.

Boozer got the Wildcats started last night as he hit for a gift toss to open the game's scoring. Parr followed with a pair of free shots to make the score 8-0 with less than two minutes played.

Then the fireworks hit. K-State racked up an 11-0 lead over the hosts before Lyle Nannen potted a one hand jump shot from the corner with 15:45 remaining in the half.

Nebraska's Rex Ekwall then followed with a pair of gift tosses to narrow the K-State margin to seven, 11-4, the closest Nebraska could get to the Wildcats all night.

Roy DeWitz quickly added four points as he capped off fast breaks with layups and put the Cats out front 17-4.

With Boozer, Parr, and De-Witz leading the way in the scoring department, K-State then stretched its lead to 30-11 with 6:53 remaining in the first half.

After a 38-15 margin with less than four minutes showing on the clock in the first half, Nebraska's center Bob Parsons and Ekwall pulled the hosts to within 19, 41-22, just before the half ended.

The intermission break failed to stop the Cats as Parr potted six points in less than six minutes of play in the sec-(Continued on page 4)

PiKa, Acacia Off the Hook

No action will be taken against Pi Kappa Alpha and Acacia fraternities, in answer to charges that these two fraternities had access to nine-week Written Communication I tests prior to the exam last semester.

The decision was made by Dean Herbert Wunderlich in a special meeting of the Judicial council of Intrafraternity council, last night.

Wunderlich also accepted a suggestion that the newly formed Judicial council be responsible for handling violations of the College honor code by fraternities.

Intrafraternity council will amend its constitution to include the suggesions, according to Pat Roberts, TJ Jr, IFC publicity chairman.

The Judicial council was recently installed as a branch of Intrafraternity council. It is composed of senior members of IFC council, and will have the final say in Council matters in the future.

WORK BEGINS on the new wing to be added to the present Engineering building as the pipe line is laid. The wing is scheduled to be done in about 500 days.

Debaters 2nd at Emporia

K-State debaters placed second in the senior division of the Kansas State Teachers college debate tournament at Emporia Friday and Saturday. Anita Grimm, Soc Jr, nior and Dave Nuttle, AH Jr, were top K-State scorers, winning five and losing one.

Ed McCoy, PrL Jr, and Jim test for women. Shane, His Jr, also won five and lost one in the senior division.

In the junior division Kay Eplee, BA Soph, and Bob Paulson,

ChE Soph, won five and lost one debate, but were defeated in the quarter finals.

McCoy placed second in the sedivision extemporaneous speaking contest for men, and Patty Trent, reached the finals in the extemporaneous speaking con-

Students and teachers from 41 schools participated in the tournament. K-State's overall record was 21 wins and 9 losses.

College Budget Faces Legislators; \$2 Million for Buildings Asked

(This is the third in a series of stories about K-State's budget request now facing Legislative action.)

By GEORGE F. VOHS

If K-State's request for educational building funds (EBF) is approved by the Legislature, students will see the start of a new Student Health center, and additions to Eisenhower and Kedzie halls.

Educational building funds come from a one-mill tax levy, or \$1 for every \$1,000 collected. Three-fourths of this one-mill levy is earmarked for classroom and other building improvements, while one-fourth is reserved for dormitory construction at state schools. The improvements requested in K-State's general budget for educational building fall under the three-fourths allocation of the tax levy.

The funds are requested for a biennium, or twoyear period, instead of the usual single fiscal year as are other budget requests.

The College's request for \$2,038,000 in educational building funds received a bit of shuffling in Gov. George Docking's budget. The net result was that K-State came out shorter by \$14,000.

The governor's budget cut \$35,000 requested for converting a meats lab in Waters hall into a wheat quality testing lab, and slashed \$25,000 from a \$50,000 request for general preplanning of a Physical Science building and a Dairy and Poultry building.

The Governor also added \$46,000 to the EBF from general revenue. By cutting \$60,000 and adding \$46,000, K-State suffered a net loss of \$14,000. The total EBF request now facing the Legislature's approval is \$2,024,000.

If approved, this request will grant \$400,000 for a turbo generator and auxiliaries for the Physical plant, \$450,000 for a new Student Health center, \$53,000 to remodel and equip the Veterinary Science hall, and a \$65,000 equipment fund for the new Animal Industries building.

Also \$35,000 is requested to remodel the first floor and basement of Anderson hall, \$250,000 for an addition to Eisenhower hall, \$250,000 for an addition to Kedzie hall, \$50,000 to supplement the funds already provided for a new Ag Engineering wing, \$400,000 added to the funds for a new Home Economics building, and \$25,000 for preplanning a Physical Science building and a Dairy and Poultry building.

In adding the \$46,000 from general revenue to EBF, Governor Docking provided \$24,000 for a new water main connection and boster pump; \$10,000 to remodel two houses at the Garden City Experiment station; \$5,000 for a metal storage building for the industrial engineering department; and \$7,000 for a machine shed and equipment at the Colby experiment station.

The new addition to Eisenhower hall, if okayed by the Legislature, will be the College's immediate answer for more classroom space to take care of increasing enrollment.

The new wing will provide classrooms capable of seating 100 to 150 students and lecture rooms capable of seating 500 students. This will enable instructors to teach larger class sections. About 40 students a section is now the maximum in present classrooms.

The Kedzie addition will also provide more classrooms for general instruction. However, it primarily will be used to enable the College Press to expand and to improve journalism facilities.

Probably the most significant improvement in-

cluded in the EBF, as far as students are concerned, is a new Student Health center. If this section of the EBF is approved, it will climax a long student fight for better health facilities on campus. The present Health center is a disgrace to the College. In 1955 the Kansas Board of Health threatened to revoke the center's license unless better facilities were provided.

The new turbo generator and auxiliaries for the Physical plant are needed because new buildings added to the campus since World War II have increased the College's electrical requirements to the extent that present generators are not able to carry the load.

The auxiliaries included the request are a condenser cooling tower, pumps, turbine base, piping, and costs of installing the turbine.

Even with present stand-by connections to the Kansas Power and Light company, if a large turbine failed now, a major part of the campus would not have electric power until the turbine was repaired.

Hot Air, it Works Wonders

Research Confirms Woman's Suspicions

It's doubtful that Chun F. Chueh, a recent graduate in Chemical Engineering from Taipei, Formosa, and author of a thesis on "The Effect of Sonic Vibrations on Rate of Drying," ever visualized his work with the application of sound to mass transfer bearing the name of a woman whom he probably never knew.

Chueh has demonstrated by experiments that the application of sound does accelerate the rate of drying, or speeds up the rate of evaporation, in the transfer of matter from one physical state to another

This phenomena is now referred to locally as the "Bundy effect" and although she probably isn't aware of it, was named for Mrs. Fred H. Bundy.

Mrs. Bundy's husband was assisting Prof. Raymond Hall, Department of Chemical Engineering, and Chueh fashion some of the special equipment they needed and became curious as to the nature of its use.

The project, underwritten by the National Science Foundation, was supervised by Professor Hall and is of practical interest despite the fact that it was done purely as fundamental research. This study brought the application of sonics to any situation where mass transfer is a problem.

The petroleum industry, the makers of oleomargarine, soaps, and plastics manufacturers are a few of the many who may utilize it.

Chueh and Professor Hall found that frequency was the extremely critical variable while intensity could be varied considerably. Using a frequency of 1150 cycles (roughly a pitch two octaves above Middle C) and varying the intensity from 80 to 130 decibels—a decibel is the usual unit for measuring the relative loudness of sounds (ordinary refrigerator—35db, pneumatic drill at 5 feet—120db)—they were able to increase the drying rate approximately 3 times.

Sonic vibration transfer might be compared to clothes hanging on a line to dry. The speed with which they dry depends upon such things as temperature humidity and the amount of wind. If, however, the clothesline were located near a railroad terminal where engine whistles were in constant use, the clothes would, in theory, dry faster due to the sound vibrations.

When this was explained to Bundy, he found it easy to believe because his wife had told him many times that her clothes always dried faster if she stayed out in the yard and visited with her neighbors rather than returning to the house.

Then and there the "Bundy effect" was born. Today, its innovator Chueh, is at Georgia Tech doing research in new methods of ore extraction, while Professor Hall, and we suppose the National Science Foundation, remain to ponder the "effect" of a lady who enjoys visiting while her laundry dries.

Engineers Make TV Films To Publicize Open House

Four 15-minute television films which will be shown throughout Kansas to publicize Engineer Open House are scheduled for completion by February 20, according to Darrell Brown, ME Jr, in charge of TV publicity for the March 15-16 event.

All departments in the School of Engineering are contributing displays for films previewing this year's Open House program. Films from Applied Mechanics, Civil Engineering, Mechanical Engineering, and Industrial Engineering have already been made. Most of the filming is being done in Nichols gym.

Photographer for the engineers is Don Kearns, PEM Soph. Photography is under the direction of Marshall Truchon, EE Soph, who was formerly with Station KTVH at Hutchinson. Technical advisor s Skip Landon, assistant direcor of station KSAC.

The films are financed from the ngineer Open House fund allocated from student fees. The open house executive council has allotted \$400 for television films this year.

Stations that carried the films last year have been contacted and final arrangements for showings the first two week-ends in March are being made.

The stations - KOAM-TV, Pittsburg; WIBW-TV, Topeka; KCKT, Great Bend; KTVH, Hutchinson; and KARD and KAKE, Wichita-donate time for the showings from public service allotments.

A demonstration prepared by students of Applied Mechanics illustrating the gyroscopic principle, niture manufacture. stars a cat and explains how the animal uses its tail to make a perfect four-point landing under almost any circumstances.

By shifting loads on a model at and explaining the results, applied Mechanics students show why the center of gravity must be kept in mind in design of boats.

"History and Uses of Asphalt," "History, Development, and Manufacture of Cement," and "Pre-Stressed Concrete Bridges," are subjects of a film planned by the civil engineers.

The mechanical engineers have been working on a demonstration of a prony-brake, which calculates the horsepower output of an engine, and on a dissertation on a diesel engine built about 1900.

Industrial engineers will show viewers how to drill a square hole and will demonstrate an automatic

Wildcats Win 8th Straight

(Continued from page 1) ond half to lead the K-State assault.

After posting a 55-28 margin with 14:20 to be played in the game, Nebraska caught fire and scored seven points in a little more than a minute to knock the Wildcat margin down to an even twenty, 59-39.

The Cornhuskers soon cooled off as Parr and Boozer went to work clearing the boards and pushing in points to move the Cats ahead, 64-39 with 9:30 remaining.

With Boozer, a Nebraska product himself, leading the onslaught, the Cats quickly pulled away and moved to the 81-56 victory. In those clos-ing nine and a half minutes of the final period, Boozer connected for a total of 14 points to bring his night's total to 23.

Wallace and Don Matuszak lead the Cat defense against Nebraska as K-State used the same pattern offense and defense as they used so successfully against this same club less than two weeks ago.

Wallace and Matuszak added a total of 5 and 8 points respectively with DeWitz adding 14 to round out the scoring for K-State.

Boozer and Parr tied in the rebound department with 14 each.

Nebraska connected on 27.7 per cent of their field goal attempts compared to 46.8 for K-State.

K-State's next game will be Saturday night in Ahearn Field House as the Cats play host to Iowa State in a Big Seven conference battle. Iowa State beat K-State by 10 points in the Big Seven basketball tournament early in the year, 74-64. K-State-81

BOB BOOZER eyes, then shoots as he adds two points to his total during action in the Nebraska-K-State game last night in Lincoln. Attempting to block Boozer's shot is Nebraska's Don Smidt. Boozer ended the game with 23 points for second high honors.

Cage Loop Formed; Area Teams Included

By UNITED PRESS

Oklahoma City-Six independ- terested in the new league. ent colleges have voted to stage a one-season trial run, starting in 1958-59, of a new major basketball conference that eventually is expected to have 10 teams.

Delegates from Oklahoma City university, Marquette, DePaul, Detroit, Creighton, and Regis reached the agreement yesterday, pending approval of governing bodies of all schools involved.

A representative from Memphis State attended yesterday's conference, but admission of that school has been postponed pending settlement of racial problems.

Louisville, Butler, Valparaiso, Rockhurst, St. Ambrose, and possibly Missouri Valley members, St. March 21 in Kansas City.

Louis and Drake, are reported in-

Plans call for the loop to be divided into b-team Eastern and Western divisions, with the conference winner to be decided by a playoff.

During the first year, if no more than the original six teams enter, OCU, Regis and Creighton will play in the Western division and the other three in the Eastern division.

Also, each team will play two games each with other teams in its division and one each with teams in the other division for a total of seven games the first year.

The group will meet again

Big 7 Race Doubtful With 4 Weeks Left

By UNITED PRESS

Kansas City-The Big Seven basketball race ends in four weeks, but indications are there still are plenty of surprises in store before any team gains the championship.

Kansas, of course, is in the favorite's role. But red-hot K-State, riding a 7-game winning streak, definitely is still in the picture with only two losses.

Kansas, with only one loss, still has to meet the Wildcats at Manhattan, and play its 2game series with Colorado.

Missouri and Oklahoma virtually are out of the championship race, but the other four teams could make things mighty rough for Kansas the rest of the way.

Colorado showed a definite interest in re-shaping the race by upsetting Iowa State and whiping Oklahoma last week. Should the Buffaloes whip Kansas in one of their games, it might set the stage for a Hawk-Cat championship game at Manhattan, March 6.

However, to keep in the running K-State would have to top Iowa State in that series which starts at Manhattan Saturday night.

In games last night, K-State won its second game from Nebraska, 81-56. The win upped the Cat standing to 6-2 in conference play.

However, K-State could not gain on KU's Jayhawks. The Hawks took a 76-56 win from Oklahoma at Lawrence. That left Kansas with a 7-1 Big Seven rec-

Cats Move Into Top 20 In UP Poll

By UNITED PRESS

New York-The North Carolina Tar Heels led the United Press college basketball ratings today for the fifth straight time. but their point-margin over the Kansas Jayhawks narrowed for the third week in a row.

The 35 leading coaches who rate the teams for the United Press gave North Carolina 23 first-place votes and a total of 334 points. Kansas received 11 first-place votes and 315 points.

K-State picked up 10 points in the poll to rank 19th. This Saturday, the Cats play 10th

ranked Iowa State.

Doubles Tonight

Intramural badminton singles adavnced to the semi-finals stage in the fraternity division and the finals in the independent division last night in Ahearn gymnasium.

Beta Theta Pi placed two men in the semi-finals when Sonny Ballard defeated Sigma Phi Epsilon's Howie Rice, 15-6, and Larry Atzenweiler beat Phi Delta Theta's Dave Davidson,

Completing the Greek semifinal brackets are Bill Davis, Delta Upsilon, with a 15-13 win over Glenn Huebner, Phi Kappa Tau, and Keith Andler, Pi Kappa Alpha, who whipped George Phipps, Beta Theta Pi, 15-3.

Independents making the finals are Orville Linder, Jr. AVMA, with a victory over Phi Epsilon Kappa's Tom Starns and Ray Chun with a win over Gary Wing of the House of Williams.

IM Badminton Stilt Wilts, KU Wins

By UNITED PRESS

Coach Doyle Parrack of Oklahoma saw a dream come true last night, but it didn't do his cellardwelling Sooners any good and they bowed to Kansas, 76-56.

The thing Parrack and his fellow coaches probably have been dreaming about is fouling Wilt Chamberlain out so their team would have a fighting change against Kansas.

It happened with 8:56 to go -enough time for a comeback from a 17-point deficit at 59-42-yet all that occurred was that the other Kansans turned red hot and soon boosted the margin to 22 points.

Wilt got only 11 points but his teammates performance kept Kansas riding high in the Big Seven with a 7-1 mark.

Sophomore Ron Loneski stepped in to fill Chamberlain's shoes by scoring 28 points, even though Oklahoma's Don Schwall was high-point man with 30. legian want ad.

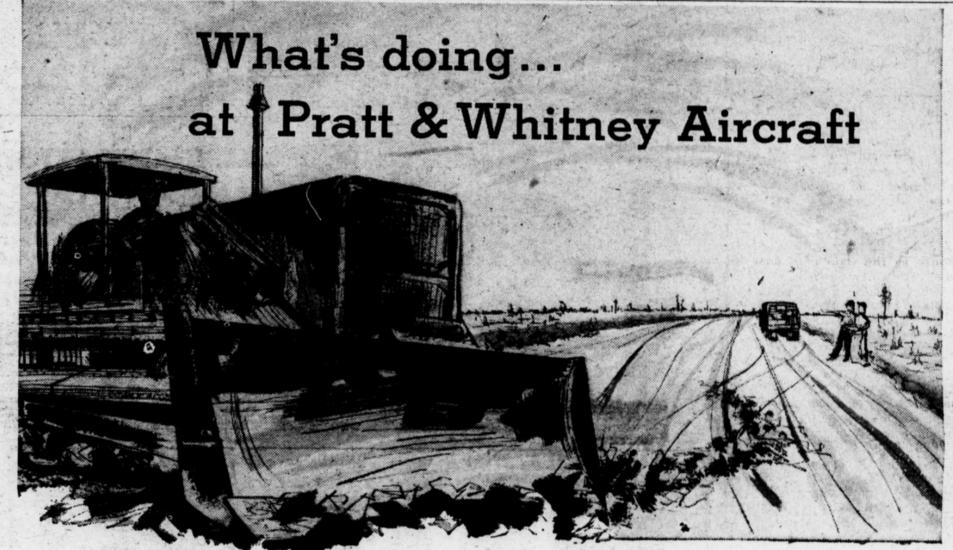

Oklahoma was cold from the beginning and let Kansas run up a 10-2 score early in the game, and things didn't change much with Chamberlain on the sidelines.

It was Wilt's poorest point production yet at Kansas. Previous low was 12 against Iowa State in the pre-season tournament.

Missouri's Tigers tromped Marquette, 98-76 in a non-conference battle at Columbia last night.

Lionel Smith of Missouri hit 44 points—the highest ever for an MU player-as three records fell. Mike Moran had 38 for Marquette-the highest ever for a visiting player at Missouri. And the 98 points by Missouri was the most ever scored by a single team in Brewer field house.

You'll be pleased with a Col-

New "high-road" to

JET ENGINE FRONTIER

in Florida

Heralding important things to come, work was begun in late summer, 1956, on a wide access road in a remote section of Palm Beach County, Florida. At the end of that road, situated northwest of West Palm Beach, a 500,000-square-foot plant destined to be the newest addition to Pratt & Whitney Aircraft engineering facilities is already well under construction.

Here, engineers and scientists will soon - be hard at work dealing with new and increasingly complex problems relating to advanced jet aircraft engines. Working in close coordination with men at other P & W A establishments - particularly the company's multi-million-dollar Andrew Willgoos Turbine Laboratory in Connecticut -

DIVISION OF UNITED AIRCRAFT CORPORATION

this newest section of the Pratt & Whitney Aircraft team will face a challenging assignment. They, too, will be concerned with design, testing and development of highly advanced, extremely powerful jet engines which will join a family already including J-57 and J-75 turbojets, currently playing important roles in the growing military and commercial air power of the United States.

The engineering graduate who begins his career at this Florida facility will have the rare opportunity of keeping pace with its anticipated growth. In an organization renowned for development engineering superiority, he will gain invaluable experience working on vital, long-range projects that are a challenge to the imagination.

Alpha Xi Delta and Phi Kappa

First of all, what's it all about? What does a fellow like John Jackson do all day? In his own words, "I keep

in touch with the executives of many different companies-advising them on the use of their IBM electronic data processing computers. I personally consult with these customers, and analyze their scientific and technical problems for solution by IBM. Occasionally, I'm asked to write papers, and give talks and demonstrations on electronic computing. All in all, it's pretty fascinating . . . something new pops up every day." In other words, John is a full-fledged

Calling on a customer

coming age of automation through electronics.

Since the IBM laboratories are always devising easier and faster ways to solve the problems of science, government, and industry, an Applied Science Representative can never say he's learned his job and that's the end of it. At least once every two months, he attends seminars to be updated on the latest developments in engineering and operations research.

Infroduces new methods

During the two years that John has spent with IBM in Applied Science, he has guided innumerable IBM customers to new and better ways of doing things electronically. For example: about a year ago, a leading aircraft manufacturer wanted to experiment with a radically different design for a nuclear reactor. Although the basic format had been established, the project still required many months of toil with mathematical equations.

What a MATHEMATICIAN can do at IBM

Mathematics is an ancient but ever-advancing science that contains many forms. It shouldn't surprise you then that it took some time before John Jackson discovered the one brand of mathematics that seemed customtailored to his ability and temperament. John is an Applied Science Representative, working out of the IBM office at 122 East 42nd Street, N. Y. C.

The aircraft people decided that they couldn't afford to wait that long, so they called in IBM. After discussion with top executives, John helped to map out a computer program that saved the organization over 100 days

Mapping out a computer program

of pencil-chewing, nail-biting arithmetic. Later, for this same company, John organized the establishment of computer systems for aircraft performance predictions . . . for data reduction of wind tunnel tests . . . and for wing stress analysis. At the same time, he worked with this company's own employees, training them in the use of IBM equipment. John still drops around to see that everything is running smoothly.

Another service that John performs is the constant reappraisal of each customer's IBM operation. Occasionally, a customer may tie himself in knots over a procedural "stickler." Periodically, in fact, John brings IBM customers together . . . just to talk over what's happening in each other's business-how everybody else handled that old bugaboo in any industry . . . details.

New field for Mathematicians

John is exercising his mathematical know-how in a field that was practically unheard of ten years ago. Even now, this kind of work may be news to you. It was to John Jackson a few years back when he was an undergraduate at the University of Colorado. At that time, he was considering actuarial work or mathematical research. But John liked the excitement and diversification of science and industry and he wanted to use his mathematical background in both of those areas. It was not until he was interviewed by IBM that field computing whetted his scientific appetite. A few months later, John launched his own IBM career as an Applied Science trainee.

Promotionwise, John has come a long way since that time. He's now an Applied Science Representative in one of the busiest, most responsible offices in the IBM organization . . . mid-town Manhattan.

With his wife, Katherine, and daughter, Lisa, 20 months, and John.

Discussing a problem with colleagues

Jr., 6 weeks, he enjoys his suburban Port Washington home. He's happy and he's satisfied. And then, too, John knows a few vital statistics about IBM . . . such as the fact that the Applied Science Division has quadrupled during the past three years, and that in 1956 alone, over 70 promotions were conferred. If ever a future held promise, here is one.

IBM hopes that this message will help to give you some idea of what a mathematician can do at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists and Liberal Arts majors in IBM's many divisions-Research, Product Development, Manufacturing Engineering, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, IBM will be happy to answer your questions. Just write to Mr. P. H. Bradley, IBM, Room 8701, 590 Madison Avenue, New York 22, N.Y.

St. Pat, Patricia **Final Candidates** To Be Announced

Six finalists in the St. Pat-St. Patricia competition were selected Sunday night, but the identity of the chosen ones remains a secret known only to the Sigma Tau committee who selected them.

The committee will not announce the finalists until tomorrow, the day before the general election in which the engineers as a whole will vote to decide who will be crowned St. Pat and St. Patricia at St. Pat's Prom.

The candidates were not judged in pairs. It is quite possible that no two finalists will be representing the same department.

The 14 candidates, six of whom will vie for the crown in the Thursday-Friday balloting, are H. C. Gorton, AgE Sr, and Virginia Roenbaugh, HT Sr, Agricultural Engineering; James Dent, Ar 02, and Sandra Tenorio, Ar 01, Architecture: Pat Schmiedeler, ME Sr, and Dixie Brown, HDA Jr, Mechanical Engineering; Jim Moore, EE Jr, and Mel Eaton, Sp Soph, Electrical Engineering; Darold Barb, ChE Sr, and Charlotte Strah, HEA Fr, Chemical Engineering; John Nuzman, IT Sr, and Lois Bones, EEd Soph, Industrial Engineering; Ed Young, CE Sr, and Connie Taylor, Eng Jr, Civil Engineering.

Balloting will take place in the main hall of the Engineering building where a voting booth will be set up Thursday.

Official Ring available only at Alumni Office. For delivery before May 20, order by February

Ike Back To Washington For Middle-East Meeting

Compiled from United Press By KEITH KEMPER

Thomasville, Ga. - President Eisenhower will fly back to Washington today for a top-level bipartison conference portending a new major strategy for dealing with the Middle East crisis.

The White House has called House and Senate leaders of both parties tomorrow on Israel's refusal, despite demands of the United Nations, to withdraw from the Gaza strip.

The President is cutting short

plantation of Treasury Secretary | Shepilov last week, from finding George M. Humphrey.

West Rejects Russian Bid

London — The Western Big Three will reject Russia's proposal to turn next month's disarmament meeting here into a four-power Foreign Ministers conference, diplomatic sources said

Officials here said the West's decision will be handed to Russia in New York this week.

The rejection will prevent new Soviet Foreign Minister Andrei his vacation on the South Georgia Gromyko, named to succeed Dmitri other missing victims.

an immediate East-West rostrum to start his new work.

Police Investigate Fire

Warrenton, Mo .- Police officials today investigated three possible causes, including arson, of a flash fire that roared through a nursing home here, killing 71 persons.

Volunteer workers, who removed 43 charred bodies from the ruins of the collapsed Katie Jane Memorial home, continued their careful search of the debris for

Architects Sponsor Beaux-Arts Party

The Beaux-Arts Ball, sponsored by the K-State chapter of the American Institute of Architects, will be February 22 in Pottorf

The costume ball, with State department of architecture.

Student committee members for the ball were announced today by Jack Durgan, instructor of architecture and allied arts, faculty adviser for the student chapter of the AIA.

They are Ira E. Macklin, Ar 05; Walter Loo, Ar 05; Ruth A. Collins, Ar 03; Phyllis G. Shook, ArE a Jr; Gary E. Galyradt, Ar 05; Karl "Naughty Nineties" theme, will be Kreeger, Ar 03; Samuel Martinez, for students and staff in the K- Ar 04; Leland B. Roberts, Ar 05; Ronald P. Mentgen, Ar 04; Linnea A. Brown, Ar 03; Yvonne E. Warner, Ar 03; Eugene G. Wendt, Ar 03; Jack Cather, Ar 02; and John Selfridge, Ar 02.

TWO CAN LIVE AS CHEESILY AS ONE

Now in the final months of the school year, one thing is certain: you and your roommate are not speaking.

But it is not too late to patch things up. Examine the rift calmly. Search your soul with patience. Perhaps the fault is yours. Perhaps you are guilty of violating some of the basic rules of roommate etiquette.

For instance, in decorating your room, have you forced your preferences on your roommate without regard to his or her tastes? This is a common cause of friction. Indeed, it once happened to me back in my freshman year when I was sharing a room with a boy named Rimsky Sigafoos who covered every inch of our wall with 850 pictures of James Dean.

"Rimsky," I said to him in gentle reproof, "please don't think me unduly, but I had hoped to put a picture of my fiancée Mary Beth Thermidor on the wall."

Rimsky examined the picture of my fiancée Mary Beth Thermidor. "You're kidding, of course," he said and dropped the picture in the wastebasket.

Well, that got my dander up, and I was mad as a wet hen till Rimsky gave me a Philip Morris Cigarette.

As we all know, there is nothing like a mild, natural, Philip Morris. Treats a man right. No filter, no foolin'! Anger melts and frowns become smiles with Philip Morris, all seems right in the world, and no man's hand is turned against you, nor yours against any man.

So, puffing a pacifying Philip Morris, I forgot all about Rimsky's slight to Mary Beth Thermidor. In fact, with her picture out of sight, I soon forgot all about Mary Beth Thermidor, too, and one night at the Freshman Frolic, spying a round young coed over in a corner, I came up to her and said with a fetching leer, "Excuse me, miss. We don't know each other, but I would like to rectify that sad omission." And she said, "Oh, you horrid, horrid youth! I am your fiancée Mary Beth Thermidor." With that she stomped furiously away, and though I tried to win her back with Philip Morrises, she was beyond recall. I, utterly shattered, signed on as a cabin boy with the Cunard Line and am today, aged 53, the oldest cabin boy on the North Atlantic run.

But I digress. We were talking about roommate etiquette. Let us turn now to the matter of share and share alike. Have you shared everything equally? Drawer space? Closet space? Study space? And here's one that often causes trouble - hobby space.

When, for example, I roomed with Rimsky Sigafoos, my hobby was stamp collecting. I did not take up much room. All I needed was a small corner for my stamps, my album, my magnifying glass, and my tongue. Rimsky, on the other hand, was by hobby a cat burglar. Hardly a night went by when he didn't burgle twenty or thirty cats. You can imagine how crowded our little room used to get! Many's the time I got so exasperated that it took two or three rich, natural Philip Morrises to restore my native sweetness.

We, the makers of Philip Morris and sponsors of this column, know that you and your roommate are getting along just fine. But if you ever do have a little tiff, don't try a peace pipe. Try a good, natural smoke - Philip Morris!

Activities

Psychology Club Speakers To Discuss Religion Tonight

Partners or Opponents," will be Municipalities, in Topeka. the topic discussed by a panel of guest speakers at a meeting of the Jr. AVMA Auxiliary Psychology club in the Student Union 206, tonight at 7:30 p.m.

The program has been planned to emphasize the Religious Emphasis Week activities, and will be open to the public. Two of the guest speakers, Father Richard Smith, theological author, lecturer, and professor, and Dr. Walton Cole, minister of the First Methodist church in Manhattan, will also be participating in the Festival of Faiths.

Officers of the Phychology club this semester are: Ladd Duryea, Psy Gr, President; Berneta Owen, Psy Gr, Vice-President; Lawrence Stewart, Psy Gr, Secretary; and Emily Booth, FN Jr, Treasurer. The club will meet every first and third Tuesday of the month at the Student Union.

Conservation Club

Clayton Stephens, AgE Jr, was recently elected president of the Conservation club. Other officers are Thomas Eddy, Agr Sr, vicepresident; Larry Hahn, PrV Soph, secretary; Dale I. Smith, Mth Sr, treasurer.

Home Ec Teaching Club

The Home Ec Teaching club will meet Thursday, February 21, at 4 p.m. in C 101. Dr. Wayne Willis, assistant professor in the Department of Horticulture, will speak about flower arrangements, according to Wilma Ludwig, HT Sr.

Union Personnel Committee

Applications are being accepted for the Union Personnel committee in the Union activities center, according to Mary Lu Compton, Sp Jr, chairman of the committee.

The committee will be responsible for the files and records of the Union Program council.

There are three openings and students may apply in the activity center until 5 p.m. February 27.

Chancery Club

Chancery club and all other pre-law students are to meet today at 7:15 p.m. in Student Union 205.

The first chief justice of the Chancery club, Arden Ensley, will speak to the group. Ensley is at-

Kansas State College, Manhattan, Kansas, Wednesday, February 20, 1957

Voting for St. Pat **Begins Tomorrow**

The six finalists for St. Pat and Patricia are John Nuzman, IT Sr, Jim Moore, EE Jr, Pat Schmiedeler, ME Sr, Virginia Roenbaugh, HT Sr, Sandra Tenerio, Ar 01, and Mel Eaton, BMT Soph.

Balloting for St. Pat and Patricia will begin tomowow in the main hall of the Engineering building. All students enrolled in Engineering or Architecture may vote.

Poise, personality, appearance, and activities were the bases for selecting the finalists. Nuzman is a member of Steel Ring and Sigma Chi, and is a

KS Singers Plan Concert

The K-State Singers will hold a benefit concert Sunday, March 3, at 4:15 p.m. in the College Auditorium. Tickets will be 50 cents, and proceeds will be turned over to the A Cappella choir to pay for its out-of-state tour.

In the past, the Choir has used funds given by the Apportionment board to pay for its tours. Only a week ago choir director William R. Fischer was informed that, due to official ruling from the governor's office, the Choir would not be allowed to use Apportionment board funds because it will be going out of state.

About one thousand dollars is needed to pay the expense of the tour. With hopes of selling around 1400-1500 tickets to the concert, the Choir expects to raise most of the needed amount. Tickets can be bought from any member of the choir, or at the door Sunday.

Since arrangements have already been made for appearances in Iowa and Missouri, it is necessary to raise adequate money for the tour, Fischer

RP Dance Off; Post-Game Hop Planned Instead

The Royal Purple dance scheduled for Saturday night in the Student Union has been can-

The Royal Purple Queen candidates will be crowned at a Union Birthday party, March 9, according to Mike Dole, ChE Soph, publicity director for Student Union dances. This party will celebrate the first anniversary of the opening of the Union.

There will be an informal dance in the grand ball room in the Union after the Iowa State-Kansas State basketball game this Saturday, he said. Students can dress informally.

Matt Betton's orchestra will provide music for the dance.

staff member of the K-State Engineer magazine.

Moore is chairman of the St. Pat's prom committee this year. He is a member of Sigmau Tau, Eta Kappa Nu, electricial engineering honorary, Sigma Chi, and K-State Masonic club.

Schmiedeler is a member of Sigma Tau, Steel Ring, Pi Tau Sigma, mechanical engineering honorary, ASME student branch, Phi Kappa, and Newman club.

Miss Roenbaugh is a transfer student from Kansas university. where she studied fine arts and music. She is a member of Future Teacher of America, Home Economics and Teaching club, K-State Singers, and A Cappella choir.

Miss Tenorio is a member of Whi-Purs and Young Democrats. She is affiliated with Chi Omega social sorority.

Miss Eaton is a member of Canterbury club, Future Teachers of America, and Gamma Phi Beta, of which she is vice-president and social chairman.

Mortar Board Honors Girl

Photo by Gary Settle

HONORED—Peggy Daniels, Eng Soph, holds the recognition plaque presented to her by Mortar Board for being the freshman girl with the highest grade average last year. She had a straight A average for each semester.

Dancers Present U.S. Tour

THE FRENCH MAID is danced by Francile Aronhalt, dance instructor, in a dance concert presented by Orchesis

Square Dance on Horses Planned for 'Little Royal'

Registration for the Little American Royal will be Thursday, Friday, and Saturday of this reek in the basement of East Waters and the main floor of West Waters.

Saturday at 1 p.m., the drawing to assign animals to the students who will show them will be held in the livestock pavilion behind Waters.

The Little American Royal is to be in the Field House April 6 at 2 p.m. The Sand Spring Saddle club from Abilene will perform a square dance on horses as the main entertainment. Herington high school's band will furnish the music.

Over 200 showmen from the area are expected to exhibit animals at the Little Royal. Chairman Bob Bozworth, DH Sr, stressed that all students are eligible to enter and show ani-

Members of Orchesis, modern dance club, presented their annual dance concert last night in the auditorium. Approximately 250 persons attended the concert, according to Dee French, EEd Soph, a member of the group.

"The USA Today," was the theme of the first half of the show which opened with "Conveyance," featuring the train as a medium of travel. This was followed by "West Point," and "Alabama Bound." "New Orleans," and "Las Vegas," were also visited. The finale of this sequence, "Manhattan Towers," featured Francile Aronhalt, physical education instructor and adviser.

"The Doll Shop," the age old story of a little girl waking in a dream to find her toys alive, happy, and dancing, opened with "Clowns," followed by "The Siamese Cats," "The Sailor's Hornpipe," "Powder Box Ballerina," "The Panda Bears Picnic," and "Oriental

A specialty number called the "Creep" was given by a group of seniors from Highland Park high school, Topeka. "Fiddle Faddle," was the finale of the

Lowell Novy, VM Fr, was the emcee for the show. "The Four Delts," a L. ber shop quartet of which Novy is a member, did entre acts.

Members of Orchesis are: Kaye Aye, PEW Soph; Linnea Brown, Ar 03; Kay Chamness, EEd Soph; Charlotte Chastain, TJ Soph; Sondra Cool, HT Soph; Miss French; Margaret Hill, EEd Jr; Judy Hopp, TxC Soph; Kathy Horridge, PEW Soph; Elsie Johnston, BA Jr; Kirsten Peterson, EEd Soph; Margery Ricklefs, Eng Sr; Joyce Rust, FN Jr; Sharon Skupa, Soc Fr; and Charlotte Strah, HEA Fr. The girls presented Miss Aronhalt with a bouquet of red roses during the curtain calls.

Peggy Daniels, Eng Soph, Kansas City, Mo., was honored at Mortar Board's annual scholarship dinner last night for being the freshman girl with the highest grade average last year. She had 3.0 grade average both semesters.

In recognition of her achievement, Mortar Board will engrave her name upon a scholarship plaque hanging in the Student

Two other girls received honorable mention for their 2.788 and 2.733 grade averages. They were Betty Emery, HE Soph, and Samileen Hamilton, who is no longer in school.

Even with all her studying, Peggy has had time to serve as scholarship chairman in Kappa Kappa Gamma sorority. Among other things, she is a member of the Student Union Library committee, Arts and Science Council, and the Union Activities board. For two years, she has been an AWS representative. This year she helped write their constitution.

Peggy still maintains the 3.0 grade average for which she won Phi Kappa Phi freshman scholastic recognition.

Mortar Board's scholarship dinner was held last night in the Student Union's main ballroom, All college women were invited.

Herbert J. Wunderlich, dean of students, talked on "Our Moral Obligation to Use Our Intellect."

Marilyn Smith, Soc Sr; Anita Grimm, Soc Jr; and Margery Ricklefs, Eng Sr; spoke on leadership, service, and scholarship, respectively. Shirley Sarvis, HE Sr, Mortar Board president, was toast mistress.

Seniors To Choose Gift

The graduating seniors of 1957 will meet in the Student Union little theater Thursday at 4 p.m. The senior class gift is to be chosen, according to Marilyn Smith, Soc Sr, senior class secretary.

IFC To Hold Power On Honor Code

The Interfraternity Council passed an amendment to its Constitution last night providing for the jurisdiction and levy of penalties for violations of the K-State honor code.

The amendment was composed of three sections. The first section stated that "all judicial powers of the Interfraternity Council shall be vested in a judicial council composed of the senior Interfraternity council members."

The second section declared that the president of IFC would be chairman of the Judicial board, and that meetings could be called at his discrimination.

Section three stated that the Council shall have power over violations of the honor code and penalties resulting from such violations. Also the Judicial Council shall decide whether or not the violations are those of an individual or a fraternity. It added that the Council shall have no power in individual

Dean of Students Herbert J. Wunderlich has given his approval to the amendment, according to IFC publicity chairman Pat Roberts, TJ Jr.

iscuss Spotlight Focuses on Platter Spinner.

Seniors Will Discuss Class Gift Tomorrow

SENIORS! Don't forget tomorrow's class meeting at 4 p.m. in the Student Union little theatre. The meeting is to select the gift to be presented the college by the senior class when we are graduated in May.

Have in mind some ideas for an appropriate gift when you attend. Some suggestions you might consider are stoplights placed at congested traffic traps on campus during rush hours; a self-lighting bill board set up near the Aggieville corner to publicize campus events; money to buy equipment for new buildings, perhaps Student Health if it passes the Legislature; or money for expanding or resurfacing the student parking lot.

• WITH A FEW more street lights around campus, girls would feel safer walking to and from the library.

There are many worthwhile things we could purchase for the campus, and each member of the class should be interested in how his money will be spent.

Let's avoid wasting our money on items such as plaques and benches, pigeon roosting spots are numerous without adding any new ones.

'Cheating Scandal' Finally Settled
THE INTERFRATERNITY COUNCIL and the administration have finally settled the problem of the "cheating scandal" by Acacia and Pi Kappa Alpha fraternities.

It's about time!
Now they need an honor code with teeth in it to cover such incidents that occur in the future.

The Interfraternity Council is working on an honor code to cover fraternities, but what about independents?

—Jane Moore.

DISC JOCKEY Wayne Thomas prepares to spin a platter on his Saturday morning show, "Music from the Red Room." Thomas conducts his show from a portable stand in the Union dive.

"Broadcasting the mock political convention was the most interesting experience that I've had since I've been in school," said Wayne Thomas, Sp Sr, Winfield, general manager of KSDB-FM, K-State's student operated radio station.

"My duties as general manager include giving help to the separate departments of the station with any problems they have and seeing that the programs run smoothly. However, the biggest problem is to get more student interest, both in listening and working," said Wayne.

Wayne has been daily director, special events chief, and news chief before becoming general manager. For three years he has had his own disk jockey program on Saturday mornings over KSDB-FM. "The first two years I broadcasted from our station offices over in Nichols gymnasium, but this year I broadcast direct from the dive," he said.

"Last year I worked for KMAN, spinning records, broadcasting news, and filling in wherever they needed me, but I had to quit in February because I didn't have enough time to work."

Besides being general manager of KSDB-FM, he is the proud father of three children aged 3½, 2, and 4 months. He met his wife in London, England, while he was in the Air Force.

"Ever since I can remember I have wanted to work in radio and television. When I graduate in August, I would like to be a TV newscaster."

Every Man Is an Island Theme Lands Sig Alphs on Desert Isle

By Shari Shellenberger

"WE HATE WOMEN" week was staged last week by the Sig Alphs at Oregon State, the purpose being to prove that "every man is an island," and to prove to Oregon State coeds that men are not to be taken for granted.

On Monday of last week the Sig Alphs arose, put on their "mungiest" clothes, boarded up doors and windows of their chapter house, encircled their lawn with barbed wire, and hung a sign above their front porch reading "We Hate Women!"

Conditions of the venture were: being clothed in disgusting attire, refraining from speaking to all women, and growing beards. Penalty for those who failed to abide by the rules was a dunking in a tub on the front porch of the chapter house.

Reason for this unusual week was summed up by the chairman of the function: "The men are weary of continually trying to maintain their best appearance; they want a vacation."

And, in contrast to hating women, Oregon State Lambda Chi's took advantage of the mistreatment of the opposite sex, and launched a "We Love Women" week.

Lambda Chi's wore suits all week with small red hearts reading "We Love Women" pinned to their lapels. They operated a taxi service for all women going to and from classes, and each evening held a 9:45 to 10:30 social hour for all women at the chapter house. Each women's living group on the Oregon State campus was serenaded, and the Lambda Chi's ended their campaign with a Valentine's party at the chapter house on Friday night.

Big Top' Has Folded But Show Goes On

Compiled from the United Press
By KEITH KEMPER

Saratosa, Fla.—The Big Top has folded but the "greatest show on earth" must go on.

The circus did not die last July 16 when John Ringling North abruptly ended the annual tour in Pittsburgh with an announcement which brought heartbreak to performers and a nostalgic choke to the throats of thousands, young and old.

Ringling Brothers and Barnum & Bailey Circus is preparing to hit the road again, playing in indoor arenas and ball parks instead of beneath the big canvas which became a parcel of the American scene.

Sanctions Against Israel Fade

New York—The threat of immediate sanctions against Israel faded today in the face of growing U.S. congressional opposition.

UN diplomats accepted the fact that if the United States does not back a move to punish Israel for its failure to withdraw from Egyptian territory, any move to have the assembly vote sanctions is doomed in advance.

President Eisenhower was meeting congressional leaders in Washington today to discuss his future course in the Middle East crisis, and a United Press survey showed he would find congressional leaders overwhelmingly opposed to sanctions.

Israel was banking on this support and on London reports that Britain would urge Commonwealth and Western European delegations to vote against sanctions. France also was working against the Arab move to punish Israel.

Senate To Hit Mid-East Resolution

Washington—Another attempt will be made in the Senate to knock out the economic aid provisions of President Eisenhower's Middle East resolution, it was learned today.

Sens. Harry F. Byrd and Richard B. Russell led an unsuccessful drive to separate the economic and military phases of the resolution when it was being considered by the Senate Armed Services and Foreign Relations committees. But they lost by a 17-11 vote.

Their forces plan to renew the attempt now that the resolution is before the full Senate for devate. Just when the move will be made and who will offer the amendment had not been decided, however.

Under the military phase of the resolution, as modified by the two Senate committees, Congress would declare that the United States is "prepared to use armed forces" if necessary to resist any Communist aggression in the Middle East. Mr. Eisenhower originally requested, and the House approved, specific authority for him to commit U.S. forces should a Communist attack develop.

Under the economic phase, the President would be authorized to spend \$200 million in already-appropriated funds as he sees fit on economic and military aid for mideast nations in the next four months.

Administrative Pressure Hits A Cappella Choir

cert March 3 to the A Cappella choir so the choir will be able to make its annual out-of-state

A refusual to allow the choir to use state funds to finance its tour came from the President's office and made this performance necessary. The refusal was made about a week ago on

The K-State Singers will the grounds that state funds was that these groups are comdonate proceeds from their con- should not be used to finance a petitive or promoting K-State trip out of the territory which K-State serves, according to A. L. Pugsley, dean of academic administration.

> The fact remains that the debate teams, judging teams, and the band have been granted funds for out-of-state travel while the choir has not.

The reason given by Pugsley

while the choir is not.

Pugsley said the Kansas Legislature and the Board of Regents have been closely watching how much it costs to run K-State. Any careless or unnecessary allotment of funds might well lead to the cutting of future much-needed apportionments by the Legislature.

In consideration that plans for going out-of-state and program contacts had already been made by the choir, the administration has granted permission to the K-State Singers to give the benefit performance.

Astronomy Club Looks for Comet

Bird watching and girl watching may be the hobbies of some K-Staters, but the Astronomy club prefers to look for comets.

Yeah, tomorrow night when most Staters are curled up in front of the fireplace on their old bear rug or out in the country observing the beauties of nature, members of the club will be looking for a comet-"the brightest one visible to the naked eye since Halley's comet in 1910"-in the words of Walter Houston, English professor and astronomy fan.

Although the comet will not be at its most visible position until two months from now, students will be able to see it through a telescope at the 7 p.m. meeting.

Houston says "It is hard to tell how the comet (called Arend-Roland) will react because comets are often less predictable than women."

K-STATE SINGERS—from left: Jim Dodson, Virginia Roenbaugh, Charles Hastings, Marilyn Doran, Clayton Buck, Georgiana Rundle, Betsey Thomasson, Dave Larson, Sue Kenison, Duncan Erickson, Celia Dixon, Don Wilbur, pianist Jackie Swanson, and director William Fischer.

One of the questions that people ask when they talk of the "roaring twenties" is, "What made the twenties roar?" Maybe the answer lies partly in the development taking place in American music at the time. Dixieland jazz, the happy, carefree jazz of the South, was spreading all over the country. It was the age of the hip flask and the Charleston. Jazz was the musical expression of the general feeling of prosperity and good Dixieland jazz may never have

the great stars it once had, such as the great King Oliver, but it still lives on. Younger blood is spreading the gospel of the righteous, pure Dixieland. Evidence of a Dixieland revival is in the record stores where there is an array of modern recordings

of old jazz. One of the old timers of jazz, Wild Bill Davison, has been recording the old jazz favorites on high fidelity records. His latest record is "Wild Bill Davison at Storyville." On this record the old master plays trumpet, ripping through foot stomping tunes like "South," and "Struttin with Some Barbecue" to name two. It is a good jazz record, even though it comes from a night club in the unlikely town of Boston.

Out in California a bunch of Walt Disney's illustrators and writers have formed a group for the re-creation of Dixieland.

'MOTHER AND CHILD' sculptured by Prof. J. Cranston Heintzelman.

Anyone Can Sculpture Just Given a Chance

"Anyone can sculpture," says Prof. J. Cranston Heintzelman, professor of Architecture.

"If the sculptured piece has a pleasant shape, people accept it. However, it is different with painting and music; they must be interpreted because people are always looking for a meaning."

Professor Heintzelman feels that there is a permanent sensation, a certain thrill and experience, in sculpturing, whereas the feelings one gets from paintings and music are only temporary.

Creative Art is Being Reborn

Seemingly, Manhattan citizens have had a rebirth in their desire for creative art, as witnessed by their response to Heintzelman's new art extension class Thursday evenings.

There has also been an optimistic response to the children's art classes Heintzelman started this semester. There is already a waiting list as "this is the first private art school in Manhattan in a long time." Mrs. Heintzelman assists him in teaching classes in drawing, painting, and general composition for young-

It also appears as if people everywhere enjoy the smooth compactness of sculptured works. The Student Union has on permanent exhibition Professor Heintzelman's "My Emmy," and in the office of John C. Weaver, dean of the School of Arts and Sciences, his piece, "The Orphan."

The Kansas State Collegian

Published by Student Publications, Inc., Kansas State college, daily except Saturday and Sunday during the fall and spring semesters, weekly during the summer school

Entered as second-class matter at the post office, Manhattan, Kansas

Work To Be Displayed at St. Benedict's Abbey Heintzelman will soon be sending six examples of his work to

St. Benedict's abbey in Atchison: "Hayfever," done in limestone; "The Fish" in blue marble, and "After the Bath," "The Cat," "Mother and Child," and "Contemplation" also in marble.

"My Emmy" is a blue marble figure of a young girl holding a skunk. The figure was modeled after his daughter Nanette and her pet skunk, Emmy.

"The Orphan" is a study of a woe-be-gone baby gorilla. This plece has also been in the Midwest artists' exhibition at Omaha's Josslyn museum.

Veteran Sculpture Instructor

Professor Heintzelman came to K-State in 1947 and in the fall of 1952 taught the College's first course in sculpture. In his studio on the third floor of Seaton hall you can find his students working in stone, clay, marble, plaster, wood, sandstone and native limestone.

Heintzelman also taught at Columbia university, taught extension classes in Clay Center, Junction City, Washington, and Council Grove.

Among Heintzelman's many interests is his work as director of the K-State Federation of Art since 1955. As director, he handles its correspondence and artists, assembles exhibitions, gets pieces crated, directs their circulation about the state, and redistributes the pieces after they've finished the circuit.

Heintzelman has also exhibited sculpturing at the Springfield art museum, Missouri: the Nelson art gallery, Kansas City, Mo.; the Marblehead, Mass., arts association; Columbia university; the Boston Museum of Fine Arts; and the National Academy of Design, New York. For the Mid-American show at the Nelson art gallery, he showed "Moby Dick," a marble representation of the famous whale.

Student of Oranzio Maldarelli

The first 19 years of his life was spent in Europe where he studied chiefly in France. He took his bachelor's degree at the Massachussets Institute of Technology, his Master of Architecture degree at Columbia. At Columbia he studied under the famous Oranzio

Heintzelman's father is Arthur William Heintzelman, in charge of the famous Wiggin collection of prints and etchings at the Boston public library.

LeGault Hops Aboard Streetcar In Switch from Tackle to Actor

By JANICE GRAHAM

Believe it or not a K-State football player, Len LeGault, PEM Sr. is playing a lead in "Streetcar Named Desire" to be presented in the College auditorium, March 1 and 2. Getting set to prove that a football tackle can do more than play sports, LeGault takes the same role that Marlon Brando played in the stage and movie productions.

"I've never had anything to do with acting in my life," said Les Gault. "Dr. John Robson asked me try out for the play and I thought it would be something different. Acting is the last thing in the world I ever thought I'd be doing."

Len is getting along fine in the play, according to Dr. Robson, Speech department professor. "He shows feeling for the medium of the stage and has been very cooperative. The cast likes him and what he's doing with the part. They've accepted him as one of the gang."

Lee was working in a gold mine in Kirkland Lake, Ont., Canada, whe na K-State friend of his talked him into going to school here. He tried out for the football team, made it, and was given a scholarship later.

LeGault likes working with such College stage veterans as Ann Soelter, Sp Gr, Manhattan, Linda Merritt, EEd Fr, Haven, and Ken Nakari, Phy Soph, Cook, Minn.

"I've learned a great deal about dramatics, motions, and moods. Sometimes I have mental blocks, and I've had trouble being in the right place at the right time on the stage," LeGault said.

Admitting he is a little nervous about opening night, LeGault says, "Every time I think about it I get butterflies. But if I like it well enough, I would like to try out for another play."

Don't Buy Glasses Yet: the Grahams Are Identical Twins

Photos by Gary Haynes

SIAMESE TWINS? No, just identical twins—from left Joyce and Janice Graham

Being a Double Is Fun, '... Has It's Merrits, Too

By DIXIE GOOD

Linda and Connie Merritt don't let the fact they are twins keep them from being individualists. Both of them live in Southeast hall, but they do not room together. Connie is majoring in chemistry, Linda in elementary education.

"We've always been interested in different things, and we always have followed our own interests," Connie explains.

The girls are identical "mirror twins." Connie is left-handed, Linda is right-handed. They dressed alike through grade school, and bought their first different outfits for eighth-grade maduation.

It was about then we wanted to start Mng individuals," Connie said. "Befdes, it's hard to find clothes that are just alike."

The twins stress individuality, but still like to play the usual "twin tricks" on other people.

Connie wrote a theme about twins last semester for written communications. The instructor was interested in the theme, but said he would never be fooled by one of the twins posing as the other. The next day Linda went to Connie's class in her place. Nobody discovered the trick until Connie walked in.

Sometimes, however, the twins don't plan these incidents. Linda was in a one-act play earlier this year, and Connie, who came up to see the performance, wandered backstage just before the play. She was grabbed by a make-up crew member who was hard to convince when Connie explained the situation.

The girls have never had any date mix-ups, and the only trouble they've had with boys has nothing much to do with twins . . . it dealt with animals. Once an admirer gave Linda a cat the same time Connie received a parakeet. One day the girls arrived home to find a very happy cat and two feathers.

"I didn't know whether to laugh or cry," Linda said.

Connie (above) and Linda Merritt

When a twin is sick, does the other feel bad, too? Or when one is sad, is the other? Joyce Graham, twin sister of Janice, is convinced this is true.

By JUDY FISHER

"Whenever Janice feels bad, I do too, until she is better. I don't know whether she agrees that there is an interrelation like this, but I think there is," Joyce says.

"We do share common feelings," Janice admits.
"And we used to dress the same, like all twins." When they dressed alike, the two used to have some trouble deciding on an outfit that they both wanted to wear.
"This used to take a lot of time," Janice said. "And we both looked alike all over."

"But now we dress differently," she says, "and people still have trouble telling us apart."

Sometimes one twin meets an instructor the other has for class, and the instructor sometimes feels snubbed when he isn't spoken to. "We're not being snobbish when we don't greet people," they both agree. "We sometimes just can't see them. We both are near-sighted without glasses."

Being a twin has its disadvantages, they say. "We always get things in pairs, or else get one thing for both of us when people give us gifts . . . like a record album."

Both twins are Pi Beta Phi members, and both are active in campus activities. Janice, a journalism student, wrote one of the stories for this page.

One distinctive feature about both the Grahams that no individuality (they like individuality) will erase is the unwavering smile and cheery hello to everyone they can see.

Bubble, Bubble, Toil and Trouble, We Are Seeing Double; Dad at Hospital with Twins: This Is The Last Strah

Charlotte Strah

By JANICE GRAHAM

If you didn't know it, the Strah girl you've met in class or seen on campus has a twin sister and has innocently confused students and faculty as to her name, major, and (thanks to a slip in the student directory) classification since enrollment last fall. Like two peas in a pod, Charlotte and Charlene Strah are "lookalikes" from head to toe. No wonder everyone's all mixed up!

Being a "double" can be as confusing to the twins as it is to those who know them. Returning the "hellos" of unfamiliar faces, Charlene just presumes that her sister's friends haven't reached the point where they can positively tell which is which. Charlotte says she speaks to about ten people a day who think they are talking to Charlene.

"We've always felt we were individuals, but that everyone looked at us as a pair," said Charlene. "When one of us expresses an opinion our friends always say, 'the twins think this way.' They don't realize that our opinions might differ."

"We used to switch classes on April Fool's day in high school," Charlene said. "The trick reversed one year, though, when Charlotte made an A on a geography test for me, and I flunked a history test for her." (Instructors beware on April 1.)

The twins moved to Manhattan from Ark City last summer and enrolled as sophomeres in the fall. Charlene is majoring in business administration and Charlotte is in home economics and art.

"Our interests differ greatly, and have since about the ninth grade," said Charlene. "We have the same taste in clothes although we quit dressing alike during our freshman year at junior college."

When Charlotte's picture recently appeared on campaign posters, a boy in a class with Charlene watched as she signed the roll, then asked why she signed "Charlene" when all the posters said "Charlotte." (He'll find out today, won't he?)

"I'm sure we bore our friends sometimes by telling them the same story," said Charlotte. "How am I to know that Charlene told it first?"

"I guess my hobby is keeping busy. I don't seem to have much time for anything else," Charlene explained. Other activities are Angel Flight, Royal Purple editorial staff, and Newman club.

editorial staff, and Newman club.

Charlotte was elected to be on the Miss Wildcat calendar last fall, and was a candidate for St. Patricia. She draws well and loves to make posters for campaigns. She is in Orchesis, Newman club, Angel Flight, and on the Union dance committee. Both are members of Pi Beta Phi.

If you see one of the twins on campus and don't know which one you're seeing, you can use the same thing that so many others have done when you speak to them.

mend"Hi, Char!"

Tracksters Tangle At Nebraska Dual

K-State's young track team extra curve ruins chances for will travel to Lincoln for a dual indoor meet with undefeated Nebraska Saturday. Events begin at 2 p.m.

"It's been several years since the Cornhuskers beat us but it should be close," Coach Ward Haylett said. "The mile relay, the final event of the day, may be the deciding one Saturday."

Seven sophomores lead the list of 22 Wildcats making the trip. The sophomores are providing top talent in the 400 yard, 880 yard, mile, and 2mile races.

Latest second-year success was Tom Rodda's double win in the mile and 880 at Chicago. His time in the mile was 4:19, a new K-State record. He clipped 1.6 seconds off the former mark of 4:20.6 set 25 years ago by Bob Landen at the same Chicago university track.

"I doubt if Rodda will come close to his record—the Nebraska track is tough on race times. It is a bean-shaped affair, and that

Cats To Host Big Gym Meet

Ten gymnastic teams have been invited to compete in the midwest's largest all-college meet March 2 in Manhattan, according to Frank Thompson, Wildcat gymnastic coach.

The event will feature competition among star gym performers from six states and is the largest meet of its kind in the nation. Rotated among colleges and universities in the midwest, the meet was held at Colorado last year.

Beginning at 10 a.m., the meet will include the seven standard collegiate gym tests, plus allaround competition. Medals will be awarded in each event with a trophy going to the team champion.

Invited have been gym teams from Nebraska, Colorado, Colorado State, Air Force academy, Ft. Hays State, Western Illinois State, Mankato (Minn.) State, Northwestern Oklahoma State, Colorado A&M, and Denver.

K-State will compete as the host team. The Wildcats finished fifth in the meet last year when Nebraska was team champion.

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignmen comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now...for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus ...

MONDAY, FEBRUARY 25, 1957

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

Fred Seaton Hospitalized In Honolulu for Treatment

Compiled from United Press By KEITH KEMPER

Honolulu-Secretary of the Interior Fred Seaton underwent treatment in Tripler Army hospital today for a sciatic condition that forced him to cancel his several official appointments.

Doctors said Seaton will be hospitalized "at least two or three days." They said his condition is not serious.

At first it was feared his trouble was due to a slipped spinal disc, but later doctors decided it was sciatica.

Seaton entered the hospital yesterday. He was obliged to cancel a speech he intended to

GRADUATING ENGINEERS

"More personal recognition and more chance for advancement makes Emerson Electric an ideal place for a young engineer to build a brilliant career."

"The advantages of working for a medium sized company are real. It may be trite to speak of getting lost in the shuffle of giant organizations . . . but it happens. I know from my own experience that a man has a strong feeling of belonging here at Emerson . . . a quality essential to a satisfying job. Here your work is a direct contribution to the team goals of your organization and is recognized as such. Moreover, our projects are distinctly non-routine, varied, and highly interesting. And the tangible rewards are in the above-average

"Emerson's planned expansion program is another very definite reason why a young engineer should be interested in Emerson. If he gets in on the ground floor now, he will enjoy unusual opportunities for fast advancement in responsibility, recognition, and compensation. Emerson is definitely a place where a man can make his mark."

Our vast expansion program, the most ambitious in our 66 year history, means one thing for the young engineer who comes in now . . . opportunity! Opportunity to grow with technology that's making tomorrow today. Opportunity to advance quickly into a fast moving series of more and more responsible positions with commensurably increasing rewards. Opportunity to profit from the cooperation of small teams of experts. Opportunity to move ahead without the constriction of clogged up top levels-such as you would encounter in companies which have already achieved their full growth.

Whatever your preferred field of engineering specialization (or generalization), there is gateway to career progress waiting for you at Emerson. Commercially, since 1890, Emerson has been a leading producer of fans, motors, air conditioners, welders and power tools. The Electronics and Avionics Division, a leader nationally since 1940, designs, develops, and manufactures active defense systems for bombers, supersonic air frames, mortar locators, missiles and rockets like the Honest John.

You owe it to yourself to find out how you can get in on the ground floor of this fast growing, medium sized company. Meet Emerson's engineering representatives and talk over your career plans with them. Firm job offers can be made. If it's impossible for you to make a date, be sure to write A. L. Depke, Technical Placement Supervisor, for full details.

Frosh's Cars at Stake In Traffic Board Talks

The possibility of banning cars of freshmen from the campus in an attempt to help the K-State traffic situation is being given consideration by the College Traffic board. As yet no recommendation has been made.

"A good many schools have done this; some of them don't allow student cars on campus at all," Edgar S. Bagley, professor of economics, and member of the Traffic board, said.

"No organized effort to gather information on this subject has been made, but if more student interest were shown in the matter, it would probably be investigated further," Professor Bagley said.

The example was given that at the University of Florida freshmen are not allowed to bring their cars to school or drive them in town. Next year this rule will apply to the sophomores.

There are exceptions to this rule. Freshmen that are married, physically handicapped, commuting, or who can show that they need transportation, are allowed to use their cars.

Although some argue that freshmen having cars generally have more trouble academically than those who don't, generally the underlying reason for banning freshmen's cars is the traffic problem.

The Traffic board feels that banning freshmen cars would not solve the overcrowded Union parking lot situation, since so many upperclassmen have cars. However, because there will be more cars than ever in the future years, and as more buildings are added, parking will inevitably be shoved to the outer perimeter, the Board believes something will have to be done.

"The Traffic board has the authority to recommend this regulation, but futher investigation is needed," Phil Young, AgJ Soph, a traffic board member, said yesterday.

Directors of CI Ask For Jobs for K-Staters

The board of directors for Campus Industries, Inc., voted to send a letter to the Athletic Council requesting exclusive student employment for game concessions if the council decides to take over concessions.

In the meeting yesterday the

Divers To Organize

Students interested in forming a diving club should meet in the Student Union Activities center Tuesday at 7:30 p.m.

board discussed the possibilities of students filling all concession jobs except that of general man-

Donald Beck, ME Jr, and George Roffendorff, VM Jr, applied for a vacancy on the board of directors. The person chosen will not be announced until next Monday in the regular Student Council meeting.

There was also discussion on the possibility of handling magazine subscription sales in Manhattan for certain nationallyknown magazines.

The handling of money used for the weaving industry was also on the agenda.

Kansas State

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Friday, February 22, 1957

NUMBER 92

Hopes Gone For TV-ing

K-State's basketball game with Kansas university March 6 will not be televised, because of the lack of existing facilities and the prohibitive cost of installing temporary relay towers in order to transmit the pictures to Kansas City.

A cost of more than \$8,800 would be charged to erect three necessary towers between Manhattan and Kansas City. Two of the towers would have to be moved in from Texas.

In addition there would be, among others, the cost of production, and charges made by K-State, making a total of more than \$14,500.

"No advertiser would pay that price," stated Bebe Lee, K-State athletic director.

Lee and Ken Thomas, head of K-State's extension radio and television department, attended a meeting in Topeka Tuesday where they talked with KU athletic director A. C. Lonborg, representatives of Kansas City, Topeka, Hutchinson, and Great Bend television stations and others about the possibility of televising the game. The seating is all sold.

"Everyone was very cooperative and helped as much as they could . . . everyone was doing the work at cost," Lee said.

price, Lee commented.

"Nothing can be done now as sion. the deadline for requesting that the two towers be brought up from Texas was Tuesday at 4 p.m.," he remarked.

Greek Week Coming To KSC April 24-27

Greek Week is scheduled to be Wednesday, April 24, to Saturday, April 27, according to Pat Roberts, TJ Sr, publicity director for the event.

Greeks will be invited to a banquet Wednesday at the Union, according to Warren Keegan, Ec Sr, chairman of

Dean Durland Named Chairman Of Athletic Council

The appointment of Dean M. A Durland of the School of Engineering and Architecture, as the new chairman of the Kansas State College Athletic council and Big Seven faculty representative was announced today by President James A. McCain.

The appointment is effective July 1 when R. I. Throckmorton, dean emeritus of Agronomy, the present chairman reaches the age of full retirement.

The Athletic council is composed of nine men-two students, two alumni, and five faculty members.

Students May Need Extra KU-KSC Ducats

A supplementary ticket plan is If K-State had a television now under consideration for the cable running to Topeka the KU-K-State game, March 6, which game could be broadcast for will require students to pick up an about one-tenth the present additional ticket to be submitted with their activity card for admis-

> Frank A. Mosier, ticket manager, said the final decision on the plan would be released Mon

the banquet. "There will be two prominent speakers," Roberts said "and we are trying to contact a third, for this first annual Greek Week banquet."

Marylyn McCready, Eng Sr, will be the chairman of all workshops during the week. These will begin on Thursday and continue through Friday. "These will be beneficial workshops for officers and future officers of all Greek organigations," Roberts commented.

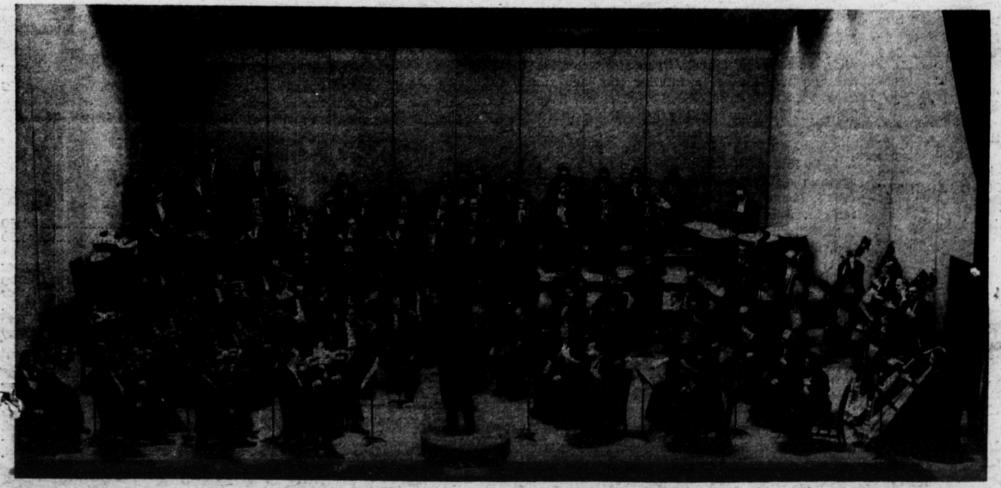

Friday evening will be dedicated to party hops, Roberts continued, which will work on dinner an exchange basis. Members of various Greek organizations will visit a house for a short time and then move on to other houses until eventually everyone will have visited most of the houses, he said. Pat Johnson, HT Jr, is chairman.

Saturday, fraternities and sororities will conduct a community project. Several projects are being considered according to chairman Larry French, BAA Jr.

Lambda Chi Alpha will sponsor their annual chariot relays Saturday afternoon.

Bob Haas, BA Soph, chairman of the dance committee, said an all-Greek dance is being planned for the main ballroom of the Union, to climax

*KC Philharmonic To Give Concert on Tuesday

The Kansas City Philharmonic orchestra, conducted by Hans Schwieger, will present a concert, the third artist series program, in the College auditorium at 8:15 p.m. Tuesday.

The concert is open to season ticket holders, only. However students may purchase single admission tickets now for \$1 in the Student Union or the Music department office.

The program will consist of: Fantasia on a Theme by Thomas Tallis arranged by Vaugh-Williams, Symphony No. 96 in G-Major "Surprise" by Haydn and Leonore Overture No. 3 by Beethoven.

After the intermission the orchestra will perform Symphony The orchestra will play a No. 5 by Sibelius.

young peoples' concert in the College auditorium at 3 p.m. before their evening concert. The auditorium is sold out with more than 2000 upper grade and high school students having bought tickets.

Athletic Costs Hit Half Million Mark

(This is the first in a two-part series on the Athletic Fund budget.)

By BRUCE K. ELLIS

If Kansas State college is to meet the challenge of Big Seven competition, it must re-examine its athletic budget and compare it with other conference schools, according to Bebe Lee, director of athletics.

During the fiscal year '56, begun July 1, 1955, and ended June 30, 1956, the athletic department's losses amounted to approximately \$60,000. From a near \$500,000 operation, this was a 12 per cent deficit. It was not the result of poor management or rising costs specifically.

Mainly, it resulted from attempting to meet a fairly rigid budget with elastic and variable revenue sources. To explain this it is necessary to look at the sources of revenue for the athletic fund, Lee pointed out.

The bulk of annual receipts come from two sources: (1) ticket sales, \$133,140.60, fiscal '56: and (2) guarantees, \$140,-077.09, fiscal '56. Together these two sources contributed more than 50 per cent of the fiscal '56 budget. Student fees and state funds for faculty salaries amounted to \$68,000. This was 13.6 per cent of the total budget.

Thus it is easy to see that the major support of the athletic program comes from self supported activities, ticket sales and guarantees. Guarantees are those funds which one school receives from a competitor. The conference established a guarantee for each club with a 50-50 option to be exercised. Thus ticket receipts are split half and half with the visiting team less half the cost of the officials' salaries.

Bad weather, a losing streak, any number of factors affect ticket sales," Lee said. "Yet our expenses stay up."

Facing a \$500,000 athletic budget each year is difficult enough without compounding the problem with undeterminable sources of revenue.

Lee has alerted his staff to economize. Last year's \$60,000 loss reduced the department's reserves from \$108,208 to \$48,005.

"While we'll lose money this year, it won't be nearly the amount we dropped last year. Last year's operational losses were close to \$40,000. The remaining \$20,000 were for nonrecurring items including capital improvements on the stadium and Field House," he added.

If athletics isn't big business, then it is one of the biggest little businesses in the United States. Lee pointed out that the cost of athletic equipment had risen slightly and was forecast to rise sharply to 10 per cent soon.

During the fiscal year '56, the department spent nearly \$28,000 on equipment and supplies. This would mean a predicted figure of \$30,800 for the same equipment if replaced next year.

By Jan Madsen

New to this country as well as to wedlock, Ahmed Said Hessein and his wife Naziha Noaman Hussein. who have been married one month and 18 days, are also very new to the campus. They arrived here February Invitations will be sent to high 13, from their native country,

> "Our first impression of the United States was the tremendous hurried pace of the life. Everyone tries to help us so much also. Everyone is so nice and friendly." Mrs. Hussein said. This is the Husseins first trip to the United States.

Hussein has BSc (equivalent to a BS degree) and MSc degrees in cereal chemistry from Ein Shams university in Cairo, Egypt.

"I want to teach in college after I receive my PhD here," he said. He expects to receive this will be in milling industries.

Mrs. Hussein has a degree equivalent to BS from the Home Economics school in Cairo and a certificate from Cambridge university in England in languages and literature.

"A friend and colleague of mine who got his PhD here a few years ago was instrumental in my attending K-State," Hussein

They knew no one here when they-first arrived. After a few hours the Husseins met Salah Reshad who is now a student here, and an old school mate of Mr. Hussein.

A big differences between the two countries, Mrs. Hussein com-

degree in the spring of 1960. It mented, is that in Egypt the stores open at 8 a.m. and close at 1:30 p.m. They re-open at 3:30 p.m. and remain open until

> "Here one store has everything. In Egypt we have fruit, meat, and canned goods stores." The meat being wrapped in cellophane is very convenient, she especially

The family life in Egypt is much different from that in the United States, she said. The entire family lives in one big family house, while here children move away after marri-

There have not been many jobs in Egypt for women, but the trend is changing. Education for women is expanding and more women are now holding jobs, Mrs. Hussein commented.

Registration Time For Little Royal

Anyone wishing to enter the Little American Royal must register in the basement of East Ag or on the first floor of West Ag before tomorrow noon. Students need not be in agriculture to enter, according to Walt Martin, secretary of the Little American Royal associa-

Divisions of entry are dairy cattle, beef cattle, sheep, swine, and horses. The drawing for the order in which animals are to be shown will be at 1 p.m. Saturday

All ye Wildcat basketball fans of little faith, take heed of this information that comes from Iowa State sports publicity director, Harry Burrell:

"The toughest team we have faced—that's the label put on Kansas State by Coach Bill Strannigan."

"I know a lot of people will wonder about Kansas when they read that," Strannigan explained, "but this team of Tex Winter's is the hottest, best-rounded club we've faced. We'll have to play better than at any time this year to keep in the game. Tex got off to a slow start but has now won his last eight games in a row."

Mr. Strannigan, whose Cyclones handed KU its only defeat until Oklahoma A&M's win last night, thus giving K-State a chance to tie for the Big Seven title, is displaying fears that are well-founded.

K-State has come back strong since its loss to Oklahoma in the Big Seven pre-season tournament, and behind a solid 1-3-1 zone defense has stopped all comers except KU.

Wildcat fans might also recognize the fast break type of ball that characterized K-State championship teams of 1950 and 51.

Much of the credit for this rennaissance must go to Don Matuszak. He has seemingly ignited the fuel that is powering the Cats during their winning splurge.

One doesn't dare overlook Eddie Wallace and his contribution to the speed up. Eddie carried most of the ballhawking burden through the first of the season.

Bill Strannigan, Iowa State's basketball coach, reportedly said, 'I've just seen the best basketball team in the country," after he witnessed the 81-56 K-State win over Nebraska at Lincoln.

We think he was talking about the winner of the contest (or we hope so), and we're hoping the Cats can live up to that billing tomorrow night when Strannigan's Cyclones. meet the Cats in the Field House.

Here's what we believe to be the quote of the week. It comes from Abe Lemons, coach of the Oklahoma City University Chiefs.

With only a few seconds left in the game last Saturday, the Chiefs froze the ball in an effort to keep the Cats from getting 100 points.

Asked if he (Lemons) had ordered the stall he said, "No. It was the first thought the boys had all night. I was proud of

IM Volleyball To Begin

Intramural volleyball competition will begin Monday in Ahearn gymnasium, according to Frank Myers, director of intramurals.

·····

them-a team should have at least one thought during a game."

Tom Rodda, sophomore Cat runner, must have read the record book before he set his new K-State record in the mile at Chicago last Saturday. He ran the distance in 4:19.

Don Landon set a new mark in 1934 in the mile. A year later, Justus O'Reilly set the record of 4:20.6 that Rodda eclipsed.

Where did they do it? All in the University of Chicago Field House! (A coincidence.)

And if you're wondering whether OCU forward Lyndon Lee smiles in all games he plays, he

"He's just a happy-go-lucky sort of person," Coach Lemons said. "The only reason he does those silly things is to get the crowd on him. He feels he can play better if the crowd is yell-

Lee's theory must be good. K-State fans were really yelling, and he scored 23 points to be second high scorer for the Chiefs.

KU's Jayhawks have four games remaining after their 56-54 loss last night to Oklahoma A&M. All are Big Seven tilts.

Like K-State, the Hawks have two at home and two on the road. Tomorrow they meet Nebraska at Lawrence while the Cats are engaging Iowa State.

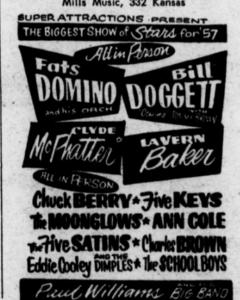

K-State plays Missouri at Columbia while the Hawks are idle Monday. Then the Cats journey to Iowa State for a return engagement with the Cyclones while KU travels to Boulder for a game with Colorado. That'll be on Saturday, March 2.

Wednesday, March 6, may be the big night for both schools. The Hawks are to be entertained by K-State in Manhattan in what may be a title bout. That's the last of the season (barring possible tourney contests) for K-State.

Kansas has one left with the Colorado Buffs at Lawrence on Saturday, March 9.

averaging 11.2.

records.

K-State's basketball squad entertains the Iowa State Cyclones tomorrow night in a game that may make or break the Wildcats.

The Cats go into the game, a sellout, with a 6-2 Big Seven standing, and the Cyclones are 5-4. But Iowa State is rated 10th in the latest United Press poll and ninth by Associated Press.

The Cyclones hold one of the two victories over Kansas, 39-37, but have been upset by Missouri twice, and Colorado once at Boulder. Overall, Iowa State has a 15-5 mark.

As if this weren't enough, the Cyclones hold a 74-64 win over the Cats in the Big Seven pre-season tourney. At the time, K-State was playing without the services of 6-9 Jack Parr, all-Big Seven center last season.

K-State, on the other hand, is 13-6 with an 8-game winning streak going. The Cats have jumped from an 0-2 conference mark to the current 6-2.

However, Kansas, the Cats' competition for the top Big Seven spot, is 7-1 in conference

The Stilt Falls Short In Scoring Lead Bid

By UNITED PRESS

It's Grady Wallace, the nation's No. 1 scorer, against North Carolina, the nation's No. 1 team, tonight.

This dramatic basketball duel was set up last night when Wilt (the Stilt) Chamberlain of Kansas failed to oust Wallace of South Carolina from the scoring lead-and also failed to keep Kansas from a 56-54 upset at the hands of the Oklahoma Aggies.

The 7-0 Chamberlain racked up 32 points in the clash at Stillwater, but the Aggies beat the nation's No. 2 team on a 20-foot shot by Mel Wright with only two seconds remaining. It was only the second loss for Kansas in 18 games.

Chamberlain improved his scoring average slightly to 29.16 points a game, moving from fifth place to fourth but falling far short of the 56 points he needed to overtake Wallace.

So Wallace goes into tonight's fray with a 30.41 average, followed by Joe Gibbon of Mississippi at 29.38, Chet Forte of Columbia at 29.26, Chamberlain, and then Elgin Baylor of Seattle at 29.13. Gibbon is the only other contender playing tonight. going against Tulane.

Wallace, last year's national junior college champion from

Mare Creek, Ky., will be out to duplicate his 35-point performance against North Carolina earlier this season. In that one he outshone Lennie Rosenbluth, Tar Heel star who gained only 18 points.

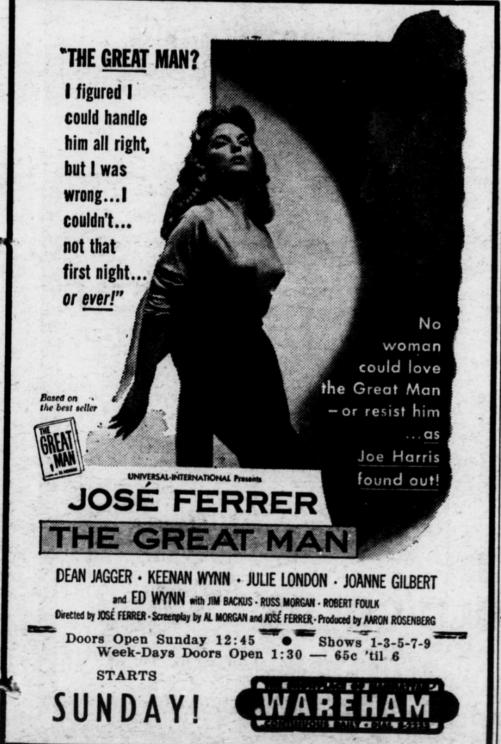

Last night, Chamberlain got 24 of his 32 points in the first half and led Kansas to a midway margin of 32-26. But the Aggies fought back to tie at 44-44 and went ahead, 54-52 in the final minute on a basket by Arlon Clark. Maurice King of Kansas hit a layup to tie the score, but the ball went over to the Aggies and Wright sank his game-winning shot.

Collegian Classified pay!

9:30 a.m. College Bible Class p.m. College Student Program St. Luke's Lutheran Church

330 North Sunset Ave.

Kansas' nationally second ranked Jayhawks lost their second game of the season before 9,000 Oklahoma A&M fans in Stillwater last night, 56-54.

Mel Wright, 6-0 Aggie senior guard, pulled the game out for his team with a 20-foot jump shot with :02 left on the clock. The shot climaxed a 3:47 stall by the Aggies, and caused the partisan crowd to mob the hero of the evening and carry him from the floor on its shoulders.

The defeat left KU with a 17-2 record. It was reminiscent of Iowa State's defeat of the Hawks at Ames. In that game, 6-8 Don Medsker poked in a 20-foot jump shot as the gun sounded to give the Cyclones a 39-37 triumph.

The win gave Oklahoma A&M a 13-8 record and avenged an earlier defeat at Lawrence by a 62-52 margin. The Aggies hit 38 per cent of field goals attempted while the Hawks were shooting at a 35 per cent clip.

Wilt Chamberlain hit 32 points and grabbed 14 rebounds to lead KU. Eddie Sutton led the Aggies with 18 points, 10 of them in the first half.

A Campus-to-Career Case History

Ken Boekelop (center foreground) at the scene of a cable installation project in Detroit.

Ten years along in his telephone career

After graduation in 1947 from Kalamazoo College with a B.A. in Physics and Mathematics, Ken Boekeloo joined Michigan Bell Telephone Company as a trainee.

Today, ten years later, Ken is a Division Plant Superintendent in Detroit. Eight district supervisors report to him, and they supervise some 1700 people. Ken is responsible for the installation and maintenance of plant facilities valued at \$135,000,000 including more than 500,000 telephones.

A big jump in ten years? Here's

what Ken Boekeloo says about it:

"The way the telephone business is growing, you can advance just as fast, and just as far, as you're able. ... And all along the way, from the student period through each assignment, the training and experience you get really prepare you for advancement.

"If you like to make contributions and take responsibility, and if you value the opportunities a growing business can offer, then the telephone company's the place to look for a career."

Ken Boekeloo is one of many young men who are finding rewarding careers in Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about all Bell System Companies.

Church Groups Entertain, Select, Install Officers

The annual Newman Day ban- ney Venables, PrV Soph, vicequet and dance will be Friday in president; Sue Goss, TJ Soph, secthe Student Union. The speaker retary and treasurer; Emily Booth, at the banquet will be Vincent Psy Sr, food chairman; and Jim O'Flaherty III, S.J., of Kansas Pufurst, Soc Sr Fr, worship chair-City. His subject is "Musical Interpretations of Old and New Songs" which he will illustrate with interpretations on the piano. The Dreamaires will play for the dance which will begin at 9 p.m.

Newman Club

Members of the Newman club will be hosts to the regional convention of Kansas Newman clubs at the Student Union Sunday. Jim Lyle, EE Soph, is the regional chairman. Rev. E. J. Weisenberg, S.J., K-State Newman club chaplain, is the regional chaplain.

Newman club members from Fort Hays State college, Wichita university, KU, Pittsburg State Teachers college, and Emporia State college will attend. Each school will bring a basketball team which will compete in a tournament Saturday at Luckey High school.

Canterbury

The new president of the Canterbury Club is Tom Johnston. Hsp Jr. Other officers are Courtman.

The Lutheran Students association recently elected and installed officers for, this year. They are Howard Erickson, VM Soph, president; Gordon Carlson, EE Jr, vicepresident; Janette Garinger, BMT soph, secretary; Harold Albrecht, Chm Fr, secretary; and Richard Bartel, ChE Jr, LSAction director.

Faculty advisers are Dr. Verne Sweedlun, professor of General Studies; Dr. George Larson, professor of Agricultural Engineering; and Miss Inex Ekdahl.

You'll be pleased with a Collegian want ad.

Farm Mechanics Meet

The two sessions of the second annual Farm Mechanics contest, sponsored by the Agricultural Education club, will be at 8 a.m. and 10:30 a.m. tomorrow.

Open to all K-State students with a practical knowledge in welding, carpentry, tool conditioning, and farm power, the contest is divided into beginner's and advanced sections.

An over-all prize for the person compiling the most total points will be given. Individual prizes for first, second, and third in each event will be awarded.

\$100,000 Plus Given to KS In Past Year

Gifts to Kansas State college from alumni, friends, and corporations totaled \$100,151.23 in 1956. according to the annual developmen fund report just released by Kenneth Heywood, director of endowment and development.

Heywood said this more than doubled the amount given in any year since the development fund was started in 1953.

Most of these gifts were earmarked for scholarship purposes, but Heywood said the most popular project among recent graduates was equipment for the proposed new student health clinic.

Britain, France Split with U.S. Over Reprisals Against Israel

Compiled from United Press By KEITH KEMPER

New York-Britain and France split today with the United States Those in Student Health today are:
Colene Henson, HE Fr; Jane Seitz, Eng Jr; Geraldine Fritz, HDA Soph; Marilyn Levett, His Fr; Carmen Paul, EEd Fr; Dean Ebel, AEd Soph; Frank Grippy, BAA Jr; Donald Jordan, ME Fr; Louis Montre, NE Fr; Jon Walker, ME Jr; John Hall, EE Fr; Jo Browning, BAA Fr; Thomas Ruhlman, EE Soph; Paul White, AA Soph; Cameron Moore, Bac Soph; Gary Lazarus, NE Fr; James Shane, His Jr; Joseph Gardner, CE Fr; Max Mattson, DM Fr; Vernon Meinert, BAA Soph; Robert Annan, CE Fr; Gary Williams, ChE Fr; Ronald Edwards, BA Soph; Roger Anderson, MTc Fr; Doh Marker, TJ Sr; Gary Oetinger, GA Fr; David George, Hrt Soph; Jerry Wurster, BPM Fr; and Earl Bell, EE Soph. over the question of reprisals against Israel, and Britain was reported seeking a compromise solution to prevent an open break.

Premier Guy Mollet of France called an emergency cabinet meeting on the Mideast and his forthcoming talks with Presi-Reliable Eisenhower. sources said he would demand a strong declaration of support for Israel.

At the same time authoritative sources in London said Britain's Conservative government was not

prepared to go along with reprisals which the United States may now demand.

The two developments came as Israel appealed to the world and especially to the United States for "understanding" in its refusal to quit Egyptian territory without firm guarantees.

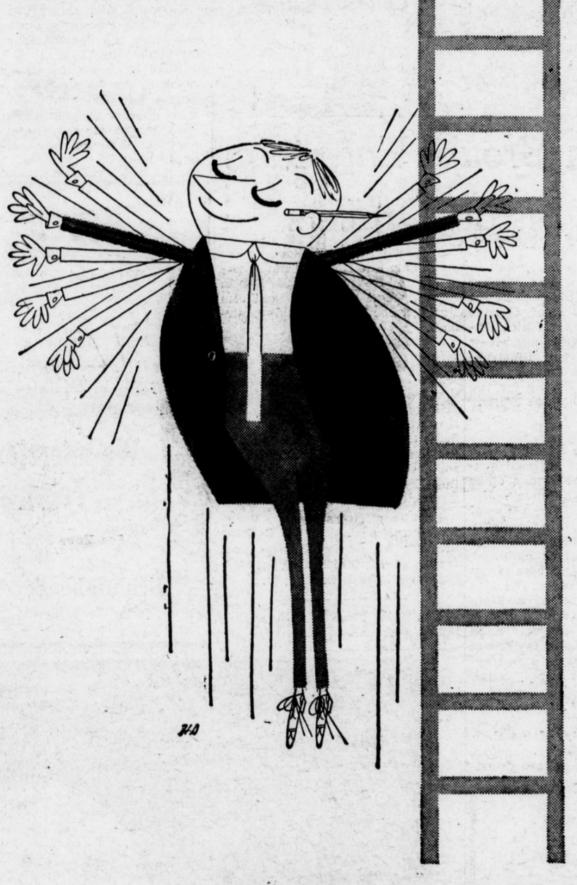

GOP Asks OK of Doctrine

Washington-Senate GOP leaders once more made clear today they want no party line fight over see Williams to be presented March the Eisenhower Doctrine.

They are willing to help push through the weakened Democratic version as quickly as possible.

'Streetcar' Tickets Are Now Available

Tickets are now on sale at the College auditorium box office for the K-State Players' presentation of "A Streetcar Named Desire," the Pulitzer prize play by Tennes-1 and 2. Tickets may be purchased from 3 p.m. to 5 p.m. today and throughout next week.

ENGINEERS SCIENTISTS

we'll be on the campus Thursday and Friday, Feb. 28 and March 1 to discuss your future at Boeing

... where you can rise to the top

Right now you're in the process of making one of the most important decisions of your life.

Your decision is important to us, too, because we are interested in engineers and scientists who want to get ahead. We're coming to the campus to give you the facts you need to judge whether Boeing can help you reach the goal you have in mind.

The fact that Boeing is an "engineers' company" is Important to your success. At Boeing, you'd work with, and for, engineers-men who talk your language, understand and appreciate your work.

Boeing encourages graduate study, reimbursing full tuition and fees, plus an additional amount for incidentals. Every six months, each Boeing engineer is given a merit review—a personal opportunity for recognition and ad-

Personal Interviews on February 28 and March 1

See your Placement Office for time and location

vancement. The company's steady, rapid growth assures plenty of opportunities to move ahead. At Boeing, engineers hold positions right to the top.

Another advantage: Boeing assignments are interesting. You'll work on such famous projects as the 707, America's first jet transport; the intercontinental B-52, the nation's principal long-range jet bomber; the supersonic BOMARC guided missile, and top-secret programs that probe beyond the frontiers of the known. At Boeing, you'll be in a young, expanding industry, one with its major growth still ahead.

So whether you plan a career in civil, mechanical, electrical, aeronautical or industrial engineering, physics or mathematics (or related fields), drop in for a person-toperson discussion about your future at Boeing.

ALL-SCHOOL DANCE-After K-State's tight game Saturday night, a good-sized crowd moved over to the Student Union where Matt Betton's orchestra provided a couple of hours' stomping and relaxing.

Hospitality Day Assembly Hospitality Day Assembly Lollegian Is Scheduled for Thursday

A kick-off assembly for all Home Economics students Thursday is anticipated to inspire participation in Hospitality Day, April 13, and in the preceding committee work, according to Karla Baur, FN Sr, kick-off assembly committee chairman.

All Home Economics students are to be present at the Memorial chapel at 4 p.m. to hear steering committee members explain the activities of Hospitality Day, Miss Baur said.

The purpose of Hospitality Day is to acquaint high school students in Kansas with the K-State School of Home Economics.

The theme of Hospitality Day is "Alice in Home Ec Land." At the meeting Thursday an "Alice," played by Virginia Roenbaugh, HT Sr, will represent all high

school girls when she steps through her looking glass into the "Wonderland of Home Economics" to hear the exhibit committee tell about home economics as a field of education and a career. Chairman of the exhibit committee is Charlotte Lybarger, DIM Sr.

Miss Bauer has written the script and will narrate the program. The other members of the kickoff assembly committee are Janice Albers, HT Soph, and Carol Sitz, HEJ Soph.

Preference sheets will be given to the students at the end of the meeting in order that they may select the committee on which they would like to work for

Hospitality Day. Play Tryouts Set

For Today, Tues. Tryouts for "The Merry Wives of Windsor" will begin at 7:30 p.m. tonight in Holton hall. room 206. Selection of the cast will continue tomorrow at 3:30 p.m. and 7:30 p.m. The play is to be presented in the College

All K-State students are eligible to try out, according to Earl G. Hoover, professor in the Speech department and director of the play. Due to the large cast, many parts are available, especially for men.

Council To Discuss **Election Revisions**

With spring elections for Student Governing association offices in the wind, the Student Council will meet tonight at 7:30 in the Student Union to discuss, among other things, revisions in election procedures.

The Constitutional Revision committee of the Council has come up with two recommended alterations in the SGA constitution that would affect the spring elections.

1. On the general election ballot, the number of candidates from any party shall not exceed the number required to fill any office.

2. Write-in candidates in the primary election must receive the number of votes equal to the number of signatures required for a petition to have their name printed on the general election ballot.

These two alterations, if ac-

cepted by the Council, will simply limit the number of candidates that appear on the final ballot without taking away any privileges of those wishing to file for office.

The Kansas State university committee which is investigating the issue of Kansas State college or Kansas State university will ask the Council for funds to print a brochure about the pros and cons of a name change.

The committee plans to distribute the brochure to students and then take a poll of students auditorium April 4 and 5. about the name change.

Also on the Council's agenda are reports from the Faculty Evaluation committee, the ROTC committee, the SGA Recognition Banquet committee, and Campus Industries.

KS Student Hospital Filled to Brim As Influenza Outbreak Occurs

Student Health is filled to the brim with students suffering with influenza. Twentyseven were hospitalized this morning. "If the cases continue to increase, we may have to open the old College hospital between Student Health and the Veterinary hall," said Dr. Benjamin Lafene, director of Student Health.

This illness is characterized

Supplementary Tickets' Plan Now Cancelled

The supplementary ticket plan which was under consideration for the KU-K-State game, has been called off, according to Frank A. Mosier, ticket ma.

The plan was going to require each student to pick up an additional ticket to be submitted with his activity card for admission to the game.

Six-thousand tickets had been

"We might reconsider the plan when the members of the Athletic Council return from the Missouri game," Mosier said. "But we won't know anything for sure until Wednesday, February 27."

Originally the plan was designed to determine whether or not students were using their activity tickets. "Saturday night's game with Iowa State certainly proved this," Paul DeWeese, sports publicity director said.

by fever, aches and pains, and a sore throat. "At the very first signs of these symptoms. it's advisable to go to bed and stay for 24 to 48 hours, and drink alot of fluids," advised Dr. Lafene. "If this advice is followed, most students will recover pretty promptly."

"However, it is best to go to Student Health where the student can be watched closely. so that complications such as pheumonia won't arise. Influenza is very prone to develope into pneumonia, and some of the students have already become sick with it," said Dr. Lafene.

Epidemics such as this one

usually last from 10 days to two

Students can keep down unnecessary illness by:

- 1. Dressing for the weather.
- 2. Stifling sneezes and coughs to prevent further spreading of
- 3. Going to bed at the first symptoms of the illness.
- 4. Getting an influenza shot. For 50 cents, students can practically insure themselves against the illness. "This vaccine works very well. In the past few years, the students who got them were very rarely affected by any winter-time illnesses," said Dr. La-

Statehouse Officials Tour K-State Campus

More than 30 visitors attended the traditional state Senate and House Ways and Means committees tour of the campus Sat-

Among the guests present was the chairman of the Senate Ways and Means committee, Sen. August W. Lauterbach and Rep. Roderick Bentley, vice-chairman of the House Ways and Means committee: Speaker of the House, Rep. Jess Taylor; Sen. Sam Charlson and Rep. Charles Arthur.

Present from the Board of Regents were Sec. Hubert Brighton and Larry Morgan.

The tour included a visit to Jardine Terrace, the married student housing project, where the

group was shown through the apartments of Francis Sendelbach, DM Soph, Emporia, and Carroll Glanville, AgE Soph, Marienthal.

The ladies were guests at a tea served in Southeast hall following the tour.

A group dinner was served in the Student Union after which the party attended the Iowa State-K-State game.

The entire Kansas Legislature will be guests of the College March 6 for the K-State-KU game.

All transportation for these tours is provided to the College by the Manhattan Chamber of Commerce as a public service.

Photo by Darryl Heikes

JACK PARR (33) deflects Gary Thompson's shot in the second half of Saturday's contest. Thompson (20) had just spun off the pivot. Parr ended the game with 33 points and Thompson had 29. Eddie Wallace (13) and Roy DeWitz (11) of K-State come up for a possible rebound. Al Lowery (33) of lowa State watches.

WHAT IS IT? It is not a jigsaw puzzle, rather it is an exclusive picture story to the Collegian of feasting termites. In their debut after a month or two of serious undercover work, the termites residing, tax-free naturally, in Kedzie hall finally showed their hand. Dietary delicacies were limited to three boxes of paper, 2-ply index, topped off with an entree of solid nourishing cardboard wrappings. Cost, roughly \$75.

Wise and Otherwise -

Coincidental Incidental

By Darrel Miller

Several Kansas legislators, alarmed at the inadequacy of K-State's educational facilities, showed up on campus Saturday to inspect the situation. Their arrival coincided with the K-State-Iowa State game.

Interest in the College's expansion program is expected to increase, reaching a climax on March 6 when the Kansas Jayhawks come to town.

If K-State had two or three more home games, we could get an entirely new physical plant.

The termites in Kedzie hall have exceptionally good taste. They made their home in three reams of cardboard in the KSC Press storeroom. The cardboard, valued at about \$75, was crawling with termites but a nearby two-by-four was almost ungnawed.

That's not surprising. No selfrespecting termite would dine on soft pine when he had an ample supply of 2-ply buff index available.

The termites have been exiled to the classroom barracks, where they'll live on nothing but hard pine and knot holes.

Intercepted letter home: "Dear Mom and Dad: Haven't heard from you in three weeks.

One year in Riley county

Society EditorJudie Ross

AssistantCarol Sitz

Church EditorMarcia Boyd Exchange Editors Shari Shellen-

berger, Darrel Miller

Please send a check so I'll know you're OK."

Overheard:

Frustrated Professor: "Darn! There must be an easier way to make a living."

Student: "Yeah, but not much easier."

With the March 6 game with KU looming nearer and nearer, it seems apropos to close with a bit of information about the Javhawks. I'm especially intrigued by the following sketch of coach Dick Harp, as sketched by KU sports publicist Don Pierce:

"There's a little bit of Phog Allen in Dick Harp. A little bit of Hank Iba too. But mostly it's just Dick Harp."

You don't see many of those anymore.

Friday's delivery of 6,000 supplementary tickets for the KU-K-State may be destined for file 13, although officials are still withholding final decision until Wednesday.

K-Staters are biting their nails awaiting the decision.

If approved, the proposal promises to promote a queue several times around the building. Basketball fans had better pack a lunch. (B.K.E.)

Educational TV's Supporters Warned

Kansas' educational television channels 8 and 11 are in grave danger of being lost according to Ralph Steetle, executive director of the Joint Council on Educational Television in Washington, D.C. -

In a telephone conversation with Dr. Forest L. Whan, head of the radio section, Department of Speech, Steetle said that in his opinion Kansas would lose these two channels immediately if the present legislature does not allocate funds to put them into use and demonstrate that the people of the state are interested in educational television.

"Two educational channels, located at College Station, Texas, and Weston, W. Va., have already been taken because the Federal Communications commission was convinced that no real desire existed for their educational use," he said.

Steetle commented that the FCC has before it at the present time a measure which would remove all channel reservations, both commercial and educational, and would base future channel allocations on a first come first served basis. If adopted, this would mean that all channels would in effect be opened to the highest bidder. This plan would not effect any channels on which definite construction programs were in prog-

Dr. Whan said this new information, "has renewed support of arguments already presented by the Citizens Committee on Educational Television for Kansas and will no doubt be of interest to the legislators when the educational television bill is brought officially to their attention.

Quotes from the News

By UNITED PRESS

Washington-President Eisenhower, in his speech to the nation on Israel:

'I believe that—in the interests of peace—the United Nations has no choice but to exert pressure upon Israel to comply with the withdrawal resolutions."

Washington - Senate Democratic Leader Lyndon Johnson on President Eisenhower's call for pressure on Israel if it does not withdraw from Egyptian territory:

"I regret that the administration feels that there is no choice but to bring pressure on one side of a two-sided dispute in the Middle East unless certain terms are met."

United Nations, N.Y .- Dr. William Hitzig; on the collapse of India's V. K. Krishna Menon after a speech in the UN security coun-

"He had a bout of coronary insufficiency, complicated by a circulatory collapse in which his blood pressure did not adjust itself to an erect position."

Chicago - Mrs. Louis Emlund unsuccessfully searching for a new home for her husband and 13 children:

"It seems like refugees from foreign countries come here and find jobs and houses ready and waiting, but people who have lived here all their life can't."

Madison, Wis .- Jeff Smith, a musician in a Manhattan classic jam session attempting to play through 83 compositions by Joseph Haydn, explaining the session might have to be cut short because of a lack of fiddle players:

"The rest went home and marooned us here."

New York-Dr. Wesley Shrader, associate professor of pastoral theology at Yale Divinity School, describing Sunday school as the "most wasted hour of the week":

"Many parents ask nothing more of Sunday school than that it keep their children occupied and out of the way for one hour a

Lee Holds Out Hope For Balanced Budget

By BRUCE K. ELLIS

Although forecasting a loss from operations, Athletic Director Bebe Lee is not pessimistic about the financial future of his athletic budget.

While reserves have dwindled slowly he says, the entire department is aware of the financial condition and is doing everything in its power to reduce expenditures.

Ultimately the answer lies with the students, he adds. In an analysis of other Big Seven schools, Lee points out that K-State has the lowest appropriation in the conference.

Lee claims his biggest head-

ache is the variable income resources he must rely upon.

There are four alternative plans suggested by Lee to compensate for his variable income. They are

1. Divorce the athletic fund fees from the student activity fees paid each semester;

2. Increase the appropriation from the appropriations board;

3. Curtail the athletic program of intercollegiate competition;

4. Increase the seating capacity thereby increasing the potential income from ticket sales.

Young Republicans To Choose Queen

from among K-State coeds to represent the Collegiate Young Republicans at the state convention in Emporia March 15, 16, and 17.

One girl will be nominated from each sorority and two from each dormitory to enter the K-State contest. They will be presented, modeling bathing suits and formals, at a club meeting March 5, at 7:15 p.m. Members of the local Young Republicans will be eligible to vote for their choice. Meeting place will be announced later.

Young Republican membership cards will be sold in Anderson hall this week until Thursday noon, or they may be obtained from any officer of the club. Memberships are now 50 cents, according to Gene Olander, EE Fr, publicity chairman.

Political Science Club

"City Politics" will be the topic for discussion this evening when Mr. Albert Horlings, Manhattan publisher, speaks to the Political Science club at 7:30 p.m. in Student Union 203.

Junior College Transfer Luncheon

Junior college transfers to K-State are urged to attend the buffet luncheon for junior college deans and K-State faculty representatives tomorrow, February 26, according to E. M. Gerritz, director of admissions and registrar. The luncheon will be held in the Union at noon as part of the annual junior college conference.

ing the conference that transfer committees are executive, camstudents will be able to converse paign, publicity, platform, Greek, with their former deans, Gerritz independent, and dormitory. said.

Cats Pass I-State, Face Missouri U Tonight

By JIM BELL

Collegian Sports Editor K-State's Wildcats stayed in the Big Seven title race last Saturday night and won their ninth game in a row as they dealt the Iowa State Cyclones an 86-77 overtime defeat.

The Cats meet Missouri tonight at Columbia, then play a rematch with Iowa State at Ames Saturday before meeting Kansas' Jayhawks here a week from Wednesday. K-State must win all three games to tie the Jayhawks for the

Jack Parr, 6-9 Cat center, collected 22 first half points and ended the game with 33 in leading K-State to the win Saturday. Bob Boozer, 6-7 forward, was close behind Parr with 26 points.

K-State opened scoring in the game when Boozer collected a pair of free throws. Lyle Frahm, Cyclone guard, hit a jump shot to tie the game at 2-2, then 5-10 Gary Thompson hit a series of jump shots from the outside to shake the Cats loose from their 1-3-1 zone defense.

K-State switched to a man-forman defense after some six minutes had elapsed. Thompson continued to hit. He had 15 Cyclone points at halftime and ended the second period with 29 points.

Iowa State held a 10-6 lead with 14:10 left in the first half. The Cyclones Rept ahead until Parr hooked one in with 10:25 left to give K-State an 18-17 lead.

Iowa State had led 17-14, but the Cats jumped that 3-point deficit into a 7-point lead on 10 straight points. That made the score 24-17, the widest margin either team held until the overtime period.

K-State led through the rest of the first half and commanded a 42-38 halftime margin.

Iowa State tied it up early in the final half when Thompson rebounded under the basket and layed the ball through. That made it 44-44 with 16:00

From that point, the game was tied eight times. No more than six points separated the two team during the half.

K-State held that margin once at 56-50 with 11:35 remaining. but the Cyclones tied it, 56-56, and the margin never exceeded two from then until the end of regulation playing time when it was tied 68-68.

Boozer helped K-State keep pace with the Cyclones in the second half. He hit 12 points dur: ing that period.

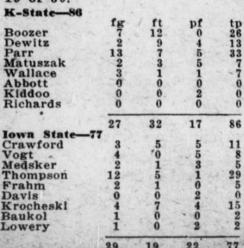

Boozer hit his 26th point on a tipin with nine seconds of the overtime gone. Don Matuszak, 5-11 Cat guard, hit a pair of free throws a moment later to give K-State a 72-68 lead.

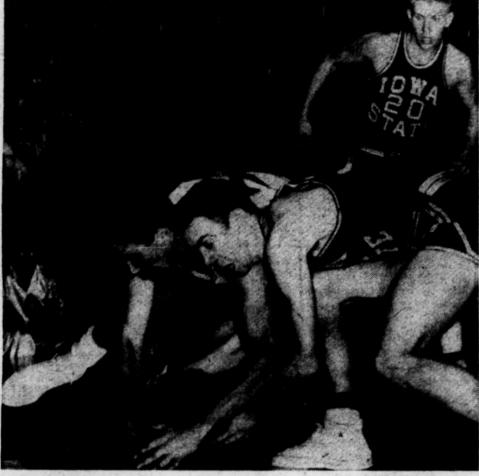

Cyclone John Krocheski hit two free shots to narrow the Cat lead to 72-70 with 3:50 remaining, but K-State left no doubt from then on as to whom the winner

was to be. Parr got seven points and Matuszak five in the overtime period. K-State increased the margin to 14, the widest lead of the contest, when Parr tipped the ball through for an 84-70 lead. That was with 1:05 left.

The Cyclones came to life, then, and scored seven straight points.

K-State was outshot by the Cyclones, 38.2 to 37.5 per cent. The Cats hit 32 of 39 free shots and Iowa State could make only 19 of 30.

JACK KIDDOO battles Lyle Frahm of Iowa State for the ball in first half action Saturday night. Gary Thompson (20) of Iowa State is in the background. Thompson hit 29 points in the contest, but K-State won in overtime, 86-77. The Cats go against Missouri tonight.

souri's Tigers in Columbia tonight competition. in a bid for their eighth Big Seven win of the season.

The Cats are involved in a 2way race for the Big Seven championship and must win all three of their remaining conference games to tie Kansas' Jayhawks.

Saturday night, the Cats slipped by one of their biggest tests, but Missouri is traditionally tough in Brewer field house, and K-State must face Iowa State once more, before taking on the Hawks in a showdown battle on Wednesday, March 6.

"In this league, they're all tough when you play 'em on the road," Cat Coach Tex Winter said of tonight's game. "We know we're in for a ball game."

Missouri goes into the game with a 4-6 Big Seven standing. Saturday the Tigers dropped Colorado's Buffs, 72-62, at Columbia.

K-State's Wildcats take on Mis- | K-State is 7-2 against conference

Missouri, 10-11 for the season, has upset Iowa State twice this season. Lionel Smith, 6-2 Mizzou guard, hit 44 points against Marquette to set a new record for the most points in Missouri's Brewer field house,

For K-State, Jack Parr upped his average to 21.6 with his 33 points against Iowa State. Bob Boozer is hitting at a 19.6 clip, and Roy DeWitz has an 11.2 average.

Probable starters: K-State Boozer (6-7) F
Dewitz (6-3) F
Parr (6-9) C
Wallace (5-10) G
Matuszak (5-11) G (6-2) Smith

PRODUCT OF The American Tobacco Company AMERICA'S LEADING MANUFACTURER OF CIGARETTES

7 Playoff Is March 6

By UNITED PRESS

Kansas university's hold on first place in Big Seven basketball didn't figure today to be loosened this week when the Jayhawks meet Colorado. But there's a showdown coming for the Wilt Chamberlain crowd March 6.

The test, which may blow the roof right off Ahearn field house in Manhattan, either will give Kansas a clear title or divide the championship between the Hawks and K-State, provided both teams can win Big Seven tilts before that date.

Chamberlain canned points in leading Kansas to a simple 87-60 win over Nebraska Saturday. No trouble is expected at Boulder this Saturday. Nor is K-State, 86-77 winner in overtime over Iowa State, expected to falter against Missouri at Columbia tonight.

There could be trouble for the ildcats Saturday when they go to Ames for a return engagement with Iowa State. But the odds will favor the Cats to end the week with a 9-2 league record, against a probable 9-1 Kansas figure.

Iowa State crowded K-State

Vets Downed By KU Outfit

After a close first half, Kansas university's Medical Center pulled away to a 70-47 victory over Jr. American Veterinary Medical Association in a basketball game Saturday afternoon.

Med Center started fast and pulled away to a 10-6 lead with ballhawking tactics. At that point Hoot Gibson entered the game for Jr. AVMA and his rebounding, passing and shooting ent the K-Staters in the game for the rest of the half. After a see-saw battle, the KU team led at halftime 31-29.

Following the third quarter, which ended with the Jayhawks on top 50-43, the roof fell in on the Wildcats. The KU Meds scored 10 straight points at the start of the last period before the Jr. Vets could score again. Med Center completely dominated that quarter as they controlled the rebounds and intercepted the ball frequently to score on fast breaks.

A Message from

"More personal recognition and more chance for advancement makes Emerson Electric an ideal place for a young engineer to build a brilliant career."

"The advantages of working for a medium sized company are real. It may be trite to speak of getting lost in the shuffle of giant organizations . . . but it happens. I know from my own experience that a man has a strong feeling of belonging here at Emerson . . . a quality essential to a satisfying job. Here your work is a direct contribution to the team goals of your organization and is recognized as such. Moreover, our projects are distinctly nonroutine, varied, and highly interesting. And the tangible rewards are in the above-average

"Emerson's planned expansion program is another very definite reason why a young engineer should be interested in Emerson. If he gets in on the ground floor now, he will enjoy unusual opportunities for fast advancement in responsibility, recognition, and compensation. Emerson is definitely a place where a man can make his mark."

Our vast expansion program, the most ambitious in our 66 year history, means one thing for the young engineer who comes in now . . . opportunity! Opportunity to grow with technology that's making tomorrow today. Opportunity to advance quickly into a fast moving series of more and more responsible positions with commensurably increasing rewards. Opportunity to profit from the cooperation of small teams of experts. Opportunity to move ahead without the constriction of clogged up top levels—such as you would encounter in companies

which have already achieved their full growth. Whatever your preferred field of engineering specialization (or generalization), there is a gateway to career progress waiting for you at Emerson. Commercially, since 1890, Emerson has been a leading producer of fans, motors, air conditioners, welders and power tools. The Electronics and Avionics Division, a leader nationally since 1940, designs, develops, and manufactures active defense systems for bombers, supersonic air frames, mortar locators,

missiles and rockets like the Honest John. You owe it to yourself to find out how you can get in on the ground floor of this fast growing, medium sized company. Meet Emerson's engineering representatives and talk over your career plans with them. Firm job offers can be made. If it's impossible for you to make a date, be sure to write A. L. Depke, Technical Placement Supervisor, for full details.

Labor Secretary Proposes **Extending Minimum Wage**

Compiled from United Press By KEITH KEMPER

Washington-Secretary of Labor James P. Mitchell proposed today that the federal minimum wage law be broadened to cover some 2.5 million additional work-

A Senate labor subcommittee called Mitchell to give the administration's first concrete proposals on extending the minimum wage act.

Mitchell's proposals fell far short of organized labor's demands that 10 million additional workers be blanketed in under the act.

The bulk of the workers, two million, to be brought in under Mitchell's proposal are employed in the retail trades profession. Coverage of these workers long has been cherished by labor.

However, Mitchell did not include the coverage of two other groups of workers sought by the AFL-CIO. These were 1.4 million agricultural workers and another 1.4 million outside salesmen.

The Labor Secretary also ruled out extending the \$1 hourly wage floor to workers employed in small, local businesses.

Voting Begins in India

New Delhi-Voting began in earnest today in India's second general election-the world's biggest free election with 200 million voters registered.

The first local voting yesterday was in the state of Punjab near New Delhi and Orissa, south of Calcutta. The initial turnout indicated a massive vote.

The voting, which picked up speed today, will continue until March 12 under the watchful eyes of one million election officials.

The voting is for 494 seats in the lower House of Parliament and for 3,102 seats in 12 State Legislatures. Final results are not expected before March 31.

SCIENTISTS

we'll be on the campus Thursday and Friday, Feb. 28 and March 1 to discuss your future at Boeing

... where you can rise to the top

Right now you're in the process of making one of the most important decisions of your life.

Your decision is important to us, too, because we are interested in engineers and scientists who want to get ahead. We're coming to the campus to give you the facts you need to judge whether Boeing can help you reach the goal you have in mind.

The fact that Boeing is an "engineers' company" is Important to your success. At Boeing, you'd work with, and for, engineers-men who talk your language, understand and appreciate your work.

Boeing encourages graduate study, reimbursing full tuition and fees, plus an additional amount for incidentals. Every six months, each Boeing engineer is given a merit review—a personal opportunity for recognition and ad-

preonal interviews on February 28 and March 1

Placement Office for time and location

vancement. The company's steady, rapid growth assures plenty of opportunities to move ahead. At Boeing, engineers hold positions right to the top.

Another advantage: Boeing assignments are interesting. You'll work on such famous projects as the 707, America's first jet transport; the intercontinental B-52, the nation's principal long-range jet bomber; the supersonic BOMARC guided missile, and top-secret programs that probe beyond the frontiers of the known. At Boeing, you'll be in a young, expanding industry, one with its major growth still ahead.

So whether you plan a career in civil, mechanical, electrical, aeronautical or industrial engineering, physics or mathematics (or related fields), drop in for a person-toperson discussion about your future at Boeing.

SC Okays Change In Election Ballots

Recommendations to limit the number of candidates to appear on the final ballot in the spring general elections for Student Governing association positions were accepted last night by the Student Council.

Other actions by the Council included an appointment to the board of directors of Campus Industries and authorized nine more members for the Campus Business Relations committee.

The Council approved two alterations to the SGA Constitution concerning spring elections.

1. On the general election ballot the number of candidates from any party shall not exceed the number required to fill any office.

2. Write-in candidates in the primary election must receive the number of votes equal to the number of signatures required

Old Hospital Opened, Full In One Day

The old college hospital between Student Health and the Veterinary hall was opened yesterday, and is already full of students suffering with influenza, according to Dr. Benjamin Lafene, director of Student Health. Fifty students are now hospitalized, which leaves only seven empty beds.

"If this epidemic continues to get worse, we may have to get more beds, and set them up in the hall. However, I sincerely hope that we have reached the peak of the epidemic and it will start to slow down," Lafene said.

A lot of extra help has been hired, including more nurses, nurses aids, kitchen help, tray carriers, and an extra cook.

The old college hospital has not been used since February, 1952, when there was an epidemic of measles and influenza. for a petition to have their name printed on the general election ballot.

These alterations will have no effect on the privileges of students wishing to file for office.

The Campus Business Relations committee was granted authority to add nine more members to the committee to help conduct a poll of students. The poll will attempt to determine how much money students spend in Manhattan.

Current plans of the committee call for a questionnaire to be sent to every 10th student. The information gained will be of value to the administration and student government, according to the committee.

Darold Barb, ChE Sr. and Elin McCandless, HDA Jr. were appointed to a committee to investigate the possibilities of giving a gift to the Student Union on its first birthday, March 8,

Dean Herbert Wunderlich reported that President McCain has approved the athletic holiday on March 7 if K-State wins the basketball game with KU. Otherwise, the holiday will be added to Easter vacation.

Donald Beck, ME Jr, was appointed to fill a vacancy on the board of directors of Campus Industries and will be continued in office for next year.

Mary Lou Compton, Sp Jr, reported that a committee of the Activities board has tentatively established three standards for choosing places for student social functions.

The committee decided that health standards, reasonable distance, and conduct standards would be considered. Council members were asked to submit further recommendations to the committee.

The Council tabled a proposal by the Kansas State University committee to allot funds to print a brochure stating the pros and cons of a name change. The Council felt that a cheaper method could be found for getting the information to the students.

Bill Amstein, AH Gr. was welcomed to the Council. He replaces Bob Lynch, who resigned and joined the army. Amstein will represent the Graduate School on the Council.

Kansas State College, Manhattan, Kansas, Tuesday, February 26, 1957

NUMBER 94

AWS Decides

Closing Hour Is One a.m. If Wildcats Defeat Hawks

If K-State's basketball team beats KU next Wednesday night all women will have 1 a.m. closing hours. This was proposed by the Association of Women Students last night and approved by Dean of Women Helen Moore. There will also be 11 p.m. closing hours Thursday.

Four girls suggested possible

The suggestions were to hold a car wash, to sell K-State souvenirs at Hospitality Day, to hold a carnival, or to make an agreement with a downtown theater to sell tickets.

The nominating committee which will interview candidates for AWS officers was elected.

money making projects for AWS. They were Jean Koerner, DIM Soph, chairman; Eleanor Olson, HDA Jr; Kay Eplee, BA Soph; Marilyn Clark, EEd Jr; and Darlene Nelson, EEd Sr.

In order to petition for AWS offices, women must have served on the Women's council at least one semester prior to their petition, and have an accumulative grade average of 1.5. Election will be held April 1 and 2, and each woman student will have a

Ruth O'Hara, HT Fr, proposed a new plan whereby the AWS will coordinate the nomination of queen candidates. Each organization will be requested to tell AWS three weeks ahead of the time they will need candidates.

If this proposal is approved by the different women's living groups, organizations failing to comply with it will not receive queen candidates. Monne Wills, EEd Fr, and Emily Douthit, Psy Soph, helped in composing this proposal.

Library questionnaires which were distributed in the houses last week, were turned in by the AWS representatives. The se questionnaires asked such questions as, "Does the library stay open late enough at night to allow you sufficient time to get your lessons?" It also asked for additional comments. These questionnaires will be tallied and the results given to the library.

For KU Tilt

Ticket-Takers Added; **Ducat Debate Decided**

Extra officials will be added at student gates to check identification of possible non-students using student activity tickets at the March 6 KU-K-State basketball game, Athletics Director Bebe Lee announced.

The extra gate-watchers will be used in lieu of the supplementary ticket plan that had been proposed.

"We're going to redouble our efforts to check student activity tickets," Lee said.

"If someone comes in with one that he can't prove is his, he won't be allowed in the Field House, and the ticket will be confiscated."

Tickets confiscated will be turned over to the Dean of Students office.

"The whole thing is a protective feature for the Athletic department and the Studentsthose who want to play the game fair," Lee stressed.

"Students are urged to retain the use of their activity tickets for the KU-K-State game," Dean of Students Herbert J. Wunderlich said.

Crewcuts Here March 9 For Union Birthday Blast

The Crewcuts' quartet will be at K-State for a concert and dance, Saturday, March 9, to climax festivities of the Union's first birthday celebration.

Tentative plans scheduled for the week of March 3 through 10 include a pictorial display reviewing events of the first year of operation.

Two art exhibits will be held during the week. One will be drawings, the other oils. All were painted by Kansas artists. These exhibits will be sponsored b, the Art subcommittee.

"Union Clues," a newspaper sponsored by the Publicity committee, will be out Monday, March 4. The eight page issue will contain stories about the birthday festivities and a review of the year's happenings in the Union.

Coffee will be served from 3 to 4:30 p.m. on Friday, March 8, sponsored by the Coffee Hours committee. A jam session will be held in the Dive immediately afterwards, sponsored by the Night Club committee.

The first cinemascope movie to be held in the Little Theater "Seven Brides for Seven Brothers," will be shown at 7:30 p.m. Friday, Saturday, and Sunday (March 8, 9, and 10). The movie stars Howard Keel and Jane Powell.

The concert featuring the Crewcuts will last from 8 until 9 p.m. Saturday, followed by a semi-formal dance until midnight. The Royal Purple queen will be crowned at the dance. Music will be furnished by Jimmy Featherstone's orchestra.

Couples only may attend the dance, but individual tickets

Kansas City Field Trip On Home Ec Schedule

The 12th Annual Field Day program for home economic students will be held in Kansas City, Mo., Friday, March 1.

Home Ec majors interested in attending should contact Miss Marea Bordt, instructor in Family Economics, Anderson hall 221A, immediately.

For Pay Raises

(This is the fourth in a series of stories about K-State's budget request now facing Legislative approval.

By GEORGE F. VOHS

A recent plea to the Kansas Legislature by the Board of Regents asking for \$657,787 to further increase faculty salaries at state-supported schools again focuses attention on the inadequate salaries of teachers.

On February 15 the Regents asked the Legislature to approximately double the amount provided for salary increases in the budget recommendation for state schools by Gov. George Docking.

The governor's request has allowed for a 5 per cent increase in salaries. This amount was originally requested by the Regents in December and okayed by Docking. He indicated that the additional funds request was strictly a legislative matter and not a recommendation to the governor.

The loss of instructors at state schools since the the original salary request increase was submitted is what prompted the Regents to up the amount by 5 per cent.

If the request is approved, K-State would get \$260,000 more to raise salaries. Kansas university would get \$240,000 and the other state schools would get the remainder. K-State's \$20,000 more than KU, would help provide funds to raise Extension salaries, a department KU does not have:

The \$260,000 plus about \$320,000 now in the governor's budget request would give the College \$580,000 for pay raises during the fiscal year 1958. This amount is somewhat below an estimated \$800,000, or 15 to 20 per cent raise, that is necessary to bring K-State's salaries up to the average salaries paid at 70 other land-grant colleges and universities.

This means the College will still have to fight tooth and nail to keep their top professors from leaving for higher paying positions in other schools or in private industry.

President McCain has repeatedly stressed to students, faculty, legislators, and everyone else, the seriousness of the rapid loss of qualified instructors from the campus. More than 100 top teachers have left K-State during the past year.

K-State is not alone in its failure to keep instructors. KU and other schools in the drought area are experiencing the same difficulty.

Salary requests made by the College in addition to the overall 10 per cent now being considered by the Legislature included \$182,840 to hire 38 more instructors to take of an estimated enrollment increase of 374 students. Thirty of these would be actual teaching instructors. Also, the College asked for \$6,078 to hire a radiologist for the School of Veterinary Medicine.

Though K-State's salaries will still be under par as compared to other schools, if the requests before the Legislature are approved, the situation will be greatly improved.

The \$260,000 addition asked by the Board of Regents will permit the College to give merit raises to superior faculty members instead of straight across-the-board hikes. It is hoped that by this method, the rate of faculty leaving for higher paying jobs will be reduced.

Regents Request Part-Time Work Versus Scholarship

By JANICE GRAHAM

Evidently full time students have the "knowhow" to tackle a part time job with no real difference in terms of scholastic achievement. At least in a case of a recent survey conducted by the Student Counseling center, students who work part time while attending school make about the same grades as those who don't.

During the registration period in September 1955, K-State sophomores were asked to fill out a brief questionnaire concerning their part time work activities during the previous (freshman) year. About half of the sophomore men and 40 per cent of the sophomore women worked part time during their first year. Typical feeling by student employees on the subject of job interference with scholastic achievement is represented here.

DUANE DANIELS, Ar 02, Parsons, consistent with the idea that there is a tendency for those who take more hours to make better grades, is shown on the job here as he arranges a window display at the Campus Book store. "I think it's helpful for a person to work and go to school because it teaches him the value of time and effective time budgeting. You don't waste extra minutes doing unconstructive things," he said.

CAROL LARSON, HT Fr, Athol, represents dozens of other switch board operators in the wo-

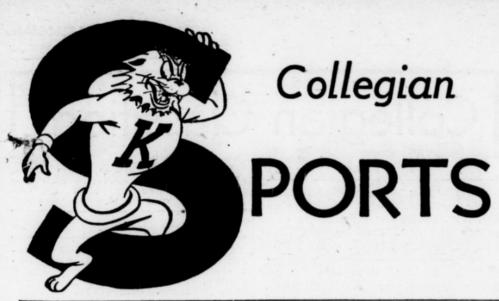

men's dormitories on campus. Receiving calls and callers to residents of Northwest hall, Carol admits that the job definitely has its merits. "I meet a lot of people and become better acquainted with the girls in the dorm," said Carol. When she's not too busy, she finds time to study, and so sees no interference with her grades.

THOMAS COBLENTZ, Zoo Soph, Salina, is pictured holding a six-foot bull snake. He demonstrates how easy it is "after you get used to it." He is caretaker for the snakes in the zoology museum several times a week. Feeding them and cleaning their cages has grown to be more of a hobby with him than a job. Proud owner of a baby cobra snake. Tom is looking forward to the day when the reptile reaches its maximum size.

GARY RUMSEY, AEc Jr, Almena, is caught in the midst of his sales pitch. "My job gives me the opportunity to meet many college people and I've learned good taste in men's clothing. It's wonderful work for a college man because he can go home for vacations when everyone else does. It isn't the kind of job I get dead tired over when I go home at night.

Other results of the survey indicated that students who work part time while in school carry as many hours as those who do not. The only real differences that exist are in terms of achievement according to sex, with grades for men slightly below those for women. This may be accounted for in part by the fact that grades mean more to women than men. Women's housing arrangement is more conducive to study, and women take courses where grading standards are lower.

Cat Cagers Master Mizzou By JIM BELL

K-State moved a step closer to the March 6 basketball meeting with Kansas when the Cats whipped Missouri last night, 78-71, at Columbia.

Collegian Sports Editor

K-State took an early 6-4 lead in the contest and was never headed, though Missouri was alwavs within range and several times threatened to take the lead.

The game was played before a partisan Missouri crowd that booed the officials freely and more than once during the contest threw papers and coins onto the playing floor. One Missouri player, Glenn Forristal, was ejected in the late stages of the second half in the wild, rough contest.

The win boosted K-State's Big Seven record to 8-2 and moved the overall Cat record to 15-6. Missouri is now 4-7 in conference play and 10-12 overall. The win was the 10th in a row for K-

The Cats have two games remaining, the first at Ames against Iowa State Saturday, and the second against Kansas in Manhattan a week from tomorrow.

K-State must win both those games to tie Kansas for the Big Seven title, provided the Hawks do not stumble in other conferénce contests.

Bob Boozer, Eddie Wallace. and Jack Parr were the big guns for the Cats last night. Boozer and Wallace each accounted for moment later to make it 73-65 21 points and Parr had 20.

K-State led at halftime, 40-36. In the first half, the Cats led by as much as eight points, but could never deliver the knockout

Missouri could come no closer the gun had sounded. to K-State than two during the K-State-78 second period. The Tigers narrowed the margin to two twice shortly after the half opened at 40-38 and 42-40. K-State, however, pulled away each time to avert possible disaster.

The widest margin of the evening was 10. The Cats held that spread twice, first on Wallace's jump shot from the free throw circle for a 65-55 count, then on a Boozer jump shot from the base line, 67-57, with 7:30 remaining in the game.

Missouri went to work then, and closed the gap to 68-65 before K-State called time with 2:28 left: The Tigers were pressing at this point, but Wallace got two free throws with 1:58 left, then Jack Kiddoo hit a free throw to make it 71-65 with 1:32 left.

Don Matuszak, got a layup a

French Leader in States To Strengthen Relations

Compiled from the United Press By KEITH KEMPER

Washington-President Eisenhower and French Premier Guy Mollet get down to the job today of rebuilding strained Franco-American relations.

They arranged morning, noon, and afternoon meetings at the White House during the first full day of Mollet's official visit to Washington.

At the same time, French Foreign Minister Christian Pineau met separately with Secretary of State John Foster Dulles.

Relations between the United States and France hit a postwar low last fall when France and Britain invaded Egypt without first conferring with this government. The invasion strained badly the formerly close ties among the big three western allies.

Only recently, after the British-French widthdrawal from Egypt, did Mr. Eisenhower agree to meet with Mollet and the New British Prime Minister, Harold MacMillan. The President will confer council, should contact Charles

holidays will be allowed.

given.

Exam Schedule Change Planned for Next Year

A change in the fall semester final examination schedule and the discontinuance of the Memorial Day holiday are the primary changes in the 1957-58 academic and financial calendar, according to Albert L. Pugsley, dean of academic administration.

Classes for the fall semester will begin Thursday, September 12. There will be a week between the end of the fall semester examinations and the beginning of second semester classes on Monday, February 3.

The longer between-semester holiday will extend the spring semester a few days. Pugsley pointed out that the second semester has always been shorter by several class days than the fall semester. Next year, final examinations for the second semester will be from May 24 to May 31.

Effective September 1, 1957, the College will stop granting elective credit for time spent in military service, Pugsley said.

Under the present system—a veteran may obtain credit for four hours of basic military science plus three hours of elective credit for a two year enlistment. In the future only the

Future Student Teachers To Meet with Advisers

All secondary education students interested in student teaching should make appointments with their advisers immediately. The advisers and their subject fields are Prof. George A. Olson, social studies, modern languages, and industrial arts; Prof. Russell G. Drumright, mathematics, science, and business education; and Prof. J. H. Littrell, English, speech, journalism, and art.

Philharmonic Concert Attended By 1,500

Approximately 1,500 people attended the Kansas City Philhamonic concert, fourth of the Artist Series programs, performed last night in the College auditorium.

The program: Fantasia on a Theme by Thomas Tallis, by Ralph Vaughan Williams; Symphony No. 94 in G Major, "Sur-

Davis Praises Grade Average Of Honor Frosh

The 37 freshman students who entered the Arts and Sciences honors program last fall had an average grade point of 2.2, Prof. Earle R. Davis, chairman of the standing honors committee, has announced.

Professor Davis feels the 2.2 average was satisfactory because the honor students often were taking harder courses than other freshmen.

Sixteen students had an average of 2.5 or better, 1 id 10 students had 2.8 or bet r. Two students, Sue Hiebert and Judith Izard, had perfect 3.0 averages.

There was no one in the honors program with less than a 1.0 average, although 13 students had grade averages between 1.0 and 1.8. Professor Davis believes it will be necessary to cut four or five students from the honors program.

prise," by Franz Josef Hayden; Leonore Overture No. 3, Op. 72, by Ludwig van Beethoven; and Symphony No. 5 in E Flat, Op. 82, by Jean Siebelius.

The orchestra performed as an encore a number which they had never played before, 'Anger Over a Lost Penny," a rondo by Beethoven. This was played because of the warm response with which the crowd received the performance.

"The concert was very well done," said Prof. Jean Hedlund, director of the marching band, "and the audience seemed to enjoy it."

Applications Due For Draft Tests

Men eligible for the draft must have their applications for the Selective Service college qualifications test in by March 5, according to Sumner B. Morris, director of the student counseling center.

The purpose of the test is to provide draft boards with evidence of the qualifications of registrants for continued college study.

All eligible registrants who wish to take the test should obtain a bulletin, application card, ticket of admission, and a mailing envelope. These may be obtained from the counseling center or from the local draft board where applications should be submitted.

KU-K-State

Top Design Picked For Peace Trophy

Robert L. Hougland, Ar 04, was announced today as the winner of the Student Council's contest for the best idea for a new K-State-KU Peace Pact trophy.

Hougland's idea, which won him a \$5 prize, was patterned along the idea of the losing side surrendering a sword to the winner.

"When I was thinking up my idea, I had in mind Cornwallis' surrender to George Washington after the Revolutionary war when he handed over his sword," Hougland said.

Second place winner in the contest was Kenneth Houtman, Ar 02. He won a \$3 prize for his idea, which had a Wildcat and a Jayhawk exchanging a peace pipe.

Jerry Holliday, ArE Sr, won a \$2 third prize with his idea of a Wildcat and a Jayhawk holding up a football.

The ideas were judged on originality and appropriateness for a Peace Pact theme, according to Becky Culpepper, EEd Jr, chairman of the Council's KU-KS

Peace Pact Trophy committee.
"The three winning ideas will be sent to KU for their con-

sideration. I feel they will select one of them for the trophy," she said.

The old Peace Pact trophy, currently at KU, is very unattractive and not appropriate as a symbol of peace between the schools, she said.

The Student Council has not yet decided what materials the trophy should be made out of, and this decision will probably wait until positive action is taken by KU, who will share the cost of the trophy.

No decision has been made as yet about what to do with the old trophy, Miss Culpepper said.

Four Motors Taken From Ag Barracks

Four small motors that were to have been used for the Ag Engineering Open House exhibit have been reported missing by Richard Schoof, AgE Soph.

Apparently the thieves had plenty of time to take the motors, because they were bolted down, Schoof said.

The motors were stored in the Ag Engineering barracks at the time of the theft. Schoof said the building was supposedly locked at all times, but that the thieves seemed to have entered with no trouble.

Three of the motors were owned by students, and one was owned by the department, School said.

Veterans, Sign Payroll

All Korean veterans must sign the payroll in the Veterans' Service office either Thursday or Friday, according to Wendell Kerr, veterans' service officer. Pay checks are due March 20.

Photo by Gary Hayne

PUT THAT IN YOUR PIPE and smoke it—Peace Pact trophy idea winners light a "peace pipe," held by Becky Culpepper, EEd Jr. From left, Robert Hougland, Ar 04, first place; Kenneth Houtman, Ar 02, second place; and Jerry Holliday, ArE Sr, third place.

An Editorial

Ticket Furor Grows

COMMENT has been buzzing concerning the unfairness of reserved seats for members of the Kansas Legislature at the K-State-KU game next Wednesday night.

However, students should not only be distraught about these reserved seats but the sections that are reserved for the faculty, the staff, the pep clubs, the K-Club, the press, the photographers, leading College officials and various other individuals as well.

In fact, it seems there is a reserved seat for just about everyone but the ordinary student.

THE TOUGH FACT to face is that the students pay for their tickets while some of the above mentioned people. don't.

For a season ticket to all games the faculty and staff pay approximately \$18. From the student activity fee nearly \$7 is given to the Athletic department yearly.

Faculty and staff members can get tickets for their whole family. Students can't even loan or sell theirs when they don't want to go to the game.

IF STUDENTS are going to be checked to see if they have the right ticket, why shouldn't the faculty and staff tickets be checked also?

Just think, had plans for televising the game been completed, members of the Legislature could stay home in the comfort of their easy chairs and watch the game on TV .- Jane Moore.

Readers' Forum

(Opinions expressed in letters are those of the writer. They do not necessarily reflect the Collegian's editorial policy. We reserve the right to edit letters to conform to the standards of decency and good taste. No letter will be accepted unsigned. However, in controversial issues, letters may be published nameless on request.)

Dear Editor:

I noticed at the Iowa State-Kansas State game there were only twelve rows of student seats reserved for the Kansas Legislators who were "alarmed at the inadequacy of K-State's educational facilities." I expect there will be an even greater interest in our fair campus about the middle of next

I do not mind too much giving up my seat for the legislators, but what really soured me was when I read the statement by Bebe Lee, concerning the extra officials at the gate of the KU-KS game, when he said, "The whole thing is a protective feature for the Athletic those who want to play the game

When all this knowledge finally soaked through my cranium and got together, it came out something like this-The Legislator appropriates money for the College. If we entertain them, they might give us more. Let them see our fine basketball team. We can not give up our reserved seats for they are a good income. We already have the students money. The students can give up their tickets.

I think a more accurate statement by Mr. Lee would have been, "The whole thing is a protective feature for the Athletic department and the students,-the ones who want to play the game our way." Or maybe, "The whole thing is a protective feature for the Athletic department."

With all the money it took to build the Field House, why are there so few really good seats available?

Gale Biggs, Mth Soph

Dear Editor:

In Tuesday's paper there is an article in which Athletic Director Bebe Lee is quoted as saying that student tickets used by anyone other than a student will be confiscated as a protection to the Athletic department and the students.

Why is this a protection to the students? We are forced to pay the fee, and in many cases, such as mine, are unable to use the ticket since we must work to go to school. Also, since every student must pay the fee, like it or not, why should the Athletic department be protected. Or are they assured that the fee has been paid?

I bought the ticket and a friend's wife will use it, like it or

Over the Ivy Line_

Hints to the Feminine Hunter; 'How To Trap a Male-By One'

By Shari Shellenberger

"HOW TO TRAP A MALE-BY ONE" in the Washington State college Daily Evergreen gives helpful hints to members of the fair sex who have not yet been fortunate enough to "trap" a man.

Says the article: "men have certain weaknessesdrinking, smoking, swearing, and fighting." BUT "it would be unlady-like to start drinking, smoking, swearing, and fighting just to get him (any man will do) interested in you."

To catch the QUIET type, the male author suggests a simple approach, consisting of a "slinky dress to make his eyes bulge, a perfume to quiver his sense of smell, a soft alluring voice to make music in his ears, and the promise of a big dinner after a dance to move his taste sensitories."

To catch the LOUD type, "gaze up into his eyes, and if you're taller, wait 'till you sit and can stare levelly at him. If you're still taller-forget it."

And to catch the ATHLETIC type, this male suggests: "Do laps around his fraternity house, wear sweat socks under your argyles, and take out a subscription to Sports Illustrated."

We've seen a few of the slinky dress angles and also the eye gazers, but we're yet to witness a coed doing laps around a fraternity house. (Only a man could think of this one.)

WILLIAM RITT in The Crimson and White

makes this observation: "For a change we'd like to see the American Football Coaches association hang the student body in effigy."

AND SPEAKING of hangings in effigy, at Oregon university, the furnace in one of the fraternity houses broke down during a spell of very cold weather. The brothers proceeded to hang the house manager in effigy from their flag pole.

A COLUMNIST who calls himself Yehudi has come up with a quite unique suggestion in the Daily Tar Heel (North Carolina). He proposes the start of an experimental coed dorm with one boy and one girl assigned to each room.

There would be no fraternization in the rooms, as this would be a violation of all existing moral codes and principles. All students would be on their honor not to violate the rulings set down by the administration, and to report any violations by other students.

The comment of the Daily Texan on this idea is: "Of course he was joking. But then again, perhaps he was dead serious. You can never tell how revolutionary ideas are to be taken."

World News Briefs

Ike, Mollett Oppose -Cut in NATO Forces

Compiled from United Press By KEITH KEMPER

Washington-President Eisenhower and French Premier Guy Mollet have agreed to oppose proposed cuts in NATO forces, informed sources said today.

The sources said the two leaders agreed it is necessary to maintain North Atlantic Treaty Organization strength at present levels at this time because Russia continues to be as great a threat as ever.

European NATO members-particularly Britain-are under considerable pressure at home to cut their NATO commitments as a means of trimming defense expenses.

The President and Mollet today plan a second and final round of their talks which started yesterday. Mollet and French Foreign Minister Christian Pineau planned to meet earlier with Secretary of State John Foster Dulles.

Besides current NATO plans for European economic integration, yesterday's talks covered creation of an Atomic Energy authority for Europe and the Middle East.

Orchestra Leader Retires After Concert

New York-Dr. Bruno Walter, one of the great orchestra leaders of our time, last night ended a career that spanned 63 years.

Walter put aside his baton after conducting the New York Philharmonic Orchestra in an all-Bethoven program. The concert was a benefit for the pension fund of the Philharmonic orchestra.

Carnegie hall was jammed. Among the many notables present were Mrs. Eleanor Roosevelt, actress Judith Anderson and dancer Martha Graham.

The audience greeted Walter with an ovation that was repeated after every number-the "Coriolanus" overture, the 4th Piano Concerto and the Sixth (Pastorale) Symphony.

Walter is 80. Only last October he notified the Philharmonic-Symphony Society of New York that, because of his age, he wished to discontinue his regular appearances with the orchestra at the end of this season.

Senate OK's Most Hall Appointments

Topeka-The Kansas Senate gave approval to most of the appointments by former Gov. Fred Hall yesterday, but not a single vote could be mustered in favor of Kansas City liquor dealer Albert C. Becker.

Hall named Becker to the State Civil Service Board but the Senated turned him down, 35-0.

It also took no action on a pair of appointees to the Revenue Taxation commission, and Sen. Paul Wunsch explained that was because the Republicans decided to reorganize that body.

It took the Senators 21/2 hours to go through the list of 51 appointments, most of which had been discussed for hours before

Niceities Block Israel Settlement

Jerusalem, Israel-Israeli sources said today Israel is ready to evacuate positions along the Gulf of Aqaba but that UN Secretary General Dag Hammarskjold's "legal niceties" are blocking a Gaza settlement.

The "legal niceties" referred to Hammarskjold's insistence, in talks with Israeli Ambassador Abba Eban, that the 1949 armistice agreement ending the Palestine war provided for Egyptian occupation of the Gaza strip and that he could do nothing about it.

Israel still maintains it will not give Egypt control of the disputed strip, formerly part of Palestine, because of the long series of Egyptian Fedayeen raids launched on Israel from the area in violation of the armistice agreement.

A news blackout was clamped on recent cabinet sessions, but well-informed government sources said Israel may agree shortly to give up her positions at Sharm El Sheikh, the fortress from which Egyptian guns blockaded shipping on the Gulf of Aqaba.

K-State moved to the 12th

K-State moved to the 12th

Lennie Rosenbluth had all the clutch points in his bag of 30 last night to lead North Carolina to a dramatic 69-64 victory over Wake Forest-putting the nation's No. 1 team just one more win away from a perfect season.

North Carolina's win at Winston-Salem gave coach Frank Mc-Guire's Tar Heels a 23-0 record for the season and left only a Friday night game against Duke on their regular schedule. Then they go into the Atlantic Coast conference post-season tournament March 7-9.

Rosenbluth, who hails from the Bronx, New York City, but now lives in Greenville, Tenn., had one of his best nights for the Tar Heels.

with 55 seconds left, Rosenbluth swished in two free throws to put the Tar Heels back in front to stay.

Grady Wallace of South Carolina pushed his scoring average to 30.48 last night with a 39-point splurge that beat the Citadel, 98-

Wallace's average jump put him ahead of Mississippi's Joe Gibbon in the race for national scoring honors. Gibbon was idle last night, and dropped to second with his 30.3 average.

Influenza Toll Reaches 1,200; I Student Health Still Jammed

Kansas State College, Manhattan, Kansas, Thursday, February 28, 1957

Fast Tempo?

Big 7 Track Meet To Have KS Music

The Kansas State marching band will play for the Big Seven indoor track meet this Saturday in Kansas City, Mo. The costs of the trip will be paid for by the Big Seven conference which invited it to play.

"The band will play before the track meet and between events," said Prof. Jean Hedlund, director of the band. A band from a conviently located Big Seven school plays at the track meet each year, according to Hedlund, the K-State band having played there last in 1952.

Although track meet preliminaries will be Friday the approximately 60 band members will not leave until Saturday morning and will return Saturday night. Assistant Dean of Students, Charles A. Jacot, and his wife will chaperone the trip.

Band members going to Kansas City: Gary Albright, Ag Soph; Pearle Arnold, HE Fr; Ed Biggs, BAA Fr; Karen Binns, PEW Soph; Clyde Bolin, ME Fr; Dia Bolton, MEI Soph; Benny Brent, Ag Soph; Bob Brown, MEI Jr; Thaine Carpenter, MEI Soph; Bill Chapman, Psy Soph.

KS Seniors Choose Flag Pole as Gift

The '57 graduating seniors decided in a recent meeting to give a flag pole as a graduating gift to the College, according to Marilyn Smith, Soc Sr, senior class secretary.

The location has not yet been determined, Miss Smith explained. A student council committee had previously looked into the possibilities, but were unable to buy a pole because of lack of funds, she

The cost of the pole and landscaping around it was estimated at \$400.

The Influenza epidemic is still holding on, with no let up in sight, and it could even get worse, according to Dr. Benjamin Lafene, director of Student

"It is hard to know just when the number of cases will start letting up. All in all, about 1200 students have been through Student Health since the outbreak occurred last Thursday," Dr. Lafene said.

The old college hospital, between Student Health and the Veterinary hall, was opened Monday and has been full ever since. At present, there are about seven empty beds, two in the old college hospital and five in Student Health.

The old college hospital has not been used since February, 1952, when there was an epidemic of measles and influenza.

Sixteen persons were in the older building last night. Dr. Lafene said the old hospital is in poor condition with water leaks and flaking paint in the rooms. Patients are now in rooms which would not normally be occupied. No visitors are allowed because of the overcrowded conditions and the high contagion of flu.

Some students stay in Student Health three or four days, while others having milder cases stay only 24 hours.

Four additional nurses, two nurses aids, two students to carry water and food trays, one cook and an assistant cook have been hired to help out during the epidemic.

To keep from getting sick, Dr. Lafene advises:

1. Get proper rest. 2. Cover up coughs and

3. Eat three balanced meals a day. 4. Don't smoke too heavily

-it lowers tissue resisance. 5. Dress for the weather. "Students in Student Health are getting the best possible medical care that can be given. They receive medicine of the appropriate kind, bedrest, plenty of fluids, and good food. All patients are seen by one of the five doctors at least twice a day," said Dr. Lafene.

Sore throat, aches and pains, and a high fever characterize this illness.

Educators Honor Prof. At Meeting

Prof. A. B. Cardwell, director of the Bureau of General Research and professor of physics, spoke at the Faculty Dinner given in his honor last night in the west ballroom of the Union.

In his talk, "Energy-the Foundation of Our Industrial Civilization," Cardwell said. "There will be no reduction of energy consuming inventions in future years. We who have lived in the past four decades believe this."

"If people are sensible enough to avoid war and clever enough to find new ways to povide energy there will be no end to the heights our industrial civilization may ascend."

Cardwell named several areas of our lives in which energy is essential. Among these are food production, industry, entertainment, public health, medicine, home life, and social life.

The rate of depletion of our irreplaceable fossil fules is alarming, according to Cardwell. He pointed out that many scientists believe these will last only from 150 to 900 more years, which isn't long in the span of history.

Solar energy is hoped to be one answer to this developing shortage. "Solar enegry, though promising, will come very slowly," Cardwell's in opinion.

"Nuclear energy is the most promising new source of energy, to save our fossil fules," he emphasized.,

In conclusion Cardwell made a plea for "basic research to be done in our universities. Of the greatest 150 discoveries made in the past 50 years only three. have been made in the U. S.,"

Streetcar' Starts Running Tomorrow

NOT MUCH for scenery, but the acting is supposed to be good. Ann Soelter, Sp Gr, and Linda Merritt, EEd Fr, practice their lines for the KS Players' production of "Streetcar Named Desire" tomorrow and Saturday.

Influenza's Breakin' Out All Over—Lafene

The influenza outbreak which is presently raging on campus helps prove how desperately K-State needs a new Student Health building.

There are 48 students in Student Health today and many more around campus that should be. These students are only spreading germs to the rest of the student body.

However, where could they be placed if they did go to Student Health? The barracks building which is the present Student Health was filled Monday and the old hospital between Student Health and the Veterinary hall was reopened. It is now filled.

The Legislature will vote this spring on the appropriation for a new Student Health building at K-State.

Meanwhile, as students, we can only follow the advice given previously by Dr. Benjamin Lafene, director of Student Health. His advice was to drink a lot of fluids and get plenty of sleep.

We seniors really came through with a lulu as our present to the College-when we are graduated, a \$400 flag pole!

A great many things would have been more usefulsince the College already has one flag pole.—Jane Moore.

The four small motors which were reported missing from the Ag Engineering barracks have been recovered according to Case Bonebreak, of the physical plant department, in charge of the campus patrol.

The campus patrol was not told of the theft until the story was printed in Wednesday's Collegian. The motors were discovered close to the barracks.

I'm sure the return of the four motors has indicated that police methods are most effective when cooperating with the working press.—Bruce K. Ellis

Clypso Singer Harry Belafonte Has Two Platters in Top Spot

By Bob Conover

Tab Hunter's record of "Young Love" continued to outsell all others in Manhattan for the fifth consecutive week. The top 10 discs in Manhattan are

• "Young Love," Tab

• "Banana Boat Song," Harry Belafonte

· "Butterfly," Andy Wil-

• "Love is Strange," Mick ey and Sylvia

• "Marianne," Terry Gilky-

"Too Much," Elvis Presley

• "You Don't Owe Me a Thing," Johnny Ray

· "Don't Forbid Me," Pat Boone

· "Blue Monday."

•"Jamaica Farewell," Har-

ry Belafonte

New in the record stores this week is a record by the Hi-los. They are noted for their unusual arrangements and singing style. Their new album is a style showcase as they sing ballads ranging from "Tenderly" to "Basin Street Blues." Since it is their first long playing album for Columbia it has been made a "buy of the

Collegian Honors Award Winner

month."

A great new album of dance music for college parties came out this week. Boyd Raeburn, a bandleader from the age of swing who has not recorded much since the forties has reorganized a band to play alltime college favorites on a long playing disc called "Fraternity Rush." plays "Get Out of Town," "Summertime," "I'll See You in My Dreams," "If I Could Be with You," and other danceable

Belafonte fans, and there must be quite a few since his albums are outselling all others in America, will be glad to hear that a new Harry Belafonte record will be released by Victor Records March 1.

Victor has already released a series of albums for lovers of Dixieland jazz titled "New Orleans Jazz Festival." The recordings were made on location in New Orleans night clubs and feature native New Orleanians playing the jazz that originated in their home town. There are three albums in the series with a fourth one to be released later.

Today the Collegian is spotlighting Marilyn Smith, Soc Sr, as personality of the week.

Marilyn, Mirt, as her friends call her, was awarded the Brotherhood award and \$25 last week by the B'nai B'rith Hillel Foundation for having contributed most during the school year to the "development of understanding and good will among the several religious, cultural, and ethnic groups which comprise the campus community."

Mirt's activities readily show why she received this award, for she is on the International Relations committee of the Student Council, active in Cosmopolitan club, serves as president of the YWCA, and is secretary of International Weekend, during which time K-State will be host to students from campuses throughout Kansas. "We hope many K-Staters will enter the conference's activities for this week-end," said Mirt.

Mirt feels the International Relations committee is "a step in the right direction" in striving to promote international understanding on the campus. As Americans, this is something Kansas State students have not taken advantage of, Mirt believes.

"We need to get to know these students as friends. The committee has tried to accomplish this by encouraging organized houses to have students to dinner for fellowship."

YWCA work has given Mirt the opportunity of traveling to New York and Estes Park, Colorado, for conferences. She went to New York two years ago when she was a student delegate for an international conference; and to Estes Park as a Regional Council representative and discussion leader.

"Work with the Y and international groups has been one of my most valuable experiences in college, for I work with people that I wouldn't meet any other way."

Before Mirt starts teaching secondary social sciences this fall, she will go to Europe. She is taking an American Youth Abroad tour this summer.

Dear Editor:

Peace . . . it's wonderful! Too bad the same can't be said for the proposed K-State-KU Peace Pact trophy. Aside from the fact the proposed trophy design has all the intrinsic visual appeal of a collection of furnace pipes, it misses the entire point of the Peace Pact.

The point of that much discussed document is "peace," not "surrender" or "revolution." In other words, it's supposed to promote the idea that Wildcats and Jayhawks are friendly rivals, not deadly enemies.

Of course, part of the difficulty in the trophy contest appears to arise from the flaming apathy with which the vast majority of K-State students hailed the proposal. As a result, the committee, by extending the original deadline because of a dearth of entries, was able to choose from a total of three proposals. That makes every entrant an award winner. It might well indicate the whole contest idea was artificially conceived and kept alive.

Peace . . . it's wonderful! But why don't we let the idea of a new Peace Pact trophy die its natural death?

Discouraged.

Dear Editor: I see by Monday's Collegian, that the entire Kansas Legislature will be guests of K-State for the K-State vs. KU basketball game on March 6. Isn't it nice that they have such excellent seats reserved for them on occasions such as this. I suppose this time they will have saved for them the whole north-center student section instead of merely 10 of the 15 rows in this section, as was the case for the Iowa State game.

Bill Lamb, EE Sr

Telegraphic Tabloids

By UNITED PRESS

Westport, Conn .- A giant, aged 70, was uprooted yesterday and escorted by police through downtown Westport to a new home.

The giant, a 5-ton, 35-foot holly tree was moved by a turnpike construction company crane and flat trailer to make way for the new Connecticut turnpike. The largest holly tree in the area, it was transplanted at a spot near the center of town.

Detroit-Clifford Makby found a rose and a tulip coming up in his back yard this week, just before the city was blanketed with a 4.6-inch snowfall.

Los Angeles-Railroad officials yesterday found a "hitchhiker" riding the rods between two units of the diesel engine that pulled the Golden State Limited here from Tucumcari, N.M. The non-paying passenger was

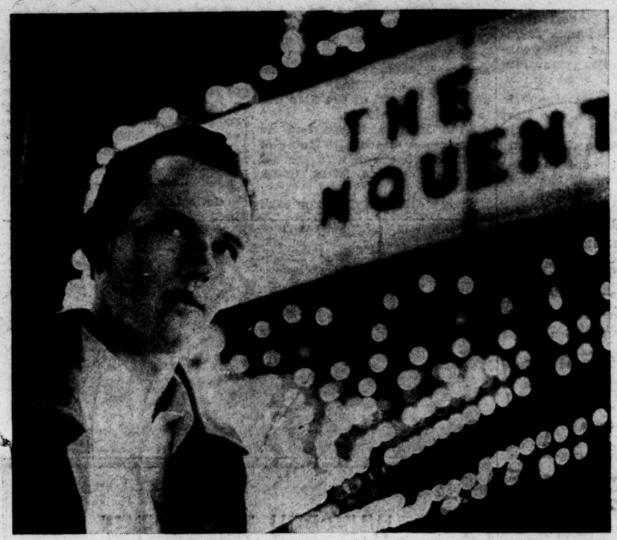

a bantam hen.

Derby, England — Olympic cyclist Eric Thompson was fined five dollars yesterday for endangering road traffic. Police said they caught him driving with nine friends in his 25-yearold, two-seater automobile.

Hollywood - The Disney studio film "Old Yeller" stuck to its production schedule by the grace of a stork this week.

A stray cow and her newborn calf were called for in the script. The expectant cow in the cast gave birth to a bouncing 58pounder just in time for the filming of the scene.

Stater Gets Sixty Bucks to Duck Beer Bottles; Drinks Contents as One of 'The Delinquents'

NOBODY RECOGNIZES HIM—Kenneth Keefer, Sp Fr, stands outside theater where movie in which he appears briefly is playing. Nobody recognizes him though, because he appears only in silhouette, shown by movie scene (below, right).

"Streetcar Named Desire" ... More Than Meets Eyes

THERE'S MORE than meets the eye to producing a play. That's what the cast and crews find out when they try it. And "Streetcar Named Desire" is no exception. At the first full-set rehearsal last night, the cast and crew of "Streetcat" bustled around getting things in shape before presenting the play tomorrow night. Here, Gordon Jump, Sp Sr, sits at end of a stairway to nowhere awaiting his cue to come onstage.

Getting a part in a motion picture is not the hardest thing in the world, according to Kenneth Keefer, Sp Fr, Manhattan, who plays a part in "The Delinquents," showing at a local theater this week.

Keefer explained that one day last summer, he heard that part of a movie was being filmed about three blocks from his home in Kansas City, where he lived then. "Having no summer job and nothing much to do, I decided to go over and watch," he said. After watching the filming of the movie for three or four days, he heard that a scene was being shot at an abandoned house in Kansas City the next morning.

"When I got there the director was having trouble because he had more girls than boys for the cast, so I was hired as an extra," Keefer said. "I got \$30 a scene."

Keefer is pictured in two party scenes in the movie. In the first, he is sitting with a girl on the stairs in the house. "We were mostly just providing background for the scene," Keefer commented.

In the second scene which includes Keefer, he sits on the same stairs—with a different girl. "This scene scared me a little," said Keefer, "because as I was 'talking' to this girl, some creep above us dropped a beer bottle, which landed about two or three feet from us."

"It turned out all right, but I didn't

trust the guy on the stairs above us, and I shuddered every time we went through the scene," he said.

"The Delinquents" was all filmed in Kansas City, and, except for three imported actors, the cast was composed of Kansas City people, Keefer said. The leading lady was a high school junior from Kansas City.

"Although 'The Delinquents,' is not a particularly good movie, it was a lot of fun just to see how a movie is made," Keefer said.

A tire slashing scene was done by puncturing the tire with a knife and letting the air out before the scene was shot. The car was then jacked up, and when the tire was 'slashed' the jack yanked out and the tire went down.

In one scene, a girl was supposed to run from the house, jump in a car, and drive away. "The only problem," said Keefer, "was that the girl couldn't drive, so she ran from the house, jumped into the car and then ducked while a boy wearing a wig sat up and drove."

"Glycerine was used for tears and paraffin, not glass, bottles were used, but when we had to drink beer, they used the real thing," Keefer said. "I guess they thought it would make the scene more authentic," he explained.

". . . . and the beer was delicious."

ON THE HILL

KANSAS STATE COLLEGIAN 3—Thursday, February 28, 1957

LIGHTING is a problem, too, and keeping "Streetcar" lighting at a low enough level to be dramatic but high enough for good visibility has this lighting crewman "up in the air."

A SHORT BREAK for changes in lighting and scenery allows cast members to take a quick break onstage, using the softest props available.

"O'Conner is a great hurdler but is not really suited for the short indoor distances," Coach Ward Haylett said. "The further he goes the faster he goes."

Tom Rodda, one of six surprising sophomores entered for the Cats, already owns K-State's best indoor mile on record with a 4:19 clocking at Chicago February 16.

The Jayhawks are defending champions, but according to Haylett, "This will be the first time in six years that other members of the conference will be fighting for something besides second place."

"I doubt if we will finish

Matmen Meet Cyclones Here In Last Dual

K-State's grapplers meet a good Iowa State team in their final dual match of the season at 7:30 p.m. Friday in Ahearn field house.

The Wildcats will have a tough time improving on their present record of four wins and six losses. The Cyclones carry a 7-3-1 record

Against Minnesota university, a common opponent, Iowa State was edged out by a 14-13 score and K-State was defeated, 21-10.

Iowa State, described by wrestling Coach Fritz Knorr as second only to Oklahoma in the Big Seven this year, is bolstered by two conference champions and an outstanding newcomer.

Frank Powell, who wrestles in the 167-pound class, and Dean Corner at 137 pounds both took firsts in the conference meet last year. Sophomore Ron Gray is undefeated in the 147-pound class so far this season.

The Wildcats will be hobbled by injuries to two first string wrestlers who ordinarily start. Jim Roberts, a 147-pounder has a shoulder injury and Calvin Schwable in the 130-pound class has an injured knee.

The probable starters for K-State: 123-pounds—Riley Miller 130-pounds—Bill Youngers 137-pounds—Marvin Everst 147-pounds—Jim Caster or Tom

King
157-pounds—John Doyle
167-pounds—Gary Haller
177-pounds—Jim Dietrich
Heavyweight—Ellis Rainsberger

K-State takes on Emporia State and Fort Hays State in a swimming double header this weekend in the Nichols gymnasium

The Wildcats meet Emporia State Friday at 4 p.m. and Fort Hays State Saturday at 2 p.m. in their last dual action this year.

K-State will be out to fatten its 4-4 record at the expense of the two teams both of whom the Wildcats have defeated earlier this season.

The probable K-State starters for both meets:
400-yard medley relay—Jim Mariner, Jim Nolen, Dave Dicken and John Nickel.
220-yard freestyle—Don Matsuoka and Tom Coblentz.
60-yard freestyle—Tom Onuma, Gordon Harper.
200-yard butterfly—Nolen, Buzz Newman.

Newman.
Diving—Marion Townes.
100-yard freestyle—Onuma, Cob-

lentz. 200-yard backstroke — Mariner, Nickel. 440-yard freestyle — Matsuoka, Dicken.
200-yard breaststroke — Nolen,

Newman.
400-yard freestyle relay—Cob-lentz, Harper, Onuma, Nickel.

Frosh Baseballers Meet

All freshmen interested in going out for freshman baseball should meet in room 302 of Ahearn gymnasium at 3 p.m. Friday, according to Coach Ray Wauthier.

~~~~~~

Cats Are Host Time Stops IM Tilts To Two Squads

night in Ahearn gymnasium. Two matches lasted the full 50minute time limit. Jr. AVMA split the first two games of its match with West Stadium, 15-12, 14-16, and was leading 8-3 in the last when time was called. The team

competition was concluded last

is named the winner. Phi Epsilon Kappa had an even closer match with House of Williams but won with the aid of the time-limit, 15-12, 18-15,

ahead at the end of the time limit

Sigma Alpha Epsilon won easily

Six matches were played in in- over Phi Kappa Tau by scores of tramural volleyball as the week's 11-0, 15-5.

> In other matches, Acropolis beat the Aces, 15-6, 15-13; D.S.F. beat Signa Phi Nothing, 15-9, 12-15, 11-0; and OK House beat Wesley Foundation, 15-4, 15-8.

Alpha Tau Omega was scheduled to play Pi Kappa Alpha, but since both played the night before, they requested that their match be postponed until a later date. House of Breck won by forfeit when the Eight Balls failed to appear.

Fischer Sticks to Cage Sport

Although a national all-star football player in high school, 6-4 Larry Fischer has participated only in basketball at K-State

When asked why he hasn't played college football, Fischer quipped, "I guess I don't have the killer instinct."

Larry's high school record does not indicate a lack of "killer instinct." As a senior at Pratt high school in 1953, Larry was a first team all-state selection at end besides his national all-star berth. His forte was pass catching-he scored nine touchdowns on passes.

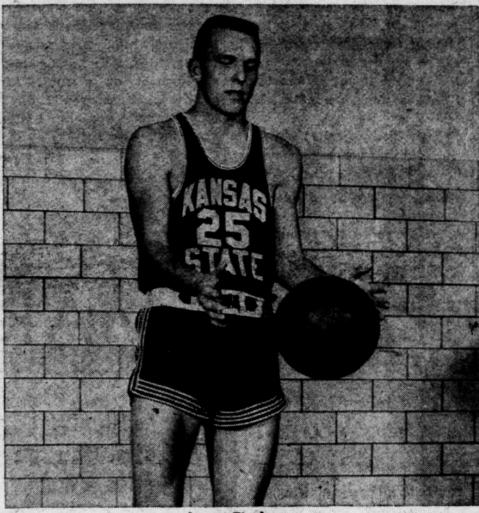

"Actually, I'm more interested in basketball than football. I feel that, because I've worked harder at it, I've gotten more out of it," Larry said.

Pratt lost only one game during Fischer's senior year, and it was in the finals of the 1954 Class A state tournament to Sacred Heart of Salina. Playing on that team with him was another Wildcat basketball player, sophomore Bob Merten.

As a sophomore, Larry started the first game of the 1955-56 season for K-State and scored 18 points. This year as a junior, he has started three games.

Winter, Larry bolsters team depth, of 1955 when Merten was about "When we call on him we know to enroll at Wichita university, that he is there and that he is Fischer called him on the phone reliable. Larry's hustle and good and persuaded him to come to attitude together with his ability K-State. make him a fine basketball player."

College Gym Stars Due Here Saturday

K-State will be host to some of the nation's best gymnasts Saturday as 11 of the Midwest's top teams collide in the All-College Invitaitonal Gymnastic championships in Ahearn gymnasium.

Top Wildcats entered are Bob Gramzow, undefeated in four tivity tickets. meets in the free exercise event, and Wendell Minckley, captain of the squad and a strong contender for the flying ring crown.

Allen Olsen hopes to win points in the side horse, parallel bars, and free exercise events for the Cats. Richard Rood, tied with Gramzow for high point man on the K-State team, will be entered in six events.

Last season's national trampoline champion, Glenn Wilson of Western Illinois, will be on hand for that event. Wilson won first place on the trampoline in the national gymnastic clinic at Sarasota, Fla., in December.

Nebraska, undefeated this year, has won the all-College Championships the last three years and is expected to repeat this year.

Teams competing Saturday are Nebraska, Western Illinois, Air Force academy, Colorado,

Colorado State, Minnesota State (Mankato), Fort Hays State, and K-State.

The morning session starts at 10 a.m. with an afternoon session at 2 p.m.

Students will be admitted by ac-

for recognition as a student or- standards of student governganization was approved Tuesday ment by initiating and interesting night by the student actitvities underclassmen in leadership. board.

It was explained that responsibility for accidents would lie with the corporation or the pilot of the plane involved. If the pilot were a minor, his parents would take that responsibility.

The Civil Aeronautics Administration would determine the cause of any accident. Safety regulations of the Civil Air patrol, the local airport, and those of the club would be standards by which the CAA would judge.

The "Dimes for Development" project, sponsored by Chimes, Junior women's honorary, was accepted by the board. The organization will collect money to be placed in the Endowment fund for campus improvements.

Donations will be taken on April 9 and 10 by general collection booths in and outside the Union. Representatives will contact organized houses and dormitories for contributions on April 9.

Request of the Integrity party to be recognized as a student organization was tabled, to allow board members time for further investigation.

Party representatives said rec-

Pair Is Charged with Killing Ames Trip on Tap Six During Two-Month Span

Compiled from United Press By KEITH KEMPER

Hartford, Conn.-Police last night arrested two men, one of whom was freed only last year from "death row," when one con-fessed they killed six persons in the Hartford area in Chineseexecution style.

Held for arraignment on murder charges today were Joseph Taborformerly of Hartford, and Arthur Colombe, also 33 and an exconvict.

State police commissioner Joseph C. Kelly refused to say which had confessed and implicated the other. The six persons were killed over only a two-month period.

All of the victims were forced to kneel before they were shot in the head. This method of murder was borrowed from the Chinese. If convicted, Toborsky and Col-

ombe could be executed. Taborsky and his brother, Albert, were convicted in 1951 of the murder of a Hartford package

store dealer during a holdup. Sentenced to death, Joseph Taborsky spent four years in death row at Connecticut State Prison during legal efforts to obtain his freedom.

Pope Is 81; Feels Good

Vatican City-On the eve of his 81st birthday, Pope Pius XII is reported to be in excellent physical-health but "suffering deeply" from the constant threat of war.

This Saturday, March 2, is a double anniversary for the Pope. It is both his birthday and the 18th anniversary for the Pope as spiritual leader of the world's 450 million Roman Catholics.

While he appears to be in the best health of any winter since World War II, high Vatican

Dance Instruction To Start March 5

Registration for dance instruction is being taken now until 5 p.m. Tuesday in the Union activities center.

Mambo, sambo, bolero, cha cha, foxtrot, tango, American waltz, and jitterbug steps will be taught. Calypso will be taught if dance notes can be obtained.

Two groups will be formed, one meeting on Tuesdays, the other on Thursdays. Classes will last from 7:30 until 8:30 p.m. in the Dive, and \$2.50 will be charged for the ten lessons.

The first class for Tuesday students will be March 5. The second group will begin lessons March 7.

Bob Heidemann of Ft. Riley will be the instructor. He received a degree in modern languages from Michigan State university and graduated from an Arthur Murray training school in East Lansing. He taught 11/2 years in a Murray dance studio.

City Auditorium Saturday, March 2 8 p.m.

CAP CADETS OR BETTON'S MUSIC STORE

sources say he is basically unhappy over the state of the world.

The sources say he is still "suffering deeply" over the events in Hungary and the Middle East and the constant menace of war.

Nixon Leaves on Trip

Washington - Vice President sky, 33, of Brooklyn, N.Y. and Richard M. Nixon leaves today on a mission to prove that the smile and handshake of American politics can be as effective in winning friends in Africa as it was in Asia.

> Nixon, who departs at 2 p.m. on a 17,815-mile goodwill tour of Africa, plans to spend as much time as possible with the "little" people of the nine nations he will visit.

The Vice President used the same person-to-person diplomacy with reported success during his 1953 tour of Asia. He even broke up an anti-American demonstra-

tion in Burma by walking up to talk things over with the Communist leaders.

In Prime Condition

Stamford, Conn. (U.P.)-Torkild Solberg voluntarily did 25 pushups to prove to police he was still in good shape even though he was spilled from his skidding motorcycle. He's 78.

FASTER, FASTER!

Pick up your paper every morning and what do you read? "CRISIS IN HIGHER EDUCATION." That's what you read. "ENROLLMENT SPIRALLING UPWARD — DESPERATE NEED FOR MORE CLASSROOMS, MORE TEACHERS." But classrooms, alas, do not spring up like mushrooms, nor teachers like mayflies. So what must we do while we build more classrooms, train more teachers? We must get better use out of the classrooms and teachers we now have. That's what we must do.

This column, normally a vehicle of good-humored foolery, of joy that wrinkled care derides, of laughter holding both his sides, will today forsake levity to examine the crisis in higher education. My sponsors, the makers of Philip Morris Cigarettes, as bonnie a bunch of tycoons as you will see in a month of Sundays, have given cheerful consent to this departure. Oh, splendid chaps they are, the makers of Philip Morris! Oh, darlin' types they are, fond of home, mother, porridge, the Constitution, and country fiddling! Twinkly and engaging they are, jaunty and sociable, roguish and winsome, as full of joy, as packed with pleasure, as brimming with natural goodness, as loaded with felicity as the cigarettes they bring you in two convenient sizes - regular in the handy snap-open pack, and new long-size in a crushproof flip-top box - both available at moderate cost from your favorite tobacconist. Light one now. Light either end. No filter cigarette can make that statement.

Let us then, with the gracious connivance of the makers of Philip Morris - Oh, splendid chaps! Oh, gracious connivers! - take up the terribly vexing question of how we can turn out more graduates with campus facilities as they now exist.

The answer can be given in one word: speedup! Speed up the educational process. Streamline courses. Eliminate frills. Sharpen. Shorten. Quicken.

Following is a list of courses with suggested methods to speed up each one.

PHYSICS - Eliminate slow neutrons.

PSYCH LAB - Tilt the mazes downhill. The white mice will run much faster.

ENGINEERING - Make slide rules half as long.

Music - Change all tempo to allegro. (A collateral benefit to be gained from this suggestion is that once you speed up waltz time, campus proms will all be over by 10 p.m. With students going home so early, romance will languish and marriage counselors can be transferred to the buildings and grounds department. Also, housing now used for married students can be returned to the school of animal husbandry.)

ALGEBRA - If "x" always equals 24, much time-consuming computation can be eliminated.

LANGUAGES - Teach all language courses in English.

DENTISTRY - Skip baby teeth. They fall out anyhow.

POETRY - Amalgamate the classics. Like this: Hail to thee, blithe spirit

Shoot if you must this old gray head. You ain't nothin' but a hound dog Smiling the boy fell dead.

You see how simple it is? Perhaps you have some speedup ideas of your own. If so, I'll thank you to keep them to yourselves. @Max Shulman, 1957

The makers of Philip Morris have no interest in any speedup. We age our fine tobacco slow and easy. And that's the way it smokes-slow and easy-a natural smoke.

Kansas State

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Friday, March 1, 1957

NUMBER 97

Concert on Tap Sunday For A Cappella Benefit

The K-State Singers will perform a benefit concert Sunday at 4:15 p.m. in the College auditorium. Tickets will be 50

Dance Duo' To Perform At Assembly

The Maxine Munt - Alfred Brooks dance duo will present an All-College assembly program Wednesday, March 6, in the College auditorium.

The program will feature Miss Hunt, Brooks, and Martha Cutrufello in a varied group of dance numbers. The performers will show how choreography evolves, by giving full explanations and demonstrations of this interesting

Miss Munt and Brooks received the major part of their dance * training with Hanya Holm and danced with her on Broadway and on tour.

Before performing each dance, they will demonstrate the movement themes so that the intricate weaving of these themes into a finished dance will be easier to follow. There will be a spoken comentary along with the dance demonstration.

cents, and the proceeds from the program will be turned over to the A Cappella choir to pay the transportation expenses of their proposed out-of-state tour.

The concert will not be a new experience for the group since they have put on television programs and have performed outof-town.

However, most of the music which the group will sing Sunday is new music which they haven't sung before, according to Prof. William R. Fischer, director of the group.

The concert will be about an hour long and the Singers will start the program with a salute to Rodgers and Hart composed of these numbers: "This Can't Be Love," "My Funny Valentine," "Mountain Greeney," "Blue Moon," "Lover," and "There's a Small Hotel."

Following the salute to Rodgers and Hart, the group will sing some standard favorites: "Fine and Dandy," "Rockin" Chair," "Beyond the Blue Horizon," "Love is Where You Find

· Professor Fischer has arranged several Negro spirituals which the group will sing: "Nobody Knows the Trouble I've Seen," "Whale in the Water," and "Golden Slippers." He is also working with the group on

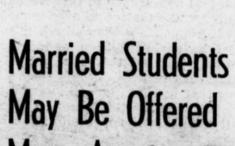

a special arrangement of Gordon Jenkins' "Manhattan Tower."

Members of the K-State Singers: Clayton Buck, PrV Soph; Celia Dixon, EEd Jr; Jim Dodson, Psy Jr; Marilyn Doran, EEd Sr; Duncan Erickson, Ar 03; Charles Hastings, PsP Jr; Sue Kenison, TxC Jr; Virginia Roenbaugh, HT Sr; Georgiana Rundle, EEd Jr; Betsey Thomasson, Sp Sr; Don Wilbur, BPM Soph. Their accompanist is Jackie Swanson.

Married Students May Be Offered More Apartments

The Housing and Home Finance Agency has tentatively allocated \$2.1 million for an 11building addition to Jardine Terrace which would contain 264 new apartments for married students, R. F. Gingrich, physical plant superintendent, said yes-

Gingrich expects the project to be approved in about three months, since the HHFA is now reviewing drawings and specifications. Work will start on the project as soon as it is approved.

Pedestrians Get Breaks On More Crosswalks

ANOTHER PLACE TO STOP is this new stop sign which has just been put up by physical plant. This sign is located in front of Seaton Hall.

The recent addition of five "stop when pedestrian is in crosswalk" signs makes a total nine such signs on campus. Two signs have been placed on the north and south sides of Vattier drive in front of the Student Union.

Cars driving north and south on 17th also have to stop for pedistrians at the entrance to Elliot courts, as well as those on Petticoat lane between Van Zile and Southeast halls.

There have been no accidents at these spots, but these signs are a preventive measure, R. F. Gingrich, superintendent of the physical plant said. Reckless drivers are subject to fine in county court.

K-State's Flu Epidemic Apparently on Way Out

There was a noticeable decrease in the number of cases of influenza yesterday, according to Dr. Benjamin Lafene, director of Student Health. "There were not so many replacing the ones leaving," said Dr. Lafene.

"We are hoping the epidemic will close down pretty quickly, however we just have to let it run down of its accord, and do our very best to control it," explained Dr. Lafene. "There is no way of knowing just when it will all blow over.

"Between patients coming in and others leaving, the staff of Student Health has been run ragged. Two of the regular nurses became ill the first of the week, and were not able to work for two days, which made the burden even heavier," stated Dr. Lafene.

Students are not allowed to visit friends in Student Health, for four reasons, remaked Dr. Lafene.

1. It taxes the already overworked staff.

2. It reduces the number of students that will be exposed to the disease.

3. Many of the patients are too ill to want or have visitors. When they are that sick, visitors will only wear them

4. Student Health is so small and crowded, that if there were extra persons around, it would be bedlam.

"Student Health has been so crowded that we have had to put girls a the same ward. Esp vhen there were more gan boys," said Dr. Lafene.

Lights Flop When Dozer **Bisects Line**

Lights went out, Coke machines stopped, in fact, all electrical power south of the Power Plant was interrupted yesterday afternoon when a bulldozer digging a sewer ditch for the new ag engineering wing of Seaton hall cut one of the 2,300-volt cables in the Power Plant.

Anderson hall, Seaton hall, and Mathematics hall were put on a temporary hook-up on the low voltage side of the transformer in Kedzie hall when the electricity went off. Repairs costing approximately \$75 were made five hours later, said R. F. Gingrich, superintendent of the physical plant.

The accident occurred when a workman tried to take off the top earth above the cable for the sewer trench by use of a bulldozer instead of by hand, according to Gingrich.

K-State uses an underground electrical distribution system rather than street poles to avoid interruptions due to storms and to improve the beauty of the

A CHINESE TAKE-OFF on the \$64,000 Challenge comes out 64,000 Yen as the Chi Omegas practice their skit for Y-Orpheum. From left: Kay Chamness, EEd Soph; Mary Beth Baker, EEd Soph; Elaine Tearney, ML Jr; and Janne ne Foust, Sp Soph.

Detroit U Promotes 'Discrimination Day'

By Shari Shellenberger

TO PROVE to students and the community the shallowness of segregation, the University of Detroit last Friday staged a "Discrimination Day." However, in place of the usual racial prejudice, the discrimination was against the University's engineering students.

Cooperating fully with the plan, enginners were not allowed to sit in certain roped-off places on the campus and in the Union. ROTC cadets enforced the regulations, ousting any violators of the rules.

Others discriminated against were blue-eyed blondes (who could not drink at certain drinking fountains), students over six feet tall (who weren't allowed to use certain campus stairways), and underclassmen women (who couldn't enter powder rooms reserved for senior women.)

The "Operation Prejudice" was labeled a success by the University of Detroit Varsity News, which said the venture served its purpose by proving that segregation is silly and senseless.

TEN EASY STEPS for leaving for the weekend at the Univerity of Oregon are listed in the Oregon Daily Emerald, taken from a handbook which tells freshmen women how to behave themselves while living in dormitories:

1) Sign out personally with the housemother. 2) Pay her for a 2-cent postcard at this time. She will send it to your parents to let them know you are on your way. 3) Sign in

with the housemother upon return to the campus.

TO GO places other than home: 4) Have on file a Student Affairs Absense Permission Card signed by parents. 5) Get sign-out slips from housemother and fill out completely in duplicate. 6) Housemother will then check:

7) Number the times off campus previously in term, 8) Permission card from home, 9) Address and phone number where you may be reached.

THEN, 10) Take both slips to the office of the Dean of Women. Here both slips are signed and you retain one to return to the housemother."

University of Oregon counselors also check to see that all freshmen women are in bed with lights out at 11 p.m. week nights, and at 1:30 on Friday and Saturday nights.

Another rule reads: "Marriages must be reported to the Dean of Women-written approval of parents sent to her

Isn't it amazing how, in this day and age, college women are considered to be such responsible, trustworthy souls?

A RATHER UNIQUE METH-OD for advertising is this ad from the University of Oklahoma Daily:

"CO-EDS-Would you like to WIN \$100,000? (So would I). BUT YOU CAN win one handsome date to the AFROTC ball by phoning JE4-8906 with the correct guess to this question: What is the average number of hairs on the left front paw of right-handed, red-haired French Poodle? (Decision of the judge final.)"

Readers' Forum

(Opinions expressed in letters are those of the writer. They do not necessarily reflect the Collegian's editorial policy. We reserve the right to edit letters to conform to the standards of decency and good taste. No letter will be accepted unsigned.

Dear Editor:

After belatedly reading the last article in the Collegian concerned with college or university status for K-State, we are reminded of an incident which occured at the Michigan State relays.

Reflecting back some two weeks, we remember being called Kansas State university on several occasions. It has a terrific sound and it gives one a tremendous feeling.

For those who aren't familiar with track meets the different schools participating are divided into classes. At most relay meets you have the junior college, college and university classes. Kansas State college runs in the university class. Why? Maybe it's because we are a university in size, or because we operate on a university level.

We are also reminded by the Michigan meet that Michigan State university had been Michigan State college until very recently.

Your athletic teams are quite probably your biggest advertising vehicle. We feel that Kansas State university is a much more persuasive title than Kansas State col-

Herbert E. Guest, et al.

Dear Editor:

Since this is the time of year most people start working on yards, I was wondering what the Campus Beautification committee has in mind for our campus. The general appearance of this campus is more like that of an over-grazed pasture, cattle paths and all.

I have always been under the impression that this was an agricultural college. It would seem to me that it would be of the utmost importance for this school, above all others in the state, to have a beautifully landscaped campus. If nothing else, it would reflect upon the ability of our agricultural scientists to grow something. . . one would think that eventually something would grow on this campus other than dandelions and tuition.

I think someone should see what can be done about the general appearance of our campus.

Steve Prouty, Psy Gr.

The students of K-State have been asked to be "honest" and not sell their activity tickets for use at the KU game. I am going to be "dishonest" and ignore this request and "buy" several activity tickets for use at the game.

Perhaps I am rationalizing, but here are my reasons:

1. I have several non-student friends who want to see the game and I want them to see the game. They tried to buy tickets through the proper channels and found the seats sold out,

2. I have sold my own ticket several times in the past and I intend doing so whenever I feel like it in the future. I paid for the ticket (unwillingly) and it entitles me to a seat (if a 2-inch x 8-inch plank can be called a seat) in the field house. I believe that I am entitled to use that seat as I see fit. Therefore my conscience will be clear when I ignore the request for "honesty."

3. Several of the students I am "buying" the tickets from were assessed for the purchase price of the tickets in the same manner that I was. These students must work to stay in school. They must work the night of the KU game. I feel no qualms whatsoever in helping these students regain part of the money they must pay for the privilege of being a student at Kansas State.

If school authorities dictate that activity ticket holders must show identification to be admitted to the game, I shall simply require that each student I buy a ticket from also submit to me a piece of identification.

I personally think such an action by school authorities would penalize the majority of "honest" students in an abortive attempt to trip up the minority of "dishonest" students such as myself.

Resurrection of Title Change To Bring Student Council Poll

By GARY HAYNES

Last semester a Student Council member suggested the name of Kansas State college of Agriculture and Applied Science be changed to Kansas State university.

The only available information regarding the proposed change are statements by President McCain and other college officials.

A generally accepted definition is: a college is an institution offering a four-year curriculm leading to a bachelor's degree in arts and sciences. The typical American college, it has been noted in a pamphlet by Michigan State university, offers no advanced degree.

A university usually comprises an undergraduate college of liberal arts and sciences, other undergraduate colleges and professional schools, and a graduate school providing programs of study and research leading to master's and doctorate degrees.

Dean John C. Weaver recently said that Kansas State was "already operating at University level and will offer a bachelor of arts degree in humanities and social sciences next fall."

People interested in the name change say that Kansas State would gain more prestige if the name indicated a university. rather than a college.

The graduate school found it difficult to attract outstanding grads of other universities to undertake research work for advanced degrees. There is a certain amount of prestige attached to the name "university" that is not connected with the name "college."

It has been said, however,

that the more you look at a name change, the less important it becomes. A name change would require official action by the Board of Regents and the Legislature as well.

"The fact that Kansas State is a land-grant institution should be a source of deep pride in all of us, and a change in name might mean a loss of identity as a land-grant institution," President McCain has said.

"Many authorities, both in this nation and abroad, consider the land-grant system the foremost development in high education during the past century and America's most noteworthy single achievement in the field of education," he added.

"As programs in land-grant institutions increase in non-agricultural fields such as engineering, home economics, science, forestry, and veterinary medicine, it becomes obvious that the name 'Agricultural college' does not reflect the true nature of the institution."

"For two or three generations the name which has most distinctly identified the separate land-grant institutions has been 'State college.' It is not unlikely, however, that we are reaching a time when serious consideration would be given to change in name."

Keeping up with the Joneses, McCain maintains, isn't a good enough reason to change the official title.

"It is a different matter, however," he continued, "if the institution itself has changed sufficiently to justify or even make mandatory a change in name."

What's the answer? Maybe public opinion will decide one way or the other. The Student Council hopes to find out in a poll soon.

SAC Offers Science a Helping Hand

Waco, Texas, March 1 (U.P.)-At least six opossums will fly to Denver on a Strategic Air Command plane today in "operation pregnant 'possum."

The 'possums are needed for cancer research at the University of Colorado. Game Warden Hubert Brooks said the six 'possums which were donated, may not all be pregnant. But he added any such oversight among the females would be remedied at the University.

Dr. Matthew Lock of the University said the marsupials have blood-forming tissues similar to those of a human child in gestation.

'Possums, Lock said, have a gestation period of 13 days, and after birth enter a pouch on their mother's belly for further developments before venturing out alone.

Since the gestation period for possums is short, special handling is required. Clearance for a commercial plane would take

The Strategic Air Command agreed to send a plane from Denver after the 'Possums.

Flapjacks To Flip At Church Supper

Photo by Darryl Heikes

FLAPJACK FLIPPING IS PRACTICED by Emily Booth, Psy Sr, who will be in charge of cooking the pancakes for the Canterbury club pancake supper. The Reverend Roy Turner and Tom Johnston, HSp Jr, are in charge of the supper.

Shrove Tuesday pancake supper will be March 5 from 5:30 to 7:30 p.m. at the Parish hall at Saint Paul's church. This is a traditional custom for the Episcopal students at Kansas State. The prayer. proceeds from the supper will be sed for storm windows for Can-

Seerbury House, located at 1729 SouFairchild.

Canterbury association is the HE Episcopal church on the K-State De campus and has encouraged student participation through Paul's parish, although other names, since the College was established in 1863, according to the Rev. Roy S. Turner, chaplain of Canterbury.

Canterbury House has been at Kansas State since 1954. The house was acquired from Julius Van Fleet, a former communicant of Saint Paul's and a graduate of Kansas State college.

The Rev. Roy S. Turner became chaplain of Canterbury association last year. Father Turner is from Pewee Valley, Ky., and a graduate of the General Theological Seminary of the Episcopal Church in New York City. Father Turner says, "one of Canterbury's primary interests is to stimulate students and faculty to the great intellectual challenge of Christianity. Canterbury bases its success first on worship and second on scholarship and study,"

> Canterbury has a fully-equipped kitchen for its members' use. Students often spend their evenings watching television or playing according bridge, Turner.

> The Rev. and Mrs. Turner live on the second floor of Canterbury House, and two boys, Tom Johnson, Ag Jr, president of Canterbury, and Edward Chase, AH Sr, live in the basement. The main floor of the house is used for stu-

Cats To Meet I.S. at Ames

K-State's Wildcats meet what may be the season's biggest test in their quest for the Big Seven basketball crown when they battle Iowa State at Ames tomorrow

The Cats go into the game with an 8-2 Big Seven standing and a 10-game winning streak. K-State has been undefeated in Big Seven play since dropping its first two conference tilts to Oklahoma and

The Cats must win tomorrow to retain a chance for a tie with Kansas. If K-State wins, it must defeat the Jayhawks in a showdown battle next Wednesday in Ahearn field house for a tie. Of course, the Hawks cannot afford to slip—they own an 8-1 Big Seven record.

Iowa State goes into tomorrow's game with a 5-5 Big Seven record-but the Cyclones have ranked in the top 10 in the major college basketball polls most of the season.

Iowa State holds one of the two wins over Kansas, second ranked in the three major polls. The Cyclones have been upset in conference play by Missouri twice and Colorado once.

K-State defeated Iowa State, 86-77, in overtime last Saturday in Ahearn field house.

Gary Thompson, 5-10 guard, will lead the Cyclones in the

game. Thompson holds every scoring record the Cyclones ha to offer. He has 444 points with two games left this season—a new season's mark. In addition he already has the career record with 1,222. Thompson has a 21.1 scoring average to date.

Behind Thompson, 6-5 John Crawford is 13.3 a game, and 6-2 Lyle Frahm has a 10.9 average.

K-State can send 6-9 Jack Parr and 6-7 Bob Boozer into the game with a combined average of 40 plus points a game. Parr is hitting at a 21.2 clip, and Bozer is 19.6.

Roy DeWitz, 6-3 guard, ranks as the only other Cat player in double figure scoring with an even 11-point average. Probable starters:

K-State		Iowa State
DeWitz (6-3)	F	(6-5) Crawford
Boozer (6-7)	F	(6-6) · Vogt
Parr (6-9)	C	(6-8) Medsker
Matuszak (5-11)	G	(5-10) Tho'pson
Wallace (5-10)	G	(6-2) Frahm

Five Cat Squads Busy

Five K-State athletic squads will be in action over the weekend.

Trackmen will be in Kansas City for the Big Seven indoor meet: Wildcat cagers will travel to Iowa State; gymnasts will host early season wins over these two attempting to improve on its sea-10 Midwestern gymnastic teams; the swimming team takes on two opponents in Nichols pool; and Cat wrestlers meet Iowa State in Ahearn field house.

The All-College Invitational Gymnastic championships will begin in Ahearn gymnasium tomorrow at 10 a.m. Another session will begin at 2 p.m. Competing schools will be Nebraska, Western Illinois, Air Force academy, Colorado, Colorado State, Mankato (Minn.) State, Fort Hays State, and K-

Top Cats entered are Bob Gramrow, undefeated in four meets in free exercise, and Wendell Minckley, a strong contender for the flying ring crown.

A track squad of 22 men will represent K-State in the Big Seven indoor meet today and tomorrow in Kansas City.

Gene O'Connor and Tom Rodda are probably the Cats best chances for points. O'Connor won the outdoor crown and placed in the indoor meet in the high and low hurdles last year, and Rodda, a sophomore, already owns K-State's best indoor mile time with a 4:19 clocking.

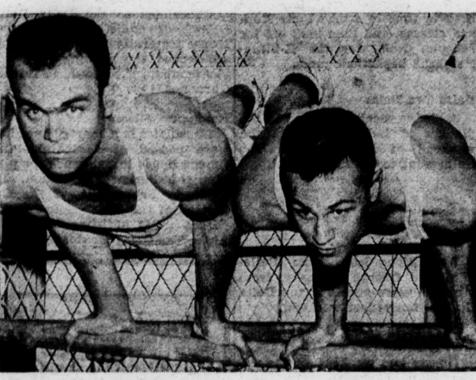

The swimmers meet Emporia State today at 4 p.m. and Fort Hays State tomorrow at 2 p.m. in their last dual action this year.

K-State will be out to fatten its present 4-4 record by repeating swimming teams.

The Purple and White wres-

tlers face Iowa State in their final match of the season at 7:30 tonight in Ahearn field house.

K-State will have a tough job son mark of 4-6. The Cyclones own a 7-3-1 record.

TWO CAT GYMNASTS who will compete tomorrow in the All-College Invitational meet in Ahearn gymnasium are Allen Olsen (left) and Richard Rood. Rood is tied with Bob Gramzow as top point man for the Cats this year. Olsen will work for points in the side horse, parallel bars, and free exercise events.

At Our Discretion

After listening to the rough and tumble K-State-Missouri basketball game last Monday night, perhaps it would be appropos for us to add another statistic to the box score.

In addition to field goals, free throws, personal fouls, and rebounds, maybe should tack on a loose change column. Then: "Against the Tigers, Jack Parr made 20

points and \$1.37 in coins." Hope the NCAA doesn't put our athletes on probation for accepting bribes.

The April issue of Sport ma-

gazine which is now on the newsstands, contains a four page picture spread on "Big Time Basketball" using Kansas State as the subject.

Not that we here at K-State don't appreciate the publicity but there are one or two errors that we feel need correcting.

For instance, on page 49 in the lower left hand corner, there is pictured a red-clad Indiana Hoosier resting his foot on the floor. The cutline for the shot labels the boy as a Wildcat. The guy probably doesn't have an injured foot either. (For those of you who don't have a copy of Sport, the caption also says his foot is

And on page 48 in the lower right hand corner, another goof. (Ho boy, this guy should have stuck to photographing Hoosiers with injured feet.) As any red blooded K-State male can testify, the cutline on this picture is a prevarication.

While you have the issue in your hand, you might also look

at the picture on page 10.

To date, KU's Hawks have an average margin of 13.6 points a game over their Big Seven opponents. K-State is right behind them with a 12.7 margin.

KITE'S

'Parr Proved He's All-American'-Tex

By DICK BOYD

"Parr proved to a lot of people that he's all-American," was the praise K-State basketball Coach Tex Winter reserved for 6-9 Jack

Parr, Cat starting center, had just led his mates to a 100-82 victory over Oklahoma City. He hit 27 points and pulled down 18 rebounds to lead both teams in those departments.

Prior to that game Winter had commented, "When Jack is having a good night and reacting well, he is as good an all-around center as any in the country.

"Jack was all-Big Seven last year as a sophomore and is one of the best sophomore centers of all-time at K-State," Tex said. Jack averaged 17.4 points and 14 rebounds a game last season for the all-time best by any K-Stater."

Parr has continued to improve this year. He had a sick spell earlier in the season-the only thing that's kept him from topping last season's performances, the coach said.

Jack is not spectacular in any department but does everything well. Winter thought. This allaround ability he calls Jack's main strong point. So far as weaknesses are concerned, Tex says that he actually has none.

"Jack is one of the finest boys it has ever been my privilege to coach," Winter said.

"He is one of the hardest and most conscientious workers we have on the squad. He wants to excell in everything he does. It is this desire that has made him the great basketball player he is."

Jack is from Richmond, Va., where he played prep school ball. His team was the state and city prep champion, and beat the Catholic league champion as well as the state high school champion during his senior year.

When asked how he happened to attend K-State, he replied, "My says he would just as soon shoot State. After leaving K-State he uncle owned a resort on a lake in a jump shot as a hook. His big- plans to attend med school either there in the summer and met Bill when K-State beat KU last year Richmond, or at the Kansas uni-

BIG JACK PARR relaxes in his room. Parr, 6-9 basketball center, is a pre-med junior. Tomorrow night, he'll carry a 21.2 scoring average against lowa State at Ames. Parr averages near 15 rebounds a game for Coach Tex Winter's team.

Laude who was planning to attend to win the conference title, K-State.

place that is nationally known spectator sport it is," Jack said. for its basketball, so when Tex "However, it's not just a shooting is 6-3 and is almost as tall as his offered me a scholarship, I took game. There is a lot more that

Jack says that being tall doesn't make his life any different from anybody else's since he has always been tall. He added that he had to go to a tall man's shop to get clothes to fit and had to sleep in an extralong bed.

He has no favorite shot, and thern Minnesota. I was up gest thrill in college ball came at Medical College of Virginia in

"Steady action and a lot of "I wanted to try to play at a shooting make basketball the great goes on out there that the average fan doesn't notice."

> Jack sums up the home court advantage this way. "The difference is mainly in the crowd. If we didn't have a good crowd yelling for us at home, there wouldn't be any home court advantage."

Jack is a pre-med major at K-

versity med school in Kansas City.

Jack has two prothers, Lane, who is 18, and Bruce, 12, both of better than average height. Lane 6-3 1/2 father. Bruce is still growing. The boys' mother is a mere

Jack attended St. Christopher's, an Episcopal prep school in Richmond. "There were about 175 students in the school. Classes were small enough so you got a chance to learn more than in a large public school. The subjects approached college proached college level," Parr level," Parr said.

Last summer Jack attended the conference of the Fellowship of Christian Athletes in Estes Park, Colorado. "It was quite an inspirational thing," he said. "You think of eating to grow physically, and going to college to grow mentally, but this really grow spiritually.

"It was something to hear bigname athletes get up and tell about what believing in God meant to them. Most people don't think of athletes as being humble."

UP Selects 'Small' Team

By UNITED PRESS

Chet (The Jet) Forte of Columbia and Gary Thompson of Iowa State, two of the nation's niftiest basketball players regardless of size, head the ninth annual "Small America" team compiled by the United Press.

In addition to the high-scoring Forte (5-9) and Thompson (5-10), the first team included sophomore Don Hennon (5-9) of Pittsburg, Tom Steinke (5-10) of Brigham Young and Jimmy Boothe (5-7) of Xavier.

The "Small America" is strictly for the little mennone taller than 5-10-but the five vest-pocket aces selected this year have proved week after week there's a definite place for the small man among the giants who dominate the modern game.

Forte has been in and out of the national scoring lead at various stages and still boasts an average of 29.1 points per game. Thompson, a slick defensive star and playmaker, has a 21-point average and outscored Wilt Chamberlain of Kansas in their three personal duels this season.

Named to the second team were Florida (Porky) Vieira (5-6) of Quinnipiac college (Hamden, Conn.), Dave Markey (5-10) of Canisius, Joe Campbell (5-7) of Purdue, Jackie Murdock, (5-10) of Wake Forest and Dick Cantley (5-10) of West Virginia

"WILLIE" THE WILDCAT says MEET ME AT THE OPEN 24 HOURS DAILY

Duke Ready for NC Tonight

By UNITED PRESS

North Carolina seeks to complete a perfect basketball season tonight against a Duke team "steamed up" for an upset.

If Coach Frank McGuire's Tar Heels can win this old-rivalry battle at Raleigh, N.C., they'll finish the regular court campaign with a 24-0 record and become the South's first perfect record team since Kentucky in 1954.

But Duke, unbeaten on its home court this season where its victims include the 1957 Kentucky squad, lost to North Carolina by only 75-73 on the Tar Heels' court earlier this season and is burning for a victory that could destroy Caroma's No. 1 national ranking.

"We're ready for them" prom-

ised Duke Coach Hal Bradley. | large." The Irish, with a 16-7 about this one."

of the big "showdown" in the Pacific Coast conference—the first of two games in two night between UCLA and California, archrivals for the league title. California leads with an 11-1 mark and four to play, while UCLA is 11-2 with three left.

And in the Skyline conference, Brigham Young seeks a victory over New Mexico that would clinch at least a tie for the championship.

Notre Dame was added yesterday to the field for the NCAA 504 N 3rd tournament as a "member at

"Our boys are really steamed up mark and two games left, will meet either Miami of Ohio or the Ohio Valley conference champion Also on tap tonight is the start in a game at Columbus, Ohio, March 12.

Israel Announces Decision For Withdrawal from Egypt

Compiled from United Press By KEITH KEMPER

Washington-Israel announces to the world today its historic decision to withdraw its forces from Egyptian territory. But, already there were rumblings of discontent in Jerusalem over the "surrender" and suspicions by the Arab world of a "deal."

Mrs. Golda Meir, the Israeli Foreign Minister, planned to go before the United Nations general assembly today to report compliance with a UN resolu-

tion demanding Israeli withdrawal.

The decision, reached in Washington conferences between American, Israeli and French officials, eases the immediate threat of war in the Middle East but may not end the crisis.

Doctrine Is Challenged

Washington-The Eisenhower Doctrine for the Middle East today faced a new challenge in the Senate.

Sen. Richard B, Russell and

others drove for a vote by nightfall on their proposal to strip the doctrine of military and economic aid.

Administration forces believed they could defeat the proposal. But, the vote could be close.

The State Department said the amendment would "largely destroy" the Doctrine's effect.

Senate Democratic Leader Lyndon Johnson called the Senate into session two hours early and scheduled an unusual Saturday session in a strong push for a final vote on the Doctrine itself.

Morocco Welcomes Nixon

K-STATER INJURED—Pictured is the car in which Donald Scheibe, GA Jr, was injured early Sunday morning. Claude and Alena Marie Scheibe, both passengers in the car were killed. Donald is in fair condition at Riley County hospital.

Two Seats on the Aisle

Players Board 'Streetcar' For Weekend Performances

By JANICE GRAHAM and CHARLES SCHREIBER

The K-State Players presentation of Tennessee Williams'
"Streetcar Named Desire," Friday and Saturday nights, got off to a slow start in the first and second acts, but roared home at full throttle in the third.

The plot, stated simply, added up to sex, train whistles, death, and the old plantation.

Ann Shaw Soelter, Sp Gr, a veteran Players' actress not only deserved the applause she drew at her first appearance Friday night, but much more. She made Stella Kowalski live and breathe for almost three hours. Her openness and sincerity caught and held the audience without

any special effort on her part.

Blanche DuBois, Stella's sister, gave Linda Merritt, EEd Fr, a good run for anybody's money. Blanche came over quite well as a shallow unrealistic soul. • In fact, there were a number of times when daylight was visible through her extremely shallow Southern accentt.

In the final acts she stepped into the spotlight with some really hi-fi drama. Unfortunately this spotlight, (a bilious green) and other technical fouls, provided by the lighting technicians, handicapped her considerably.

Leonard LeGault, PEM Sr, spent the first act quite successfully being Leonard LeGault. Along about the second act the play's masculine lead, Stanley Kowalski, (Stella's husband) began to appear and at times came close to approaching the excellence of Ann Soelter's Stella, for sincerity.

Louann Oberhelman, Sp Jr; Gordon Jump, Sp Sr; Ken Nakari, Phy Soph; and Harold Stauffer, AgE Sr, contributed the necessary ingredients to provide depth and character to the play's background. Most are well-known from previous performances in which they stand on their own merits.

Special recognition should go to the young collector, Dale Livengood, Sp Sr. In his minute and a half on the stage the audience was provided with the best in upstaging technique.

The next K-State Players production will be April 4 and 5 and will feature "The Merry Wives of Windsor."

Kansas State College, Manhattan, Kansas, Monday, March 4, 1957

KSC Student Hurt In Two-Car Crash

By KEITH KEMPER

Donald Scheibe, GA Jr, is in "fair" condition at the Riley county hospital today, according to the attending physician, after a car he was driving was involved in a two-car accident 1½ miles east of Ogden, Sunday morning.

Alena Marie and Claude Rudolph Scheibe, sister-in-law and brother of Donald, were both killed in the accident. Alena Marie died at a Fort Riley hospital and Claude was found dead at the site of the accident.

Donald has a fractured right arm, left wrist, and a dislocated right hip. He is also suffering from multiple cuts and bruises.

According to the Highway Patrol and the Riley County Sheriff's office, the Scheibe car was headed east toward Manhattan when another car, driven by Booker T. Washington, Fort Riley, going west, swerved off the road to the south and then cut back onto the highway in front of the Scheibe car.

Washington's car smashed into the right front side of the Scheibe auto knocking it backwards 28 feet. The car was a "total loss" according to Sam Porter, highway patrolman.

Donald's brother was a student at Kansas university and his sister-in-law was employed in Lawrence. Scheibe's home was in Marysville.

The deaths are the first reported in Riley county this year.

Council To Consider Activity Card Dispute

The Student Council will consider a motion to recommend to the Athletic department that it drop plans to check activity tickets at basketball games until next year.

Jerry Holliday, ArE Jr, will present the motion to the Council at its meeting tonight at 7:30, Student Union, room 205.

"It is quite apparent that there is considerable friction among the students toward the Athletic department because of its decision to check what has long been a common practice on this campus," Holliday said.

"If an attempt to require students to follow the neverbefore-enforced ruling of the College concerning activity tickets was started at the beginning of the year with adequate information about why activity tickets aren't transferable, I feel that no friction would result.

"However, confiscation of illegally used tickets at the KU game will not aid the Athletic department financially, will create bad feelings among the students, will not alleviate the seating situation to a noticable extent, and in general will do more harm than good," he said.

The Union Gift committee will make recommendations for the Union birthday gift.

Some suggestions for gifts presented to the committee were a birthday cake, a color photograph of the Union, records, and books.

Non-Students Denied Use of Activity Cards

"People who are not students are not entitled to the use of the student activity card," Herbert J. Wunderlich, dean of students, said Friday.

Explaining the intention of the Athletic department to check identification of non-students using activity tickets at the KU-K-State basketball game, he said, "We felt that something should be done to stop the blackmarketing of student tickets."

Dean Wunderlich said the College has made the activity ticket available to students because they are students. Any other use of the ticket, he explained, would be a violation of the spirit of the whole program for two reasons:

1. In theory, this practice would deprive the Athletic department of part of the income it would otherwise get.

2. If a student does not use his admission to a game, he is not entitled to it. A student is entitled to his own admission only, and if he isn't going to use it, the Athletic department should have the right to sell it.

He stated that many students feel when they purchase activity tickets, they have purchased seats in the Field House for the basketball games. "The fallacy in this reasoning," he said, "is that they have not purchased seats, but only admission to the games."

Flu Epidemic On Way Out

The influenza epidemic is definitely on its way out. There are about 30 in Student Health now, which is considerably less than the number that was there last week.

The public health service at Kansas City, called Dr. Benjamin Lafene, director of Student Health, Friday. If the State Board of Health at Topeka approves, they will send two men here to get specimens and throat washings, so that they can isolate the virus.

"If the virus is true influenza, Student Health will offer flu shots in October or November next year so as to prevent another epidemic," said Dr. Lafene. "Influenza epidemics usually occur two years in succession."

The Entire Story

PICK THE STAGE of the lowa State-K-State basketball game at Ames Saturday. These K-State coeds respond with reactions that were typical of the Wildcat cheering section at the game.

Wooed Legislators Get Cold Shoulder

By SHARON TOTTEN and CHARLES SCHREIBER

Resentment over the use of student seats by legislators at basketball games has been flaring on the campus for the past week. Many students seem to feel that the practice of reserving a number of rows in the student section for state legislators is unfair to the students.

Frank A. Mosier, ticket manager, has reported that 500 legislators are expected for the March 6 KU-K-State basketball game. He said that seven rows of seats on the west side of the student section will be reserved for them. About 200 legislators will be seated in this section on a first come, first served basis, and the remaining 300 legislators will sit in seats reserved for them in the west wing of the north bleachers.

"The resentment over reserved seats for legislators seems to have been set off a week ago at the Iowa State-K-State game, when 10 rows of seats were reserved for members of the House and Senate Ways and Means committee, who were visiting the campus," reported Max W. Milbourn, assistant to the President.

"However," said Milbourn, these legislators are as much guests of the students as anyone, and it seems to me reserving seats for them is a small courtesy for us to show." He stated that when the Student Council raised this same question in 1951, the administration worked out the plan of reserving a number of seats, the number varying with the number of legislators expected. He said the Student Council was in agreement with this plan.

Student Council minutes for the year 1951 recorded no official action taken on this matter. The records do report that the matter of seating members of the legislature at basketball games was discussed, but there is no indication of any official action.

A report taken from the February 7, 1951 issue of the Collegian states, "Action on the

Field House seating problem, which has been the basis for most of the discussion in the last two Student Council meetings, was postponed by-the Student Council at its regular weekly meeting yesterday.

It was the feeling of the council that there was not enough time left in the basketball season to take a definite stand on the situation."

Fritz G. Knorr, who was ticket sales manager in 1951, stated Friday that although he didn't know whether or not the Student Council had taken official action on the matter of seating legisaltors in the Field House, he was sure that there had been an agreement between the Student Council and the ticket management. The agreement, he said, was that seats would be reserved for the legislators.

Knorr stated that students who were at Kansas State before the Field House was built were more than willing to give seats to legislators, because the lawmakers appropriated the money to build the Field House. He said students now should remember that they may want to ask these legislators to appropriate money for another building in the future.

Concerning the reserving of seats in the student section for people other than legislators, Mosier stated that 300 seats are reserved for the Pep clubs and 500 seats for the faculty at each game. Two rows of seats in the north bleachers are reserved for highway patrolmen, and patients from Ft. Riley military hospital; however, if the Field House is full, these seats are given to students.

The only other seats which are reserved in the student section are the 30 seats which members of the K-Club reserve for themselves, according to Mosier. All in all, a total of 1,000 of the 6,508 seats in the student section will be reserved for people other than students for the KU-K-State game. Five hundred of these will be for legislators, and 500 will be for faculty members.

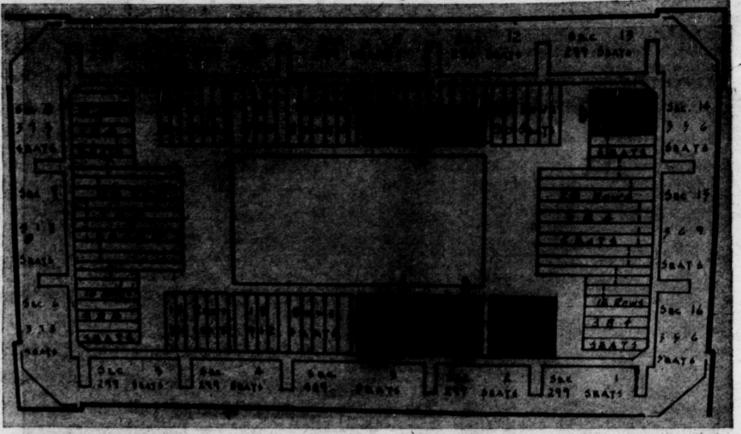

The reason given by Milbourn for not seating legislators in the reserved seating section in the Field House balcony was a lack of flexibility. He stated that the number of legislators expected to attend each game varies, and the athletic depart-

ment would lose money by reserving a block of seats which would not be filled by legis-

"We think the policy which has been followed for the past few years is a reasonable policy," he said.

D- 337-1, 1/ 11

ONE THOUSAND seats in the student section, as shown in this seating diagram of the Field House for the Wednesday night KU-K-State basketball game, are reserved for non-students. Reserved areas in the diagram are black. They are: Section A—Pep club (300 seats), Section B—Faculty (500 seats), Section C—Legislators (200 seats), Section D—Legislators (300 seats).

Readers' Forum

(Opinions expressed in letters are those of the writer. They do not necessarily reflect the Collegian's editorial policy. We reserve the right to edit letters to conform to the standards of decency and good taste. No letter will be accepted unsigned.

To the Editor:

I understand that the Student Council is considering the possibility of presenting a gift to the Student . . . er, uh . . . K-State Union on its birthday.

This is kind-hearted, but repetitious. The Student Council already has given the Union something—a flat 30 per cent of the student activity fee. This makes it unnecessary for the Union to appear before the Apportionment board to ask for money. Other recipients of activity-fee money go before the board to show why they need it

If the Student Council wants to give something to someone, it might consider giving the unneeded portion of the 30 per cent back to the Apportionment board.

Bacterial Epicureans Delight In Gnawing Away State Roads

By JANICE GRAHAM

Bacteria may be literally eating away our highways, according to a study conducted by J. O. Harris, professor of bacteriology. Some bacteria are able to utilize hydrocarbons from asphalt for nourishment; net result, those bumpy roads may be a bacterial cafeteria.

About two years ago Dr. Harris of the Agricultural experiment station began work in cooperation with the Kansas Highway department on the idea that perhaps bacteria had something to do with the breakdown of Kansas roads. State highway engineers brought in road samples and after isolating the bacteria, Harris proceeded to study any habits or peculiarities that might lead to a conclusion on the subject.

Work similar to this had been done in Montana before Dr. Harris started research on the subject here. When the project was reported on at Houston last year, bacteriologists were interested.

"We are not sure that bacteria are responsible for any highway damage," said Dr. Harris. "We only know that they have the potential to destroy hydrocarbons. Location of highway damage is so unpredictable and there have been so many other factors (such as weather and traffic) entering in, that any conclusion was not in sight when the project was temporarily discontinued."

These bacteria are no novelty and it is not yet known if they can be controlled. They are known by scientists as micrococci, pseudomonas, mycobacteria, and flavobacteria.

"The future looks unlimited"

"I wanted a career that offered variety, opportunity and a chance to work with people," says Lewis William Post, C.E., Michigan State, 1950. "That's why I went to work for the telephone company.

"My initial training-two full years of it-probed every phase of company operations and acquainted me with all of the jobs in the Plant Department, where I was starting.

"Today, as Plant Engineer, I'm responsible for preventive maintenance of all field equipment, installation of new facilities for wire and cable, and I work with architects and builders on telephone needs in new buildings.

"Selling's part of my job, too. I sell ideas-like the wisdom of planning for telephone service when you're building. Recently I advised an architect and an owner on telephone wiring and outlets in a new \$160,000 medical center. I enjoy getting in on the ground floor of such projects and making contributions both as a civil and a telephone engineer.

"In my area of Chicago there are 80,000 telephones, home and business. More are being added every day. There's expansion everywhere in the telephone business-all across the country. To me, the future looks unlimited."

Lew Post's career is with Illinois Bell Telephone Company. Many interesting career opportunities exist in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about them.

Cat Record Drops to 8-3 After Loss to Cyclones

Iowa State all but wrecked K- point deficit to a tie at the gun. State title hopes Saturday at Ames with the 69-67 overtime win.

But K-State still has a mathematical chance for a share of the Big Seven crown—the Cats have an 8-3 conference record with one to play, and Kansas' Jayhawks are ma 9-1 with two left.

For a conference tie, K-State needs a win over the Hawks Wednesday and KU will have to drop its final game at home against Colorado, a team the Hawks have twice defeated.

No matter what happens, the Cats can finish no worse than second. The nearest K-State comone game left.

Iowa State helped set the stage for K-State's title bid with its play to give K-State a 58-57 lead. 39-37 win over KU earlier in the season at Ames.

But Saturday Iowa State nearly knocked the Cats from the picture when the Cyclones ended the 10-game Cat win

K-State may have tried too hard in the contest which saw more than one Cat pass fall into Cyclone hands. Couple that with misses of some under-the-basket shots and you may have the story of the contest.

Cyclones, nor can you overlook a already hit four free throws to ice second half comeback by the Wild- the game, and had utilized a stall cats that pulled them from a 9- that kept the ball in Cyclone hands

In the second half, the Cyclones led 89-80 with 17:41 left as 5-10 all-America candidate Gary Thompson sank a pair of free throws.

I.S. Fans Like *Cats Over KU, Parr Over Stilt

By ORVAL JACKSON

Ames-Iowa State won the basketball game, and outwardly the partisan crowd was more than pleased with the showing of the home team.

However, after talking with Iowa State fans after the game, it appears that the majority of the people actually wanted K-State to

As one Iowa State fan said, "I cheered for Iowa State, but at the same time I was hoping K-State would win it.

"I don't want Kansas to win the Big Seven and I think K-State will knock them off this week. It's too bad we had to win, just for that reason," he said.

Another group of fans were comparing the teams of Kansas and K-State. The consensus was that, from the showings of the wo teams at Ames, K-State stands head and shoulders over Wilt Chamberlain and KU.

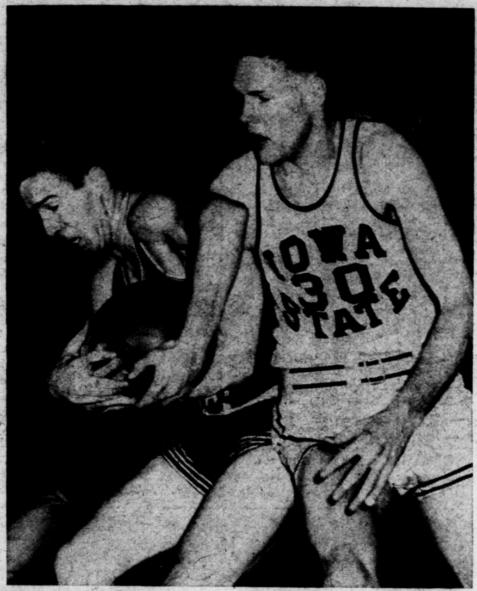

"Chamberlain is tall but that's about all. For my money, I'll pick Jack Parr over Chamberlain any day," another fan

An oddity of the game, was that this was the third overtime game of the season for both squads. Before Saturday, Iowa State had lost both previous overtime tilts and K-State had won its two.

Following the game, a brief ceremony was held honoring Gary Thompson as the outstanding player in the history of Iowa State.

Thompson was awarded a plaque from the Iowa State Alumni association for "outstanding conduct, sportsmanship, and for doing good for the college."

Cyclone coach Bill Strannigan announced that jersey number 20, the number that Thompson made famous at Iowa State, will be retired following this week's game with Nebraska.

EDDIE WALLACE, 5-10 Cat guard, argues with 6-8 Don Medsker (30) of Iowa State for the basketball in the 69-67 overtime loss to the Cyclones at Ames Saturday.

Matmen Lose to I.S.

day night in Ahearn Fieldhouse. It was K-State's final dual meet of the season and gave Coach Knorr's matmen a 4-7 record.

Winning for K-State were Pat Doyle, Gary Haller, and Ellis ence champion for Iowa State, Rainsberger. Doyle decisioned pinned K-State's Pete Everist in Ellie Watkins, 6-4, in the 157pound class. Haller took a 10-0 decision over Boyd Van Voorhiss in the 167-pound class. Heavyweight Rainsberger decisioned Roger Pohlman by an 8-7 score.

In the 130-pound class, Bill Youngers of K-State drew with Dave Harty, 5-5.

K-State's wrestling team was their records clean. Gray won his defeated by Iowa State, 18-11, Fri- 11th in a row by pinning K-State's Jim Caster in the 147-pound class. Powell took his 12th straight with a decision over Jim Dietrich, K-

Jim Corner, last year's conferthe 137-pound class.

K-State's Jim Miller lost a close 3-2 decision to Frank Altman of Iowa State in the 123pound class.

The Cat matmen were without the services of two regulars. Jim Roberts, a 147-pounder, was out with a shoulder injury, and Calvin Iowa State's undefeated stars Schwalbe in the 130-pound class Ron Gray and Frank Powell kept was kept out by a knee injury.

Naval Air Missile Center, U. S. Navy Electronics Lab, AeroE, CE, IE, EE, ME, Math, Physics, E 109; March S—Haskins & Sells, Acctg.,

Sigma Pi Members To Meet in Union

A meeting of the actives and alumni of Sigma Pi, national social fraternity, will be held in the Union activity center Tuesday at 3 p.m., according to Bob Alexander, Union program director.

The meeting will be held to discuss possibilities of starting a chapter at Kansas State. Those attending will consider whether there are enough active members or alumni here to organize on this campus.

STUDENT HEALTH

Those in Student Health today are Tamotsu Onuma, Ar 02; David Pfuetze, BA Sr; James Lonker, Ag Fr; Jay Cress, EE SP Soph; Ellis Rainsberger, PEM Sr; Carl Glocker, TA Sr; Darwin Hester, BA Sr; Stephan French, ME Fr; Jerome Regler, VM Fr; Sumin Hazayen; Bibrano Arzadon, AE Jr; Ken Lucas, NE Fr; Larry Cox, DE Fr; Louis Holle, AH Jr; Dale O'Connor, PEM Jr; Lydia Rivera, Art Fr; Judy Ross HT Fr; Arnita Otte, HDA Fr; Carol Lola; Martha Finney, SEd Jr; Karen Hampton, Sp Fr; Elaine Tearney, ML Jr and Connie King, HT Jr.

WEATHER

The Kansas weather forecast is partly cloudy today with occasional light showers and colder in the extreme North. Occasional light snow and sharply colder in the West and Northcentral tonight.

Cooler on Tuesday with occasional snow in the West. Highs today 40-50; lows tonight 15-30. Temperature at 8 p.m. is 37 degrees.

108 Men Apply For Entrance In Vet School

So far 108 men have submitted applications for admission into the School of Veterinary Medicine, according to Dean E. E. Leasure, head of the school. Seventy will be accepted.

The committee on selection hopes to have enough applications processed by April 15 so that the first half of the class can be selected. However, applications will be accepted up until May 1.

Interviews will be started as early in March as possible. They will be given on Tuesdays and Thursdays from 3 to 6 p.m. and Saturdays after 10 a.m.

The four members of the subcommittee on interviews will probably meet each applicant as a panel, Dean Leasure said. In handled individually, he said.

Double Dose of Rallying For K-State-KU Contest

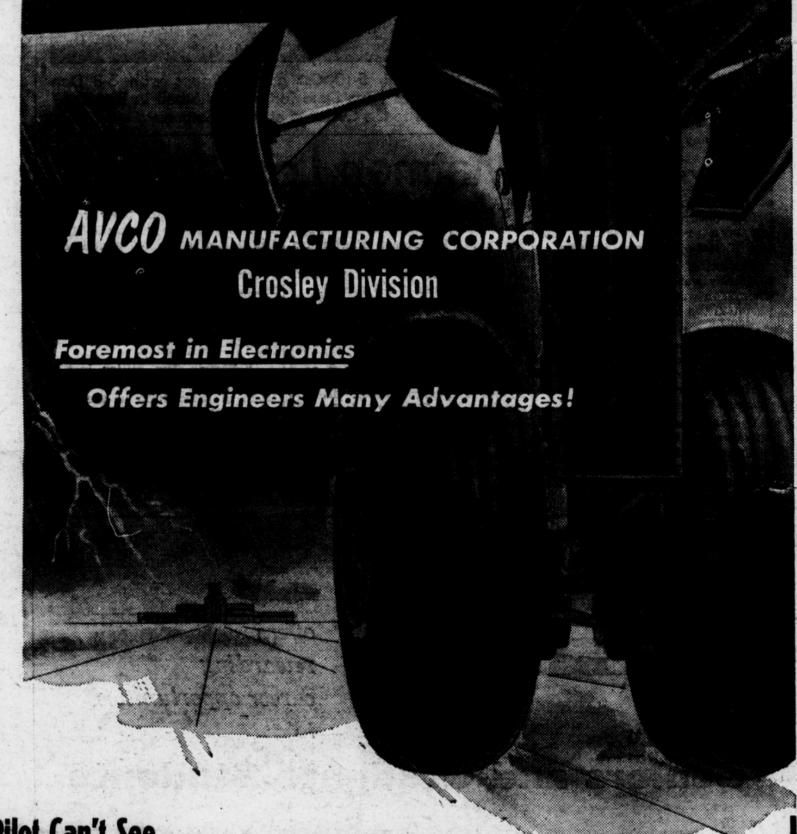

game pep rally will be held in connection with the KU-K-State game, according to Larry Youngdoff, BA Soph, head cheerleader. The pre-game rally will be at 6:45 Tuesday and both rallies will be held in front of the Student Union and the engineering building, Seaton hall. "The reason we are having a rally after the game, regardless of whether we win or lose, is to show appreciation for the team," he explained.

Head basketball coach Tex Winter and some of the basketball players will be at the rally the past the interviews have been Tuesday night at which Pete Wimsatt, BA Sr, will narrate. these.

Both a pre-game and an after- | President McCain has been asked to say a few words during the rally, and the pep band will play between talks and cheers.

> If K-State wins the game, a dance will be held in the Student Union and Matt Betton will play. However, if K-State loses closing hours will be at 10:30 instead of 1 a.m., and there will be only be enough time for the rally.

If a dance is held, an autographed basketball with the signature of each player on the Wildcat team will be given away. As students enter the door, they are to sign a ticket, and the winner's ticket will be drawn from

When the Pilot Can't See "Volscan" Brings Him Down . . . SAFELY! SURELY!

One of the major advances in aviation history is "Volscan." This remarkable electronic device enables the pilot to come in even though he can't see where he is going. Wouldn't you like to play a part in important achievements such as this? If so, we have openings for engineers in many different categories.

Openings at all levels of Research, Advanced Development and Product Engineering in the following fields: Guided Missiles, Air Navigation, Radar Systems, Communications, Gyros, Magnetic Amplifiers, Servos, Computers, UHF, VHF, Printed Circuitry, Circuit Design, Transistor Circuitry, Fire-Control Systems. Infra-Red Radiation, Detection Nucleonics, and Human Engineering.

The twins don't find it hard to

for the other one."

being identical.

By SHARON TOTTEN

On the Kansas State college campus, where the sex ratio is now 3 1/2 men to every woman, most of the lighthearted, handsome young blades have had some pretty crushing experiences.

For example, suppose some bright male student is walking on campus and spies a blond who simply takes his breath away. He can tell from a distance that she was meant for him, from the bottom of her blue suede loafers to the very topmost blond hair on her head, but as he comes a little closer, what do you suppose he spies on the front of her soft cashmere sweater? A fraternity pin, of course.

It's a dag-nabbed outrage. His first impulse is to go and drive his blood red Ferrari into a P.I.E. truck at 105 miles per

However, if this shining youth is in his right mind, he will stop should find that her name is Donna Geis, he can breathe again. because Donna has a twin, Doris, who is waiting for her at this very

"Tag along? I'd love to," he says, licking his lips.

So they saunter over to the Union and pretty soon the lad is seeing double, because the twins are strictly identical. The only distinguishing marks are the fraternity pin and a mole which is on the right side of Donna's nose. They dress alike and wear identical hair styles.

After a few cups of coffee, they loosen up and admit that they are both sophomores in physical education. They both plan to graduate from Kansas State, and Donna plans to teach physical education. Doris has no definite plans, but she hopes to work with children.

By this time, the lad is fascinated and asks a few questions like, Have you ever switched dates on a fellow?" and "Have you ever been separated for very long?"

Doris says, "No, we've never switched dates, but Donna got as far as the car with my date one night, and he didn't know the difference. She didn't go out with him though."

They say that the longest they have ever been separated is for two weeks, and they think it will probably be a little difficult when they are separated after they graduate.

"A twin comes in handy sometimes," says Doris. "Once when we were in grade school and we

Mid-East Doctrine Approval Modern Languages Is Expected Soon in Senate

Compiled from United Press By KEITH KEMPER

Washington-President Eisenhower's Middle East Doctrine appeared likely today to receive a heavy Senate vote of approval this

The doctrine cleared a major hurdle last Saturday when the Senators beat down a proposal to strip the resolution of its economic aid provisions.

Israel's announced intentions to withdraw from Egypt added to the resolution's chances of passage. Senate leaders predict it will Israel would go ahead with the clear the Senate by Tuesday night.

Senate Democratic leader Lyndon B. Johnson (D-Texas) summoned the Senate into session an hour early this morning to speed final debate on the resolution aimed at thwarting Communist expansion in the area.

Senate-House negotiators will meet later on the resolution to square differing versions passed by each branch of Congress. Some compromise in the language of the resolution probably will be sought.

Withdrawal Vote Today

decision to withdraw from Egypt of his hectic but overwhelmingly

ment where Premier David Ben-Gurion faced a crucial vote of confidence on the issue.

The government was sharply divided, and Ben-Gurion called his cabinet into session this morning to try to convince rebelious ministers that further delay in withdrawal was a dangerous course.

American officials expressed confidence in Washington that withdrawal from the Gaza strip and Sharm El Shetkh on the Gulf of Aqaba as promised.

Ben-Gurion himself was reported "extremely pleased" with a letter from President Eisenhower reassuring him on the Israel position. Ben-Gurion hoped the letapproval before he goes before the Knesset (Parliament) for the

NOW YOU CAN BE YOUNGER THAN SHE IS!

It's a scientific fact that girls reach emotional maturity earlier than boys. For this reason freshman girls decline to make romantic alliances with freshman boys.

Thus, the freshman boys are left dateless, and many's the night the entire freshman dorm sobs itself to sleep. An equally damp situation exists among upper-class girls. With upperclassmen being snapped up by freshman girls, the poor upper-class girls are reduced to dreary, manless evenings of Scrabble and home permanents.

There is a solution for this morbid situation — a very simple solution. Why don't the two great have-not groups find solace with one another?

True, there is something of an age differential, but that need not matter. Take the case of Albert Payson Sigafoos and Eustacia Vye.

Albert Payson, a freshman in sand and gravel at Vanderbilt University, was walking across campus one day, weeping softly in his loneliness. Blinded by tears, he stumbled upon the supine form of Eustacia Vye, a senior in wicker and raffia, who was collapsed in a wretched heap on the turf.

"Why don't you watch where you're going, you squirt?" said Eustacia peevishly.

"I'm sorry, lady," said Albert Payson and started to move on. But suddenly he stopped, struck by an inspiration. "Lady," he said, "you're miserable because you can't' get a date. So am I. So why don't we date each other?"

"Surely you jest!" cried Eustacia, looking with scorn upon his youthful head and body.

"Oh, I know I'm younger than you are," said Albert Payson, "but that doesn't mean we can't find many splendid things to do together."

"Like what?" asked Eustacia.

"Well," said Albert Payson, "we could get a third and play some one-o-cat."

"Bah!" said Eustacia, grinding her teeth.

"All right then," said Albert Payson, "we could go down to the pond and skip some stones and maybe catch a few frogs."

"Ugh!" said Eustacia, shuddering her entire length.

"How about some run-sheep-run?" he suggested.

"You are callow, green, and immature," said Eustacia, "and I will thank you to absent yourself at once!"

Sighing, Albert Payson lit a cigarette and started

"Stay!" cried Eustacia.

"Was that," she asked, "a Philip Morris you just lit?"

"What else?" said Albert Payson.

"Then you are not immature!" she cried, clasping him to her clavicle. "For to smoke Philip Morris is the very essence of wisdom, incontrovertible proof that you know rich, natural pleasure from pale, poor substitutes! Albert Payson, I am yours!"

And today they are married and run one of the biggest wicker and raffia establishments in Blue Earth, Minnesota.

@ Max Shulman, 1957

Freshman, sophomore, junior, senior - rich man, poor man, beggar man, thief-you'll enjoy natural Philip Morris, long size and regular, made by the sponsors of this column.

Conclaves Banned From SU Cafeteria

A motion to ban non-students, namely convention crowds, from using the Union cafeteria between 12 and 12:30 p.m. Monday through Friday was passed at the Union Governing board meeting last night.

The UGB also approved a proposal to make coffee available in the dive; a set of rules governing the use of decorations in Union Ballrooms; passed a proposal which would place pictures of the Board of Regents in the Union; and set up a committee to interview applicants for Union Governing board positions.

The Board passed a motion that K-State students and faculty be given first service in Union cafeteria Monday through Friday between noon and 12:30

Discussion of the problem started when Lee Ruggels, AE Gr, said non-students, particularly people attending conventions, were flooding the cafeteria line and making it almost impossible for K-Stater's with 11 and 1 o'clock classes to eat and get back to class on time.

Ruggels suggested announcements be read to the convention groups in meeting. The motion was turned over to the Union administration for action.

The coffee proposal resulted from discussion of how to get students to stop playing cards in the stateroom.

Ray North, PrL Jr, said one of the main reasons students play cards in the Stateroom is because coffee is available there. If coffee was served in the dive, many card-players would follow it and use the area originally designed for that sort of thing, Keith Swenson, Ar 04,

"We're going to try to make coffee available in the Dive." Kottner said. UGB asked Kottner to investigate to see what could be done.

Sharon Diamond, Soc Sr, chairman of the Auxiliary Enterprises committee, presented a plan to honor the Board of Regents.

The plan consists of hanging 10x12 black and white photo-

NUMBER 99

For KU Game

Council To Ask Athletics For Student Guest Tickets

The Student Council last night defeated a motion to ask the Athletics department not to check activity tickets at the KU game Wednesday night, but it came up with a new idea that would permit student guests to attend the

The Council passed a recommendation to ask the Athletics department to permit students who borrow an activity ticket to present that ticket and \$1 at a ticket booth for a student guest ticket entitling the bearer to sit in the student section at the KU

The Council also stressed its support of the Athletics department plan to confiscate any activity ticket used illegally at the game.

In adopting the new plan, the Council hopes to please the stu-

dents by letting guests into the game for a nominal charge, and the Athletics department by allowing them to get extra revenue that otherwise would be lost.

Student Body President Pat Wilkerson, BA Sr, commented on the current campus controversy of checking the activity tickets at the game:

"Athletics Director Bebe Lee told me that his department has always had the policy of picking up tickets not in the hands of the proper owner. Due to the packed game he is going to check closer and help students keep their section from filling up with outsiders."

Wilkerson stressed the fact that the Athletics department doesn't make money by checking tickets because they must employ extra men. Therefore, they must be doing the students a service, he said.

Newton Anderson, ME Jr, said that "activity tickets are a privilege we would like to preserve. We can hurt ourselves a lot by condoning selling the tickets to other persons."

Anderson said the going price for an activity ticket for Wednesday's game is from \$5 to \$12. "We can't say it's legal to sell them when it's stamped non-transferable right on them."

"I am opposed to anything that can be attacked as wrong in principle," H. B. (Bebe) Lee, director of athletics, said this morning in reference to the Student Council's proposed activity ticket plan for the KU game tomorrow night.

"The Council is trying to ease the situation because of criticism from a minority of students. Students would still have the privilege of selling their extra tickets.

"We are trying to protect those students who want to see the game. If we allowed students to turn in an activity ticket for another ticket, a majority of students would get hurt."

Gary Haynes, TJ Sr, said that most students go on the idea that if they want to give their ticket away, the person who gets the ticket would merely be filling the space. "However, I don't think now is the time to begin checking the tickets," he said.

Dance Duo To Give Assembly

Maxine Munt-Alfred Brooks Dance Club will present an All-College assembly program tomorrow morning from 11 to noon. The following schedule of shortened classes will prevail: 8 o'clock classes will meet from 8 to 8:35. 9 o'clock classes will meet from 8:45 to 9:20, 10 o'clock classes will meet from 9:30 to 10:05, and 11 o'clock classes will meet from 10:15 to 10:50.

Council Votes Against Birthday Gift to Union

The Student Council decided last night not to present a birthday gift to the Student Union.

In view of the fact that the Union gets 30.3 per cent of the student activity funds, and because the Student Governing association budget has no provision for gifts, the Council decided not to give a gift to the

Council members also felt that any gift would have to be insignificant in value and that the same purpose could be accomplished by a letter of commenda-

It was agreed to assign more members to the Health Insurance Investigating committee to aid in taking a poll of students to see if a health insurance plan is feasible.

A student group health insurance plan would cost each student about \$5 to \$7 a semester, Newton Anderson, ME Jr, said.

One new member will be added to the board of directors of Campus Industries. Interviews of interested applicants will be held March 11.

Jerry Holliday, ArE Jr. said that Campus Industries was expanding rapidly and needed a new director to take care of the increasing load.

New Rush Rules Approved by IFC

The Interfraternity council passed the rush rules for 1957 last night in a meeting at the Beta Theta Pi fraternity house.

Several changes have been made, according to Pat Roberts, IFC publicity chairman. Some of the more important changes concerned rush dates and complaints against a fraternity by another fraternity or an individual. Also a provision was made for preference cards.

No rush date can be changed by a fraternity or a rushee after 8 p.m. Tuesday, September 3, 1957, but rushees desiring to fill vacant rush periods may contact any fraternity between noon and 2 p.m. Thursday, September 5, on the third floor of the Student Union.

Complaints against a fraternity by an individual or another fraternity will be judged by the Judicial council of the Interfraternity council and all decisions will be final. Every fraternity must have a representative at the Judicial council meeting. A 75 per cent vote will be required for conviction.

In the matter of preference cards, separate cards will be given to town men and out of town men.

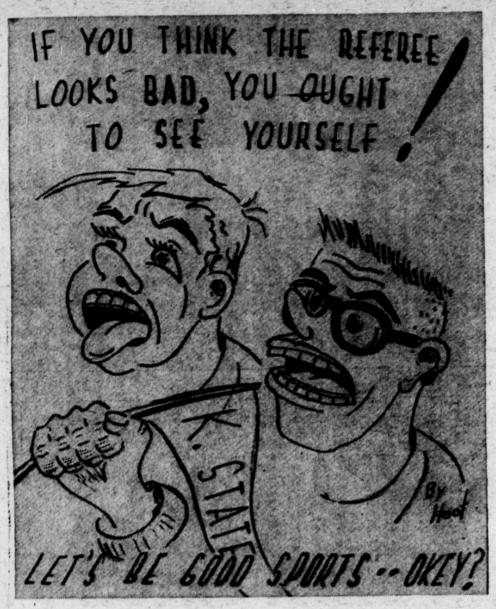

The Council also voted to go ahead with the printing of the planned rush booklet at an estimated cost of \$600. The booklet contains such information as the rush rules, pictures of the fraternities, and greetings from various campus officials.

Blue Key Paints Manhattan Ray Zimmerman, AH Sr, puts the finishing touches on a Wildcat victory on Cole's show window in downtown Manhattan. The window painting project is

Pep Rally Se. Up For 6:45 Tonight

A pep rally has been arranged by the cheerleaders to take place south of the main engineering steps tonight at 6:45 according to Larry Youngdoff, BA Soph, headcheerleader.

Editorial Comments

KS Students To Bid Farewell To Seniors Wallace and Kiddoo

WE FACE KU tomorrow night for the last game of the basketball season.

School spirit has been riding high up to now. Let's keep up the spirit and cut down on the antagonism towards our out of town guests.

There is nothing we can do about the activity card problem for this year, but we can work towards a few changes for next year.

REMEMBER THAT the members of the Legislature and Kansas University fans are our guests and should be treated as such.

Two fine players will be playing the last game of their college career. Let's prove to seniors Jack Kiddoo and Eddie Wallace how much we appreciate what they have contributed to Kansas State by showing a tremendous united school spirit. See ya at the game! Jane Moore

Lots of Cheer; But No Leaders

FINALLY AFTER 22 basketball games the cheerleaders are going to hold a pep rally for the team.

Is this pep rally being held, just because it is a tradition to hold one prior to the KU game or is it because the cheerleaders have finally seen the light?

If it is for the latter reason, it is too bad that they didn't see the light a few days earlier.

THE STUDENT Governing association, in a budget published in the February 5 issue of the Collegian, listed as part of its expenses, the cost of sending cheerleaders to out-of-town games.

If the cheerleaders are getting their expenses paid to attend the out-of-town games, why weren't they at the recent Iowa State game?

If the students in the pep clubs go so far as to pay their own way to the game at Ames, doesn't it follow that there should have been some cheerleaders there too? After all, cheerleaders have their way paid for them. Orval Jackson

Quotes from the News

By UNITED PRESS

Hollywood—Superior Judge Edward R. Brand on a 59-page settlement which was filed by Mary Alice Loesser, wife of songwriter Frank Loesser and producer of the Broadway hit "Most Happy Fella," granting Mrs. Loesser \$60,000 a year alimony plus other large financial benefits:

"I don't know whether this is going to make your husband a 'most happy fella'."

Boston—Mrs. Margaret Connolly, mother of America's olympic hammer throw champion Harold Connolly, on learning that he plans to marry Czechoslovakia's champion discus thrower Olga Fikotava:

"Imagine two olympic winners getting married. I never heard of such a thing, it's right out of a romantic story book."

Readers' Forum

To the Editor:

In the debate on the use of activity cards by non-students, it seems to be that some basic facts are being overlooked.

1. The space in the Field House is mainly devoted to the arena and seats. Therefore, to avoid standing in the aisles, a student attending a game must sit down in a seat.

2. Since a student must sit if he buys "admission" to a game, he also must be entitled to a seat.

3. Since selling tickets to seats that do not exist is widely regarded at the worst as fraudulent and at the least as unscrupulous.

4. Since selling the same seat to two different people for the same event is widely regarded as above, the Athletic department should not have the right to sell a student's seat for any reason.

5. The Athletic department has already received payment for student seats, and therefore should have no further interest in who sits in them as long as they conduct themselves in a manner to credit K-State.

-the benefit of the students. It does not exist for the faculty, Legislators, Athletic department or anyone but students. Because if it were not for those long forgotten people who go to classes, play on athletic teams, organize activities, generally populate the place, and pay fees, there would be no classes, games, spectators, Athletic department, or jobs for faculty.

It is incredible to me that, considering what an important person a student is to the operation of a college, that his opinion should be so lightly regarded as it is by the administration of this school. I think I can speak for all students when I say, "We are insulted."

John R. Jacobs, SEd Sr

Dear Editor

During the past few weeks, we at KSC have had the sincerest pleasure of being subjected to some reverse type of psychology designed to brainwash our pure simple minds. It seems that we of the student body have been paying for admission to athletic games, but not necessarily for seats.

Most of our students feel very happy about not having seat available for them at the K-State—KU game since they have been led to believe that they could see the game bethanging from the rafters than they could sitting on the planks. The College administration is going to great pains to check every person's pass since they fear that some non-student may gain illegal entry and thereby crowd the legal activity card holders off the rafters. This could be very embarassing, especially if one of the students were to fall upon some-

However, there are some obstinate students, that are approaching voting age, who just can't seem to understand the logical and obvious reasoning behind the administration's policies. These "numb-skull" students think that it is the duty of legislators to appropriate funds for the betterment of the College and thereby increase the intellectual capacity of the students,

Senate Votes Today On Mid-East Paper

Compiled from the United Press
By KEITH KEMPER

Washington—The Senate drove today to pass the Eisenhower Doctrine for the Middle East by nightfall.

The Senate faced action on several proposed amendments to the Doctrine before it could get to a final vote.

However, Senate Democratic Leader, Lyndon B. oJhnson, said he had a "strong hope" the Senate would vote on the Doctrine before the day was out.

He declined to speculate on the outcome of the vote. But, it appeared almost certain the final margin would be wide.

The Senate Doctrine Resolution—A modified form of the one passed by the House—would state a new U.S. policy of using force against a Communist aggressor in the Middle East if asked to do so by the nation attacked.

The resolution also would authorize the President to spend \$200 million already appropriated as he sees fit in the Middle East.

Senate-House differences on the Doctrine would be worked out in a joint conference committee.

Lucy Headed for Texas

Austin, Texas—Mrs. Authorine Lucy Foster, whose brief admission to the University of Alabama as a negro coed touched off riots a year ago, has announced she will try to enroll in the University of Texas.

The announcement made by her husband yesterday apparently ended the chance that she will contest a federal court decision upholding the University of Alabama's right to expel her.

Mrs. Foster, then 26 and unmarried, was expelled for her charge, later withdrawn, that university officials conspired to instigate the riots in order to have an excuse for ordering her from the campus.

Federal Judge Hobart Grooms, who had ordered her admission as the university's first negro student in February, 1956, last August upheld the right of the university to expel a student for "just "cause."

Mrs. Foster has been living in Tyler, Texas, since her marriage last April to the Rev. H. L. Foster.

A University of Texas spokesman said her acceptance will depend on "the facts." The university first opened its doors to negroes last fall and about 90 were admitted.

Political Revolt Hits Israel

Jerusalem, Israel—Premier David Ben-Gurion goes before Parliament today for a showdown on his decision to withdraw Israeli troops from Egypt. He faced political revolt and the threat of violence by the opposition Herut (freedom) party.

The possibility Ben-Gurion's government would fall on today's vote of confidence was eased when reliable sources said he had convinced his leftist rebels to vote for the government despite their violent opposition to Israeli withdrawal.

Ben-Gurion was quoted as telling the political leaders that if the Egyptians returned to the Gaza strip. "We have it in our power to send them back into their territory in one day."

Supporters of the Herut party announced they would march on Parliament after a mass rally in a public square near the building. Supporters of Ben-Gurion's Mapai (labor) party rallied their members to block the Herut march.

Truman Men Seek New Trial

St. Louis, Mo.—Two Truman administration officials convicted of conspiracy to defraud the government sought a new trial today on the ground that Trial Judge Rubey M. Hulen was not in proper mental and physical condition to hear the case.

The motions, by attorneys for Matthew J. Connelly and T. Lamar Caudle, were filed at the close of Federal District Court here yesterday. The defendants were scheduled for sentencing today.

Spring Football To Begin

K-State's spring football drills, bers try out this spring." will begin Friday, Coach Bus Mertes announced.

Spring football was originally schdeuled to open next Monday, Mertes said. but the new date was picked to insure the drill's completion by April 6 when the K-State varsity will tangle with an alumni team.

Mertes has issued a special invitation to all men at K-State to take part in the drills. "We don't want to overlook anyone," he said. "So we would like to have all prospective squad mem-

Candidates should check out their gear this week and be ready to work out at 3:30 p.m., Friday,

K-State is particularly thin at the tackle and center positions, the coach said. Only two lettermen tackles and one center letter winner will participate in the work-

What you should know about **International Business Machines** Corporation

A world-recognized leader and pioneer in the fastest-growing and perhaps the one "unlimited" field in electronics today: digital computer development, manufacture and sales. Builder of the world's largest computer.

IBM leadership is based on a 42year record of steady achievement and growth, with sales doubling on an average of every five years in the past 25. Serves all industry, plus government and education.

IBM's excellent salary and employee benefit program is instrumental in achieving an employee turnover of less than one-sixth the national average.

Advancement is based solely on individual merit. Rapid growth creates positions of responsibility.

IBM Laboratories and manufacturing facilities are located in: Poughkeepsie, Endicott, Owego, and Kingston, N. Y., San Jose, California, Lexington, Ky., and Rochester, Minn. Sales and service offices in 190 principal cities throughout the U.S.
